Illinois Assessment of Readiness (IAR) Spring 2022 OnDemand Reports and Summative Data files are now available in PearsonAccess^next to those users with the roles of District or School Test Coordinator or with the Report Access role.

OnDemand Reports

An OnDemand Report (ODR) score is provided for each student record that received a valid score. A score is considered valid if the record has met the rules for attemptedness and has not been voided.

To access these reports/files:
1. Log into PearsonAccess^next.
2. Confirm the correct administration Illinois > 2021-2022 > IAR Spring 2022.
3. Go to Reports>OnDemand Reports.
4. On the left side of the screen you may filter by Test Name, Subject Name, Grade, or Performance Level. You may also search for specific students.

Student information can be downloaded using the Print icon on the right of the ODR screen. Student lists can be downloaded for selected students as a PDF, csv, or Excel file. The Student Detail option can be used to print individual student report PDFs. Note: There is a 350-record limit on the number of Student Detail PDFs you can print at a time. You may need to use the filters to narrow down the number of students printing if over this limit.

See additional OnDemand Report guidance.

District and School Summative Data Files

New for spring 2022, users can access a data file that contains all students registered and assigned a test in PearsonAccess^next for the IAR spring 2022 administration. The District Summative file contains students for all schools in a district. The School Summative file contains all students at that school. Records that have met attemptedness and are not voided will have scale scores and performance level information in the file.

To access these files:
1. Log into PearsonAccess^next.
2. Confirm the correct administration Illinois > 2021-2022 > IAR Spring 2022.
3. Go to Reports>Published Reports.
4. On the left side of the screen you may need to remove a district filter to see the School Summative files.
5. Files can be downloaded by double-clicking on the file link or checking the box(es) to the left of the file name, then selecting blue download button on the upper right of the screen.

District and School Summative files are zipped files in csv format.

See the Summative Field Definition Guide.

If you need further information or have questions, please contact Pearson's Illinois Customer Support Center, which is open from 6 a.m. to 6:30 p.m. Monday through Friday, at 1-833-213-3879.
