Section 1.10 Public School Accountability Framework

a) Section 27-1 of the School Code [105 ILCS 5/27-1] establishes the primary purpose of schooling as the transmission of knowledge and culture in certain fundamental learning areas and requires the State Board of Education to define the knowledge and skills which the State expects students to master. These "State Goals for Learning" are set forth in Appendix D to this Part and amplified by the "Illinois Learning Standards", also set forth in that Appendix D. Further, Section 2-3.25 of the School Code [105 ILCS 5/2-3.25] requires that the State Board of Education establish general operational recognition standards for public schools, and Section 2-3.25a of the School Code [105 ILCS 5/2-3.25a] requires that the Board develop recognition standards for student performance and school improvement.

b) Each school district shall ensure that each school makes available to all students instruction in the six fundamental learning areas, i.e., the language arts, mathematics, the biological and physical sciences, the social sciences, the fine arts, and physical development and health.

(Source: Amended at 31 Ill. Reg. 5116, effective March 16, 2007)
Section 1.20 Operational Requirements

a) Districts' and schools' recognition status is based upon compliance with the requirements imposed by law, including but not limited to the recognition standards established by the State Board of Education pursuant to Section 2-3.25 of the School Code and this Part, as modified or waived, if applicable, pursuant to Section 2-3.25g of the School Code and Section 1.100 of this Part or Section 22-60 of the School Code and Section 1.110 of this Part.

1) No later than September 30 of each year, each school district shall apply for recognition of each school operated by the district. This application shall be submitted to the respective regional superintendent of schools through an electronic submission process established by the State Superintendent of Education, except that a district operated pursuant to Article 34 of the School Code [105 ILCS 5/Art. 34] shall submit its application directly to the State Superintendent. For the purposes of this Part, references to "regional superintendent of schools" shall be understood to include the chief administrator of the Intermediate Service Centers established in that portion of Cook County located outside of the City of Chicago. (See 105 ILCS 5/3-0.01.)

2) No later than October 15 of each year, each regional superintendent of schools shall summarize, through an electronic process established by the State Superintendent of Education, the degree to which the schools in the districts for which he or she is responsible adhere to operational compliance requirements. The regional superintendent shall recommend the assignment of recognition status as applicable considering the compliance-related information supplied.

3) As part of this process, the regional superintendent of schools shall periodically visit the region's school districts as he or she may deem necessary to ascertain the degree to which the districts' schools comply with operational requirements.

b) Based upon the information provided by the district and the regional superintendent, the State Superintendent shall assign a recognition status for each school and for each district as a whole, which will be posted on the Illinois State Board of Education's website at http://www.isbe.net/recognition/default.htm. In each case, the recognition status assigned shall be either "Fully Recognized", "On Probation", "Recognized Pending Further Review", or "Nonrecognized".

1) Each school or district that meets the requirements imposed by law, including the requirements established by the State Board pursuant to
Section 2-3.25 of the School Code and this Part, shall be fully recognized.

2) A school or district shall be placed on probation if it:
   A) exhibits deficiencies that present a health hazard or a danger to students or staff;
   B) fails to offer required coursework;
   C) employs personnel who lack the required qualifications and who are not in the process of attaining these qualifications;
   D) fails or refuses to serve students according to relevant legal and/or regulatory requirements; and/or
   E) prolongs or repeats instances of noncompliance to a degree that indicates an intention not to comply with relevant requirements.

3) A school or district shall be recognized pending further review if it exhibits areas of noncompliance that:
   A) are not serious enough to warrant probation as delineated in subsection (b)(2); and
   B) may be corrected prior to the end of the school year following the school year in which they were identified.

4) A district shall be recognized pending further review whenever one or more of the district's schools are first removed from full recognition, whether recognized pending further review or placed on probation. The district shall subsequently be placed on probation if the instances of noncompliance cited for one or more schools have not been corrected within the time allowed under subsection (b)(3)(B).

c) The recognition status of a district or a school may be changed by the State Board of Education at any time to reflect information confirmed during compliance monitoring or by any other means. Any change in status that may occur during the subsequent school year will be posted in accordance with subsection (b) no later than 30 days after the change in status is determined.

d) The superintendent of a district that is recognized pending further review or in which one or more schools are recognized pending further review may, within 30
days after receipt of notification to this effect, request a conference at which representatives of the district will have an opportunity to discuss compliance issues with representatives of the State Board of Education.

e) The State Superintendent shall schedule a conference with the superintendent of a district that is placed on probation, or in which one or more schools are placed on probation, at which representatives of the district will discuss compliance issues with representatives of the State Board of Education. Within 60 days following this conference, the school district shall submit to the regional superintendent of schools and the State Superintendent of Education a corrective plan that conforms to the requirements of subsection (f).

1) If the plan is required to relate to areas of noncompliance at the district level, the plan shall be signed by the secretary of the local board of education as evidence that the board adopted a resolution authorizing its submission.

2) If the plan is required to relate to areas of noncompliance at one or more schools, the plan shall be signed by the district superintendent and each affected principal.

f) The State Superintendent of Education shall respond to the submission of a plan within 15 days after receiving it and may consult with the regional superintendent of schools to determine the appropriateness of the actions proposed by the district to correct the cited deficiencies. The State Superintendent shall approve a plan if it:

1) specifies steps to be taken by the district that are directly related to the area or areas of noncompliance cited;

2) provides evidence that the district has the resources and the ability to take the steps described without giving rise to other issues of compliance that would lead to probationary status; and

3) specifies a timeline for correction of the cited deficiencies that is demonstrably linked to the factors leading to noncompliance and is no longer than needed to correct the identified problems.

g) If a district's plan is not approvable under subsection (f), the State Superintendent shall notify the district to this effect. If no plan is submitted, or if no approvable plan is received within 60 days after the district's conference with the State Board, the status of the district, or of the affected school or schools, as applicable, shall be changed to "nonrecognized".
h) If, at any time while a plan for corrective action is in effect, the State Superintendent determines that the agreed-upon actions are not being implemented in accordance with the plan or the underlying areas of noncompliance are not being remedied, the status of the district, or of the affected school or schools, as applicable, shall be changed to "nonrecognized".

i) The superintendent of a district that is nonrecognized pursuant to this Section, or in which one or more schools are nonrecognized pursuant to this Section, may request a conference with representatives of the State Board of Education within 15 days after receipt of notification to this effect. (See Section 1.95 of this Part for procedures related to nonrecognition pursuant to Section 2-3.25f of the School Code [105 ILCS 5/2-3.25f].)

1) If a conference is requested by a superintendent on behalf of a nonrecognized school or district and the areas of concern are not resolved, the State Superintendent shall furnish the school board with a Notice of Opportunity for Hearing. The school board may submit an appeal by adopted board resolution within 15 days after receipt of the notice. The appeal must identify the specific findings with which the district disagrees. The district will be given a hearing in accordance with the State Board's rules for Contested Cases and Other Formal Hearings (23 Ill. Adm. Code 475). A final decision shall be rendered by the State Board of Education.

2) If no conference is requested, the district shall be deemed not to intend to appeal the nonrecognition.

j) Neither a district nor a school shall be nonrecognized under this Section without first having been placed on probation. A district that is nonrecognized, or in which one or more schools are nonrecognized, shall be subject to the provisions of Section 18-8.05(A)(3)(a) of the School Code [105 ILCS 5/18-8.05(A)(3)(a)].

Section 1.30 State Assessment

The State Superintendent of Education shall develop and administer assessment instruments and other procedures in accordance with Section 2-3.64a-5 of the School Code [105 ILCS 5]. In addition, school districts shall collaborate with the State Superintendent in the design and implementation of special studies.

a) Development and Participation

1) Assessment instruments and procedures shall meet generally accepted standards of validity and reliability as stated in "Standards for Educational and Psychological Testing" (2014), published by the American Educational Research Association, 1430 K St., N.W., Suite 1200, Washington, D.C. 20005. (No later amendments to or editions of these standards are incorporated.)

2) Districts shall participate in special studies, tryouts, and/or pilot testing of these assessment procedures and instruments when one or more schools in the district are selected to do so by the State Superintendent.

3) A school shall generally be selected for participation in these special studies, tryouts and/or pilot testing no more than once every four years, except that participation may be required more frequently as needed to ensure sufficient sample size for validity.

4) All pupils enrolled in a public or State-operated elementary school, secondary school, or cooperative or joint agreement with a governing body or board of control, a charter school operating in compliance with the Charter Schools Law [105 ILCS 5/Art. 27A], a school operated by a regional office of education under Section 13A-3 of the School Code [105 ILCS 5/13A-3], or a public school administered by a local public agency or the Department of Human Services and students receiving scholarships to attend nonpublic schools under the Invest in Kids Act [35 ILCS 40] shall be required to participate in the State's accountability assessments, whether by taking the regular assessment, with or without accommodations, or by participating in the State's approved alternate assessment (Sections 2-3.25a and 2-3.64 of the School Code).

Assessments in English/language arts and mathematics are administered annually in grades 3 through 11, and, for science, in grades 5, 8 and at least once in high school.

A) Students who are served in any locked facility that has a State-assigned region/county/district/type/school (RCDTS) code, and
students beyond the age of compulsory attendance whose programs do not culminate in the issuance of regular high school diplomas are not required to participate in the State's accountability assessment. Students with an IEP who receive an alternate diploma are required to participate in the State's accountability assessment during years of compulsory attendance. These students can be exempted only after participating in the State's final accountability assessment.

B) It is the responsibility of each district or other affected entity (e.g., nonpublic school or special education cooperative) to ensure that all students required to participate in the State's accountability assessment do so. (See also Section 1.50.)

5) Each district or other affected entity shall ensure the availability of reasonable accommodations for participation in the State's accountability assessment by students with disabilities, as reflected in those students' IEPs, ISPs, or plans developed under Section 504 of the Rehabilitation Act of 1973 (29 USC 794), or limited English proficiency.

b) Assessment Procedures

1) All assessment procedures and practices shall be based on fair testing practice, as described in "Code of Fair Testing Practices in Education" (2004), published by the Joint Committee on Testing Practices of the American Educational Research Association, American Psychological Association, and National Council on Measurement in Education, 750 First Avenue, N.E., Washington D.C. 20002-4242. (No later amendments to or editions of this code are incorporated.)

2) Districts and other affected entities shall protect the security and confidentiality of all assessment questions and other materials that are considered part of the State's accountability assessments, including but not necessarily limited to test items, reading passages, charts, graphs, and tables.

3) Districts shall promptly report to the State Superintendent all complaints received by the district of testing irregularities. A district shall fully investigate the validity of any complaint and shall report to the State Superintendent the results of its investigation.

4) Districts shall administer the State's final accountability assessment or its approved alternate assessment, if applicable under subsection (d), to
students in grade 11. (See Section 2-3.64 of the School Code.) For the purpose of this subsection (b)(4), "grade 11" means the point in time when a student has earned the number of credits necessary for enrollment in grade 11, as determined by his or her school district in accordance with Sections 1.420(b) and 1.440.

5) Districts shall ensure that students who have not taken the State's final accountability assessment at the highest grade or level assessed shall not receive a regular high school diploma. In accordance with Section 2-3.64a-5 of the School Code, districts, with approval from the State Board of Education, may issue a regular high school diploma to a student who has not met this requirement.

6) To request approval to graduate a student who has not taken the State's final accountability assessment, the school must submit to the State Board:

A) Explanation of why the student was not able to be assessed on the State's final approved accountability assessment in either grade 11 or 12, or in the commensurate final stage of a competency-based program.

B) Justification that granting the exemption does not represent systemic exclusion from accountability based on gender, race, disability, English Learner status, income or other demographic factors.

7) Schools within a district that exercise this exemption for less than 1 percent of the graduating cohort of that school year (i.e., all students receiving a regular diploma from that school within a single school year) will have these exemption requests approved without requiring additional evidence.

8) Schools within a district that exercise this exemption for more than 1 percent of the graduating cohort of that school year will be asked to submit additional evidence in support of subsection (b)(6)(B) and may receive additional support, monitoring or audits.

c) Accommodations
Students who have been identified at the local level as having limited proficiency in English as provided in 23 Ill. Adm. Code 228.15 (Identification of Eligible Students), including students not enrolled in programs of bilingual education, may participate in an accommodated setting for the State's accountability assessment, subject to the limitations set forth in Section 2-3.64 of the School Code. A
student with limited proficiency in English shall be afforded extra time for completion of the State's accountability assessment when, in the judgment of the student's teacher, extra time is necessary in order for the student's performance to reflect his or her level of achievement more accurately, provided that each test must be completed in one session. See also Section 1.60(b) of this Part.

d) Illinois Alternate Assessment
The 1 percent of students with the most significant cognitive disabilities whose IEPs identify the State's regular accountability assessment as inappropriate for them even with accommodations shall participate in the State's approved alternative accountability assessment, based on achievement standards aligned to the Illinois Learning Standards, for all subjects tested. (See also Section 1.60(c).)

e) Review and Verification of Information
Each school district, charter school and nonpublic school participating in the Invest in Kids Act shall have an opportunity to review and, if necessary, correct the preliminary data generated from the administration of the State's accountability assessment, including information about the participating students as well as the scores achieved.

1) Within 10 business days after the preliminary data from the accountability assessments is made available, each district or charter school shall make any necessary corrections to its data and then use a means prescribed by the State Board to indicate either:

A) that both its demographic and preliminary data are correct; or

B) that it is requesting rescoring of some or all portions of the assessment for specific students, if available.

2) When districts request rescoring, staff of the State Board and/or its contractor shall have an additional period of 21 days within which to work with the affected district or charter school to make any resulting corrections.

3) At the end of the 21-day period discussed in subsection (e)(2), all districts' and charter schools' data shall stand as the basis for the applicable school report cards and determination of status. Any inaccuracies that are believed to persist at that time shall be subject to the appeal procedure set forth in Section 1.95.

f) Reports of the State's Accountability Assessment Results
1) Following verification of the data under subsection (e), the State Board shall send each school and district a report containing final information from the results of each administration of the State's accountability assessment.

A) The scores of students who are served by cooperatives or joint agreements, in Alternative Learning Opportunities Programs established under Article 13B of the School Code, by regional offices of education under Section 13A-3 of the School Code, by local agencies, or in schools operated by the Department of Human Services, scores of students who are served in any other program or school not operated by a school district and who are scheduled to receive regular high school diplomas, all scores of students who are youth in care of the State, and all scores of students who have IEPs, shall be reported to the students' respective districts of residence and to the schools within those districts that they would otherwise attend.

B) The scores of students enrolled in charter schools shall be reported to the chief administrator of the charter school and to any school district serving as a chartering entity for the charter school.

C) The scores of students who were enrolled in nonpublic schools through the Invest in Kids Act scholarship program shall be reported to the students' nonpublic schools of record.

2) Each report shall include, as applicable to the receiving entity:

A) results for each student to whom the State assessment was administered (excluding any scores deemed by the State Board to be invalid due to testing irregularities); and

B) summary data for the school and/or district and the State, including but not limited to raw scores, scale scores, comparison scores, including national comparisons when available, and distributions of students' scores among the applicable proficiency classifications (see subsection (h)).

g) Each school district and each charter school shall receive notification from the State Board of Education as to the status of each affected school with respect to accountability as reflected in the final data.

h) Classification of Scores
Each score achieved by a student on the State's regular or alternate accountability assessment shall be classified among a set of performance levels, as reflected in score ranges that the State Board shall disseminate at the time of testing, for the purpose of identifying scores that "demonstrate proficiency".

1) Each score achieved by a student on a regular State assessment shall be classified among categories such as "did not yet meet", "partially meets", "approaching", "meets standards", or "exceeds standards". Among these scores, those identified as either meeting or exceeding standards shall be considered as demonstrating proficiency.

2) Each score achieved by a student on the State's approved alternate accountability assessment shall be classified among categories such as "emerging", "approaching", "at target", or "advanced". Among these scores, those identified as "at target" or "advanced" shall be considered as demonstrating proficiency.

i) Scores Relevant to Accountability
For purposes of determining a school's annual summative accountability rating, scores achieved and measures of growth calculated from those scores on the State's accountability assessment in reading or mathematics from students who attended the "same school within a local educational agency for at least half of a school year" (see section 1111(c)(4)(F)(i) of the Elementary and Secondary Education Act (20 USC 6301 et seq.)), shall be "relevant scores". For schools without grades higher than 2 and 3 (that is, for schools where the State's accountability assessment is not administered, and administered such that student growth can be calculated for attending students), the "relevant scores" used to determine the annual summative accountability rating shall be current year data of students who were enrolled at the impacted school in the nearest year to have current applicable assessment data (i.e., a kindergarten-grade 3 school would map its 2016 grade 3 enrollments to use those students' 2017 grade 4 growth scores; a prekindergarten-grade 2 school would map its 2016 grade 2 enrollments to use those students' 2017 grade 3 English language arts and math proficiency scores, and would map its 2015 grade 2 enrollments to use those students' 2017 growth scores).

(Source: Amended at 43 Ill. Reg. 10718, effective September 11, 2019)
Section 1.40 Adequate Yearly Progress

School districts and individual schools shall be required to make “adequate yearly progress” in order to maintain academic standing that will avoid their placement into academic early warning or academic watch status as set forth in Section 1.80 of this Part. In order to make adequate yearly progress for a particular school year, an affected entity shall be required to attain at least the required percentage of scores demonstrating proficiency in both reading and mathematics, for each of the subgroups of students served by that entity and for the entity as a whole, based on a participation rate in the required assessments of at least 95 percent for each subgroup and for the entity as a whole, as well as attaining the targeted rate for the additional indicator that is applicable to that entity, for each subgroup served and for the entity as a whole. See Sections 1.50, 1.60, and 1.70 of this Part. However, special provisions shall apply to the calculation of adequate yearly progress for school districts that serve students at more than one grade span (i.e., elementary school (Grades 3-5), middle school (Grades 6-8), and high school (Grades 9-12)). Such a district shall fail to make adequate yearly progress only if data for each of the grade spans served indicate that one or more applicable targets were not met by the students at that grade span.

(Source: Section repealed at 22 Ill. Reg. 22233, effective December 8, 1998; new Section adopted at 29 Ill. Reg. 19891, effective November 23, 2005)
Section 1.50 Calculation of Participation Rate

a) A school's accountability score for a particular year is generally contingent upon participation in the State's accountability assessment by at least 95 percent of the district's or the school's students, both in the aggregate and within each subgroup represented.

b) Students who, at the time of administration of the State's accountability assessment, are participating in residential programs that provide psychological treatment or treatment for drug or alcohol abuse, are jailed or in a locked-down facility, are residing in or attending facilities out of state or out of country, or are hospitalized because of medical emergencies or procedures shall not be required to participate in the State's accountability assessment. For students who are homebound, districts shall examine the circumstances of each case individually to determine whether administration of the State's accountability assessment is feasible and appropriate. A student not tested pursuant to this subsection (b) may be excluded from the enrollment counts of the affected schools and districts for purposes of calculating accountability ratings.

(Source: Amended at 43 Ill. Reg. 10718, effective September 11, 2019)
Section 1.60 Subgroups of Students; Inclusion of Relevant Scores

A student's scores shall count among those for his or her school or district, as applicable, for a given year only if he or she was enrolled continuously in the district on or before May 1 of the previous academic year through State testing the following spring. Students who feed into another school within the same district during the summer based upon the district's progression of students among attendance centers based on grade level shall have their scores counted for the school and district. Any student who is continuously enrolled within the district but, for reasons not mandated by the district, changes to a new school within the district after May 1 will be counted at the district level but not at the school level. Nothing in this Section is intended to exempt a student from the requirement for participation in the State assessment, except as provided in subsection (b)(1) of this Section.

a) Relevant scores shall be disaggregated by content area for any subgroup identified in this subsection (a) whose membership meets the minimum subgroup size. For purposes of this Section 1.60, "minimum subgroup size" shall mean 45 students across all the grades tested in the school or district, as applicable. Except as provided in subsection (b) of this Section, each student's scores shall be counted in each of the subgroups to which he or she belongs.

1) Students with disabilities, i.e., students who have Individualized Education Programs (IEPs);

2) For school years through 2009-10, racial/ethnic groups:
   A) White,
   B) Black,
   C) Hispanic,
   D) American Indian or Alaskan Native,
   E) Asian/Pacific Islander,
   F) Multiracial/ethnic;

3) For school year 2010-11 and beyond, racial/ethnic groups:
   A) Hispanic or Latino of any race,
   B) For students who are not Hispanic or Latino:
i) American Indian or Alaska Native,

ii) Asian,

iii) Black or African American,

iv) Native Hawaiian or Other Pacific Islander,

v) White,

vi) Two or more races;

4) Students who have been identified at the local level as having limited proficiency in English as provided in 23 Ill. Adm. Code 228.15; and/or

5) Students who are eligible for free or reduced-price meals under the Child Nutrition Act of 1966 (42 USC 1771 et seq.) or the National School Lunch Act (42 USC 1751 et seq.).

b) Special provisions shall apply to the treatment of scores achieved by students of limited English proficiency in certain circumstances.

1) An Illinois student who is in his or her first year of enrollment in school in the United States and who is identified as having limited proficiency in English may elect to participate in the State assessment in reading. Any student who elects not to participate shall nevertheless be treated as having participated for purposes of calculating the participation rate.

2) The score achieved by a student who elects to participate in the regular State assessment in reading under subsection (b)(1) of this Section shall be counted for purposes of calculating the participation rate but not for purposes of calculating performance.

3) An Illinois student who is in his or her first year of enrollment in school in the United States and who is identified as having limited proficiency in English shall be required to participate in the State assessment in mathematics. The score achieved by such a student shall be counted for purposes of calculating the participation rate but not for purposes of calculating performance.

4) A student who has previously been identified as having limited proficiency in English and whose scores have been attributed to that subgroup shall continue to have his or her scores attributed to that
subgroup for the first two years after the last year when he or she was considered to have limited English proficiency. However, districts and schools shall not be required to count students to whom this subsection (b)(4) applies as part of the subgroup with limited English proficiency for purposes of determining whether the minimum subgroup size exists.

c) All relevant scores of a district's students with disabilities who participate in the alternate form of the State assessment shall be included in the district's calculations for purposes of determining whether adequate yearly progress has been made.

1) The number of scores earned by students who participate in the alternate form of the State assessment that may be counted as demonstrating proficiency in a content area shall be no more than 1 percent of all scores achieved by the district's students in that subject. (See the regulations of the U.S. Department of Education at 34 CFR 200.6.)

2) Except as provided in subsection (c)(3) of this Section, for purposes of calculating adequate yearly progress at the district level, each score that demonstrates proficiency but is in excess of the 1 percent maximum set forth in subsection (c)(1) of this Section shall be counted as not demonstrating proficiency and shall be included as such in the calculations for each subgroup of which the student is a member.

3) A district may apply to the State Superintendent of Education for a one-year exception to the 1 percent maximum set forth in subsection (c)(1) of this Section, which may be renewed for one or more subsequent years if warranted. Using a format established by the State Superintendent, the district shall display information demonstrating that the prevalence of students for whom the alternate assessment is appropriate exceeds 1 percent of the total population. The district shall also supply a narrative explaining the disproportionate representation of these students in its population. The State Superintendent of Education shall approve a district's request for an exception if the district superintendent provides assurances that the district meets all the requirements of 34 CFR 200.6 and if the information supplied by the district demonstrates that:

A) families of students with the most significant intellectual disabilities have been attracted to live in the district by the availability of educational, health, or community services that respond to their needs; or
B) the district's student population is so small that the presence of even a small number of students with the most significant intellectual disabilities causes the district to exceed the 1 percent threshold (e.g., in a population of 50 students, one student represents 2 percent); or

C) other circumstances exist such that the overrepresentation of students with the most significant intellectual disabilities is outside the control of the district, i.e., the overrepresentation is not a result of inappropriate decision-making as to the form of the State assessment that should be used for particular students.

4) When scores that demonstrate proficiency and were achieved by students on the IAA make up more than 1 percent of a district's scores in either reading or mathematics, and the district has not received approval for an exception to the 1 percent maximum pursuant to subsection (c)(3) of this Section, the district shall be required to identify the "proficient" scores on the IAA that will be counted as not demonstrating proficiency for purposes of calculating adequate yearly progress (AYP). In making this determination, a district may choose to identify:

A) scores of students who belong to the fewest subgroups;

B) scores of students who belong to the largest subgroups;

C) scores of students who belong to the smallest subgroups;

D) scores of students who belong to the subgroups whose performance is farthest above the target applicable to the year in question; or

E) scores of students who belong to the subgroups whose performance is farthest below the target applicable to the year in question.

5) The State Superintendent of Education shall notify each district that is affected by the requirement to identify excess "proficient" scores on the IAA. The deadline set by the State Superintendent shall allow at least five business days for districts' responses. For any district that does not submit the requested information on this selection within the time allowed, the State Superintendent shall identify the scores that will be considered as not demonstrating proficiency for this purpose.
d) Targets for scores demonstrating proficiency

1) In each subject and for each subgroup of students, the percentage of scores demonstrating proficiency that is required for AYP shall increase from the original baseline of 40 percent for the 2002-03 school year according to the following schedule:

A) For 2003-04, 40 percent;
B) For 2004-05 and for 2005-06, 47.5 percent;
C) For 2006-07, 55 percent;
D) For 2007-08, 62.5 percent;
E) For 2008-09, 70 percent;
F) For 2009-10, 77.5 percent;
G) For 2010-11, 85 percent;
H) For 2011-12 and for 2012-13, 92.5 percent;
I) For 2013-14, 100 percent.

2) In order to avoid penalizing schools and districts for the decision bias that is associated with a minimum subgroup size, a 95 percent "confidence interval" shall be applied to subgroups' data. (A confidence interval is a mathematical approach designed to compensate for the unreliability of data derived from consideration of small groups.)

e) "Safe Harbor"

A school or a district in which one or more subgroups fail to achieve the required academic target for a particular year may nevertheless be considered as having made AYP for that year. Each subgroup in question must have attained the minimum subgroup size in the preceding year and, for each such subgroup, there must have been a decrease of at least ten percent in the proportion of scores that do not demonstrate proficiency in comparison to that subgroup's scores for the preceding year. In addition, if the school is a high school, the relevant subgroup's graduation rate must at least equal the target rate for that year, and, if the school is an elementary or a middle school, the relevant subgroup's attendance rate must at least equal the target rate for that year (see Section 1.70)
of this Part). This "safe harbor" method for calculating AYP shall apply only to subgroups within schools or districts; it shall not be used for the aggregate scores of a school or a district as a whole.

Section 1.70  Additional Indicators for Adequate Yearly Progress

The indicators discussed in this Section shall apply to all subgroups represented in a school or district as well as to each school or district in the aggregate.

a) The graduation rate that is required for adequate yearly progress (AYP) in high schools shall increase from the original baseline of 65 percent for the 2002-03 school year according to the following schedule:

1) For 2003-04, 66 percent;
2) For 2004-05, 67 percent;

9) For 2011-12, 84 percent;
10) For 2012-13 and for 2013-14, 85 percent.

b) The attendance rate that is required for AYP in elementary or middle schools shall increase from the original baseline of 88 percent for the 2002-03 school year according to the following schedule:

2) For 2006-07, for 2007-08, and for 2008-09, 90 percent;
3) For 2009-10, for 2010-11, and for 2011-12, 91 percent;
4) For 2012-13 and for 2013-14, 92 percent.

c) A district that includes both high schools and elementary or middle schools shall be required to reach both the targeted graduation rate among its high school
students and the targeted attendance rate among its elementary or middle school students in order to achieve AYP for any given year.

d) The "beginning cohort" for purposes of calculating the adjusted four-year and five-year extended year graduation rates, in accordance with 20 USC 6301 et seq. and 34 CFR 200.19 (2011), shall be the number of students who are entering grade 9 for the first time starting at the beginning of a given school year and continuing until October 1 of that year.

Section 1.75  Student Information System

   a) Each school district shall participate in the Student Information System (SIS) established by the State Board of Education by entering data on the students served, their characteristics, their particular needs, the programs in which they participate, and their academic achievement to the Board in a format specified by the State Superintendent and according to the timelines applicable to the system.

   b) In accordance with Section 20 of the P-20 Longitudinal Education Data System Act, any nonpublic school that is recognized under 23 Ill. Adm. Code 425 may elect to participate in the longitudinal data system by disclosing data to the State Board for one or more of the purposes of the Act. [105 ILCS 13/20]

      1) A nonpublic school wishing to participate in the SIS shall notify the State Superintendent of Education no later than the start of the school year in which participation will begin. Failure to meet the notification deadline shall delay participation until the following school year.

      2) Data submitted to the SIS shall be in a format and in accordance with timelines established by the State Superintendent.

      3) Representatives from participating nonpublic schools shall complete any training relative to the SIS that the State Superintendent may require.

Section 1.77 Educator Licensure Information System (ELIS)

Each school district shall ensure that information on the qualifications of its professional and paraprofessional staff is recorded on the electronic data system maintained by the State Board of Education so that the State Board may complete federally required reports and collect data for the school report card required by Section 10-17a of the School Code [105 ILCS 5]. (See Section 1.79 of this Part.) A district that lacks the technological capacity to participate in this electronic system shall be given an opportunity to demonstrate to the State Superintendent that this is the case, and the State Superintendent shall make available an alternative means that the district shall use in transmitting the required information. Regional Offices of Education and Intermediate Service Centers, as agents of the State Board, may access ELIS to ensure an educator is qualified to receive or hold a particular license and/or endorsement or to ensure the educator is qualified for a particular teaching assignment.

Section 1.80 Academic Early Warning and Watch Status

The movement of schools and districts that do not make adequate yearly progress (AYP) into academic early warning status and then into academic watch status shall be as specified in Section 2-3.25d of the School Code, except that the failure to make AYP for two consecutive annual calculations shall be based upon failure to attain the same applicable target, regardless of whether the same subgroup is involved in both calculations. Further, a school or district shall be removed from any “status designation” after two consecutive years’ calculations show that it has met the applicable criteria for AYP in both those years.

(Source: Amended at 31 Ill. Reg. 9897, effective June 26, 2007)
Section 1.85 School and District Improvement Plans; Restructuring Plans

Section 2-3.25d of the School Code requires each district to revise the school improvement plans of any of its schools that are placed on academic early warning or academic watch status and to revise the district’s improvement plan if it is placed on academic early warning or academic watch status. Similarly, restructuring plans are required for schools that remain on academic watch status after a fifth annual calculation. As used in this Section, “NCLB” refers to Public Law 107-110, the No Child Left Behind Act of 2001 (20 USC 6301 et seq.).

a) A revised school improvement plan shall be submitted to the local school board (and to the local school council in a district operating under Article 34 of the School Code) no later than three months after the district’s receipt of notification regarding the school’s status. During the 45-day period following its submission to the local board and prior to the board’s final approval, each plan shall undergo a peer review process designed by the district.

1) In school districts with a population of 500,000 or fewer, revised school improvement plans shall be required to cover the two school years following the assessment necessitating the plan and to:

A) incorporate strategies based on scientifically based research and an analysis of State and local assessment data and other information that will strengthen the core academic subjects in the school and address the specific academic areas in which the school’s performance has been deficient (NCLB, Section 1116(b)(3)(A)(i));

B) include information about the extent to which all students in the grade levels chosen by the district pursuant to Section 2-3.63 of the School Code are achieving in the fundamental learning areas;

C) adopt policies and practices concerning the school’s core academic subjects that have the greatest likelihood of ensuring that all subgroups enrolled in the school will meet the State’s proficient level of achievement not later than the end of the 2013-14 school year, including:

i) specific, measurable steps to be taken,

ii) a timeline for these activities, and

iii) a budget for these activities (NCLB, Section 1116(b)(3)(A)(ii));
D) include professional development activities for at least the staff providing services in the academic areas in which the school’s performance has been deficient (NCLB, Section 1116(b)(3)(A)(iii));

E) incorporate a teacher mentoring program (NCLB, Section 1116(b)(3)(A)(x));

F) establish specific annual, measurable objectives for continuous and substantial progress by each subgroup of students enrolled in the school that will ensure that all such subgroups will make adequate yearly progress and meet the State’s proficient level of achievement not later than the 2013-14 school year (NCLB, Section 1116(b)(3)(v));

G) describe how the school will provide written notice about the identification to parents of each student enrolled in each school, in a format and, to the extent practicable, in a language that the parents can understand (NCLB 1116(b)(3)(A)(vi));

H) specify the responsibilities of the school and the school board under the plan, including the internal and external technical assistance to be provided by the district, technical assistance requested of ISBE, and, if applicable, the district’s fiscal responsibilities under Section 1120A of NCLB (NCLB, Section 1116(b)(3)(A)(vii));

I) include strategies for promoting effective parental involvement in the school (NCLB, Section 1116(b)(3)(A)(viii));

J) incorporate, as appropriate, activities before school, after school, during the summer, and during any extension of the school year (NCLB, Section 1116(b)(3)(A)(ix)); and

K) include a process for monitoring progress and revising the plan as needed.

2) In school districts operating under Article 34 of the School Code, school improvement plans shall comply with the requirements set forth in Section 34-2.4 of the School Code and, if applicable, the requirements set forth in Section 1116 of NCLB.
Each newly established school shall be required to have a school improvement plan in place by the beginning of its second year of operation. School improvement plans for new schools shall conform to the requirements of subsection (a)(1) or (a)(2) of this Section, as applicable.

A new or revised district improvement plan shall be submitted to the local school board no later than three months after the district’s receipt of notification regarding its status. The district improvement plan shall be required to cover the two school years following the assessment necessitating the plan and to:

1) incorporate scientifically based research strategies that strengthen the core academic program in schools served by the district (NCLB, Section 1116(c)(7)(A)(i));

2) identify actions that have the greatest likelihood of improving the achievement of participating children in meeting the State’s student academic achievement standards (NCLB, Section 1116(c)(7)(A)(ii));

3) address the professional development needs of the instructional staff serving the district (NCLB, Section (c)(7)(A)(iii));

4) include specific measurable achievement goals and targets for each subgroup of students, consistent with adequate yearly progress (NCLB, Section 1116(c)(7)(A)(iv));

5) address the fundamental teaching and learning needs in the schools of the district and the specific academic problems of low-achieving students, including a determination of why the district’s prior plan failed to bring about increased student academic achievement (NCLB, Section 1116(c)(7)(A)(v));

6) incorporate, as appropriate, activities before school, after school, during the summer, and during any extension of the school year (NCLB, Section 1116(c)(7)(A)(vi));

7) specify any requests to ISBE for technical assistance related to the plan and the district’s fiscal responsibilities, if applicable, under Section 1120A of NCLB (NCLB, Section 1116(c)(7)(A)(vii));

8) include strategies for promoting effective parental involvement in the district’s schools (NCLB, Section 1116(c)(7)(A)(viii)); and
9) include a process for monitoring progress and revising the plan as needed.

c) For purposes of compliance with Section 2-3.25d of the School Code [105 ILCS 5/2-3.25d], the requirement for collaboration with “outside experts” in the development of revised school and district improvement plans shall be met through the involvement of a school support team as defined in NCLB, Section 1117(a)(5), or by involving one or more other individuals who would qualify as members of a school support team pursuant to that definition.

d) Each revised school or district improvement plan shall be submitted to the State Superintendent on the business day next following the date of its approval by the local board, using the electronic format made available for this purpose. The State Superintendent shall verify that each plan contains each of the elements set forth in subsection (a) or subsection (b) of this Section, as applicable.

e) Section 2-3.25d of the School Code requires the development of a restructuring plan for a school that remains on academic watch status after a fifth annual calculation. Each required restructuring plan shall be approved by the local school board no later than six months after the district’s receipt of notification regarding its status. Each school restructuring plan shall indicate that the district is undertaking one or more of the following actions in the affected school:

1) reopening the school as a public charter school, consistent with Article 27A of the School Code [105 ILCS 5/Art. 27A];

2) replacing all or most of the school staff, which may include the principal, who are relevant to the school’s inability to make adequate yearly progress;

3) entering into a contract with an entity, such as a private management company, with a demonstrated record of effectiveness, to operate the school as a public school;

4) implementing any other major restructuring of the school’s governance that makes fundamental reform in:

   A) governance and management, and/or
   B) financing and material resources, and/or
   C) staffing.
f) Failure by a school district to develop, submit, revise, or implement its school and district improvement plans or school restructuring plans as required by Section 2-3.25d of the School Code shall affect the district’s recognition status (see Section 1.20(b) of this Part).

Section 1.88 Additional Accountability Requirements for Districts Serving Students of Limited English Proficiency under Title III

This Section implements section 6842 of the Elementary and Secondary Education Act (ESEA) (20 USC 6842), which requires that states establish "Annual Measurable Achievement Objectives" (AMAOs) for educational agencies that use funds provided under Title III of the Act to serve students of limited proficiency in English and hold those entities accountable for meeting those objectives. Further, this Section implements section 6823 of ESEA (20 USC 6823), which requires states to hold local educational agencies and schools accountable for meeting all the objectives described in ESEA section 6842.

a) The three distinct AMAOs address progress, proficiency, and adequate yearly progress (AYP), respectively, in connection with students taking the annual English language proficiency assessment prescribed by the State Board of Education in 23 Ill. Adm. Code 228 (Transitional Bilingual Education). These objectives shall apply at the district or cooperative level, as applicable, i.e., based on the test scores achieved by all the students served by each entity that receives Title III funding. In order to "meet AMAOs" for any given year, a district or cooperative must achieve all of the applicable objectives described in this subsection (a).

1) "Progress" relates to the percentage of a school district's or cooperative's students who are making progress in learning English. An individual student is determined to have made progress in English when his or her composite English proficiency level, which is derived from his or her score on a given administration of the English language proficiency assessment, increased in comparison to the previous composite English proficiency level achieved by at least .5 of a proficiency level or, in the second administration of the English language proficiency assessment, the student achieved the maximum composite English proficiency level attainable on the assessment. (Also see subsection (a)(1)(E) of this Section.) The composite English proficiency levels of students tested but whose parents have withdrawn them from bilingual education programs in accordance with 23 Ill. Adm. Code 228.40(a)(2) (Students' Participation; Records) shall not be counted for this purpose.

A) For the purpose of this subsection (a), "composite English proficiency level" means the level associated with the overall scale score achieved on the English language proficiency assessment. The overall scale score is calculated using individual scores achieved in each of the four domains of listening, speaking, reading and writing, with greater value being placed on literacy development (i.e., reading and writing scores are weighted).
B) The Illinois annual progress target shall be 54.4 percent of students showing progress for school year 2010-11, which shall increase to 69.6 percent by school year 2015-16.

C) The percentage of a district's or cooperative's students who show progress shall increase by a minimum of 3 percent each year.

D) The provisions of this subsection (a)(1) shall apply provided that the number of students enrolled during the time in which the State-prescribed English language proficiency assessment is administered and being served in bilingual education programs is no fewer than 45 at the district or cooperative level, as applicable.

E) A student's composite English proficiency level shall be counted for this purpose only if he or she has participated in at least two consecutive administrations of the State-prescribed English language proficiency assessment, except as provided in this subsection (a)(1)(E).

i) For a student who previously was enrolled in an Illinois school district and who re-enrolled in an Illinois school district during the current school year, the level of attainment for making progress shall be determined as prescribed in subsection (a)(1) of this Section using the student's current composite English proficiency level on the State-prescribed English language proficiency assessment compared to the student's most recent, previous composite English proficiency level achieved when he or she was enrolled in an Illinois district.

ii) For a student enrolled in an Illinois school district and who, for any reason other than not having been enrolled in an Illinois school district at the time of testing, does not have composite English proficiency levels from two consecutive administrations of the State-prescribed English language proficiency assessment, the level of attainment for making progress shall be calculated by multiplying the number of years between the two most recent administrations of the State-prescribed English language proficiency assessment in which the student has participated by .5. For example, a student who took the test in school year 2010-11 and school year 2008-09 must increase his or her composite English
proficiency level by 1.0 of a proficiency level in order to be considered as making progress (.5 of a proficiency level x 2 years = 1.0 of a proficiency level).

2) "Proficiency" relates to the percentage of students who attained the scores identified by the State Board of Education as demonstrating English language proficiency and eligibility to exit an English learner program. The scores of students tested but whose parents have withdrawn them from bilingual education programs in accordance with 23 Ill. Adm. Code 228.40(a)(2) (Students' Participation; Records) shall not be counted for this purpose.

A) The Illinois annual proficiency target shall be six percent of students attaining English proficiency for school year 2009-10, with the target increasing to 15 percent by school year 2015-16.

B) The percentage of the district's or cooperative's students attaining proficiency shall increase by 1 or 2 percent each year. The State Superintendent shall inform districts and cooperatives annually of the percentage to be used.

C) The provisions of this subsection (a)(2) shall apply provided that the number of students enrolled during the time in which the State-prescribed English language proficiency assessment is administered and being served in bilingual education programs is no fewer than 45 at the district or cooperative level, as applicable.

3) "Adequate yearly progress" or "AYP" has the meaning given to that term in Section 1.40 of this Part, except that, for purposes of this Section, AYP is specific to the scores earned on the reading and mathematics portions of the State assessment by students with limited proficiency in English, to their participation in the State assessment, and to their attendance or graduation rate, as applicable. The AYP objective shall apply only when the number of students served is treated as a subgroup under Section 1.60(a) of this Part.

b) In order to avoid penalizing districts and cooperatives for the decision bias that is associated with drawing inferences from a small distribution, a 95 percent "confidence interval" shall be applied to the data involved in each calculation discussed in subsection (a) of this Section. (A confidence interval is a mathematical approach designed to compensate for the unreliability of data derived from consideration of small groups.)
c) The scores of all students served by a cooperative shall be analyzed as one group for purposes of determining whether the cooperative has met AMAOs in a given year. When a district changes cooperative membership, the scores of its students from the most recently completed school year will be used to determine whether the new cooperative has met progress under subsection (a)(1) of this Section. The determination for a cooperative shall also apply to each of its member districts.

d) Section 6842(b) of ESEA requires entities funded under Title III that fail to reach AMAOs for two consecutive years to prepare improvement plans designed to ensure that the entities will meet those objectives in the future. Each entity that is subject to this requirement shall submit its plan no later than six months after it receives notification from ISBE of its failure to meet AMAOs for the second consecutive year. Should a district or cooperative elect not to apply for Title III funding in the subsequent year, it shall be required to submit an improvement plan before it next applies, unless data on the performance of its students demonstrate that the entity met AMAOs in the most recent year preceding its new application for funding. ISBE shall not approve an application for Title III funds from an entity that is subject to this requirement until its plan has been submitted.

e) When an entity funded under Title III has failed to reach AMAOs for four consecutive years, ISBE shall, as required by section 6842(b)(4) of ESEA:

1) require the entity to modify its curriculum, program, and method of instruction; or

2) make a determination regarding the entity's continued receipt of funds under Title III and require the entity to replace educational personnel relevant to the entity's failure to meet the achievement objectives.

f) The sanctions chosen pursuant to subsection (e) of this Section shall be identified based upon ISBE's analysis of the factors that prevented the entity from attaining the AMAOs, including those factors presented in the improvement plan submitted in accordance with subsection (d) of this Section. In particular, ISBE shall deny continued Title III funding to an entity that:

1) fails or refuses to serve students according to relevant legal and/or regulatory requirements; or

2) prolongs or repeats instances of noncompliance to a degree that indicates an intention not to comply with relevant requirements.

b) Criteria for the Academic Improvement Award

The school made significant academic improvement by showing, with respect to its students’ scores that are relevant to adequate yearly progress and were classified as demonstrating proficiency, either:

1) at least a 7.5 percent increase for the most recent school year when compared to the immediately preceding school year; or

2) at least a 15 percent cumulative increase for the most recent school year when compared to the school year two years before that year, provided that during that time there has been no decrease in the percentage from any one year to the next.

c) Criteria for the Academic Excellence Award

The school made adequate yearly progress in the two most recent school years and:
1) The school served any of Grades 8 and below only and at least 90 percent of its students’ scores that are relevant to adequate yearly progress were classified as demonstrating proficiency for the three most recent school years; or

2) The school served any of Grades 9 through 12 only and at least 80 percent of its students’ scores that are relevant to adequate yearly progress were classified as demonstrating proficiency for the three most recent school years; or

Section 1.95  Appeals Procedure

Pursuant to Section 2-3.25m of the School Code [105 ILCS 5/2-3.25m], a school district may request an appeal of a school’s or the district’s status level, recognition level determined pursuant to Section 2-3.25f of the School Code, or corrective actions undertaken by ISBE pursuant to Section 2-3.25f of the School Code or the No Child Left Behind Act of 2001. An appeal may not be brought pursuant to Section 2-3.25m challenging the validity of any State or federal law or requesting relief that ISBE is without authority to provide.

a) A district shall request such an appeal by sending a written request to the State Board of Education for consideration by the Appeals Advisory Committee. The district must submit its appeal within 30 days after receipt of notification from the State Board of the school’s or district’s status level, recognition level, or corrective action, or by September 1 of the calendar year in which the notification occurs, whichever occurs later. The appeal may not be based upon alleged inaccuracies in data in any State assessment other than the most recent State assessment, or any other cause known to the district during the prior year’s period for appeals. Upon receipt of a request, State Board staff shall provide an opportunity for the district to meet with State Board staff (either in person or over the telephone) in an effort to resolve the issues raised in the request through informal means.

b) If a district elects not to meet with State Board staff, or if the district wishes to proceed with the appeal upon conclusion of the informal resolution process, the State Board shall commence the appeals process set forth in this Section. The timeframes set forth for appeals shall be tolled during the pendency of the informal resolution process. Nothing contained in this Section shall preclude the State Board and the district from reaching agreement as to the resolution of an appeal at any time during the appeals process.

c) After a determination of a review schedule by the Committee, the State Board will give written notice of the date, time, and place of the hearing to the school district not less than 21 days before the hearing date. The notice shall be sent by certified mail, return receipt requested.

d) The school district may be represented by an attorney throughout the proceedings. The office of the General Counsel to the State Board will represent the State Board. Both the school district and the State Board will be afforded the opportunity to file written briefs before the hearing. The school district shall submit its brief to the following address: Illinois State Board of Education, Office of the General Counsel, 100 North First Street, Springfield, Illinois 62777-0001. The State Board shall submit its brief to the district and shall provide both the district’s and the State Board’s briefs to each member of the Committee.
1) The school district’s brief shall be due 7 days after the district’s receipt of
the notice of opportunity for hearing.

2) The State Board’s brief shall be due 14 days after the State Board’s receipt
of the district’s brief or, if no brief is filed by the district, 14 days after the
notice of opportunity for hearing is sent.

e) After briefs have been submitted pursuant to subsection (d) of this Section, no
party shall submit additional information to the Committee unless so requested by
the Committee’s chairperson. The State Board will provide a signed assurance to
the Committee that any calculations at issue were double-checked.

f) At the time its brief is filed, either the school district or the State Board may
request an opportunity for oral argument before the Committee.

1) Each party will be given 30 minutes for argument, and the school district
may reserve 10 of its 30 minutes for rebuttal. The Committee may ask
questions during such argument.

2) If neither party requests oral argument, the Committee may request that
the parties make an oral presentation on the date scheduled for the hearing.

g) If two or more districts request an appeal regarding the same question of policy,
law, or fact, the State Board may consolidate those appeals if the agency
determines that consolidation would secure economies of time and effort and
promote uniformity of decision-making by the Committee. Consolidated appeals
shall be handled as provided in this subsection (g).

1) Each district may submit its own brief, or any two or more of the districts
whose appeals are consolidated may elect to write a joint brief.

2) All districts whose appeals are consolidated will be given 40 minutes for
argument, and the districts may reserve ten of their 40 minutes for rebuttal.
The districts shall either select one or more representatives to argue on
behalf of the districts or divide the time equally amongst all districts.

3) The agency shall submit one brief in response to the question of policy,
law, or fact subject to the consolidated appeal and shall have 30 minutes
for argument.

h) The chairman of the Committee will conduct the review proceeding and hearing.
During the hearing, the Committee shall consider only those issues raised in the
briefs or by oral argument of the parties. All hearings will be recorded. A majority of committee members shall constitute a quorum. Committee recommendations must be approved by a majority vote of a quorum. Each committee member shall recuse himself or herself when hearing an appeal from a district with which the member has a conflict of interest, e.g., employment by the district, having a close family member in attendance at a school in the district or employed by the district, service as a school board member, or other affiliation with the district. The Committee may adopt other procedures for its governance not inconsistent with this Part.

i) Within 30 days after the hearing, the Committee shall submit a written recommendation for action to the State Superintendent of Education and shall state the reasons for its recommendation. All recommendations shall be based on an objective evaluation of the district’s claims and a review of the State Board’s data and calculations. The Committee may recommend that the State Superintendent affirm or reverse the decision of the State Board, in whole or in part.

j) The State Superintendent shall thereafter make a recommendation for action to the State Board of Education. The State Board of Education shall make the final determination.

Section 1.97 Survey of Learning Conditions

In accordance with Section 2-3.153 of the School Code [105 ILCS 5/2-3.153], each school district shall administer, at least biennially, a survey instrument in every public school attendance center by a date specified by the State Superintendent of Education, and data resulting from the instrument's administration must be provided to the State Board of Education. The purpose of the survey is to publicly report on selected indicators of learning conditions in Illinois schools. The State Superintendent of Education shall identify the survey to be used for statewide administration according to the requirements set forth in Section 2-3.153 of the School Code.

a) Each school with students in any of grades 6 through 12 shall administer a survey to teachers and students in those grade levels no sooner than January 1 nor later than March 31, according to the schedule established under subsection (b). The State Superintendent of Education shall identify the survey to be used and post the specific dates of the survey's administration by September 1 annually at http://www.isbe.net/5essentials/default.htm. For the purposes of this Section:

1) "Teacher" means any individual who holds an educator license issued pursuant to Article 21B of the School Code [105 ILCS 5/Art. 21B] and whose primary responsibility is to provide instruction to students at any grade level of prekindergarten through grade 12 for more than 50 percent of the school day or school year. "Teacher" does not include paraprofessional educators, substitute teachers, tutors, instructional coaches who do not meet the criteria specified in this subsection (a)(1), or student teachers.

2) "School" includes any alternative school established by the school district, including Alternative Learning Opportunity Programs authorized under Article 13B of the School Code [105 ILCS 5/Art. 13B] operated at a location other than one of the district's schools.

b) The State Superintendent shall identify the school districts required to administer the survey in any given year to ensure that none is required to participate more than once every other year; however, school districts may choose to administer the survey annually.

c) A school district shall not require a student or teacher to participate in the survey nor respond to each question on the survey; however, at least 50 percent of the teachers in a school must submit a survey in order for the school district to receive results.
d) Schools with fewer than eight teachers shall administer the survey to their student population only.

e) Survey results shall be used to meet the requirements of Section 10-17a(2)(E) of the School Code [105 ILCS 5/10-17a(2)(E)] regarding reporting, on the State and district school report cards, 2 or more indicators from any school climate survey. School districts using a survey instrument identified under subsection (g), or those districts choosing to survey parents, shall submit the results to the State Superintendent of Education no later than August 1 for inclusion on the school report cards.

f) For purposes of Section 24A-20 of the School Code, the survey required under Section 2-3.153 of the School Code and this Section shall be the instrument to be used to provide feedback to principals on the instructional environment within a school (Section 24A-20 of the School Code). A school district may incorporate results from the survey into the principal evaluation rubric or instrument required under 23 Ill. Adm. Code 50.320 (Professional Practice Components for Principals and Assistant Principals).

g) A school district may elect to use, on a district-wide basis and at the school district's sole cost and expense, an alternate survey of learning conditions instrument pre-approved by the State Superintendent. (Section 2-3.153(b) of the School Code)

1) The State Superintendent shall post annually the survey instruments authorized under this subsection (g) no later than July 1 at http://www.isbe.net/5essentials/default.htm.

2) Any school district wishing to use a survey instrument authorized under this subsection (g) shall submit a form developed for this purpose and posted at http://www.isbe.net/5essentials/default.htm to the State Superintendent no later than August 1. The form shall state, at a minimum, the requirements for and conditions of administering a survey instrument authorized under this subsection (g) that are stipulated at Section 2-3.153(b) of the School Code.

3) A school district's failure to submit the form required under subsection (g)(2) shall result in the district's being required to use the survey identified for statewide administration and posted at http://www.isbe.net/5essentials/default.htm.

h) If in any year the appropriation to the State Board of Education is insufficient for the State's costs associated with statewide administration of the instrument, the State Board of Education shall give priority to districts with low-performing
schools and a representative sample of other districts. (Section 2-3.153 of the School Code) For the purposes of this subsection (h), "low-performing schools" are those school districts that meet the criteria set forth at Section 2-3.25d-5 of the School Code. The State Superintendent of Education shall identify additional school districts for purposes of administering the survey based upon factors such as demographics, economics and geographic location.

1) Not later than July 1, the State Superintendent of Education shall notify each low-performing school and each other school district selected as part of the "representative sample" of the requirement to administer the survey.

2) Within 15 calendar days after receiving the notification required under subsection (h)(1), a school district selected as part of the representative sample may petition the State Superintendent to be excused from the survey administration. The written petition shall state the reasons why the school district believes it lacks the capacity to administer the survey. The State Superintendent shall notify the school district of his or her acceptance or rejection of the petition no later than 15 calendar days after it is received.

Section 1.110 Appeal Process under Section 22-60 of the School Code

Section 22-60 of the School Code [105 ILCS 5/22-60] authorizes regional superintendents of schools to grant exemptions from certain mandates contained in the School Code [105 ILCS 5] or in administrative rules of the State Board of Education. Any decision of the regional superintendent regarding a school district's or private school's request for an exemption may be appealed to the State Superintendent by the school district, the private school or a resident of the district. For the purposes of this Section, references to "regional superintendent" shall be understood to include the intermediate service centers established in that portion of Cook County located outside of the City of Chicago.

a) A school district, private school or resident wishing to appeal the decision of the regional superintendent to deny or approve an exemption request may do so by sending a written appeal on or before April 15 by certified mail to the Illinois State Board of Education, Public School Recognition Division, 100 West Randolph Street, Suite 14-300, Chicago, Illinois 60601 or by email to mandateappeal@isbe.net. The written appeal shall include:

1) the date the regional office of education acted on the exemption request;

2) a copy of the original request that includes the citation of the rule or School Code section involved;

3) a copy of the regional superintendent's decision to grant or deny the request;

4) a narrative explanation of the petitioner's objections to the regional superintendent's decision (not to exceed two pages), along with any documentation that directly supports the argument being made; and

5) the name, address, telephone number and contact person of the school district or private school submitting the appeal, or the name, address and telephone number of the resident submitting the appeal.

b) The State Superintendent of Education shall provide written notice of the date, time, and location of the hearing to consider the appeal to the petitioner not less than 10 days before the hearing date. The notice shall be sent by certified mail, return receipt requested. Copies of the notice of hearing also shall be provided to the school district's regional superintendent of schools and, in the case of a resident's appeal, to the school district superintendent or private school administrator. Any hearing shall be held no later than May 15 of each year.
c) A petitioner may present oral testimony at the hearing, not to exceed 30 minutes. Any responses to the petitioner's testimony made by the school district, private school or regional superintendent of schools also shall be limited to no more than 30 minutes.

d) The State Superintendent of Education shall consider the net costs associated with the implementation of the mandate and other evidence of its financial impact presented by the school district or private school to determine if implementation or operation is cost-prohibitive. For purposes of this Section, "cost-prohibitive" means that the financial burden of implementing or operating the mandate is greater than the benefits to be received.

e) The State Superintendent shall inform the petitioner of his or her decision at the conclusion of the hearing. (See Section 22-60(b) of the School Code.) A written summary of the decision, including reasons for accepting or denying the appeal, shall be provided to each affected party no later than 10 calendar days after the hearing.

f) A school district, private school or regional superintendent of schools shall provide to a resident of the district, upon the resident's request, a copy of the original exemption request or a copy of the decision regarding the exemption request, along with the reason for the denial or approval, no later than 10 calendar days after the request has been made.

g) City of Chicago School District 299 or a private school located in the City of Chicago shall submit any request for an exemption from a statutory or regulatory mandate to the Division Supervisor of the Public School Recognition Division, 100 West Randolph Street, Suite 14-300, Chicago, Illinois 60601, within the timelines and in the format specified in Section 22-60 of the School Code.

1) The division supervisor shall schedule a public hearing to take testimony from the district and interested residents about the request.

2) A committee comprised of representatives from each department of the State Board of Education with a responsibility for the statutory or regulatory mandate shall review the request and the testimony provided at the public hearing. The committee shall recommend to the division supervisor whether the request should be granted, and the division supervisor shall send written notification of his or her decision to the district or private school on or before March 15, along with reasons why the exemption was granted or denied.
3) A public hearing conducted under this subsection (g) shall comply with the Open Meetings Act [5 ILCS 120].

4) The process for a school district, private school or resident to appeal a decision made pursuant to subsection (g)(2) of this Section shall be as provided in this Section.

2) maintain attendance and evaluation records for each event or activity it conducts or sponsors for a period of not less than five years.

d) Applicants may be asked to clarify particular aspects of their materials.

e) The State Superintendent of Education, in consultation with the Illinois Association of School Boards (IASB), shall respond to each application for approval no later than 30 days after receiving it.

f) An entity shall be approved to offer leadership training if the entity's application presents evidence that:

1) the leadership training that it sponsors or conducts will be developed and presented by persons with education and experience in the applicable areas to which they will be assigned; and

2) the proposed training meets the requirements of Section 10-16a of the School Code.

g) The State Board of Education shall post on its website at www.isbe.net the list of all approved providers. The website also shall indicate that the IASB is authorized under Section 10-16a(c) of the School Code to provide leadership training.

h) Approval as a provider shall be valid for two calendar years (i.e., January 1 through December 31). To request renewal of approval, a provider shall submit a renewal application on a form supplied by the State Board of Education, within the timeframe specified in subsection (a), and containing:
1) a description of any significant changes in the material submitted as part of its approved application or a certification that no such changes have occurred;

2) evidence that the material to be used in the renewal cycle conforms to current statute, rules and procedures of the State Board of Education; and

3) copies of the evaluations of the training that participants completed during the last approval period.

i) A provider's approval shall be renewed if the application conforms to the requirements of subsection (h), provided that the State Superintendent has received no evidence of noncompliance with the requirements of this Section.

j) The State Board of Education may evaluate an approved provider at any time to ensure compliance with the requirements of this Section. Upon request by the State Board, a provider shall supply information regarding its schedule of leadership training, which the State Board may, at its discretion, monitor at any time. In the event an evaluation indicates that the requirements have not been met, the State Board of Education, in consultation with IASB, may withdraw approval of the provider.

Section 1.240  Equal Opportunities for all Students

a) All students within a school district must be provided equal opportunities in all education programs and services provided by the system (see Section 10-20.12 of the School Code).

b) No school system may exclude or segregate any pupil, or discriminate against any pupil on the basis of his or her race, color, religion, sex, national origin, ancestry, age, marital status, or physical or mental disability, sexual orientation, pregnancy [775 ILCS 5/1-102(A)], gender identity, or status of being homeless [105 ILCS 45/1-5 and 42 USC 11434a(2)]. Further, no school system may deny access to its schools or programs to students who lack documentation of their immigration status or legal presence in the United States, and no school system may inquire about the immigration status of a student (Plyler v. Doe, 457 U.S. 202 (1982)). In order to comply with this subsection (b), the documents required by a school system as proof of residency for a student, when taken together, shall not result in a requirement for proof of legal presence, such as a Social Security number. That is, the permissible combinations of documents must be sufficiently variable to afford an opportunity for those who lack proof of legal presence or immigration status to meet the stated requirements. No school district shall impose requirements for enrollment more restrictive than those established under relevant Illinois and federal law. For example, no school system shall require court-ordered guardianship when an individual enrolling a student meets the legal custody requirements of Section 10-20.12b(a)(2)(iv) or (v) of the School Code [105 ILCS 5/10-20.12b(a)(2)(iv) or (v)], and each school system shall immediately enroll and serve homeless children without requiring the provision of any documentation, in accordance with the Illinois Education for Homeless Children Act [105 ILCS 45] and the McKinney-Vento Homeless Education Assistance Act [42 USC 11434].

c) The board of education shall submit periodic reports as required by the State Board of Education detailing pupil attendance, faculty assignments, and actions taken and planned to prevent and eliminate segregation.

Section 1.242 Temporary Exclusion for Failure to Meet Minimum Academic or Attendance Standards

A parent or guardian who receives notice of a school board’s intention to deny enrollment to a student for either of the reasons specified in Section 26-2(c) of the School Code [105 ILCS 5/26-2] may appeal the determination to exclude the student.

a) Upon the request of the parent or guardian, the school board or a hearing officer appointed by the board shall hold a hearing to review the board’s determination.

b) The parent or guardian shall have the right to appear at the hearing and discuss the board’s determination to exclude the student with the board or its hearing officer.

c) If a hearing officer has been appointed by the board, he or she shall provide to the board a written summary of the evidence heard at the hearing.

d) After the hearing, if held by the board, or after the board’s receipt of the hearing officer’s written summary, the board may take the action it finds appropriate.

e) Any appeal requested by the parent or guardian must be heard and a final determination made under subsection (d) of this Section before the student may be denied enrollment under Section 26-2(c) of the School Code.

Section 1.245 Waiver of School Fees

This Section provides the rules required by Section 2-3.96 of the School Code under which each school district is required to adopt a written policy for the waiver of school fees as required by Sections 10-20.13 and 34-21.6 of the School Code [105 ILCS 5/10-20.13 and 34-21.6].

a) For the purposes of this Section "school fees" or "fees" means any monetary charge collected by a public school or public school district from a student or the parents or guardian of a student as a prerequisite for the student's participation in any curricular or extracurricular program of the school or school district. A school or school district does not impose a "fee" when it requires that a student provide his or her own ordinary supplies or materials (e.g., pencil, paper, notebooks), which are necessary to participate in any curricular or extracurricular program.

1) "School fees" include, but are not limited to, the following:

A) All charges for required textbooks and instructional materials.

B) All charges and deposits collected by a school for use of school property (e.g., locks, towels, laboratory equipment).

C) Charges for field trips made during school hours, or made after school hours if the field trip is a required or customary part of a class or extracurricular activity (e.g., annually scheduled trips to museums, concerts, places of business and industry or field trips related to instruction in social studies, the fine arts, career/vocational education or the sciences).

D) Charges or deposits for uniforms or equipment related to varsity and intramural sports, or to fine arts programs.

E) Charges for supplies required for a particular class (e.g., shop or home economics materials, laboratory or art supplies).

F) Graduation fees (e.g., caps, gowns).

G) School records fees.

H) School health services fees.

I) Driver's education fees assessed pursuant to Section 27-24.2 of the School Code [105 ILCS 5/27-24.2].
2) "School fees" do not include:

A) Library fines and other charges made for the loss, misuse, or destruction of school property (e.g., musical instruments).

B) Charges for the purchase of class rings, yearbooks, pictures, diploma covers or similar items.

C) Charges for optional travel undertaken by a school club or group of students outside of school hours (e.g., a trip to Spain by the Spanish club or a senior class trip).

D) Charges for admission to school dances, athletic events or other social events.

E) Optional community service programs for which fees are charged (e.g., preschool, before- and after-school child care, recreation programs).

b) School boards that do not charge school fees must adopt a policy so stating. Parents must be notified of this policy as provided in this Section.

c) School boards that charge school fees must adopt a policy and procedures containing at least the following elements:

1) Eligibility Criteria

A) Eligibility criteria must include a waiver of fees for all students who qualify for free lunches or breakfasts under the School Breakfast and Lunch Program Act [105 ILCS 125]. Students must meet the income requirements of the program but need not participate in order to receive a waiver of school fees.

B) Eligibility criteria must also include a description of other extenuating circumstances under which the district will grant a waiver of school fees. Examples include students who are eligible to receive reduced-price lunch or breakfast; very significant loss of income due to severe illness or injury in the family or unusual expenses such as fire, flood, or storm damage; or similar emergency situations that the district determines to include in its policy.
2) Notification of parents

A) The district's policy for the waiver of school fees shall be communicated in writing to the parents of all students enrolling in the district for the first time. A fee waiver application form also may be included with this notice when it is sent to parents. The notification must be in English or the home language of the parents if it is needed to ensure their understanding of the district's policy (if translation of the notice is not feasible, the use of interpreters is permitted, e.g., other students or neighbors). The notice shall at least describe:

i) the district's policy, including the criteria and other circumstances under which the district will waive school fees;

ii) the fees subject to waiver under the district's policy;

iii) the procedure to be used by parents in applying for a waiver of school fees, including the availability of forms that may be used to request a fee waiver and the documents whose use is required by the school district in verifying income as permitted under subsection (d) of this Section; and

iv) the procedure to be used by parents in resolving disputes concerning the waiver of school fees.

B) The district's policy also shall provide that the first bill or notice of each school year sent to parents who owe fees shall state:

i) the district waives fees for persons unable to afford them in accordance with its policy; and

ii) the procedure for applying for a fee waiver, or the name, address and telephone number of the person to contact for information concerning a fee waiver.

3) Procedures for the resolution of disputes

A) The district's policy must provide that if it denies a request for a fee waiver, then it shall mail a copy of its decision to the parents within 30 calendar days after receipt of the request. The decision
shall state the reason for the denial and shall inform the parents of their right to appeal, including the process and timelines for that action. The denial notice shall also include a statement informing the parents that they may reapply for a waiver any time during the school year, if circumstances change.

B) An appeal shall be decided within 30 calendar days after the receipt of the parents' request for an appeal. Parents shall have the right to meet with the person who will decide the appeal in order to explain why the fee waiver should be granted. The person who decides the appeal shall not be the person who initially denied the fee waiver or a subordinate of this person. If the appeal is denied, then the district shall mail a copy of its decision to the parents. The decision shall state the reason for the denial.

C) No fee shall be collected from any parent who is seeking a fee waiver in accordance with the district's policy until the district has acted on the initial request or appeal (if any is made), and the parents have been notified of its decision.

d) A school district may make reasonable requirements for verifying a family’s income (e.g., payroll stubs, tax returns, evidence of receipt of food stamps or Temporary Assistance for Needy Families) in accordance with the restrictions set forth in Sections 10-20.13 and 34-21.6 of the School Code. If a student receiving a waiver of school fees is found to be no longer eligible during the school year, then the district shall charge the student a prorated amount based upon the number of school days remaining in the school year. The process for proration shall be set forth in the district’s fee waiver policy adopted in accordance with subsection (c) of this Section.

e) If the fee waiver policy and/or procedures are substantively amended, then parents of students enrolled in the district must be notified in writing within 30 calendar days following the adoption of the amendments.

f) School records that identify individual students as applicants for or recipients of fee waivers are subject to the Illinois School Student Records Act [105 ILCS 10]. Information from such records is confidential and may be disclosed only as provided in the Act.

g) No discrimination or punishment of any kind, including the lowering of grades or exclusion from classes, may be exercised against a student whose parents or guardians are unable to purchase required textbooks or instructional materials or to pay required fees [105 ILCS 5/28-19.2(a)].

Section 1.280 Discipline

Section 24-24 of the School Code [105 ILCS 5] provides for teachers, other licensed educational employees (except for individuals employed as a paraprofessional educator) and persons providing a related service for or with respect to a student as determined by the board of education to maintain discipline in the schools.

   a) The board of education shall establish and maintain a parent-teacher advisory committee as provided in Section 10-20.14 of the School Code.

   b) The board of education shall establish a policy on the administration of discipline in accordance with the requirements of Sections 10-20.14 and 24-24 of the School Code and disseminate that policy as provided in Section 10-20.14 of the School Code. Under no circumstance shall the policy authorize the use of time out or physical restraint as a form of discipline or punishment.

   c) In addition to, or as part of, its policy on the maintenance of discipline, each board of education shall adopt policies and procedures regarding the use of behavioral interventions for students with disabilities who require intervention. Each board's policies and procedures shall conform to the requirements of Section 14-8.05(c) of the School Code.

Section 1.285 Requirements for the Use of Isolated Time Out, Time Out, and Physical Restraint

Isolated time out, time out, and physical restraint, as defined in this Section, shall be used only when the student's behavior presents an imminent danger of serious physical harm to the student or others and other less restrictive and intrusive measures have been tried and proven ineffective in stopping the imminent danger of serious physical harm. Isolated time out, time out, or physical restraint shall not be used as discipline or punishment, convenience for staff, retaliation, a substitute for appropriate educational or behavioral support, a routine safety matter, or to prevent property damage in the absence of imminent danger of serious physical harm to the student or others.

a) Isolated Time Out or Time Out

1) "Isolated time out" means the involuntary confinement of a student alone in a time out room or other enclosure outside the classroom without a supervising adult in the time out room or enclosure. Isolated time out is allowed only under limited circumstances. If all other requirements under this Section are met, isolated time out may be used only when the adult in the time out room or enclosure is in imminent danger of serious physical harm because the student is unable to cease actively engaging in extreme physical aggression.

2) "Time out" means a behavior management technique for the purpose of calming or de-escalation that involves the involuntary monitored separation of a student from classmates with an adult trained under subsection (i) for part of the school day, only for a brief time, in a non-locked setting.

3) "Isolated time out" or "time out" does not include a student-initiated or student-requested break, a student-initiated or teacher-initiated sensory break, including a sensory room containing sensory tools to assist a student to calm and de-escalate, an in-school suspension or detention, or any other appropriate disciplinary measure, including a student's brief removal to the hallway or similar environment.

4) Any enclosure used for isolated time out or time out shall:

A) meet all of the health/life safety requirements of 23 Ill. Adm. Code 180;

B) have the same ceiling height as the surrounding room or rooms and be large enough to accommodate not only the student being placed
in isolated time out or time out but also, if applicable, any other individual who is required to accompany that student under this Section;

C) be constructed of materials that cannot be used by students to harm themselves or others, be free of electrical outlets, exposed wiring, and other objects that could be used by students to harm themselves or others, and be designed so that students cannot climb up the walls;

D) be designed to permit continuous visual monitoring of and communication with the student; and

E) if fitted with a door, be fitted with either a steel door or a wooden door of solid-core construction. If the door includes a viewing panel, the panel shall be unbreakable. The door shall not be fitted with a locking mechanism or be physically blocked by furniture or any other inanimate object at any time during the isolated time out or time out.

5) For an isolated time out, an adult who is responsible for supervising the student must remain within two feet of the enclosure. The supervising staff member must always be able to see, hear, and communicate with the student. The door shall not be locked or held to block egress. A student in isolated time out shall not be supervised using cameras, audio recording, or any other electronic monitoring device.

6) For time out, an adult trained under subsection (i) who is responsible for supervising the student must remain in the same room as the student at all times during the time out.

7) A student placed in isolated time out or time out must have reasonable access to food, water, medication, and toileting facilities. Except in circumstances in which there is a risk of self-injury or injury to staff or others, a student in isolated time out or time out shall not have his or her clothing removed, including, but not limited to, shoes, shoelaces, boots, or belts.

b) "Physical restraint" means holding a student or otherwise restricting a student's movements. "Physical restraint" as permitted pursuant to this Section includes only the use of specific, planned techniques.

c) The requirements set forth in subsections (d) through (i) of this Section shall not
apply to the actions described in this subsection (c) because, pursuant to Section 10-20.33 of the School Code [105 ILCS 5], "restraint" does not include momentary periods of physical restriction by direct person-to-person contact, without the aid of material or mechanical devices, accomplished with limited force and designed to:

1) prevent a student from completing an act that would result in potential physical harm to himself, herself, or another or damage to property; or

2) remove a disruptive student who is unwilling to leave the area voluntarily.

d) The use of physical restraint shall be subject to the following requirements and limitations.

1) Pursuant to Section 10-20.33 of the School Code, physical restraint may only be employed when:

   A) the student poses a physical risk to himself, herself, or others,

   B) there is no medical contraindication to its use, and

   C) the staff applying the restraint have been trained in its safe application as specified in subsection (i) of this Section.

2) Physical restraint must end immediately when:

   A) the threat of imminent danger of serious physical harm ends; or

   B) the student indicates that he or she cannot breathe or staff supervising the student recognizes that the student may be in respiratory distress.

3) The staff involved in physically restraining a student must periodically halt the restraint to evaluate if the imminent danger of serious physical harm continues to exist. If the imminent danger of serious physical harm continues to exist, staff may continue to use the physical restraint and the continued use may not be considered a separate instance of physical restraint.

4) A physical restraint shall not impair a student's ability to breathe or communicate normally, obstruct a student's airway, or interfere with a student's ability to speak. If physical restraint is imposed upon a student whose primary mode of communication is sign language or an
augmentative mode, the student shall be permitted to have his or her hands free of restraint for brief periods, unless the supervising adult determines that this freedom appears likely to result in harm to the student or others.

5) "Prone physical restraint" means a physical restraint in which a student is held face down on the floor or other surface and physical pressure is applied to the student's body to keep the student in the prone position. "Supine physical restraint" means a physical restraint in which a student is held face up on the floor or other surface and physical pressure is applied to the student's body to keep the student in the supine position. Until July 1, 2021, prone and supine physical restraint is prohibited, unless all of the following criteria are met:

A) Before using a prone or supine physical restraint, the school district or other entity serving the student shall review and determine if there are any known medical or psychological limitations that contraindicate the use of a prone or supine physical restraint.

B) The school district or other entity serving the student deems the situation an emergency, defined as a situation in which immediate intervention is needed to protect a student or other individual from imminent danger of serious physical harm to himself, herself, or others and less restrictive and intrusive interventions have been tried and proven ineffective in stopping the imminent danger.

C) Prone or supine physical restraint is used in a manner that does not restrict or impair a student's ability to breathe or communicate normally, obstruct a student's airway, or interfere with a student's primary mode of communication.

D) Prone or supine physical restraint is used only by personnel who have completed required training under subsection (i).

E) Prone or supine physical restraint is used only if those interventions are the least restrictive and intrusive interventions to address the emergency and stop the imminent danger of serious physical harm to the student or others. During each incident, one school staff person trained in identifying the signs of distress must be assigned to observe and monitor the student during the entire incident. That staff person may not be involved in the physical holding of the student. The number of staff involved in physically restraining the student may not exceed the number necessary to
safely hold the student. Staff involved in the restraint must use the least amount of force and the fewest points of contact necessary and must afford the student maximum freedom of movement while maintaining safety.

F) The prone or supine physical restraint ends immediately when the threat of imminent danger of serious physical harm ends, but in no event shall prone or supine physical restraint last longer than 30 minutes. If after 30 minutes the emergency has not resolved, or if an additional emergency arises the same school day that meets the standards of this subsection (d), a school administrator, in consultation with a psychologist, social worker, nurse, or behavior specialist, may authorize the continuation of the restraint or an additional prone or supine physical restraint. No restraint may be continued, nor may additional restraints be applied, unless continuation is authorized by a school administrator.

G) If the student is restrained in a prone or supine physical restraint in at least 2 separate instances within a 30-school day period, the school personnel who initiated, monitored, and supervised the incidents shall initiate a Restraint Review, which is a review of the effectiveness of the procedures used. If the personnel involved in the restraints do not include a psychologist, social worker, nurse, or behavior specialist, at least one of those staff members shall be included in the Restraint Review. The Restraint Review must include, but is not limited to:

i) conducting or reviewing a functional behavioral analysis, reviewing data, considering the development of additional or revised positive behavioral interventions and supports, considering actions to reduce the use of restrictive procedures, or, if applicable, modifying the student's individualized educational program, federal Section 504 plan, behavior intervention plan, or other plan of care, as appropriate; and

ii) reviewing any known medical or psychological limitations that contraindicate the use of a restrictive procedure, considering whether to prohibit that restrictive procedure, and, if applicable, documenting any prohibitions in the student's individualized education program, federal Section 504 plan, behavior intervention plan, or other plan of care.
6) Students shall not be subjected to physical restraint for using profanity or other verbal displays of disrespect for themselves or others. A verbal threat shall not be considered as constituting a physical danger unless a student also demonstrates a means of or intent to immediately carry out the threat.

7) Except as permitted by the administrative rules of another State agency operating or licensing a facility in which elementary or secondary educational services are provided (e.g., the Illinois Department of Corrections, the Illinois Department of Juvenile Justice, or the Illinois Department of Human Services), mechanical restraint or chemical restraint, as defined in subsection (d)(12), shall not be employed.

8) Medically prescribed restraint procedures employed for the treatment of a physical disorder or for the immobilization of a person in connection with a medical or surgical procedure shall not be used as means of physical restraint for purposes of maintaining discipline.

9) Any application of physical restraint shall take into consideration the safety and security of the student. Physical restraint shall not rely upon pain as an intentional method of control.

10) In determining whether a student who is being physically restrained should be removed from the area where the restraint was initiated, the supervising adult shall consider the potential for injury to the student, the student's need for privacy, and the educational and emotional well-being of other students in the vicinity.

11) "Chemical restraint" means the use of medication to control a student's behavior or restrict a student's freedom of movement. Chemical restraint is prohibited. "Chemical restraint" does not include medication that is legally prescribed and administered as part of a student's regular medical regimen to manage behavioral symptoms and treat medical symptoms.

12) "Mechanical restraint" means the use of any device or equipment to limit a student's movement or hold a student immobile. Mechanical restraint is prohibited. "Mechanical restraint" does not include any restraint used to:

A) treat a student's medical needs;

B) protect a student known to be at risk of injury resulting from lack of coordination or frequent loss of consciousness;
C) position a student with physical disabilities in a manner specified in the student's individualized education program, federal Section 504 plan, or other plan of care;

D) provide a supplementary aid or service or an accommodation, including, but not limited to, assistive technology that provides proprioceptive input or aids in self-regulation; or

E) promote student safety in vehicles used to transport students.

e) Time Limits

1) A student shall be released from isolated time out or time out immediately upon determination by the staff member that the student is no longer an imminent danger of serious physical harm to the student or others. No less than once every 15 minutes, an adult trained under subsection (i) must assess whether the student has ceased presenting the specific behavior for which the time out was imposed.

2) A student shall be released from physical restraint immediately upon a determination by the staff member administering the restraint that the student is no longer in imminent danger of causing serious physical harm to the student or others.

f) Documentation and Evaluation

1) In a form and manner prescribed by the State Superintendent, a written record of each episode of isolated time out, time out, or physical restraint shall be maintained in the student's temporary record. The official designated under this Section shall also maintain a copy of each of these records. Each record shall include, but is not limited to, all of the following:

A) the student's name;

B) the date of the incident;

C) the beginning and ending times of the incident;

D) a description of any relevant events leading up to the incident;

E) a description of any interventions used prior to the implementation of isolated time out, time out, or physical restraint;
F) a description of the incident or student behavior that resulted in isolated time out, time out, or physical restraint, including the specific imminent danger of serious physical harm to the student or others;

G) for isolated time out, a description of the rationale of why the needs of the student cannot be met by a lesser restrictive intervention and why an adult could not be present in the time out room;

H) a log of the student's behavior in isolated time out, time out, or during physical restraint, including a description of the restraint techniques used and any other interaction between the student and staff;

I) a description of any injuries (whether to students, staff, or others) or property damage;

J) a description of any planned approach to dealing with the student's behavior in the future, including any de-escalation methods or procedures that may be used to avoid the use of isolated time out, time out, or physical restraint;

K) a list of the school personnel who participated in the implementation, monitoring, and supervision of isolated time out, time out, or physical restraint; and

L) the date on which parental or guardian notification took place, as required by subsection (g).

2) The school official designated under subsection (j)(3) shall be notified of the incident as soon as possible, but no later than the end of the school day on which it occurred.

3) The requirements of this subsection (f)(3) shall apply whenever an episode of isolated time out or time out exceeds 30 minutes, an episode of physical restraint exceeds 15 minutes, or repeated episodes have occurred during any three-hour period.

A) A licensed educator or licensed clinical practitioner knowledgeable about the use of isolated time out or time out or trained in the use of physical restraint, as applicable, shall evaluate the situation.
B) The evaluation shall consider the appropriateness of continuing the procedure in use, including the student's potential need for medication, nourishment, or use of a restroom, and the need for alternate strategies (e.g., assessment by a mental health crisis team, assistance from police, or transportation by ambulance).

C) The results of the evaluation shall be committed to writing and copies of this documentation shall be placed into the student's temporary student record and provided to the official designated under subsection (j)(3).

4) When a student experiences instances of isolated time out, time out, or physical restraint on 3 days within a 30-day period, the school personnel who initiated, monitored, and supervised the incidents shall initiate a review of the effectiveness of the procedures used and prepare an individual behavior plan for the student that provides either for continued use of these interventions or for the use of other, specified interventions. The plan shall be placed into the student's temporary student record. The review shall also consider the student's potential need for an alternative program, for special education eligibility, or, for a student already eligible for special education, for a change in program.

A) The district or other entity serving the student shall invite the student's parents or guardians to participate in this review and shall provide ten days' notice of its date, time, and location.

B) The notification shall inform the parents or guardians that the student's potential need for special education, an alternative program, or, for students already eligible for special education, the student's potential need for a change in program, will be considered and that the results of the review will be entered into the temporary student record.

g) Notification to Parents or Guardians

1) A district whose policies allow for the use of isolated time out, time out, or physical restraint shall notify parents or guardians to this effect as part of the information distributed annually or upon enrollment pursuant to Sections 10-20.14 and 14-8.05(c) of the School Code.

2) If a student is subject to isolated time out, time out, or physical restraint, the school must make a reasonable attempt to notify the student's parent or
guardian on the same day the isolated time out, time out, or physical restraint is imposed.

3) Within one business day after any use of isolated time out, time out, or physical restraint, the school district or other entity serving the student shall send the form required under subsection (f)(1) to the student's parents or guardians.

h) Report to the State Superintendent

1) No later than 2 school days after any use of isolated time out, time out, or physical restraint, the school district or other entity serving the student shall, in a form and manner prescribed by the State Superintendent, submit the information required under subsection (f)(1) to the State Superintendent.

2) The State Superintendent reserves the authority to require districts to submit the information required under subsection (f)(1) for previous school years.

i) Requirements for Training

1) Any adult who is supervising a student in isolated time out or time out, or who is involved in a physical restraint, shall receive at least 8 hours of developmentally appropriate training annually. Except for training on physical restraint, online training may be utilized for all training areas under this subsection (i)(1). Training is required in the following areas:

A) crisis de-escalation;

B) restorative practices;

C) identifying signs of distress during physical restraint and time out;

D) trauma-informed practices; and

E) behavior management practices.

2) All adults trained under this subsection (i) must be provided a copy of the district's policies on isolated time out, time out, and physical restraint.

vi) the simulated experience of administering and receiving a variety of isolated time out, time out, and physical restraint techniques, ranging from minimal physical involvement to very controlling interventions;

vii) instruction regarding the effects of isolated time out, time out, and physical restraint on the person in restraint, isolated time out, or time out, including instruction on monitoring physical signs of distress and obtaining medical assistance;

Section 1.420 Basic Standards

a) Class schedules shall be maintained in the administrative office in each attendance center of a school district.

b) Every school district shall have an organized plan for recording pupil progress and/or awarding credit, including credit for courses completed by correspondence, on line, or from other external sources, that can be disseminated to other schools within the State.

c) Every school district shall:
   1) Provide curricula and staff inservice training to help eliminate unconstitutional and unlawful discrimination in schools and society. School districts shall utilize the resources of the community in achieving the stated objective of elimination of discrimination and to enrich the instructional program.
   2) Include in its instructional program concepts designed to improve students' understanding of and their relationships with individuals and groups of different ages, sexes, races, national origins, religions and socio-economic backgrounds.

d) Boards shall adopt and implement a policy for the distribution of teaching assignments, including study hall and extra class duties and responsibilities.

e) Every school system shall conduct supervisory and inservice programs for its professional staff. The staff shall be involved in planning, conducting and evaluating supervisory and inservice programs.

f) Sections 10-19, 18-8.05, 18-12 and 18-12.5 of the School Code [105 ILCS 5] establish certain requirements regarding the school year and the school day. School districts shall observe these requirements when preparing their calendars and when calculating average daily attendance for the purpose of claiming general State financial aid.

1) Section 18-8.05(F)(2)(c) of the School Code provides that, with the approval of the State Superintendent of Education, four or more clock-hours of instruction may be counted as a day of attendance when the regional superintendent certifies that, due to a condition beyond the control of the district, the district has been forced to use multiple sessions. The State Superintendent's approval will be granted when the district demonstrates that, due to a condition beyond the control of the district, its
facilities are inadequate to house a program offering five clock-hours daily to all students.

A) The district superintendent's request to the State Superintendent shall be accompanied by an assurance that the local school board has approved the plan for multiple sessions, including the date of the meeting at which this occurred, and evidence of the approval of the responsible regional superintendent.

B) Each request shall include a description of the circumstances that resulted in the need for multiple sessions; information on the buildings and grades affected; the intended beginning and ending dates for the multiple sessions; a plan for remedying the situation leading to the request; and a daily schedule showing that each student will be in class for at least four clock-hours.

C) Approval for multiple sessions shall be granted for the school year to which the request pertains. Each request for renewed approval shall conform to the requirements of subsections (f)(1)(A) and (B).

D) Students who are in attendance for at least 150 minutes of school work but fewer than 240 minutes may be counted for a half day of attendance. Students in attendance for fewer than 150 minutes of school work shall not be counted for purposes of calculating average daily attendance.

2) Section 18-8.05(F)(2)(h) of the School Code allows for a determination under rules of the State Board regarding the necessity for a second year's attendance at kindergarten for certain students so they may be included in a district's calculation of average daily attendance. Districts may count these students when they determine through an assessment of their individual educational development that a second year of kindergarten is warranted.

3) A school district shall be considered to have conducted a legal school day, which is eligible to be counted for General State Aid, when the following conditions are met during a work stoppage.

A) Fifty percent or more of the district's students are in attendance, based on the average daily attendance during the most recent full month of attendance prior to the work stoppage.

B) Educational programs are available at all grade levels in the
district, in accordance with the minimum standards set forth in this Part.

C) All teachers hold educator licenses that are registered with the regional superintendent of schools for their county of employment. Other than substitute teachers, licensure appropriate to the grade level and subject areas of instruction is held by all teachers.

4) Sections 18-12 and 18-12.5 of the School Code set forth requirements for a school district to claim General State Aid in certain circumstances when one or more, but not all, of the district's school buildings are closed either for a full or partial day. A school district shall certify the reasons for the closure in an electronic format specified by the State Superintendent within 30 days from the date of the incident.

A) If the certification is submitted under Section 18-12 of the School Code, it shall indicate whether instruction was provided to students using an e-learning day authorized under Section 10-20.56 of the School Code and Section 1.422 of this Part.

B) If the certification is submitted for reasons of a public health emergency under Section 18-12.5 of the School Code, it shall be accompanied by a signed statement from the local health department to the State Superintendent that includes:

i) the name of the building that is being recommended for closure;

ii) the specific public health emergency that warrants the closure; and

iii) the anticipated building closure dates recommended by the health department.

5) Attendance for General State Aid Purposes

A) For purposes of determining average daily attendance on the district's General State Aid claim, students in full-day kindergarten and first grade may be counted for a full day of attendance only when they are in attendance for four or more clock hours of school work; provided, however, that students in attendance for more than two clock hours of school work but less than four clock hours may be counted for a half day of attendance. Students in attendance for
fewer than two hours of school work shall not be counted for purposes of calculating average daily attendance.

B) For purposes of determining average daily attendance on the district's General State Aid claim, students enrolled full time in grades 2 through 12 may be counted for a full day of attendance only when they are in attendance for five or more clock hours of school work; provided, however, that students in attendance for more than two and one-half clock hours of school work but less than five clock hours may be counted for a half day of attendance. Students in attendance for fewer than two and one-half hours of school work shall not be counted for purposes of calculating average daily attendance.

C) For purposes of determining average daily attendance for General State Aid received under Sections 18-12 and 18-12.5 of the School Code, "immediately preceding school day" shall include school days in the previous school year in instances in which the building closure occurs before three or more days of instruction have been provided in the school year for which attendance is being counted.

D) For the purposes of determining average daily attendance for General State Aid under Section 10-20.56 or 10-29 of the School Code, a school district operating a remote educational program shall document the clock hours of instruction for each student, and make available to the State Superintendent or his or her designee upon request, a written or online record of instructional time for each student enrolled in the program that provides sufficient evidence of the student's active participation in the program (e.g., log in and log off process, electronic monitoring, adult supervision, two-way interaction between teacher and student, video cam). "Clock hours of instruction" shall be calculated in accordance with Section 18-8.05(F)(2)(j) of the School Code.

g) Each school board shall annually prepare a calendar for the school term, specifying the opening and closing dates and providing a minimum term of at least 185 days to ensure 176 days of actual pupil attendance, computable under Section 18-8.05 of the School Code (see Section 10-19 of the School Code).

h) Local boards of education shall establish and maintain kindergartens for the instruction of children (see Sections 10-20.19a and 10-22.18 of the School Code).

1) School districts may establish a kindergarten of either half-day or full-day
duration. If the district establishes a full-day kindergarten, it must also provide a half-day kindergarten for those students whose parents or guardians request a half-day program.

2) If a school district that establishes a full-day kindergarten also has 20 or more students whose parents request a half-day program, the district must schedule half-day classes, separate and apart from full-day classes, for those children. If there are fewer than 20 children whose parents request a half-day program, those students may be enrolled in either the morning or afternoon session of a full-day program provided that the following conditions are met.

A) Distinctive curriculum plans for the half-day and full-day kindergarten programs must be developed by the school district, made available to parents to assist the parents in selecting the appropriate program for their child, and maintained in district files.

B) A common core of developmental, readiness and academic activities must be made available to all kindergarten students in the district regardless of the amount of time they attend school.

C) All support services (e.g., health counseling and transportation) provided by the district must be equally available to full-day and half-day students.

3) Each public school district, including charter schools, offering a kindergarten program, whether full-day or half-day, shall report to the State Board of Education on the 14 State Readiness Measures listed in subsection (h)(3)(A) annually on each student enrolled in kindergarten, except as otherwise provided under this subsection (h)(3). The Kindergarten Individual Development Survey (KIDS) shall be available to school districts for this purpose. Data for each student, based on local instruction and assessment practices, shall be reported through the KIDSTech rating system. A school district is not obligated to administer KIDS in any school year in which the State does not provide funding sufficient for the cost of reporting or access to professional development for teachers and administrators.

A) For the purpose of this subsection (h)(3), the 14 State Readiness Measures shall address, at a minimum:

i) language and literacy development:
• communication and use of language (Expressive);
• reciprocal communication and conversation;
• comprehension of age-appropriate text;

• relationships and social interactions with peers.

B) Each school district shall report electronically the results of the observations conducted and evidence collected once each school year (i.e., after 40 days of enrollment beginning with the first day of official attendance). The data required under this subsection (h)(3)(B) shall be reported for any student who was enrolled in a kindergarten classroom at least 30 days before the date on which the data is required to be reported.
By August 1 of each school year, each school district shall provide to the State Superintendent the name, title, email address and telephone number for the district staff personnel who will serve as the KIDS contact persons, using a form prescribed for this purpose. Staff personnel serving as the KIDS contact person can be anyone that the district chooses, but preferably is someone who is working closely with the kindergarten teachers and can act as a liaison between SBE and the kindergarten teachers. This can include teachers and administrators.

Each KIDS contact person designated under subsection (h)(3)(C) shall participate in, at a minimum, a KIDS administrator training sponsored by the State Board no later than 30 days after the beginning of the school year. A KIDS contact person need only take the KIDS administrator training once.

All teachers teaching in a public or charter school classroom containing kindergarten students shall complete or have had completed the KIDS teacher training sponsored by the State Board.

Beginning in the 2017-18 school year and thereafter, a public school district, including charter schools, shall report the data required under subsection (h)(3)(B) for each student enrolled in kindergarten.

The 14 State Readiness Measures shall be reported for kindergarten children taught in a self-contained special education classroom or an alternative setting unless a special education team deems it inappropriate, at which time the justification for this decision must be recorded in the Individualized Education Program.

The 14 State Readiness Measures shall be reported for kindergarten children who are English learners unless the school district deems that required Language and Literacy Measures should be substituted with more appropriate non-required measures.

The educational system shall provide students with opportunities to prepare themselves for entry into the world of work.
2) Every district shall initiate a Career Awareness and Exploration Program that should enable students to make more meaningful and informed career decisions. This program should be available at all grade levels.

j) Co-Curricular Activities

Consumer education may be included in course content of other courses, or it may be taught as a separate required course.

3) The minimal time allocation shall not be less than nine weeks or the equivalent for grades 9-12.

4) Teachers instructing in consumer education courses shall hold educator licensure valid for the grade levels taught and have completed at least three semester hours in consumer education courses.

o) Library Media Programs

Each school district shall provide a program of library media services for the students in each of its schools. Each district's program shall meet the requirements of this subsection (o).

1) General

The program shall include an organized collection of resources that circulate to students and staff in order to supplement classroom instruction, foster reading for pleasure, enhance information literacy, and support research, as appropriate to students of all abilities in the grade levels served. A district that relies solely upon the collection of a local public library shall maintain evidence that students receive instruction, direction, or assistance in locating and using resources that are applicable to these purposes from an individual who is qualified under Section 1.755 and who is acting on behalf of the school district.
2) Financial Resources

3) Facilities
If there is no single location within a particular attendance center that is specifically devoted to a library media center, such as where classroom collections have been established instead, the district shall ensure that equitable access to library media resources is made available to students in all the grade levels served. i) undergraduate or graduate coursework in library science offered by a regionally accredited institution of higher education; or

ii) one or more workshops, seminars, conferences, institutes, symposia, or other similar training events that are offered
by the Illinois State Library, a regional library system, or another professional librarians' organization; or

iii) one or more "library academies" if these are made available by or at the direction of the State Superintendent of Education.

B) A district that is otherwise unable to fulfill the requirements of this subsection (o)(4) shall ensure that the overall direction of the library media program (e.g., selection and organization of materials, provision of instruction in information and technology literacy, structuring the work of library paraprofessionals) is accomplished with the advice of an individual who is qualified pursuant to Section 1.755.

p) Physical Education
Appropriate activity related to physical education shall be required as provided for by Section 27-6 of the School Code. The time schedule shall compare favorably with other courses in the curriculum. Safety education as it relates to the physical education program should be incorporated. See Section 1.425 for additional requirements that apply to the provision of physical education instruction.

Section 1.422 Electronic Learning (E-Learning) Days Pilot Program

Section 10-20.56 of the School Code [105 ILCS 5/10-20.56] authorizes a pilot program for the use of e-learning days by school districts to provide instruction while the students are not in attendance at the school to which they have been assigned. An e-learning day may be used only in lieu of using one or more emergency days required under Section 10-19 of the School Code [105 ILCS 5/10-19]. This Section sets forth the process to apply for approval to participate in the E-Learning Days Pilot Program (hereinafter, referred to as the "e-learning program") and the terms and conditions for the use of e-learning days by participating districts.

a) An "approvable e-learning day":

1) is a day of instruction provided for students who are not physically present at the school and that is accessible to all students, including students with disabilities and English learners;

2) consists of a minimum of five clock hours of instruction; and

3) is provided through electronic means, such as the Internet, telephones, text messages, chat rooms, or other similar means of electronic communication for instruction and interaction between teachers and students that meets the needs of all learners. (Section 10-20.56(b) of the School Code)

b) "All mandates", as used in Section 10-20.56(b) of the School Code, means mandates specific to academic goals and learning objectives, content areas of instruction, and instructional and other school support services. "All mandates" does not include the provision of transportation, school lunch and breakfast, after school care or other services not directly related to the provision of instruction.

c) Once an e-learning day is used, a school district approved under this Section shall electronically submit a request to its regional office of education or intermediate service center to amend its calendar not later than 30 days from the date on which an e-learning day was taken. The request shall include a signed assurance that the district complied with each of the requirements of Section 10-20.56 of the School Code and Section 1.420(f)(5)(D) of this Part.

d) If a school district used the e-learning day pursuant to Section 18-12 of the School Code [105 ILCS 5/18-12], the district also shall submit the information required under Section 1.420(f)(4) of this Part.

e) A school district wishing to participate in the E-Learning Days Pilot Program shall submit an application to the State Board of Education that addresses each of
the components listed in Section 10-20.56 of the School Code and subsection (f) of this Section.

1) Each application for the E-Learning Days Pilot Program shall be submitted in a format specified by the State Superintendent by September 1 annually.

2) Each application shall include a cover page that is signed by the school district superintendent; each of the district's exclusive collective bargaining representatives; and, as applicable, the district's regional superintendent of education or chief administrative officer of the district's intermediate service center.

3) Each application shall include a description of the public hearing held by the school board to take testimony from the public, including from school district employees and parents, about the request.

4) Each application shall include a dated copy of the notice of the public hearing that was published in a newspaper of general circulation and a dated copy of the written or electronic notifications about the public hearing that meet the requirements of Section 10-20.56(c) of the School Code.

f) In addition to addressing each of the components in Section 10-20.56(d) of the School Code, each applicant shall:

1) describe the process to be used to verify that five clock-hours of "instruction" under the direct supervision of educator licensed teachers will be provided;

2) present a plan for addressing technology problems and providing other technical support, as applicable to its e-learning delivery system;

3) detail how instruction and other services and programs provided by the e-learning program will:

   A) address all the instructional mandates contained in Article 27 of the School Code (i.e., language arts, mathematics, the biological, physical and social sciences, the fine arts, and physical development and health) and this Part, as applicable;

   B) comply with Article 14 of the School Code [105 ILCS 5/Art. 14], 23 Ill. Adm. Code 226 (Special Education), and the Individuals
with Disabilities Education Act (also referred to as IDEA) (20 USC 1400 et seq.) and its implementing regulations (34 CFR 300, as amended by 71 Fed. Reg. 46540 (August 14, 2006) and 73 Fed. Reg. 73027 (December 1, 2008), no later amendments or editions included), and Section 504 of the Rehabilitation Act of 1973 (29 USC 701 et seq.), regarding the provision of services for students with disabilities;

C) comply with Article 14C of the School Code [105 ILCS 5/Art. 14C] and 23 Ill. Adm. Code 228 (Transitional Bilingual Education), regarding services for English learners;

D) address the varying learning needs of students enrolled in general education coursework to include, as applicable, how the district will meet the instructional needs of students participating in, or receiving services from, programs under the Elementary and Secondary Education Act (20 USC 6301 et seq.) or McKinney-Vento Homeless Assistance Act (42 USC 11431 et seq.);

E) align to the district's curriculum and address the specific learning objectives of the course of instruction being provided; and

F) meet the requirements of Section 27-6 of the School Code [105 ILCS 5/27-6], regarding the provision of physical education, subject to any waiver of the requirement approved pursuant to Section 2-3.25g of the School Code [105 ILCS 5/2-3.25g];

4) describe the process it will use to monitor Internet access or other electronic participation of individual students on an e-learning day (also see Section 1.420(f)(5)(D)); the description shall provide sufficient evidence of how students will actively participate in the program and any contingencies to be considered for students who are unable to access instruction due to computer problems, power outages or other circumstances beyond a student's control; and

5) describe how expectations for e-learning coursework and other activities will be communicated to students and parents in advance of the school district's use of an e-learning day, as well as how feedback will be gathered from staff, students and parents about the successes and challenges of the e-learning program.

g) Each application for an E-Learning Days Pilot Program that meets the requirements of Section 10-20.56 of the School Code and this Section shall be
evaluated according to the criteria set forth in this subsection (g). The three highest ranked applications will be approved.

1) Delivery System (up to 25 points)

A robust system has been proposed to manage the e-learning system, ensuring accurate identification of students, reliable management of student attendance and provision of effective remedies for technical issues that may arise during the e-learning day that limit or block a student's or staff member's access to online participation.

2) Instructional Program (up to 25 points)

The proposed program:

A) is built upon research about effective distance learning approaches;

B) includes a curriculum with high-quality learning experiences aligned to the learning objectives of the course or grade (including addressing the applicable instructional mandates identified in Article 27 of the School Code); organized lesson plans or other documentation of the instruction to be provided; and sequence and pacing to allow students to be successful; and

C) contains no penalties for students who encounter technical difficulties, providing a process for students to submit school work for credit that they were unable to complete during the e-learning day.

3) Special Populations (up to 25 points)

Provisions for providing services for students with disabilities and English learners are appropriate and comply with State and federal laws and regulations. The program also is likely to meet the varying learning needs of the students enrolled in general education coursework by adequately considering ability, grade level, at-risk status and/or demographic diversity.

4) Notification and Training (up to 25 points)

The proposed process for both involving staff, students and parents in the program design and for notifying and orienting them about the e-learning program to be implemented will sufficiently prepare staff, students and
parents to fully participate in and navigate the e-learning system effectively and efficiently. A detailed plan is included for collecting feedback from staff, students and parents after an e-learning day is used.

5) Priority Consideration

Priority consideration may be given to proposals with specific areas of emphasis, such as to ensure geographic distribution or the participation of school districts with varying demographic characteristics, as identified by the State Superintendent of Education in a particular Request for Applications.

h) The State Superintendent of Education will notify school districts approved for participation in the E-Learning Days Pilot Program no later than 45 days following the close of the application period.

i) Approval to participate in the E-Learning Days Pilot Program will be for three years (see Section 10-20.56(d) of the School Code), except that approval in the second and third years shall be based on a review of the continuation application required under this subsection (i).

1) By September 1 of each year following initial approval, each participating school district shall submit a continuation application to the State Superintendent that:

A) provides a summary of how the applicant will meet each of the program components listed in Section 10-20.56 of the School Code and this Section;

B) describes any changes in the program delivery model to be implemented for the school year;

C) identifies any problems encountered in the previous school year related to the provision or monitoring of the program; and

D) proposes remedies to be implemented during the next school year to resolve the problems identified.

2) The continuation application shall be submitted electronically through the Illinois Web-based Application Security (IWAS) System (see https://sec1.isbe.net/iwas/asp/login.asp?js=true) according to the timelines established by the State Superintendent of Education.
3) Approval during any continuation period shall be contingent upon sufficient evidence that the e-learning program to be implemented in the continuation period meets each of the requirements of Section 10-20.56 of the School Code and the application approved under this Section and that any deficiencies identified have been resolved.

j) Terms and Conditions of Approval

1) A school district that receives approval to participate in the E-Learning Days Pilot Program shall notify all educator licensed personnel and other employees, students and parents that it will be implementing an e-learning program no later than 10 school days after receiving notification of approval from the State Board of Education.

2) An e-learning day shall be implemented on a districtwide basis, except as otherwise authorized under Section 18-12 of the School Code.

3) A school district that is approved to use e-learning days may choose to use an emergency day instead of an e-learning day; that is, the school district's participation in the e-learning program does not compel it to use only e-learning days. Further, the school district is not required to exhaust all of its emergency days before using an e-learning day.

4) A school district using an e-learning day shall use only educator licensed personnel under contract with the school district to deliver instruction, except that a person holding a substitute teaching license issued under Section 21B-20 of the School Code [105 ILCS 5/21B-20] may be used in cases of illness or leaves of absence.

5) The school district shall assign one or more school administrators to monitor the program, to include, but not be limited to, verifying attendance, providing instruction should a teacher be unavailable, and overseeing student participation and the technical aspects of the e-learning program.

6) The State Superintendent of Education may withdraw approval of the e-learning program when evidence is presented that the school district violated the requirements, terms and conditions set forth in Section 10-20.56 of the School Code and/or the application approved under this Section.

7) A student unable to participate in an e-learning day due to computer problems, power outages or other circumstances beyond the student's
control shall not be penalized (e.g., unexcused absences, lowering of grades) for his or her inability to participate in the e-learning instruction if the student later completes and submits the required school work within a timeframe specified by the district. A school district, however, shall not count the student as being in attendance on the e-learning day for purposes of determining average daily attendance when computing General State Aid.

8) A school district shall compute General State Aid in accordance with the requirements of Section 18-8.05(F) of the School Code and Section 1.420(f) of this Part.

9) A school district shall submit a final report specific to its e-learning program no later than December 31, 2018, and interim reports no later than 30 days after an e-learning day is used, that address, at minimum, each of the items listed in this subsection (j)(9). The reports shall be submitted in accordance with a format specified by the State Superintendent of Education. Each report shall include:

A) a description of the process and evidence used to verify that a minimum of five clock hours of instruction or school work was provided for each student participating on the e-learning day;

B) a summary of how each of the requirements of Section 10-20.56 of the School Code and components of the e-learning program approved under this Section were met, describing any challenges encountered and/or solutions proposed to remedy the problems identified;

C) a summary of attendance information of students and teachers for each e-learning day used, compared to attendance information relative to students and teachers for the three days previous to the e-learning day; and

D) a summary of feedback about the e-learning experience from a representative sampling of teachers, students and parents, and how the e-learning program was improved or modified based on the feedback received.

Section 1.425 Additional Criteria for Physical Education

The requirements of this Section apply to a school's provision of physical education required under Section 27-6 of the School Code [105 ILCS 5].

a) There shall be a definite school policy regarding credit earned each semester in physical education, with provisions for allowable variables in special cases.

b) Participation in a physical education course shall be required of all students a minimum of three days per five day instructional week except when an appropriate medical excuse is submitted (see Section 1.425(d)). A school board may also choose to allow for student exemptions as permitted by Section 27-6 of the School Code (see Section 1.425(e)). If a student nonattendance day is scheduled for a day that would otherwise include physical education or the school building is not open to students, physical education for that day does not need to be made up (e.g., if physical education is regularly scheduled for Monday, Wednesday and Friday, but a teacher inservice is scheduled on a given Monday, physical education for that Monday does not have to be moved to Tuesday or Thursday.) However, school districts shall make every effort to ensure all students have the ability to participate in physical education at least three days per week even when school is in session fewer than five days in a given week.

c) *The physical education and training course offered in grades 5 through 10 may include health education* (Section 27-5 of the School Code).

d) Pursuant to Section 27-6(a) of the School Code, a student who presents an appropriate excuse from his or her parent or guardian or from a person licensed under the Medical Practice Act of 1987 shall be excused from participation in physical education.

1) Each school board shall honor excuses signed by persons licensed under the Medical Practice Act of 1987 and shall establish a policy defining the types of parental excuses it will deem appropriate for this purpose, which shall include, but not be limited to, reliance upon religious prohibitions.

2) For each type of excuse that will be considered appropriate, the school board shall identify in its policy any evidence or support it will require. For example, a board may require a signed statement from a member of the clergy corroborating the religious basis of a request.

3) *Special activities in physical education shall be provided for pupils whose physical or emotional condition, as determined by a person licensed under*
the Medical Practice Act of 1987 [225 ILCS 60], prevents their participation in the courses provided for normal children (Section 27-6 of the School Code).

e) Under Section 27-6(b) of the School Code, a school board may excuse pupils from engaging in physical education courses if those pupils request to be excused for any of the reasons listed in this subsection (e). A school board that chooses to allow any of these exemptions shall establish a policy to excuse pupils on an individual basis. The district shall maintain records showing that, in disposing of each request to be excused from physical education, the district applied the criteria set forth in Section 27-6 of the School Code to the student’s individual circumstances.

1) School districts shall have guidelines for the return of students who have been excused from a physical education course pursuant to subsections (e)(2) through (4). These guidelines shall return the student to a physical education course as soon as practical. When creating these guidelines, a school district shall take into consideration the following:

A) The time in the school year when participation ceases;

B) Any future or planned additional participation pursuant to subsections (e)(2) through (4) by a student; and

C) Student class schedules.

2) Students in grades 7-12 on a case-by-case basis, for ongoing participation in an interscholastic (e.g., Illinois Elementary School Association, the Southern Illinois Junior High Athletic Association, and Illinois High School Association) or extracurricular athletic program. Interscholastic and extracurricular athletic programs are limited to those programs that are sponsored by the school district as defined by school district policy.

3) Students in grades 11-12

A) ongoing participation in interscholastic athletics;

B) enrollment in a course required for admittance into postsecondary education; or

C) enrollment in a course required for high school graduation, provided that failure to take such classes will result in the pupil being unable to graduate.
4) Students in grades 9-12
   A) ongoing participation in marching band for credit; or
   B) enrollment in a Reserve Officer's Training Corps (ROTC) program
       sponsored by the school district.

5) Students in grades 3-12
   A) eligibility for special education services and the student's parent or
      guardian agrees, or there is a determination by the student's
      individualized education program (IEP) team, that the student
      needs this time for special education support and services; or
   B) participation in an adaptive athletic program outside school setting
      as outlined in the student's IEP and as documented according to
      school board policy. (See Section 27-6 of the School Code.)

6) A board shall have no authority to honor parental excuses based upon
   students' participation in athletic training, activities or competitions
   conducted outside the auspices of the school district.

f) Assessment and Reporting
   In accordance with Section 27-6.5 of the School Code, each school shall
   use a scientifically-based, health-related physical fitness assessment for grades 3
   through 12 and periodically report fitness information to the State Board of
   Education to assess student fitness indicators.

1) For the purposes of this subsection (f), each school shall administer the
   FitnessGram® (http://www.fitnessgram.net; also see subsection (f)(3)) to
   students in grades 3 through 12 (except as noted in subsection (f)(1)(A)
   and as exempted under Section 27-6 of the School Code) for the
   components and using the test items listed in subsections (f)(1)(A) through
   (f)(1)(D). Beginning in school year 2016-17, the FitnessGram® shall be
   administered at least annually in the second semester of the school year;
   however, schools also are encouraged to administer the assessment at the
   start of the school year in order to receive pre- and post-results.

   A) Aerobic Capacity, grades 4 through 12, either the PACER test or
      the Mile Run test.
B) Flexibility, either the Back-Saver Sit and Reach test or the Trunk Lift test.

C) Muscular Endurance, the Curl-up test.

D) Muscular Strength, the Push-up test.

2) As applicable, a school shall use the methodologies of the Brockport Physical Fitness Testing accessible at http://www.pyfp.org/ to meet the requirements of this subsection (f) for any student with known orthopedic, intellectual and/or visual disabilities whose Individualized Education Program (IEP) and/or 504 Plan identifies the FitnessGram® as not appropriate.

3) In order to ensure that the FitnessGram® and Brockport protocols are followed, school personnel administering the assessments shall participate in training related to the proper administration and scoring of the assessment by reviewing the chapters of the FitnessGram® Test Administration Manual titled "Test Administration", "Aerobic Capacity", and "Muscular Strength, Endurance and Flexibility" and, if applicable, the Brockport Physical Fitness Test Manual for students with disabilities, which are accessible at http://www.pyfp.org/. Each school district shall maintain evidence of an individual's successful completion of the training and make it available to the State Board of Education upon request.

4) *Fitness scores shall not be used for grading students or evaluating teachers* under the provisions of Article 24A of the School Code (Section 27-6.5(b) of the School Code).

5) Each school district shall annually report aggregate data regarding the total number of students whose fitness results for each of the components listed in subsection (f)(1) were identified as meeting the "healthy fitness zone" or as "needs improvement zone".

A) Data shall be submitted electronically to the State Board of Education no later than June 30 of each school year, beginning in school year 2016-17, using the Illinois State Board of Education Web Application Security System (IWAS).

B) Data shall be reported for students in grades 5, 7 and 10 only and include:

i) the total number of students tested by grade and gender;
ii) the total number of students achieving at the "healthy fitness zone" by grade and gender;

iii) the total number of students identified as "needs improvement zone" by grade and gender.

h) Each school district shall establish procedures and protocols to ensure the confidentiality of individual student assessment results consistent with the requirements of the Illinois School Student Records Act [105 ILCS 10] and the Family Educational Rights and Privacy Act (20 USC 1232g).

Section 1.442 State Seal of Biliteracy

In accordance with Section 2-3.159 of the School Code, a school district may establish a program to recognize high school graduates who have attained a high level of proficiency in one or more languages in addition to English, by designating on a student's transcript and high school diploma his or her receipt of the State Seal of Biliteracy, provided that all the conditions of this Section are met. For purposes of this Section, "foreign language" has the meaning prescribed in Section 2-3.159(a) of the School Code.

a) Foreign Language Proficiency

A school district may award the State Seal of Biliteracy to any high school graduate who attains a high level of proficiency, sufficient for meaningful use in college and career (Section 2-3.159 of the School Code), in a language other than English as evidenced by his or her attainment of a composite score of "intermediate high", or its equivalent, on a standardized assessment that addresses the four domains of speaking, writing, listening and reading in the targeted foreign language. For the purposes of this Section, proficiency may be shown using one of the methods outlined in this subsection (a).

1) Assessment Method

A) For purposes of using an assessment to determine proficiency:

i) "Intermediate high" is defined in the ACTFL Proficiency Guidelines 2012, published by the American Council on the Teaching of Foreign Languages, 1001 North Fairfax Street, Suite 200, Alexandria VA 22314 and available at http://www.actfl.org/publications/guidelines-and-manuals/actfl-proficiency-guidelines-2012. (No later amendments to or editions of these guidelines are incorporated.)

ii) For the American Sign Language, "intermediate high" is equivalent to meeting progress indicators for grade 12 set forth in the Standards for Learning American Sign Language (2014), published by the American Sign Language Teachers Association, P.O. Box 38, Clinton WA 98236 and available at http://www.aslta.org/wp-content/uploads/2014/07/National_ASL_Standards.pdf. (No later amendments to or editions of these guidelines are incorporated.)
iii) "Standardized assessment" is one that is available for use on a statewide or national basis and meets generally accepted standards of fairness, validity and reliability as stated in "Standards for Educational and Psychological Testing" (2013), published by the American Educational Research Association, 1430 K Street, N.W., Suite 1200, Washington D.C. 20005. (No later amendments to or editions of these standards are incorporated.)

2) The State Superintendent shall post on its website by July 1 of each year a list of acceptable language assessments (e.g., the ACTFL Assessment of Performance Toward Proficiency in Languages (AAPPL), Advanced Placement (AP) World Language and Culture Exam, Diploma de Español como Lengua Extranjera (DELE)) and the score to be achieved on each that qualifies the student as meeting the criteria set forth in subsection (a)(1)(A)(i) or (ii), as applicable. A school district that chooses to use an assessment to measure foreign language proficiency that is not included on the list shall maintain evidence that the assessment meets the criteria specified in subsection (a)(1)(A)(iii) and either subsection (a)(1)(A)(i) or (ii), as applicable, and make that evidence available to the State Superintendent of Education upon request.

3) Alternative Evidence Method

A school district may choose to award the State Seal of Biliteracy through an alternative evidence method in accordance with this subsecton (a)(3).

A) The alternative evidence method may be used when:

i) a student attains an "intermediate mid" composite score, as defined in the ACTFL guidelines set forth in subsection (a)(1), or its equivalent, on a standardized assessment that addresses the four domains of speaking, writing, listening and reading in the targeted foreign language;

ii) no standardized assessment exists for the targeted foreign language;

iii) evaluating the language proficiency of a student with disabilities for whom the standardized assessment is inappropriate; or
iv) the standardized assessment for the targeted foreign language does not assess one or more of the four domains of speaking, writing, listening and reading.

B) Any alternative evidence method used shall consist of a student portfolio that contains evidence for each component set forth in subsections (a)(3)(C) and (a)(3)(D) that demonstrates proficiency equivalent to an "intermediate high" level in the four domains of speaking, writing, listening and reading.

C) Experience in the Targeted Foreign Language

i) The extent to which the student's language background enables him or her to gain proficiency in the targeted foreign language in one or more of the four domains;

ii) The extent to which the student's participation in intercultural activities provided opportunities to gain proficiency in the targeted foreign language in one or more of the four domains;

iii) The courses taken in the targeted foreign language and the grades received; and/or

iv) The extent to which any time spent in countries where the targeted foreign language is spoken contributed to the student's opportunities to gain proficiency in the targeted foreign language in one or more of the four domains.

D) Work Samples

i) Formal presentations in the targeted foreign language;

ii) Student-produced compositions, articles, papers and other formal documents in the targeted foreign language; and/or

iii) Certificates, diplomas, results from tests or assessments other than those identified under subsection (a) and additional achievements that demonstrate sufficient proficiency in the targeted foreign language.

b) English Proficiency

A school district that chooses to use an assessment to measure English language proficiency that is not included on the list shall maintain evidence that the assessment meets the criteria specified in subsection (a)(1)(A)(iii) and one of the sets of criteria for proficiency set forth in this subsection (b) and make that evidence available to the State Superintendent of Education upon request.

c) The State Seal of Biliteracy program may offer a State Commendation toward Biliteracy to any student who fails to meet the requirements of subsection (a) but attains a score of "intermediate low", or its equivalent, in the targeted foreign language using the method set forth in subsection (a)(1) or (a)(3).

In accordance with Section 2-3.167 of the School Code [105 ILCS 5], a school district may establish a program to recognize public high school graduates who have attained global competence, sufficient for meaningful use in college and career, by designating on a student's transcript and high school diploma his or her receipt of the Illinois Global Scholar Certificate, provided that all the conditions of this Section are met.

a) Attainment of Global Competency Sufficient for use in College and Career
A school district may award the Illinois Global Scholar Certificate to any high school graduate who demonstrates global competency by successfully meeting all of the following criteria:

1) Complete Eight Globally-Focused Courses

A) Students earning the Illinois Global Scholar Certificate must complete a total of eight globally-focused courses from at least two different academic disciplines (i.e., science, social studies, fine arts, English/language arts/communication arts, world languages (i.e., foreign or classical languages), mathematics, career and technical education, physical education, family and consumer science, etc.).

B) A globally-focused course may be a year-long course or a semester long course.

D) Globally-focused courses must address world issues, perspectives, concerns or culture throughout the duration of the course. Courses
that employ a global focus or address global topics in some units but not others are not sufficient to be deemed globally-focused courses, nor are courses that survey global arts, foods or music without at least \( \frac{1}{3} \) of class time being devoted to the investigation/research into the phenomena, and/or assessment of the global and cultural context from which the phenomena arise.

E) The following commonly-taught courses are likely to be designated as globally-focused:

2) School districts wishing to require a specific globally-focused course or sequence of courses are encouraged to do so. For example, one school district may opt to require a course (or sequences of courses) in global studies or world languages, while another district may develop defined global pathways in STEM, world language or fine arts. In addition, school districts having limited course offerings may approve specific summer or online coursework, provided that coursework is credit-bearing and meets the Illinois Learning Standards, as well as the requirements described in
subsection (a)(1). School districts may offer additional course options that comply with subsection (a)(1) (see Appendix H).

3) Participate in at least one Sustained Globally-focused Service Learning Activity or Experience

A) Service learning is defined as activities that:

i) actively engage and educate the student within the local community in meaningful, globally-focused service activities that promote understanding of diversity and mutual respect among all participants;

v) incorporate multiple reflection activities that challenge students to think deeply about the relationship of self, society and the world.

B) Service learning opportunities, selected by students and educators in collaboration with the Global Scholar Committee members (GSC) (see subsection (e)(2)) to fulfill this requirement, shall be tied to globally-focused coursework, co-curricular activities oriented toward global service, and/or the student's Global Scholar Capstone Performance-based Assessment.

C) Students earning the Illinois Global Scholar Certificate must engage in at least one globally-focused service learning activity for a minimum of one semester. Criteria to assist districts in determining qualifying globally-focused service learning opportunities is located in Appendix H.
D) Service learning activities must align with State and district learning standards, as well as curricular goals and objectives of the school district.

B) Global collaboration and dialogue experiences shall:

i) Offer opportunities to demonstrate the communication skills necessary to work effectively and respectfully with and within diverse teams;

ii) Offer students opportunities to exercise flexibility and willingness to be helpful in making necessary compromises to accomplish a common goal; and

iii) Offer opportunities for students to assume shared responsibility for collaborative work and value the individual contributions made by each team member.

C) This requirement can be met in one of the following ways:

i) Through a field experience in another country specifically designed to facilitate global dialogue or collaboration among peers (e.g., a class trip to a sister school in another country, participation in government, or funded study abroad program);

ii) Through approved virtual experiences specifically designed to facilitate global dialogue or collaboration among peers; or

iii) Through sustained service or learning experiences that immerse students in a domestic or local cultural context markedly different from the global scholar's cultural context (e.g., a refugee community).
D) A list of approved global collaboration or dialogue opportunities should be created and updated by GSCs in conjunction with the Illinois Global Scholar organization.

5) Earn a score of "pass" on the Global Scholar Capstone Performance-based Assessment described in subsection (b)(4) using the scoring criteria described in subsection (c). The purpose of the Global Scholar Capstone Performance-based Assessment and Criteria are described in Appendix H.

A) To ensure that a wide variety of student work can be evaluated, students shall:

v) Create an artifact (e.g., video, narrative, painting, datasets, presentation, pamphlet, awareness raising campaign, children's book, musical compositions) to demonstrate learning that reflects the student's research/investigation;

vi) Take action to affect change related to the selected issue or concern; and

vii) Reflect on the entire capstone experience.

B) Global Scholar Capstone Performance-based Assessments must result in the following products:

i) A student-created artifact, as described in subsection (a)(5)(A)(v);
ii) Documentation of the steps described in subsection (a)(5)(A) that may include, but are not limited to, a bibliography, interview transcripts, datasets, electronic resources and media, etc.; and

iii) A student narrative that documents each of the steps indicated in subsection (a)(5)(A).

b) This subsection (b) lists the criteria and indicators school districts shall use to score the Global Scholar Capstone Performance-based Assessment. These scoring criteria may be amended from time to time. The State Board shall post on its website by July 1 of each year a copy of the current Assessment scoring criteria, indicators and supporting materials, including examples.

Section 1.510 Transportation

a) Section 29-3 of the School Code [105 ILCS 5/29-3] requires the school boards of certain school districts to provide free transportation to pupils as delineated in that Section. These school districts may provide free transportation to other students in accordance with the remaining applicable provisions of Article 29 of the School Code [105 ILCS 5/Art. 29]. Districts that are not required to provide free transportation may do so at their option.

b) Each district seeking State reimbursement for pupil transportation shall comply with the provisions of Article 29 of the School Code and 23 Ill. Adm. Code 120 (Pupil Transportation Reimbursement). In order to qualify for reimbursement, school districts not required to provide transportation pursuant to a specific Section of Article 29 that elect to do so must afford the same service to all eligible pupils. For example, if a district is not required to transport students under Section 29-3 of the School Code [105 ILCS 5/29-3] but elects to transport some students residing more than 1½ miles from their attendance centers, then the district must transport all students in that same situation in order to claim reimbursement for any transportation service.

c) Each district that is required to provide free transportation has the responsibility of providing sufficient buses for transporting all eligible pupils.

d) Each school district is required to conform to the equipment standards and regulations established by the Department of Transportation.

e) Each local school board that provides transportation shall designate a person under its direct supervision to ensure adherence to all laws and regulations affecting safe pupil transportation.

f) School bus routing is the responsibility of the local school board. School districts shall arrange school bus stops to maximize safety, so that buses will not have to back up, and so that crossing arms will not infringe upon pedestrian crosswalks or cross streets. School buses are not required to enter private property.

g) Local school boards shall institute policies and practices that promote the safety and well-being of school bus passengers, including provisions that support Section 10-22.6(b) of the School Code [105 ILCS 5/22.6(b)]. Local school boards shall require that all school bus drivers who transport pupils have been trained as discussed in Section 1.515 of this Part. The requirements set forth in subsections (h) through (n) of this Section shall serve as minimum statewide
requirements for operating a school bus. Transportation for students who receive special education and related services shall be as set forth in the State Board's rules for Special Education (23 Ill. Adm. Code 226). Local school boards may adopt more stringent requirements, at their discretion.

h) Operation of Bus by the Driver

1) The service door shall be closed at all times when the bus is in motion.

2) Windows shall not be lowered below the stop line painted on the body pillar.

3) The emergency door shall be unlocked but securely latched when operating the school bus.

4) The driver shall not leave the bus while the motor is running.

5) The gasoline tank shall not be filled while there are any persons on the bus or while the motor is running.

6) The school bus signs shall be displayed only when the bus is being used for official school transportation.

7) The required alternately flashing warning lights and stop arm shall be used only when stopping to receive or discharge students.

8) The driver shall not back a bus at the school while students are in the vicinity unless a responsible person is present to guide the bus driver.

9) The driver shall not permit a weapon or explosive of any kind on the bus.

10) The driver shall not smoke when operating a school bus.

i) Passenger Treatment and Supervision

1) All passengers shall be seated when the bus is in motion.

2) Students shall not be asked to leave the bus along the route for breach of discipline, nor shall they be asked to sit anywhere other than on a seat for breach of discipline.

3) The bus driver shall observe the requirements of the district's policy adopted pursuant to Section 12-816 of the Vehicle Code [625 ILCS 5/12-
816] with respect to ensuring the no passenger remains on the bus at the end of a route, a work shift, or the work day.

j) Loading and Unloading

1) When children are picked up and must cross a roadway, the driver shall beckon them to cross the road when it is safe to do so.

2) The driver on a regular route shall not be expected to wait for a tardy student and may proceed on a timely route if the student is not in sight.

3) At school, the bus shall be driven onto the school grounds to discharge pupils or they shall be otherwise discharged so they will not have to cross a street if at all possible. At all discharge points where it is necessary for pupils to cross a roadway, the driver shall direct students to a point at least ten feet in front of the bus on the shoulder of the roadway and shall direct them to remain there until a signal is given by the bus driver for the students to cross.

4) A driver shall not allow a student to get off the bus at any place other than the student's designated discharge point unless permission is granted by the proper school official.

5) If a loading zone is not visible to traffic approaching from either direction, the district shall notify the Illinois Department of Transportation and request a determination as to the need to erect appropriate signs.

k) Permitted Occupants

1) The manufacturer's capacity for a bus shall not be exceeded.

2) Only persons authorized by the school district shall be allowed to ride school buses. Except with the permission of school authorities, the driver shall transport no school children with animals. Any animal transported shall be properly confined at all times when it is on a school bus.

l) Accidents

1) In case of an accident or breakdown while the bus is transporting students, the first consideration shall be whether it is safer to evacuate the students or to have them remain on the bus.
2) All accidents shall be reported immediately to the appropriate school officials.

3) A School Bus Accident Report shall be completed in a format prescribed by the State Superintendent of Education and shall be forwarded to the regional superintendent immediately after any accident.

4) In case of a death that occurs as a result of a school bus accident, the responsible district official shall immediately notify the regional superintendent by telephone.

m) Railroad Crossings

Each driver of a school bus shall stop at all railroad crossings except where protected by a human flagman or law enforcement officer or marked as having been exempted by the Illinois Commerce Commission pursuant to Section 11-1202 of the Illinois Vehicle Code [625 ILCS 5/11-1202].

1) The driver shall stop between 15 and 50 feet in front of the first rail. While stopped, the driver shall open the service door, listen and look in both directions for any approaching train. When the driver determines that no train is approaching, he or she shall close the door, then proceed completely across the grade crossing without changing gears.

2) A driver who has stopped at a railroad crossing that is protected only by flashing lights and who determines that no train is, in fact, approaching (i.e., a malfunction is apparent) may proceed despite the warning lights, provided that he or she has compiled with the requirements of subsection (m)(1) of this Section.

3) The driver shall not use the alternately flashing warning signals or stop arm at railroad grade crossings.

n) School Bus Crossing Arm

1) A school bus driver shall use the school bus crossing arm whenever the bus stops to allow students to enter or leave the bus. The driver shall allow sufficient space for the full extension of the crossing arm without infringing on other vehicles, other obstacles, the pedestrian crosswalk, or a cross street. However, a driver may omit using the crossing arm at school loading areas where school buses are parked bumper to bumper or when extending the crossing arm would impede pedestrians' crossing, extend into the adjacent cross street, or collide with another object or vehicle.
2) A school bus driver shall report to the affected school district any instance when the crossing arm cannot be used as required. School districts shall use this information in evaluating school bus routes and pickup and dropoff points. Districts shall retain these records in a manner consistent with their retention policies applicable to other records.

3) A school bus shall not be used if its crossing arm is found to be inoperable during the pre-trip inspection, or if the crossing arm has malfunctioned and has not yet been repaired.

4) If a crossing arm malfunctions while the school bus is carrying students, the driver shall note the stop where the malfunction first occurs and may complete the route if permitted to do so by local board policy.
Section 1.515 Training of School Bus Driver Instructors

Initial and refresher training is required of all school bus drivers by Section 6-106.1 of the Illinois Vehicle Code [625 ILCS 5/6-106.1]. Pursuant to Section 3-14.23 of the School Code [105 ILCS 5/3-14.23], regional superintendents of schools are responsible for conducting training programs for school bus drivers. These programs shall be established by the State Board of Education and approved by the Secretary of State pursuant to the Secretary's rules titled School Bus Driver Permit (92 Ill. Adm. Code 1035).

a) 92 Ill. Adm. Code 1035.30 of the Secretary's rules requires the certification of bus driver instructors by the State Board of Education. The following standards shall apply to this certification.

1) The person must be at least 21 years of age.

4) The person must have assisted a certified instructor in conducting an initial school bus driver training course and a refresher course; the person must also have taught each of these types of courses under the observation of a certified instructor and have received a satisfactory evaluation of overall teaching performance.

5) Certification of bus driver instructors shall be renewed annually. Renewal shall be sought by the regional superintendent of the region where services will be provided, with the permission of the individuals in question and using a form supplied by the State Superintendent of Education. Renewal of certification shall be based on the criteria set forth in subsections (a)(1) through (a)(4) of this Section.

b) The State Superintendent shall notify each regional superintendent of the certification status of all affected instructors in his or her region and of any deficiencies preventing the certification of any individual. The regional superintendent shall be responsible for notifying instructors of their status.
e) The regional superintendent shall be responsible for notifying the employers of all bus drivers who complete initial or refresher training courses.

Section 1.520 Home and Hospital Instruction

The provisions of this Section apply to any student who has not been identified as eligible for special education services, in accordance with 23 Ill. Adm. Code 226 (Special Education), and who receives services at home or in a hospital or other setting because he or she is unable to attend school elsewhere due to a medical condition, and for which the resident school district is seeking reimbursement under Section 14-13.01(a) of the School Code [105 ILCS 5/14-13.01(a)]. Requirements pertaining to home and hospital instruction for students with disabilities shall be as set forth in 23 Ill. Adm. Code 226.300 (Continuum of Placement Options).

a) When a student has a medical condition that will cause an absence for two or more consecutive weeks (i.e., 10 school days) of school or ongoing intermittent absences, as defined in Section 14-13.01(a) of the School Code, the school district for that child shall consider the need for home or hospital services. The provision of home or hospital services shall be based upon a written statement from a physician licensed to practice medicine in all its branches that specifies:

1) the child's medical condition;

2) the impact on the child's ability to participate in education (the child's physical and mental level of tolerance for receiving educational services); and

3) the anticipated duration or nature of the child's absence from school.

b) The amount of instructional or related service time provided through the home or hospital program shall be determined in relation to the child's educational needs and physical and mental health needs. The amount of instructional time shall not be less than five hours per week unless the physician has certified in writing that the child should not receive as many as five hours of instruction in a school week. In the event that the child's illness or a teacher's absence reduces the number of hours in a given week to which the child is entitled, the school district shall work with the child's teachers and the child's parents to provide the number of hours missed, as medically advisable for the child.

c) A child whose home or hospital instruction is being provided via telephone or other technological device shall receive not less than two hours per week of direct instructional services.

d) Instructional time shall be scheduled only on days when school is regularly in session, unless otherwise agreed to by all parties.
e) For the purpose of determining average daily attendance, school districts shall calculate days of attendance for hospitalized or homebound students in accordance with the provisions of Section 18-8.05(F)(2)(e) of the School Code.

f) Home or hospital instructors shall meet the requirements of 23 Ill. Adm. Code 1.610 (Personnel Required to be Qualified), except that the use of an individual who holds only a substitute teaching license is permissible if the individual provides instruction under the supervision of an individual who holds a professional educator license endorsed in a teaching field and is the teacher in whose class the student is enrolled. A school district using the services of a substitute teacher for home or hospital instruction pursuant to this subsection (f), however, is not eligible for reimbursement under Section 14-13.01 of the School Code.

g) A school district is not obligated to provide home and hospital instruction when the referral for the services is presented when two weeks or less remains in the school year.

h) Homebound instruction shall be provided for students who are pregnant according to the provisions set forth in Section 10-22.6a of the School Code.

b) Paraprofessionals

1) School boards may further utilize volunteer personnel or employ personnel who do hold an educator license with stipulations endorsed for paraprofessional educator to serve as paraprofessionals (or "teacher aides") to assist in the instruction of pupils, so long as each individual is under the immediate supervision of a teacher who holds a valid professional educator license endorsed for the teaching field of assignment and is directly engaged in teaching subject matter or conducting activities (see Sections 10-22.34 and 34-18 of the School Code). To "assist in the instruction of pupils", i.e., to serve as a paraprofessional, means to support teachers through interactions with students that will help them master curricular content, such as by tutoring; or to assist with classroom management, such as by organizing instructional materials.

2) Beginning July 1, 2013, an individual employed as a paraprofessional shall meet the requirements set forth in 23 Ill. Adm. Code 25.510 (Paraprofessionals) except in the following circumstances.

3) Each paraprofessional shall be under the direct supervision and control of a fully licensed teacher when assisting with instruction, whether this occurs in classrooms, laboratories, shops, playgrounds, libraries, or other educational settings where instructional judgment requires the supervision of a fully licensed teacher. The fully licensed teacher shall be responsible for planning the activities to be conducted by the paraprofessional and for evaluating the pupils with whom the paraprofessional works. The fully licensed teacher shall be continuously aware of the paraprofessional's activities, i.e., the teacher shall be responsible for controlling the paraprofessional's activities and shall be able to modify them at any time.

4) Paraprofessionals shall not be utilized as substitutes for or replacement of fully licensed teachers, and they shall not have equivalent responsibilities. Fully licensed teachers shall exercise professional judgment when assigning duties to paraprofessionals and shall retain the responsibility for determining students' scholastic activities.

5) Each school district shall:

A) submit a list of all paraprofessionals it employs to the State Superintendent of Education with its annual application for recognition;

B) maintain a file for each paraprofessional that describes his or her functions and includes his or her statement of approval, if applicable, or verification of his or her holding an educator license with stipulations endorsed for paraprofessional educator; and

C) be responsible for ensuring that no individual is employed as a paraprofessional without an educator license with stipulations endorsed for paraprofessional educator, except as permitted under subsection (b)(2) of this Section, and that paraprofessionals whose paraprofessional approval was continued are assigned only to tasks for which their approval is valid.

A) A candidate participating in clinical experiences shall not be required to hold an educator license with stipulations endorsed for paraprofessional if:

i) the candidate is engaging in the clinical experience as part of an approved Illinois teacher preparation program in which he or she is enrolled;

ii) when the candidate assists in instruction, he or she is under the immediate supervision of a teacher who holds a valid professional educator license and is directly engaged in teaching the subject matter or conducting other learning activities; and

iii) the cooperating teacher constantly evaluates the candidate's activities and is able to control or modify them.

Adm. Code 25.620 (Student Teaching) (see Section 10-22.34(d) of the School Code).

for which they are particularly qualified by reason of specialized knowledge or skill. The regional superintendent shall approve an assignment of this type when:

i) the individual holding a professional educator license endorsed in a teaching field under whose direction the instruction will be provided has specified in writing the material to be covered and the amount of time to be allotted for the specialized instruction;

ii) the district superintendent has identified in writing the selected individual's professional competence or outstanding proficiency in the area of specialization in which instruction is to be provided;

iii) the district superintendent has affirmed in writing that a district representative has determined the environment where instruction will be provided, if away from the school, to be safe and appropriate to the age of the students involved; and

iv) the district superintendent has described the precise function to be served by the specialized instruction and any compensation to be paid to the selected individual.

Section 1. APPENDIX D  State Goals for Learning

The State Goals for Learning are broad statements of what students in kindergarten through grade 12 should know and be able to do as a result of their public education. The Illinois Learning Standards provide more specific definition of the essential knowledge and skills desired of Illinois students. The State Assessment and the Illinois Kindergarten Individual Development Survey are designed to measure students' mastery of the Illinois Learning Standards, so that a clear connection will emerge between students' learning and the goals and standards of the State of Illinois.

ENGLISH LANGUAGE ARTS AND LITERACY IN HISTORY/SOCIAL STUDIES, SCIENCE, AND TECHNICAL SUBJECTS

There are no State Goals for Learning in this area. The applicable standards shall be the "Common Core State Standards for English Language Arts and Literacy in History/Social Studies, Science, and Technical Subjects" (2010) published by the Common Core State Standards Initiative, National Governors Association, Hall of the States, 444 North Capitol Street, Suite 267, Washington DC 20001-1512 and posted at http://www.corestandards.org/the-standards. Section 1.ANNEX H GUIDANCE AND PROCEDURES FOR SCHOOL DISTRICTS IMPLEMENTING THE ILLINOIS GLOBAL SCHOLAR CERTIFICATE

DETERMINING GLOBALLY-FOCUSED COURSES

Though many school districts may offer courses listed in the subject areas described in Section 1.443(a)(1)(E), courses and subjects other than those listed in that subsection may qualify as globally-focused. Other courses, such as those in family and consumer science, the arts, health, mathematics and agricultural science, may also qualify, provided that an appropriate depth of knowledge of, and inquiry about, global issues and cultural diversity are incorporated. School districts shall consider the following criteria in determining which courses should be considered globally-focused:

Globally-focused courses require students to:

1) investigate the world;
2) recognize the perspectives of self and others;
3) communicate ideas to diverse audiences; and
4) take action to improve conditions locally and globally.

These requirements, developed in consultation with the Council for Chief State School Officers, reflect the four established domains of global competence and closely follow both the Partnership for 21st Century Skills objectives and national learning standards adopted by the State of Illinois. School districts and GSCs working to determine which courses qualify as globally-focused should consider the following questions:

Question 1: Does the course require students to investigate the world?
Courses selected for inclusion as part of a school district's globally-focused course offerings should promote content and skills that provide students the means to understand the world beyond their immediate environment.

Question 2: Does the course provide opportunities for students to recognize their own perspectives in relationship to the perspectives of others?
Courses selected for inclusion as part of a school district's globally-focused course offerings should provide students with opportunities to demonstrate a clear and accurate understanding of the perspectives of other people, groups or scholars. The courses should also incorporate complex analyses of how varying perspectives influence human interactions and how this affects people's understandings of a situation, event, issue or phenomenon.

Question 3: Does the course prepare students to communicate ideas to diverse audiences?
Though not all courses selected for the certificate will prepare students to collaborate and communicate with diverse groups, the courses should include assignments, activities and/or projects that prepare students to engage in this type of collaboration and communication in preparation for the capstone project.

**Question 4: Does the course provide opportunities to act upon global issues and concerns?**

Though not all courses selected for the certificate need to include organized opportunities for students to engage directly in collaborative action resulting in local, regional or global improvements, the courses should encourage students to consider how the action might be executed. Moreover, school districts are encouraged to embed global service learning opportunities within coursework and co-curricular activities as these opportunities are requirements for the certificate.

**Qualifying Courses**

Content/subjects taught within high school offerings in the following subjects are likely to meet these requirements as course content cannot be effectively taught without a global perspective.

- International economics, international business or global marketing
- International or foreign affairs
- World history/non-U.S. history
- World geography
- Comparative cultures, comparative religions, comparative government
- Science, technology and engineering courses with global application/perspective
- World languages
- Literature of another country, region or culture
- World art and world music appreciation

Though many high schools offer courses in these subject areas, the subject areas listed above are not the only courses that may qualify as globally-focused. Other courses, such as those in family consumer science, the arts, mathematics, health and agricultural science, may also qualify, provided that an appropriate depth of knowledge of, and inquiry about, global issues and diversity is incorporated. The examples identified in the following chart, though not exhaustive, are provided to give guidance to school districts and GSCs seeking to determine if a course investigates the world.

<tr>

</tr>
</thead>
<tbody>
<tr>
<td><strong>Insufficient Depth</strong></td>
</tr>
<tr>
<td>Students create an artistic piece or performance inspired by another culture.</td>
</tr>
<tr>
<td>Students prepare food from another part of the world or another culture.</td>
</tr>
<tr>
<td>Students use datasets from another country or culture to illustrate a concept.</td>
</tr>
<tr>
<td>Students use examples of agricultural management, finance, marketing and/or the foundations of crop and livestock production in a unit on the global marketplace.</td>
</tr>
<tr>
<td>Students learn about epidemics/disease, health care practices and/or prevention measures through case studies in other parts of the world.</td>
</tr>
</tbody>
</table>

**Other Considerations Related to Coursework**

School districts wishing to require a specific globally-focused course or sequence of courses are encouraged to do so. For example, one school district may opt to require a course (or sequence of courses) in global studies or world languages, while another district may develop defined global pathways in STEM, world language or fine arts. These options, or others, may be added at the discretion of the school district, provided students fully complete all four of the overarching requirements needed to earn the Illinois Global Scholar Certificate, including the requirement that each student complete eight globally-focused courses. In addition, school districts having limited course offerings may approve specific summer or online coursework, so long as that coursework has been deemed credit bearing by an ISBE approved institution.

**GUIDANCE FOR DETERMINING SERVICE LEARNING**
Service learning opportunities selected by students and GSCs to fulfill this requirement should be tied with globally-focused coursework, co-curricular activities oriented toward global service, and/or the student's capstone research project. In addition, selected service learning opportunities should adhere to the following guidelines for service learning found in the K-12 Service Learning Standards for Quality Practice developed by the National Youth Leadership Council:

- Actively engage and educate the local community in meaningful globally-focused service activities that promote understanding of diversity and mutual respect among all participants.
- Allow the student to be self-directed in initiating, planning, implementing and evaluating throughout the experience.
- Be designed with sufficient duration and intensity to address community needs within a global context.
- Engage participants in an ongoing process to assess the quality of implementation and progress toward meeting specified goals, and use the results for improvement and sustainability.
- Incorporate multiple reflection activities that challenge students to think deeply about the relationship of self, society and the world.

**PURPOSE OF PRIORITY STANDARDS OF THE GLOBAL SCHOLAR CAPSTONE PERFORMANCE-BASED ASSESSMENT**

The purpose of the Illinois Global Scholar Capstone Performance-based Assessment is to ensure the high level of knowledge and skills possessed by the students applying for this recognition. Students will engage in a process of inquiry with required components and products, demonstrating mastery of designated national learning standards and standards for global competence. The process in which students are expected to engage and the products students are expected to create must provide the opportunity for students to demonstrate mastery. Transparency of the alignment of assessment to standards provides a more valid picture of students' knowledge and skills.

The Assessment shall align with the following four priority standards:

i) Students develop compelling questions and plan inquiries.

ii) Students communicate ideas effectively with diverse audiences.
iii) Students translate their ideas and findings into an appropriate plan of action to improve conditions based on the global issue or concern.

iv) Students engage in appropriate and informed actions to address or potentially improve conditions based on an analysis of a global issue/concern.
