

List of Known Vendors in School Nutrition Programs

The Illinois State Board of Education Nutrition Department (ISBE), at this time, does not approve vendors nor have a formal registration process in the [School Nutrition Programs](#).

To become a vendor in Illinois, the company will need to comply with the State of Illinois Secretary of State and the Department of Public Health to ensure the business has the appropriate licensing.

The company will also need to ensure it can comply with the rules and regulations set forth in the federally funded Child Nutrition Programs. Please visit our [website](#) for information on the Child Nutrition Programs.

Once the company has met the requirements above, they can notify ISBE that they would like to be included on their list of known vendors and may be contacted in their future solicitations for meal services. The company cannot engage in any further “selling” of their services (including consultation, phone calls, presentations at school boards, etc.) directly to Child Nutrition Program participants as there are state and federal procurement regulations that prohibit that.

ISBE also maintains this list of potential known vendors to aide our School Food Authorities (SFA) in their solicitation process. The list is not all inclusive and each SFA has a right to solicit from companies not listed within who can meet their needs while complying with all federal rules and regulations of the Child Nutrition Programs. If your company would like to be added to the list or provide a data update to send an email below with the following company's detailed contact information to nutritionprocurement@isbe.net.

- Company Name:
- Parent Company (if applicable):
- Contact Person(s) (two maximum):
- Company Address:
- Company Email(s) (two maximum):
- Company Phone number(s) (two maximum):
- Company Website:
