IWAS → MyISBE Listening Tour

Join ISBE's Chief Information Officer Edobor Efam to give your feedback on the ISBE Web Application Security (IWAS), as the agency plans a refresh of the portal to enhance its features and make it easier to navigate and more user-friendly. We want to hear from school and district administrators, regional superintendents, and other users of IWAS about your pain points, concerns, and ideas.

We're also giving IWAS a new name: MyISBE! With MyISBE, the days of multiple accounts, static data, and unverified account information are over. MyISBE will provide real-time data and dashboards multi-factor authentication, and single sign-on.

All events 1-3 p.m. Please RSVP at isbe.eventbrite.com or scan the code!
