

Official SAT® Practice on Khan Academy

Free and Personalized for Every Student

The SAT® is the only college entrance exam that comes with a free, highly personalized practice plan and supporting practice tools for all students geared specifically toward their test date. Students who sign up for Official SAT Practice on Khan Academy® have access to a practice plan built just for them. When they link their College Board and Khan Academy accounts, students receive a personalized study plan based on their results on tests like the PSAT™ 10 so they can focus on the skills they need to work on most. Students also have access to:

- Thousands of practice questions with instant feedback
- Video lessons that explain problems step by step
- 8 full-length practice tests
- Strategies for studying and test taking

Educators can use Official SAT Practice coaching tools to view practice and progress for entire classes and individual students, making it easier than ever to support students preparing for the SAT and for college.

The Results Are In: Official SAT Practice Pays Off

Millions of students are already using Official SAT Practice. On average, students who used Official SAT Practice for 6+ hours and demonstrated at least one best practice behavior scored an additional 39 points higher on the SAT than students who did not use Official SAT Practice. Best practice behaviors include following practice recommendations, taking a full-length practice test, and leveling up skills.

“Official SAT Practice allows students to be better prepared for a PSAT-related assessment or the SAT. The fact that it is free makes it accessible for all students.”

DOUG STANSFORD, ASSISTANT PRINCIPAL
DIXON HIGH SCHOOL

Official SAT Practice on Khan Academy® is the best way for students to prepare for the SAT.

Free Coaching Tools for Every Teacher

Teachers and other educators can view progress and track activity on Official SAT Practice for both their classes and individual students. Official SAT Practice coaching tools make it easy for educators to help their students prepare for the SAT and for college by providing free access to:

- Recommended SAT skills for teachers to work on with their students
- Recommended lesson plans, created by teachers for teachers, along with links to additional practice content that can be assigned based on a class or a student's needs
- Information on students' progress, including their upcoming SAT test dates, problems completed, time spent practicing, practice tests scheduled, correct answers, and practice test scores
- Weekly emails with teachers' class and student activity and progress and notifications when students link College Board and Khan Academy accounts

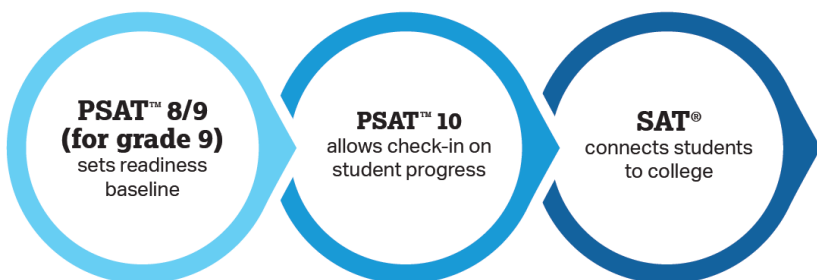

What Educators Are Saying About the Coaching Tools

"Coaches can direct students to complete the 'Recommended Practice' SAT activities. The practice skills are updated once students complete the diagnostic quizzes, an official PSAT-related assessment or SAT, or a practice test. The results from those activities will update the practice skill areas that students need to work on the most based on those results. The practice skills will continue to update as students work through them and complete timed mini-quizzes."

—JACKIE HANIK, NBCT, HUMANITIES DIVISION CHAIR, REAVIS HIGH SCHOOL

The SAT Suite of Assessments

The SAT Suite of Assessments is an integrated system of tests that measure what students are learning in class and what they need to succeed in college. In addition to free practice, the SAT Suite connects students with fee waivers and free college and career planning tools. Three SAT Suite tests—PSAT™ 8/9, PSAT 10, and SAT—assess and monitor student progress as shown below:
