

Educators and families went to incredible lengths to keep students on track throughout the COVID-19 pandemic. The next few years will be critically important to helping students reach their fullest potential.

To ensure teachers and families have the tools and information they need to support each student's growth, the Illinois State Board of Education is providing school districts with three, free interim assessments during the 2021-22 school year – one in the fall, one in the winter, and the final one in the spring. Interim assessments do not factor into a child's grades, class placement, or academic standing. They do not impact accountability or teacher evaluations.

These assessments allow teachers to **pinpoint knowledge gaps** and **immediately adjust instruction and support to match students' needs.**

Benefits of the Learning Renewal Interim Assessments

Immediate, individualized, diagnostic information

45 minutes for each content area

Data to adjust instruction and individualized supports for students

Personalized to match the scope and sequence of local curriculum

Administered three times per year so teachers and families can see students' growth

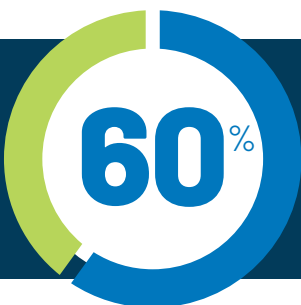

Computer-adaptive to measure each students' mastery of standards

Fundamental best practice to learning recovery

No cost to school districts or families

of Illinois school districts already administer interim assessments. The Learning Renewal Interim Assessments are free to all other districts to close the gap in equity and access to this important data.
