July 2025

My Data Dashboard Features:

- Detailed deconstruction of Summative Designations.
- Structured walk-through summaries of calculations for IRC reported data using real local data instead of mock example data.
- Data views based on snapshot (annual entity level data like reported on the IRC), trend, and cohort (based on 1st grade entry cohort and/or 9th grade cohort depending on the metric).
- Historical data sets (where available) supporting your analyses over time.
- Complete student rosters with the capacity to index and filter by performance-based (i.e., proficiency) and descriptive (i.e., gender or IEP status) factors.
