

My Data Dashboard

ISBE launched a new tool called My Data Dashboard, accessible via MyIRC, that replaces Ed360. The goal of the updated tool is to provide detailed data related to critical performance metrics to allow for data-driven programmatic decision making. New views and visualizations support a deeper understanding of how data can be used for student and school improvement initiatives and analysis. ISBE plans to make biannual updates to the tool to provide a continually improved system for users.
