

# My Data Dashboard

My Data Dashboard, launched as a replacement to Ed360 in 2022 and accessible via MyIRC, provides Illinois district administrators with new views of their Report Card data. ISBE continues to add additional metrics, visualizations, and tools that allow for data-driven programmatic decision-making and a deeper understanding of how data can be used for student and school improvement initiatives and analysis. ISBE makes biannual updates and improvements to the tool to provide a continually improved system for users.

## My Data Dashboard Features:

- Inclusion of new metrics visualization that allows users the ability to use and understand data reported publicly at a more detailed level.
- Ability to see data via cohort, trend, and snapshot data as well as a detailed filterable roster, allowing users to analyze and dissect data at a nuanced level.
- Additional historical data and ability to see data at all performance levels.
- Ability to sort and filter by proficiency level at the student level.

## Summative Designation Visualization Released in July 2024

- The summative designation visualizations are based on the school's overall **school year 2022-23 data** and the **SY 2022-23 data** for each student group for all of the accountability indicators during the prior summative cycle.
- Please note: My Data Dashboard **will not display data related to the SY 2023-24 summative designation issued in October 2024** until after that designation has been published on the Report Card.
