***Growth: Linear Regression (50%)**

Illinois recognizes an emphasis on student growth as a primary driver to close equity gaps. As a result, student growth will represent 50 percent of the accountability framework for Illinois. In addition, IBSE will provide each school with a growth designation on the Illinois Report Card beginning in the 2019-2020 school year. This designation will provide parents, caregivers, and community members additional information on the interrelationship between growth and attainment, as well as highlight those schools that have made substantial gains in growth. There will be an annual comparison of like schools' and all schools' growth to proficiency. In both cases, the assigned grade for growth will use an A-F scale. The different levels for the growth designation will be assigned based on each school's performance relative to all comparable schools. The Technical Advisory Council will assign designations using either quintiles or normal curve distribution.
