

Kindergarten Individual Development Survey (KIDS)

Step 1 – Enroll All Kindergarten Students

All kindergarten students must be enrolled before data can be transmitted to KIDStech.

- Create KIDStech account.
- **Step 1 – Enroll all kindergarten students.**
- Step 2 – Create Teacher Course assignments.
- Step 3 – Create Student Course assignments.
- Step 4 – Verify kindergarten class roster.
- Step 5 – Transmit data to KIDStech.

Note: If home language is not “English” (“000” via Batch) when a student is enrolled, four additional questions will ultimately be triggered within the KIDS application.

Step 2 – Create Teacher Course Assignments

Teacher Course assignments must be created.

- Create KIDStech account.
- Step 1 – Enroll all kindergarten students.
- **Step 2 – Create Teacher Course assignments.**
- Step 3 – Create Student Course assignments.
- Step 4 – Verify kindergarten class roster.
- Step 5 – Transmit data to KIDStech.

Step 2 – Create Teacher Course Assignments

To create the necessary links between Teacher Course assignments and Student Course assignments, the following data areas must be an exact match:

- **Student Serving RCDTS must match the Teaching Location RCDTS**
- **School Year**
- **State Course Code**
- **Term**
- **Section Number**

The Section Number is particularly important to double-check due to the flexibility required for this field.

This is very important for data quality. We want to ensure that the appropriate teacher matches to the correct students.

Step 2 – Create Teacher Course Assignments

- KIDStech only tracks one teacher for any kindergarten student.
- If a student has more than one teacher, the KIDS teacher can be chosen based on the table below. Use the highest “priority” course the student is taking.

Priority	Course Code	State Course Title
1	01028A000	Language Arts (kindergarten)
2	01040A000	Reading (kindergarten)
3	01130A000	Writing (kindergarten)
4	02030A000	Mathematics (kindergarten)
5	23003A000	Kindergarten
6	03230A000	Science (kindergarten)
7	04430A000	Social Studies (kindergarten)
8	05030A000	Dance (kindergarten)
9	05070A000	Drama (kindergarten)
10	05130A000	Music (kindergarten)
11	05180A000	Art (kindergarten)
12	08030A000	Physical Education (kindergarten)

Step 3 – Create Student Course Assignments

Student Course assignments must be created and must match corresponding Teacher Course assignments.

- Create KIDStech accounts.
- Step 1 – Enroll all kindergarten students.
- Step 2 – Create Teacher Course assignments.
- **Step 3 – Create Student Course assignments.**
- Step 4 – Verify kindergarten class roster.
- Step 5 – Transmit data to KIDStech.

Step 3 – Create Student Course Assignments

<p><u>Student Information</u> Student ID SAP ID Student Last Name Student First Name Birth Date Home RCDTS</p>	<p><u>Teacher Information</u> IEIN Local Teacher ID Teacher Last Name Teacher First Name Teacher Birth Date Employer RCDTS</p>

These five elements link a Teacher Course assignment to a Student Course assignment:

- Student Serving RCDTS must match Teaching Location RCDTS
- School Year
- State Course Code
- Term (Semester)
- Section Number
