

Good afternoon,

Happy New Year and I hope this message finds you well. Apologies for the late Friday afternoon email, but please find two documents for your review attached.

- The first document is an update regarding the extension timeline.
- The second attachment is a technical assistance document for cooperatives and their member districts in preparation of the IDEA allocation procedural change. The document addresses existing regulations/requirements (Articles of Joint Agreements and other intergovernmental agreements, single audits, etc.) and the IDEA allocation procedural change. Please review and share with cooperative and member district staff who work with the IDEA grants. This document will be posted in the Announcements section of the IDEA grant webpage, with other IDEA grant related listserv announcements (<https://www.isbe.net/Pages/IDEA-Part-B-Grant-Program-Information.aspx>).

I appreciate your continued dialogue and partnership. Have a nice weekend.

Heather
