Program Data Review (PDR) System Support Document

Updated 01/08/2020
Overview

The secondary Illinois Comprehensive Local Needs Assessment process consists of the following steps:

1. **Verification of current approved Programs of Study** (ISBE will provide list to be approved; this step must be completed prior to stakeholder engagement)
2. **Completion the Program Data Review (PDR)** (secondary schools must complete)
3. **Completion of Local Needs Assessment (LNA)** (secondary districts must complete)
4. **Identification of Planning Team** (stakeholder engagement; establish dates to meet with stakeholders to complete CLNA)
5. **Identification of data sources** (PDR and LNA results will be provided for review)
6. **Analysis of the disaggregated data** (stakeholder discussion with prompts; many data points are prepopulated from the PDR and LNA)
7. **Identification of areas of growth and strengths** (what is working; summaries within each area of measurement)
8. **Identification of areas of opportunity** (what requires improvement; summaries within each area of measurement)
9. **Prioritization of opportunities** (create a timeline based on your needs for each area of measurement within the programs of study)

The goal of this document is to provide an overview of how to complete your program data review. Please use this document as a guide to walk you through the online process of approving your programs of study.

If you have programmatic questions or if there are issues with system functionality, please contact ISBE’s CTE and Innovation Department at (217) 524-4832 or cte@isbe.net. When you reach out through email with an issue, please include the RCDTs, a description of the issue, and a screen shot(s) of the issue. If you have IWAS access issues, please call ISBE’s Call Center at (217) 558-3600.
Access Levels and Accessing the System

Accessing Levels

➢ School Users should be staff or administrators at secondary schools or area career centers with knowledge of the entity’s CTE programs and courses offered. Usually, this would be the individual that works with the EFE System Director annually on correcting CTE Illinois State Course System (ISCS) assignments.

➢ District Admin:
  o School District Administrative Agent – usually Superintendent
  o Area Career Center (ACC) Administrative Agent – usually ACC Director
  o Other district-based staff such as CTE directors can be given this access without impacting superintendent access

➢ Business Manager: EFE Administrative Agent or their designee; will also be the individual to update EFE region center programs and courses

Please Note: All users for the CTE Program of Study Approval system were given the same access in the PDR system

Accessing the System

➢ Sign into ISBE Web Application Security (IWAS) - [https://sec.isbe.net/iwas/asp/login.asp?js=true](https://sec.isbe.net/iwas/asp/login.asp?js=true)
➢ Click on System Listing; then Reporting – Annual – CTE Program Data Review
School User Access

➢ Existing IWAS Users:
  o Go to System Listing – Click on Want to Signup for Other Systems? (bottom right)
  o Go to Reporting – Annual – CTE Program Data Review;
  o Click the button next to it;
  o Complete the necessary information, including justification for access; and
  o Click

➢ New IWAS Users:
  o Go to System Listing – Reporting – Annual – CTE Program Data Review;
  o Click the button next to it;
  o Complete the necessary information, including justification for access; and
  o Click

➢ NOTE: Schools and Area career centers District Admin can choose to complete the application for their respective entities or grant access to School Users to complete this process.

ACCESS LEVEL CLARIFICATION FOR SCHOOLS and SCHOOL DISTRICTS:
If you log in to the CTE Program Data Review and no information populates on your screen, you have an access level issue.

If user’s IWAS profile is District-based (many times ends in four zeros):
  ➢ User’s access for the CTE Program Data Review should be District Admin.
    o This will allow user to see all schools in the district and make any necessary changes.

If user’s IWAS profile is School-based (school code matches a school not a district):
  ➢ User’s access for CTE Program Data Review should be School User.
    o This will allow user to only see information for the school the user is affiliated with and make any necessary changes.

  ➢ If user’s IWAS profile is School-based AND user is responsible for reporting for all schools in the District:
    o User should be assigned District Admin for this system.
      ▪ This will allow the user to report on any – or all – school(s) in the District.

Please note, there is not a limit on the number of individuals who can have District Admin access.
District Admin or Business Manager – Granting User Access to Complete Application

➢ Granting access as a School User:
  o School District Admin grant access to secondary schools under their RCDT.
  o Area career center District Admin grant access to area career centers under their RCDT.
  o EFE Business Managers have automatic access to enter data for EFE region center/programs under their RCDT; can grant access to other EFE personnel as a second Business Manager to complete the process.

➢ Process for granting access:
  o Login to IWAS;
  o Go to the CTE Program Data Review system request;
  o Select School User or District Admin for the correct school representative; and
  o Approve access.

<table>
<thead>
<tr>
<th>Access Level</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>School User</td>
<td>School User is responsible for filling out the application and submitting the application. This will be done by school district, school, or area career center administration or staff with the appropriate knowledge.</td>
</tr>
<tr>
<td>District Admin</td>
<td>District Administrators are generally school district superintendents or area career center directors. They will either complete the application for their respective entities or grant access to School Users (school-based IWAS account) or other knowledgeable district staff (district-based IWAS account) to complete this process. All district-based staff must also be given District Admin access. Can Unlock the application unless the Local Needs Assessment has started.</td>
</tr>
<tr>
<td>Business Manager</td>
<td>Business Manager is the Education for Employment (EFE) System Director and is responsible for communicating with School Users or District Admin to assist them in completing this application. EFE Systems with region centers with CTE programs: complete the Program Data Review application for those centers or assign other EFE personnel as the Business Manager for completion. Can Unlock the application unless the Local Needs Assessment has started.</td>
</tr>

**Program Data Review (PDR)**

**School Users or District Admin Completing the Application:** When a school user logs in, the home page displays all the current CIPs assigned by your EFE System Director. When a district admin logs in, the home page displays all schools for their district. You will need to cycle through each CIP and answer a variety of yes/no questions regarding that program of study. Additionally, you will need to answer questions at the school-wide level for professional learning opportunities, CTE staff capacity, and career cluster guidance. **REMEMBER: The PDR is designed to review the entire program of study of CTE CIPs, which is more than just the coursework contained in the CIPs. It reflects the program’s size, scope, and quality components.**

**Step 1:** Log into the CTE Program Data Review.

**Step 2a (School User view):** The status of each CIP course review is indicated under the Status column (*Not Submitted* indicates the CIP data review has not begun and *Submitted* indicates the completion of that particular CIP). The Update ID and Update Date are also provided. Cycle through the current CIPs assigned by the EFE to your school. Start with the first CIP and click on **Enter CIP** to begin the data review.

**Step 2b (District Admin view):** The status of each CIP course review for each school in your district is indicated under the Status column (*Not Submitted* indicates the CIP data review has not begun, *Submitted* indicates the completion of that particular CIP, and *PDR Unlocked* indicates the review has been unlocked and must be submitted again). The Submit Date and Submitted By are also provided. Cycle through the schools by selecting and then the CIPs assigned by the EFE to your school(s). Start with the first CIP for that school and click on **Enter CIP** to begin the data review (see above).
Step 3: Review the Yes/No questions on Size, Scope, and Quality. Select “Yes” or “No” for EACH question within the selected CIP. Marking “No” does not penalize the status of the program so responses in this area should be reflective of the program of study. See the Terms and Definitions document for additional information.

Please Note: You must complete all answers in order to submit the CIP. If you don’t complete all yes/no questions within the CIP, your answers will not be saved.

- **Size**
  - Enrollment Size - Are the class and program enrollment minimums and maximums justified by the program of study/local advisory committee? Answer required

- **Scope**
  - Academic Standards - Does the POS incorporate challenging State academic standards? Answer required
  - Technical Knowledge and Skills - Does the POS address technical knowledge and skills? Answer required
  - Employability Skills - Does the POS incorporate a progression of employer-informed Technical and Essential Employability Competencies? Answer required

- **Quality**
  - Placement Data - Within the POS, do you collect 1-year postsecondary placement data? Placement data is defined as postsecondary education or advanced training.

Step 4: Once a CIP has been reviewed, the status will change to **Edit CIP**. Upon the completion of the data review for all CIPs, you will now need to complete the Professional Learning section of the PDR. To begin the next section, click on **Fill Professional Learning**. Please note: The Professional Learning Section can be completed at any time.

Step 5: Indicate which professional learning opportunities were offered to each CTE professional at a school or regional (EFE or ROE) level for the past 3 years. The professionals DO NOT have to attend for the opportunity to be reflected in the section. You must click “Next” for your data to save. See the Terms and Definitions document for additional information.
Step 6: To determine CTE staff capacity, indicate the number of CTE professionals in the following roles for each of the previous three years. For definitions of these roles, please see the Terms and Definitions document. Unfortunately, CTE teacher data could not be imported. You must click “Next” for your data to save.

![CTE Professional Capacity Table]

Step 7: Answer the question regarding school-wide guidance and instruction on career clusters. Click “Submit” to complete the Professional Learning component of the PDR.

![Career Guidance and Instruction]

Step 8: When all CIPs and Professional Learning components are completed, you will click on “Submit Application”.

![Submit Application]

Step 9: Once the Application has been submitted, you can click on “View Professional Learning” to view the entire Professional Learning section. Use Ctrl-P to print the page for your records. Additionally, you can click “View CIP” to see your responses for each CIP. Use Ctrl-P to print the page for your records. Please note: You will need to print each CIP individually, as the system does not provide a summative section for the CIP data.
Unlocking and Viewing Applications

District Admin and Business Manager (EFE): When you login as District Admin, the home page displays all of the schools within your system. When you login as a Business Manager, the home page displays all of the districts within your system.

Step 1: Log into the CTE Program Data Review.

Step 2: To view the district’s CTE Program Data Review, click on the “View Schools” button. You will now be able to view the status of each school’s Program Data Review status (Not Submitted indicates the CIP data review has not begun, Submitted indicates the completion of that particular CIP, and PDR Unlocked indicates the review has been unlocked and must be submitted again). Up until the Local Needs Assessment (LNA) has started, both the District Admin and Business Manager can unlock the PDR for changes.
