- II. Provide a valid DUNS number in its application; and
Continue to maintain an active SAM registration with current information at all times during which it has an active Federal, Federal pass-through, or State award or an application or plan under consideration by a Federal or State awarding agency. ISBE may not make a Federal pass-through or State award to an applicant until the applicant has complied with all applicable DUNS and SAM requirements and, if an applicant has not fully complied with the requirements by the time that ISBE is ready to make a Federal pass-through or State award, ISBE may determine that the applicant is not qualified to receive a Federal pass-through or State award and use that determination as a basis for making a Federal pass-through or State award to another applicant.

Grant Award: ISBE anticipates making individual grant awards that range from \$8,000 to \$10,000 per child depending on the types of services provided, including the length of program and high quality components, and may or may not include transportation. This reflects the cost of operating a program for 180 days per year, the length of the school year. Applicants may request additional funds to facilitate services to the most at-risk families.

Individual grant awards will vary depending on the needs addressed in the approved proposal and the total appropriation for the program.

Grant Period: The grant period will begin no sooner than September 18, 2017, the due date, and will extend from the beginning date of the grant through June 30, 2018.

Early Childhood Care and Education Position Statement

The State Board of Education believes that the educational development and success of all Illinois children can be significantly enhanced when children participate in early childhood programs and services.

For the purposes of this position statement, early childhood is defined as the period in a child's life from birth through eight years of age. Appropriate early childhood programs, practices and services are defined as those which:

- * are founded on research-based knowledge about child development;
- * promote the child's emotional, physical, mental, and social well-being; and
- * support and nurture families.

The Illinois State Board of Education (ISBE) is actively committed to develop, deliver, and support early childhood programs, practices, and services that will enable all children to be successful students and responsible citizens. ISBE will give particular attention to the following actions:

1. Emphasize the need for high-quality early experiences that reflect research and knowledge on program quality and outcomes across the developmental period of birth through eight years.
2. Encourage Illinois public schools to create coherent early learning systems that minimize major transitions for children and provide stable, consistent educational experiences for young children ages three through eight years.
3. Make prekindergarten programs available for all Illinois children identified as at-risk of academic failure and actively seek their participation. Support the provision of full-day prekindergarten for at-risk students who need additional educational experiences.
4. Support the availability of full-day kindergarten programs for all Illinois children.
5. Collaborate with families and relevant social service providers to provide early identification of and response to educational risk factors among children from birth through three years of age.
6. Collaborate with families, community organizations, child care organizations, Head Start, and other state agencies to meet the physical, mental, social, and emotional needs of young children, including their physical care and protection; share resources, services and accountability.
7. Emphasize the quality of instructional staff and leadership for early childhood programs in Illinois.

Background

The goal of the Preschool for All Expansion program is to provide educational services to all 3- to 5-year-old children whose families choose to participate. The Preschool for All Expansion program focuses on providing high-quality educational programs for children who are determined to be at risk of academic failure.

ISBE is committed to supporting early childhood education to ensure that all Illinois children develop a strong foundation for learning. Public Act 096-0948 amends Section 2-3.71 of the School Code (105 ILCS 5/2-3.71) to establish the Preschool for All program to be administered on a competitive basis. The Preschool for All program emphasizes the relationship among early childhood education, parenting education and involvement, and future success in school.

The Illinois early childhood vision is for every child to enter kindergarten safe, healthy, eager to learn, and ready to succeed, as adopted by the state's Early Learning Council. To achieve this vision, Illinois has prioritized equitable access, effectiveness of services, and sustainability and stability of services for the system as a whole. Illinois' goal is for 80% of all children to be fully ready for kindergarten by 2021.

The goal of the ECBG is to:

- * Increase the percentage of children who begin kindergarten healthy, safe, eager to learn, and ready to succeed.
- * Decrease disparities (racial, economic, geographic, etc.) in "readiness" at kindergarten entry, and in achievement by third grade.

To accomplish this goal, the following five priorities have been set:

- * Prioritizing high need communities.
- * Serving more children from priority populations.
- * Increasing the number of slots that meet the Preschool Expansion model (full-day, comprehensive services).
- * Encouraging/supporting community collaborations.
- * Building birth to 3rd grade continuum of high quality services.

In awarding Preschool for All Expansion grants, the Illinois State Board of Education must address two legislatively mandated priorities:

- * First priority in awarding grants must be given to applicants that propose to serve primarily children who have been identified as being at risk of academic failure. At-risk children are those who, because of their home and community environment, are subject to such language, cultural, economic and like disadvantages that they have been determined, as a result of screening procedures, to be at risk of academic failure. A disproportionate share of all children considered to be at-risk come from low-income families, including low-income working families, homeless families, families where English is not the primary language spoken in the home, or families where one or both parents are teenagers or have not completed high school. However, neither a child's membership in a certain group nor a child's family situation should determine whether that child is at-risk.
- * Second priority in awarding grants must be given to applicants proposing to serve primarily children whose family's income is less than four times the poverty guidelines updated periodically in the Federal Register by the U.S. Department of Health and Human Services (HHS) under the authority of 42 U.S.C. 9902(2). Please take note that Congress has extended the 2017 Poverty Guidelines, see chart below for those guidelines. It is recommended that you check the website link below for updates. For each child whose participation is based on the family income, the successful applicant must collect evidence of family income levels.

The following definitions are in 23 IL Administrative Code 235, Section 235.30. For purposes of this RFP, "programs

serving primarily at-risk children” are defined as those programs which:

1. Have 80 percent or more of the enrolled children identified as at-risk;
2. Prioritize at-risk students over non-at-risk students when making enrollment decisions; and
3. Have taken specific, proactive measures to ensure that parents/guardians of potentially at-risk children in the community are aware of the opportunity for preschool education through the program.

Additional Requirement for Preschool for All Expansion:

NOTE: Additional expansion requirements are stated throughout the RFP. Illinois was awarded a federally funded Preschool Expansion Grant in 2014. Requirements of the expansion grant include state matching components. The additional requirements for Preschool for All Expansion listed in this document are pursuant to the state matching requirements outlined in the Preschool Expansion Grant.

1. 50 percent or more of the children who are enrolled must be 4 years old by September 1st and at or below 200% of the federal poverty level. Children have multiple risk factors or 1 highest priority selection factor.
 - a. The highest priority selection factors for the program are: homelessness, child welfare involvement, disability (child has Individual Education Plan [IEP] for more than itinerant speech services or has been referred for special education evaluation), and family income at or below 50 percent of the FPL.
 - b. Remaining children are 3 or 4 years old and are prioritized by the highest risk factors.

Preschool for All Expansion programs must serve only 3- to 5-year-old children who are not age-eligible for kindergarten (i.e., age 5 on or before September 1 of the school year in which the Preschool for All Expansion program is to be implemented).

As part of the Early Childhood Block Grant, the Preschool for All Expansion program emphasizes the relationship among early childhood education, parenting education and involvement, and future success in school. Applicants submitting a proposal for a Preschool for All Expansion program are encouraged to think strategically about the use of early childhood funds so that each element of the effort reinforces and supports the others.

Applicants also are advised to review related information found at the Early Childhood Division website (hyperlink below) before completing their proposals. These documents summarize activities and other considerations found in successful early childhood programs.

Proposal Review Criteria
[Click here to see scoring rubric](#)

Proposals will be evaluated in comparison with other Preschool for All Expansion FY18 proposals received by ISBE, based upon the criteria below. Final determination for selection will be made by the State Superintendent of Education and will be based upon recommendations resulting from the evaluation/review process. Before making funding decisions, the State Board of Education staff may conduct site visits for selected applicants in order to validate information provided in the proposal.

It is anticipated that successful applicants will receive a Notice of State Award (NOSA) from the state superintendent via e-mail or US Postal Service approximately 90 days after the application deadline.

Each proposal will be reviewed using both quantitative and qualitative criteria.

According to 235.55, proposals shall first be screened to identify those proposals that meet the criteria for each funding priority (see Section 235.30(b) of this Part). Proposals shall be separated into the following three categories:

1. Proposals for programs serving primarily at-risk children;
2. Proposals serving primarily children whose families meet income guidelines; and
3. All other proposals.

Programs meeting the priority will then be reviewed by an evaluation committee using the qualitative criteria below to determine which proposals provide evidence of a "qualified program." "Qualified programs" will be those scoring at least 60 out of 100 total points.

Among substantially similar proposals within a category, priority will be given to those proposals serving children from a community with limited preschool programs or few resources promoting preschool education.

Qualitative Criteria (Total possible points are 100)1. Population to be Served (30 points)

- A. The proposal clearly indicates that the area to be served has a high number of children and families determined to be the most in need of the services provided by the ECBG program, as indicated by high levels of poverty, illiteracy, unemployment, limited-English proficiency, or other need-related indicators, such as the school district's rate of dropouts, retention, truancy, teenage pregnancies and homeless students, high rates of infant mortality, birth trauma, low birth weight or prematurity, and high rates of child abuse and neglect, and that there exists in the area to be served an insufficient number of other programs and services to fully serve all children and families who potentially could be at risk.
- B. Criteria and indicators for identifying children and families for the program are clearly established and likely to target those children and families most in need of services.
- C. Effective recruitment strategies are proposed that are likely to ensure that the maximum number of children and families are enrolled in the program.

2. Quality of Proposed Program (40 points)

- A. The proposed program and activities will sufficiently meet the identified needs of the population to be served and include child and parent/guardian activities designed to enhance child development and parent/guardian effectiveness and, ultimately, school readiness.
- B. The program proposal provides for effective linkages among parents/guardians, education, health and social service agencies, and child care providers and includes a plan for coordination of services with other educational programs serving young children and their families.

- C. The proposed program is built upon effective research about early childhood education and aligned to the Illinois Early Learning and Development Standards (IELDS).
- D. The evaluation strategies include measurable outcomes for children and families that are designed to effectively gauge the success of the program and yield sufficient data that can be used to improve the program.
3. Experience and Qualifications (20 points)
- A. Proposed staff hold the appropriate educator and/or professional licenses for their positions and have the qualifications and experience necessary to successfully implement a high-quality early childhood program.
- B. The staff development plan adequately addresses the needs of the project staff, offers a varied and full range of staff development experiences, and provides sufficient opportunities for learning so as to allow staff to incorporate the training into program delivery activities.
- C. In addition, an eligible applicant other than a school district has presented evidence that it:
- Holds the appropriate licensure to operate as a child care facility (as applicable);
 - Holds early childhood accreditations or has other relevant experience that demonstrates success in implementing and administering programs similar to the ones funded under the ECBG Program; and
 - Has a successful track record with similar grants or contracts.
4. Budget (10 points)
- The program is cost-effective as evidenced by the cost of proposed services in relation to the numbers to be served and the services to be provided. This also includes the extent to which the applicant limits its claim for indirect and administrative costs and devotes the maximum amount possible to program activities.
5. The selection of proposals for funding may be based in part on geographic distribution and/or the need to provide resources to school districts and communities with varying demographic characteristics.
6. Progress towards correcting any deficiencies contained in an unfavorable monitoring report issued under Section 235.67 shall be considered in the review process.

Merit Based Review and Selection Process for Competitive Grants

All competitive grant applications submitted by the deadline will be reviewed for eligibility requirements and for completion of all documents.

All grant applications will be reviewed by an evaluation committee. The evaluation committee will consist of a minimum of three members. If an evaluation committee member is also a grant applicant, they may not review and score their own application. An evaluation committee member may not have any conflicts of interest or apparent conflicts of interest. A Confidentiality Agreement and Conflict of Interest Disclosure will be signed by all committee members. Evaluation committee members will be assigned a code for confidentiality purposes.

The grant applications will be scored based on the criteria for review listed in this RFP using a rubric. If there is a change in the rubric, all applicants will be informed by the publication of the change on the ISBE website.

Each evaluation committee member will score independently from the whole committee on an individual score sheet. The scores of the committee members will be averaged. Any significant or substantial variance between evaluator scores will be reviewed and documented, including the revision of any individual score. A summary score sheet will show the comparative scores and the resulting finalist(s). Grant applications will be ranked from high score to low score. Funds will be applied to these grant applications based on rank order, geographic distribution, and/or the need to provide resources to school districts and communities with varying demographic characteristics and available funding.

Before any grant can be awarded the grantee must complete the prequalification and programmatic risk assessment. Merit Based award finalists will be sent a Notice of State Award Finalist form to identify outstanding requirements that must be completed prior to a grant award.

An award shall be made pursuant to a written determination based on the evaluation criteria set forth in the grant application and successful completion of finalist requirements.

A Notice of State Award (NOSA) will be issued to the Merit Based finalists that have successfully completed all grant award requirements. Based on the NOSA, the Merit Based finalist will be positioned to make an informed decision to accept the grant award. The NOSA shall include:

- a. The terms and conditions of the award.
- b. Specific conditions assigned to the grantee based on the fiscal and administrative and programmatic risk assessments.

The grant award(s) will be published on the Grants.Illinois.gov website (see link below). A written Notice of Denial will be sent to the applicants not receiving an award. [Link to the Grants.Illinois.gov website](#)

Appeal Process

Competitive grant appeals are limited to the evaluation process. Evaluation scores may not themselves be protested. Only the evaluation process is subject to appeal.

Submission of Appeal

- a. An appeal must be submitted in writing, and mailed as indicated below.
- b. An appeal must be received within 14 calendar days after the date that the grant award notice has been published.
- c. The written appeal shall include at a minimum the following:
 - The name and address of the appealing party
 - Identification of the grant
 - A statement of reasons for the appeal
 - The appealing party must supply any additional information requested by ISBE within the time period set in the request

Resolution

- a. ISBE will resolve the appeal by means of a written determination.
- b. The determination shall include, but not be limited to:
 - Review of the appeal
 - Appeal determination
 - Rationale for the determination

Mail a hard copy of the appeal to:

1. Screening to determine risk status

Goal: Illinois' neediest children will be identified and served.

Definition of Screening: A short, easily administered tool or checklist that identifies children needing further assessment/evaluation or identifies children for a given program.

Applicants must provide a description of the procedures to be used to screen all children and their families to determine their need for services.

Screening should be conducted on a community-wide basis and be developed and implemented with cooperation among programs serving young children operating in the area to be served (e.g., public schools, licensed child care providers, special education, Head Start, Prevention Initiative, Early Intervention, Child and Family Connections, and Child Find). The screening process includes a quickly administered research-based screening tool that identifies children needing further assessment/evaluation or identifies children for a given program. Results of the screening shall be made available to the program staff and parents/guardians of the children screened.

Examples of Research-Based Screening Instruments:

- Ages & Stages Questionnaire (ASQ)
- Brigance Screens
- Denver Developmental Screening II
- Developmental Indicators for the Assessment of Learning--Third Edition or Fourth Edition (Dial-3, Dial-4)
(Additional screening instruments not included in this list of examples may meet the requirements).

Preschool for All Expansion must offer a comprehensive screening process that meets the following requirements:

- Criteria to determine at what point performance on a research-based screening instrument indicates that children are at risk of academic failure as well as to assess other environmental, economic, and demographic information that indicates a likelihood that the children would be at-risk. All screening instruments and activities must relate to and measure the child's development in these specific areas: vocabulary, visual-motor integration, language and speech development, English proficiency, fine and gross motor skills, social skills, and cognitive development.
- All screening procedures must include a parent/guardian interview to be conducted in the parents'/guardians' home/native language, if necessary. This interview should be designed to obtain a summary of the child's health history and social development and may include questions about the parent's/guardian's education level, employment, income, and age; the number of children in the household; and the number of school-aged siblings experiencing academic difficulty.
- Vision and hearing screening, in accordance with 77 Illinois Administrative Code 685 (Vision Screening) and 77 Illinois Administrative Code 675 (Hearing Screening), must be provided.
- Children who are not yet toilet trained are not excluded from the program.
- Written parental permission for the screening as required by Section 2-3.71 of the School Code must be obtained.

- School district must administer a home language survey and provide services to eligible children as required by 23 Ill. Admin Code 228.
- Where possible, teaching staff of the Preschool for All Expansion program must be involved in the screening process. Results of the screening must be made available to the teaching staff.
- The weighted eligibility criteria developed by the state should be used to prioritize children who are most at risk of academic failure. Additional risk factors selected should reflect the community to be served and are weighted to ensure that the children most at risk of academic failure are enrolled. See Table A below for weighted eligibility criteria.
- Children have multiple risk factors or one highest priority selection factor according to the weighted eligibility form. Highest priority selection factors are homelessness, child welfare involvement, disability (child has Individual Education Plan [IEP] for more than itinerant speech services or has been referred for special education evaluation), and family income at or below 50 percent of the FPL. In addition, 50 percent or more of the children who are enrolled must be 4 years old by September 1st and at or below 200% of the federal poverty level.
- The program collects and reviews proof of family income to determine eligibility (below 200% FPL) and priority points (50% or 100% of FPL).

Programs must document how family income was calculated using any one of the following forms of evidence:

- Pay stubs (two most recent, consecutive)
- Proof of WIC benefit
- Proof of Supplemental Nutrition Assistance Program (SNAP) benefit
- Proof of Temporary Assistance for Needy Families (TANF) enrollment
- Proof of Supplemental Security Income (SSI) benefit
- Proof the family receives Child Care Assistance Program (CCAP)
- Tax return (most recent)
- Wages and tax statement (most recent W-2)
- Verification/letter from employer
- Proof that parent is enrolled in Medicaid (a medical card with the child's name does not prove income eligibility)
- Signed written statement from the family (provide form for families with no income)

Additional Requirements for Preschool for All Expansion:

- The program must actively seek out and enroll children with special needs, and maintains a clear, written process for referral/assessment of children with suspected special needs and comprehensive support to parents during the assessment process.

The following additional practices are recommended for Preschool for All Expansion programs:

- The at-risk factors are agreed upon by all partners.
- Outreach and recruitment strategies are targeted to reach those families with the greatest number of risk factors (in particular, at-risk families who may not otherwise come to the screening).
- For children determined to be English Learners, developmental screening takes place in the child's home language, whenever possible, and that these children are screened for native language proficiency.
- When screening for development in the native or home language, use of parents/guardians in play-based assessment or other techniques may be used.

Table A

Illinois has developed weighted eligibility criteria around the priority populations that may be most at risk for later school failure, based on research.

2. Educational Program

Goal: Preschool children will show gains in all developmental areas, including literacy, cognitive, social, and emotional development.

Each Preschool for All Expansion grantee must offer an appropriate education program for those children who participate. The education program that is established must include a language and literacy development component for each child based on the child's individual assessment. In addition, there should be collaboration with other services and resources available in the community. The staff-child ratio may not exceed one (1) adult to ten (10) children. No more than twenty (20) children may be served in a single classroom. The maximum number of children should be served in each classroom as defined by the inclusion program model selected. The inclusion model document can be found at: <https://www.isbe.net/Documents/Inclusion%20Models%20Color.pdf>

Definition of Instructional Assessment:

Instructional assessment is the process of observing, recording, and otherwise documenting the work children do and how they do it, as a basis for a variety of educational decisions that affect the child, including planning for groups and individual children and communicating with parents/guardians. This level of assessment yields information about what children know and are able to do at a given point in time, guides "next steps" in learning, and provides feedback on progress towards goals. Assessment to support instruction is a continuous process that is directly linked to curriculum.

Definition of Diagnostic Assessment:

Diagnostic assessment is a thorough and comprehensive assessment of early development and/or learning for the purposes of identifying specific learning difficulties and delays, disabilities, and specific skill deficiencies, as well as evaluating eligibility for additional support services, early intervention, and special education. A diagnostic assessment is usually a formal procedure, conducted by trained professionals using specific tests.

Definition of Curriculum:

A curriculum is an organized framework that delineates the content children and/or families are to learn, the processes through which they achieve the identified curricular goals, what providers do to help them achieve these goals, and the context in which teaching and learning occur.

Preschool for All Expansion must offer an appropriate education program that meets the following requirements:

- The curriculum and instructional practices are aligned with the IELDS (https://www.isbe.net/Documents/early_learning_standards.pdf). ISBE does not endorse specific curricula for use in Preschool for All Expansion. An evidence-based curriculum is used. Local projects should consider the following criteria when selecting a curriculum:
 - * A comprehensive, research-based curriculum is used and aligns with the IELDS; a list of aligned curriculum is available at: <http://www.excelerateillinoisproviders.com/resources/resources-by-standard?id=48%20>
 - * The curriculum is implemented with fidelity and should support all domains of the IELDS.
 - * The use of supplemental curriculums should be based upon the unique needs of the program that necessitate content above and beyond the primary curriculum, and any content used from the supplemental curriculum should be based upon

research on best practice and should align with the framework of the comprehensive curriculum.

- * Inclusion of content to be taught with intentionality and integration;
 - * Provision for child initiation and engagement;
 - * Use of content based on research of how young children learn;
 - * Provision for parent/guardian involvement, through meaningful communication with families;
 - * Alignment with an authentic assessment tool that is ongoing and comprehensive;
 - * Consideration of the child's linguistic and cultural background;
 - * Consideration of the range of experience and qualifications of early childhood teachers; and
 - * Consideration of a wide range of children's abilities, including those of children with IEPs.
- The individualized assessment profile for each child will be the basis for determining that child's educational program. Individual student plans have been developed and are reflective of the philosophy of the program and the IELDS. Student progress will be assessed over time with measurable outcomes and documented to ensure that the educational program meets the needs of the student.
 - The following domains of development are addressed: vocabulary, visual-motor integration, language and speech development, English proficiency, fine and gross motor skills, social skills, and cognitive development.
 - A language and literacy development program shall be implemented for each child based on the child's individual assessment.
 - A system is established whereby each student's parents/guardians are routinely advised of their child's progress, in their native language, if applicable.
 - Individual student files are maintained and contain the following information:
 - * Weighted eligibility criteria, including income verification;
 - * Health record, including vision and hearing screening and physical and immunization record;
 - * Evidence of screening results and/or IEP;
 - * Written permission to participate in the program, photo release (if agreed to by parent/guardian), and pick-up authorization form; and
 - * Attendance and enrollment records.
 - The program has a written plan with procedures for transitioning children into and out of the program, including the transition to kindergarten. Transition plans are shared with parents/guardians. The program will ensure that those children who are age-eligible for kindergarten are enrolled in school upon leaving the preschool education program.
 - The program meets five days a week.
 - Students attend a minimum of 165 days a year.
 - Parents/guardians are not required to provide or pay for meals/snacks. Program does not charge families fees for field trips or registration; nor does program require families purchase student supplies or materials.
 - Activities that pull children out of the classroom are minimal or nonexistent.
 - Special education supports and services are provided in the Preschool for All classroom and embedded into the activities and routines of the day. Provisions are made to allow for the participation of children with disabilities in the Preschool for All Expansion program.
 - School district grantees with programs serving homeless children must have a written plan for homeless students that must comply with all applicable provisions of the federal McKinney-Vento Homeless Assistance Act (42 USC 11431 et seq.). Non-school district grantees should, to the extent possible, ensure that homeless children enrolled in their programs receive the support necessary for successful and continued participation, including, without limitation, arranging for appropriate transportation when necessary.
 - For children who are identified as English Learners, the program of instruction must provide language development supports in compliance with the bilingual education rules and procedures required by 23 Ill. Admin Code 228. For programs that will serve English learners, curriculum must align to the "Early English Language Development Standards Ages 2.5-5.5 2013 Edition."
 - The program reduces and ultimately eliminates expulsion and suspension through nurturing

EXAMPLE

relationships and capacity building. Please see policy statement on expulsion and suspension policies in early childhood settings: <https://www2.ed.gov/policy/gen/guid/school-discipline/policy-statement-ece-expulsions-suspensions.pdf>

- The program is aligned within a birth-through-third grade continuum of services. This is a set of educational experiences and supports for children, families, and the professionals and organizations that serve them. The ISU Birth through Third Grade Continuity Project (see link below) lists 8 areas for potential alignment--community partnerships, comprehensive services, family engagement and parent/guardian leadership, data-driven improvement, supported transitions, aligned assessments, aligned curriculum and instruction, and joint professional development. <https://education.illinoisstate.edu/csep/b3/>

Additional Requirements for Preschool for All Expansion:

- The program meets for a full day equivalent to a first grade classroom in the local district, and no less than five hours each day.
- Universal and targeted supports for children's positive behavior and social-emotional development are included and the program follows a social-emotional model or curriculum.
- Daily schedule includes at least 60 minutes of physical activity per day with materials and equipment that support a variety of vigorous physical activity and aligns with the IELDS Physical Development and Health domain.
- The program provides breakfast, lunch, and an afternoon snack for participating children.
- Comprehensive services are provided to support the development of the whole child, including in the areas of medical, dental, and mental health.
- The program ensures that each child receives a dental and health screening.
- Mental health services are provided to children and families including observations, consultation, and referral. Programs should contract or collaborate with a qualified mental health provider or consultant. This individual should have experience working with young children and their families.
- The program ensures that each child receives a mental health screening.
- IEP services are provided to children within the classroom setting.
- A nutritious breakfast, lunch, and afternoon snack are offered to children at no cost to families and aligned with the U.S. Department of Agriculture's Food and Nutrition Guidelines, and meet DCFS' standards for licensed child care centers or community settings.

The following additional practices are recommended for Preschool for All Expansion programs:

- Emergency drill procedures and the class schedule are posted.
- The classroom is stocked with developmentally appropriate materials, supplies, and equipment.
- Blocks of time are scheduled in such a way that the children can become absorbed in their learning experiences without being interrupted.
- The schedule provides a balance of:
 - * Teacher-directed and meaningful child-initiated activities;
 - * Active and quiet activities;
 - * Independent and guided activities;
 - * Large- and small-group, and individual activities; and
 - * A minimum of time wasted by waiting in line, group snack, etc.
- Children are read to every day.
- Native language and English Learners materials are provided in the classroom.
- Best practices regarding inclusion of children with special needs are followed, including:
 - * At least 10%, but not more than 30%, of each classroom's enrolled children have disabilities (a child with a diagnosed disability other than speech only, that has completed a formal assessment, has an IFSP or IEP, and is receiving [or is eligible for] support services).
 - * Students with IEPs should be active members of the classroom. Strategies, supports, and services identified in IEPs are provided in the classroom and are embedded into classroom play, activities, and routines, resulting in minimal transitions.
 - * Community-based programs should be working with the lead education agency (LEA) to develop an MOU to ensure their students are being referred, evaluated, and provided services. LEAs should also reach out to community programs in order to develop a relationship to ensure Child Find requirements are being fulfilled.

- * Program mission statements should reference that all students can be included and educated in the program.
- * Individualization occurring in the classroom should be based on IEP goals and accommodations.
- * The LEA is responsible for funding and providing the special education services.

- The program collaborates with the Homeless Education Liaison in the area. To find a local liaison, see: <http://webapps.isbe.net/homelesschildliaison/>

Table B below describes **guidance**. It does so for the roles of local community collaborations and direct service providers in relation to key aspects of system building. Local collaborations and direct service providers should support each other and should be well-integrated, in order to achieve the state's vision of every child entering kindergarten safe, healthy, ready to succeed, and eager to learn.

Programs should collaborate with other programs in their community that serve children ages three to five in order to identify and enroll eligible participants for the Preschool for All Expansion program. Individual communities may be at different places on a continuum of implementing coordination strategies. Ways of coordinating across programs and sectors include, but are not limited to:

- A. **Shared or mutual referrals:** participating programs use a shared set of protocols and/or a shared form to refer families to each other's services.
- B. **Coordinated Intake:** a collaborative process that provides families with a shared screening process and coordinated points of entry for programs serving young children and their families within a defined community. The main components include:
 - i. Coordinated and joint outreach.
 - ii. A shared form and shared procedures for intake or eligibility screening, used by all participating programs.
 - iii. Coordination of referrals: referrals can come from different entities. Often one entity is identified as a coordinating entity that will collect all intake forms, track, and when applicable, assign referrals and follow-ups.
 - iv. Regular meetings of the participating programs to review progress and to troubleshoot and improve the referral system.
- C. **Referral pipeline:** connects children and families with the highest needs to high quality early childhood programs, social service providers, medical and dental services, job training programs, and other community resources to meet family needs. These connections are made possible through strong collaboration among community partners leveraging a shared vision and are available and accessible in the places and spaces where families already connect. An effective pipeline may include talking points, tracking systems, and small experiments to engage strong communication and referral linkages between non-EC programs and EC programs. Pipelines should be "bi-directional," meaning that non-EC partners should refer to EC partners, and EC partners should refer to non-EC partners.
- D. **Continuous early childhood services:** smooth transitions between early childhood programs (i.e., from 0-3 to 3-5 to kindergarten, etc.), and aligned, high-quality programming in all of those settings, resulting in children's readiness for school and for life. Through enrollment pipelines into continuous early childhood services, children with the highest needs are identified and enrolled in appropriate services as early as possible, and continue in high quality early education through third grade.

6. Professional Development

Goal: Staff will continue to gain skills and knowledge, based on current research and best practices, to improve outcomes for children and families.

Definition of professional development: activities designed to enhance the professional knowledge, skills, and attitudes of educators so that they might, in turn, improve the learning of children.

Preschool for All Expansion must offer professional development for staff that meets the following requirements:

- * Professional development needs and interests of each staff member within the program are determined. This information may be obtained through an annual staff survey, program monitoring, or a staff member's individual evaluation.
- * An annual written plan that addresses each staff member's professional needs and interests is developed. Professional development opportunities may include, but are not limited to: district or agency in-service/training, outside consultants, book studies, webinars, coaching, professional learning communities, classroom observations, or graduate courses. Professional development should relate to early childhood content.
- * Plans are created collaboratively with staff member and administrator in order to reflect both professional interests and professional needs. In order to enable staff to achieve the purpose and goals of the Preschool for All Expansion program, staff development needs must be assessed and appropriate ongoing professional development activities provided.

Additional Requirements for Preschool for All Expansion:

- * Teaching staff members receive training annually on program's selected screening tools, curriculum, and assessment tool.
- * The instructional leader provides embedded professional development and implements a professional learning community focused on instructional excellence. The leader develops, cultivates, and maintains a professional learning community across classroom instructional staff.

Examples of Key activities for Instructional Leaders:

- Provide support to classroom education staff in creating lesson plans that are faithful to the curriculum and developmentally appropriate. Review lesson plans and provide teachers with timely feedback and recommendations.

Professional Development

- Collaborate with classroom education staff to develop individual professional development plans for each

staff member.

- Identify professional development opportunities offered by funders, regional professional development providers, and others that align to teaching staff goals and needs.
- Develop and facilitate a professional learning community focused on instructional excellence.

Observation and Coaching

- Conduct regular observation in all assigned classrooms and maintain records.
- Engage education staff in individual and group reflective coaching to discuss observations and develop a plan to strengthen challenging areas and build on areas of strength.
- Support peer observation and learning between classrooms/sites.

Instructional Quality

- Participate in professional development opportunities, including workshops and conferences, to bring new and emerging best practices into the program.
- Identify resources and materials that will support instructional quality and integrate them into program practices.
- Develop internal systems and procedures that advance instructional quality. Program shall employ at least one parent educator, serving a maximum caseload of 100 children, with experience in child development, early childhood education, social work, or a related field required.

The following additional practices are recommended for Preschool for All Expansion programs:

- * Administration and staff participate in professional development training, internal and external, related to providing services to children with IEPs in the regular early childhood classroom and supporting families through the identification and evaluation process.
- * The program's professional development plan addresses issues of language and cultural diversity within the program.

Preschool for All Expansion programs must have a written, annual program evaluation and continuous quality improvement plan that meets the following requirements:

- A local evaluation that provides critical data and information to the local program on the performance of each child/family, as well as on the quality of the implementation of the required components.
- The program uses the data and information for continuous program improvement to lead to better family outcomes. Procedures are in place to use evaluation data to inform continuous program improvement, including who will review the data and on what schedule. Program improvement plans are developed and their implementation is periodically reviewed.

The following additional practices are recommended for Preschool for All Expansion programs:

- Measurable outcomes for children participating in the program are used in the evaluation.
- Measurable outcomes for family participation are used in the evaluation.

Indirect Costs Information

Indirect Cost Rate: In accordance with a Delegation Agreement between the United States Department of Education and the Illinois State Board of Education (ISBE), and pursuant to its authority under the Grant Accountability and Transparency Act (GATA) and administrative rules, the Governor's Office of Management and Budget has granted ISBE an exception to the federal Uniform Guidance and GATA regarding the determination of indirect cost rates which may be utilized by all grantees that receive a state award or federal pass-through award for grant programs administered by ISBE.

Local Education Agencies (LEAs) may utilize either the indirect cost rate the LEA negotiates annually with ISBE (school districts) or the state-wide average indirect cost rate calculated by ISBE (Regional Offices of Education, Intermediate Service Centers, special education cooperatives, area vocational centers, charter schools, and university laboratory schools approved by ISBE). These LEAs will also utilize the ISBE-established indirect cost rates for state and federally funded grant programs administered by other state agencies.

Not-for-profit agencies, community/faith-based organizations, and for-profit entities may utilize the state-wide average indirect cost rates calculated by ISBE for all state and federal grant programs administered by ISBE. Colleges and Universities will be restricted to a maximum indirect cost rate of 8% or other indirect cost rate calculated by their cognizant federal agency, whichever is less, for state and federal grants administered by ISBE. These non-LEA entities may choose to negotiate a separate indirect cost rate to utilize for state and federally funded grant programs administered by other state agencies.

Indirect cost rates will appear on the Budget Detail page, lower right side of the page, when the rates for FY18 are available. Indirect costs may not be claimed until the indirect cost rate is available. At that time, successful applicants will be able to amend the proposal and claim indirect costs as appropriate and approvable.

Screening Process to Identify Eligible Participants Who Are At-Risk

[Instructions](#)

Please save the page often to avoid timing out and losing data. A warning will remind you which fields remain to be completed, but still allows data entered to be saved.

Screening should be conducted on a community-wide basis and developed and implemented with cooperation among programs serving young children operating in the area to be served (e.g., public schools, licensed child care providers, special education, Head Start, Prevention Initiative, Early Intervention, Child and Family Connections, and Child Find).

Applicants must use a research-based screening tool. The following points must be included in the narrative:

1. Identify the criteria to determine at what point performance on the screening instrument indicates that children are at risk of academic failure as well as to address other environmental, economic, and demographic information that indicates the likelihood that the children would be at-risk. Explain how the screening instruments and activities are related to and measure the child's development in these specific areas: vocabulary, visual-motor integration, language and speech development, English proficiency, fine and gross motor skills, social skills, and cognitive development.*

(0 of 7500 maximum characters used)

EXAMPLE

2. Describe the procedures to be used to include a parent/guardian interview (to be conducted in the parents'/guardians' home/native language, if necessary). This interview should be designed to obtain a summary of the child's health history and social development, and may include questions about the parents'/guardians' education level, employment, income, and age; the number of children in the household; and the number of school-aged siblings experiencing academic difficulty.*

Appropriate Educational Program, Part 1

[Instructions](#)

Please save this page often to avoid timing out and losing data. A warning will remind you which fields remain to be completed, but still allows data entered to be saved.

Each Preschool for All Expansion classroom must offer an appropriate education program for those children who participate. The education program that is established must include a language and literacy development component for each child based on the child's individual assessment. In addition, there should be collaboration with other services and resources available in the community. The staff-child ratio may not exceed one (1) adult to ten (10) children. No more than twenty (20) children may be served in a single classroom. The maximum number of children should be served in each classroom.

The following points must be included in the narrative:

1. Provide the facility information for all sites containing Preschool for All Expansion classrooms (e.g., owner's name, terms of lease arrangement, size of classrooms and other areas to be used by the program), if applicable.*
(0 of 7500 maximum characters used)

EXAMPLE

2. Describe how the services to be provided are aligned with the IELDS. (Note: Applicants should describe how their program addresses each area of the standards, rather than simply restating the standards in their proposal).*
(0 of 7500 maximum characters used)

3. Describe the research-based curriculum to be used and how it is developmentally appropriate for each child and addresses the following domains of development: physical, including fine and gross motor, visual-motor, health and nutrition; cognitive; language; emotional; and social. Include a description of how the results of the individualized assessment profile for each child will be the basis for determining that child's education program and how a language and literacy development program will be implemented for each child based on that child's individual assessment. Also describe how the curriculum aligns to the "Early English Language Development Standards Ages 2.5-5.5 2013 Edition."**
(0 of 7500 maximum characters used)

5. Reporting: All grantees must report the following to the Illinois State Board of Education.

All grantees must enroll each Preschool for All student in the ISBE Student Information System(SIS) by October 15 of

each year. This reporting activity is continuous throughout the year. All grantees must exit each Preschool for All student at the end of the year or when the child leaves the program.

All grantees must submit the following data to the Illinois State Board of Education (ISBE), via the ISBE Web Application Security (IWAS) system, for the Preschool for All project for which the grantee is funded:

- Student Information System (SIS) Early Childhood Data
- Student Health Data - Immunization
- Employment Information System (EIS) Teacher, Administrator, and Other School Personnel Data (continuous reporting throughout the year)
- Early Childhood Outcome (for children with IEPs)
- Any similar program-related information that the State Superintendent of Education may request upon 30 days written notice.

6. Each grantee funded to serve primarily at-risk children is required to have 80 percent or more of the enrolled children identified as at risk; prioritize at-risk students over non-at-risk students when making enrollment decisions; and take specific, proactive measures to ensure that parents in the community with children who are potentially at risk be made aware of the availability of the opportunity for preschool education through the program.
7. Any grantee that fails to enroll the required percentage of at risk children (80 percent) in the particular prioritization category for which the proposal was funded (i.e., at-risk status or income levels) will have its grant award reduced proportionate to the decrease in percentage of such children enrolled.
8. Any grantee that has a waiting list of children to be served must first enroll all children determined to be at risk of academic failure before enrolling other children.
9. School district grantees with programs serving homeless children must comply with all applicable provisions of the federal McKinney-Vento Homeless Assistance Act (42 USC 11431 et seq.). Non-school district grantees should, to the extent possible, ensure that homeless children enrolled in their programs receive the support necessary for successful and continued participation, including, without limitation, arranging for appropriate transportation when necessary.
10. Beginning in the 2014-15 school year, each grantee that operates a preschool education program funded under this Part shall participate in ExceleRate Illinois (see <http://www.excelerateillinois.com> and click on INFORMATION FOR PROVIDERS). ExceleRate Illinois is the State's quality rating and improvement system that emphasizes continuous quality improvement for early learning and development programs and uses a consistent set of standards organized into four domains of teaching and learning; family and community engagement; leadership and management; and qualifications and continuing education.
11. Each program shall be monitored on site at least once every four years to determine the extent to which it is complying with all operational requirements and to assess the quality of the developmental and/or educational components offered.
12. Each program shall receive a monitoring report with the results of the operational compliance checklist and the quality assessment. Using those results, the program shall complete a continuous quality improvement plan addressing operational compliance and a continuous quality improvement plan addressing the quality assessment. Each continuous quality improvement plan shall, at a minimum, address:
 - A) the specific issue or indicator for which a deficiency was noted;
 - B) the actions to be taken to remedy the deficiencies and, as applicable, the resources and professional development that will be targeted towards improvement efforts; and
 - C) The person responsible and the timelines in which the deficiencies are expected to be corrected, provided that no continuous quality improvement plan shall be in effect for more than two school years.

The continuous quality improvement plan shall be signed by the person legally authorized to submit the plan, shall bind the applicant to its contents, and shall be electronically submitted to the State Board of Education not later than 30 days after the program's receipt of the monitoring report.

For each year in which the continuous quality improvement plan is in effect, the program shall submit a progress report to the State Board of Education that describes the progress the program has made relative to remedying the deficiencies identified. The progress report shall be submitted electronically no later than June 1 of each year.

A program that fails to reach the goals of the continuous quality improvement plan within the timelines specified in the plan shall be subject to additional sanctions, including, but not limited to, removal of grant approval.

13. Fiscal Monitoring: All activities are subject to an audit at the local, state and federal level. Staff from ISBE may conduct a financial review of your program to audit records and offer technical assistance. This review will ascertain on a sample basis whether or not such records are adequately and properly maintained on a current basis.

The purpose of this review is to determine if the project meets legal requirements and to verify the eligibility of expenditures by examining sample documentation for the following:

- a. funds disbursed to the grant recipient were received and properly recorded in separate accounts/general ledger;
- b. payments reported by the grant recipient were actually made to vendors, contractors and employees and that they conform to applicable laws and regulations, including procurement requirements and support the program intent;
- c. refunds, discounts, etc., were properly credited to specific expense classifications as reductions of the gross expenditure;
- d. payments are supported by adequate evidence of the delivery of goods or performance of services;
- e. obligations included in the report of expenditures were actually incurred during the budget period for which the

- expenditures were claimed and upon liquidation were properly adjusted;
- f. the same item is not reported as an expenditure for two or more years, e.g., encumbrance is one year and payment in another; items are properly recorded in the program year
 - g. all expenditures that were claimed were made for the approved project and are easily identifiable with this project;
 - h. all books and materials obtained with the grant funds are plainly marked with appropriate identification;
 - i. all inventory items have been allocated an inventory number and the number has been plainly affixed on each piece of equipment and plainly labeled;
 - j. an inventory register has been maintained of those items required to be inventoried which shows:
 - description;
 - serial number or other identification number;
 - funding source for purchased property;
 - who holds title;
 - acquisition date and cost;
 - location, use and condition of property;
 - disposition date
 - k. inventory items moved from one location to another have been duly authorized in writing and that the transfer has been recorded in the inventory register, and each item of equipment purchased was listed in the approved budget breakdown and is being used solely for authorized purposes;
 - l. prorated expenditures, such as salaries (supported by time and effort documentation), travel, etc., are divided correctly between two or more accounts and that the basis of such division can be substantiated as reasonable and equitable (the auditor will compare actual expenditures with the approved budget and note variations);
 - m. unexpended state funds advanced or overpaid were promptly returned to the Illinois State Board of Education;
 - n. payments to an administrator who is employed by the Board of Education under the terms of the contract covering a twelve-month period of service were not included in administrative expenses;
 - o. obligations were liquidated within 90 days after the end of the budget period and adjusted to the amount finally paid; and,
 - p. expenditures were incurred for activities in addition to those that have been provided previously for public and non-profit private school students and teachers.

Transfer: The Illinois State Board of Education reserves the right to transfer equipment if the grant activities cease to exist for the grant recipient for which the equipment was originally acquired.

14. Supplanting: Funds received under the Preschool for All Program shall be used to supplement, and not supplant, funds that would otherwise be used for the proposed activities. (Sections 2-3.71 and 2-3.89 of the School Code)
15. No fees will be charged of parents or guardians and their children who are enrolled and participate in Preschool for All programs.
16. No more than 5 percent of the total grant award shall be used for administrative and general expenses not directly attributed to program activities, except that a higher limit not to exceed 10 percent may be negotiated with an applicant that has provided evidence that the excess administrative expenses are beyond its control and that it has exhausted all available and reasonable remedies to comply with the limitation. If a 10 percent exception has been approved for Function 2300 the budgeted cell may not exceed 10 percent of the total grant allotment in the Final Expenditure Report.
17. Applicants should be aware that grant awards may not be used to provide religious instruction, conduct worship services, or engage in any form of proselytization; assist, promote, or deter union organizing; finance, directly or indirectly, any activity designed to influence the outcome of an election for any public office; or impair existing contracts for services or collective bargaining agreements.
18. No funds may be used to help support or sustain any institution controlled by any church or sectarian denomination (Article 10, Section 3 of the Illinois Constitution; Ill., Const. 1970, Art. X, Sec. 3).
19. Grant recipients are not allowed to begin an activity, obligate or expend funds that will be charged to a state or federal grant until a substantially approvable initial application has been received at ISBE. Grant recipients that submit a state or federal initial application prior to the program begin date (usually July 1) will be granted an appropriate project begin date for the following fiscal year unless state appropriation authority has not been approved. Grant recipients that submit a state or federal initial application after July 1 will be assigned a project begin date no earlier than when the initial application was received at ISBE or the program begin date (whichever is later). Grant recipients of a state competitive program should not begin any activity, obligate or expend funds until ISBE provides formal approval of the application and grant amount. Grant recipients that submit a state or federal budget amendment between the project begin and end date are not allowed to begin an activity, obligate or expend funds prior to the date of receipt at ISBE provided the scope or intent of the approved project has not changed. If the scope or intent of a project significantly changes through an amendment, ISBE programmatic approval should be obtained prior to the obligation of funds for the new activities provided in the amendment.
20. Each grantee which operates a program in a facility licensed by the Illinois Department of Children and Family Services (DCFS), shall require all employees and volunteers who are persons subject to background checks, as defined by Section 385.20 of Title 89 of the Illinois Administrative Code [89 IAC 385.20] to authorize DCFS to

perform a Child Abuse and Neglect Tracking System (CANTS) background check. Required individuals shall execute an Authorization for a background check, as defined by Section 385.20 of Title 89 of the Illinois Administrative Code and shall submit the Authorization to DCFS for completion of the CANTS background check. Evidence of completion of required CANTS checks for all persons subject to background checks shall be maintained by the grantee and copies of the same shall be provided to the administrator of the DCFS-licensed facility. The requirement applies to any paid or unpaid individual, including any certified teacher employed by a school district or other entity but working in the facility, who is used to perform essential staff duties as evidenced by being counted in the staff-child ratio or being allowed to be alone with children in a licensed child care facility outside the visual or auditory supervision of facility staff.

21. A Cost Allocation Plan (CAP) is a document that states how a grant recipient will identify, accumulate and distribute certain allowable administrative costs in grants and identifies the allocation methods used for distributing the costs. A written plan for allocating joint costs is required to support the distribution of those costs to the grant program. When a grant recipient completes a grant application/amendment, it must determine to either utilize its restricted indirect cost rate as calculated by ISBE or utilize a CAP which must then be documented via personnel time and effort information as well as formal accounting records according to generally accepted governmental accounting principles to substantiate the propriety of the eventual charges. All applicable documentation must be available for review upon request by a local auditor or ISBE auditor.
22. Joint Applications for Funding: Grantees participating in a joint application are advised that the member grantees are individually and jointly responsible to the Illinois State Board of Education for compliance with all of the terms and conditions of the grant agreement. The administrative agent is responsible to the participating grantee and is the agent designated to receive funds and submit reports.
23. Travel expenses, including transportation costs and, when overnight stay is required, lodging and per diem, are subject to the State rates published by the Governor's Travel Control Board for State employees and posted at <http://www.illinois.gov/cms/employees/travel/pages/travelreimbursement.aspx>
24. The applicant has read, understands and, if applicable, agrees to the terms included in the [Subgrantee Memorandum of Understanding](#)
