

My Data Dashboard

My Data Dashboard, launched as a replacement to Ed360 in 2022, provides Illinois district administrators new views of their data. ISBE continues to add additional metrics, visualizations, and tools that allow for data-driven programmatic decision-making and a deeper understanding of how data can be used for student and school improvement initiatives and analysis. The intention is to make biannual updates and improvements to the tool to provide a continually improved system for users.
