## Summary

The Property Tax Relief Grant (PTRG) was established in 2017 by Public Act 100-0465 and first implemented in fiscal year 2019. The grant provides school districts with high tax rates relative to other school districts with an opportunity to lower the property tax burden on local taxpayers. In exchange for abating a portion of their taxes for two years, districts receive a grant in year one that is added to their base funding minimum in year two.

Public Act 104-0435 adds a provision to 105 ILCS 5/18-8.15 that charges the Professional Review Panel with creating a report that assesses the impact of the PTRG. This report covers the number of districts participating, the tier assignment of participating districts, and an analysis of operating tax rates to determine if the grant is reducing property taxes in high-tax areas of the state. Key findings are listed below.

- PTRG has been awarded 202 times to 72 distinct districts.
- In total the PTRG, by tax year 2025, will have provided \$599,032,779 in tax relief.
- From FY 2019 through FY 2025 there are grant recipients in all four tiers: 83 districts are in Tier 1, 79 in Tier 2, 21 in Tier 3, and 19 in Tier 4.
- Between tax year 2018 and tax year 2022, 52% of PTRG recipients had a decrease in operating tax rates.
- However, when we consider a slightly longer timeline from the tax year 2015 to tax year 2023, 100% of the districts that participated in PTRG had a decrease in operating tax rates.
- Comparatively, 79.2% of the districts that did not participate in the grant had a decrease in operating tax rates between tax year 2015 and tax year 2023.
- The average percent change in estimated operating extension growth for PTRG districts in this period was 23.25% and for non-PTRG districts it was 38.64%.
- For both PTRG recipients and non-PTRG recipients, the average operating tax rate decreased between tax year 2015 and tax year 2023.

## PTRG Background

### Statute and History

The Property Tax Relief Grant (PTRG) was established in 2017 by Public Act 100-0465 and first implemented in fiscal year 2019. The grant provides school districts with high tax rates relative to other school districts with an opportunity to lower the property tax burden on local taxpayers. In exchange for abating a portion of their taxes for two years, districts receive a grant in year one that is added to their base funding minimum (BFM)<sup>1</sup> in year two. The amount remains in the district's BFM moving forward. Districts are not required to continue abating taxes after the first two years per statute.<sup>2</sup>

PTRG was revised in 2018 by both Public Act 100-0582 and Public Act 101-0017. Thus, the first year of grant calculations was slightly different than the following years. Namely, in the first year of implementation only one year of abatements was required. In addition, during the first year, the grant overemphasized elementary and high school tax rates in comparison to unit district tax rates. This was addressed for subsequent years.<sup>3</sup>

### Grant Formula

PTRG utilizes district organization type, real adjusted equalized assessed valuations (EAVs),<sup>4</sup> and adjusted operating tax rates to identify districts with the highest tax rates. To accomplish this adjusted operating tax rates are normalized and ranked such that those with the highest tax rates are listed first. The normalization process aims to ensure that the tax rates for elementary, high school, and unit districts are comparable. An example of operating tax rates for grant recipients and those that did not receive the grant is shown in Figure 1; note: tax year 2021 was chosen at random.

Districts apply for the grant and, if selected, are required to abate taxes for two years in exchange for a grant in year one that is added to the district's BFM in year two. Once the funds have been added to the district's BFM, the district continues to receive these funds year after year provided there are no decreases to Evidence-Based Funding appropriations. The abatement and grant amount each district is eligible for is a function of their local capacity percentage (LCP).<sup>5</sup> The grant amount is always less than abatement, but for districts with low LCPs the difference will be smaller than for districts with higher LCPs. This provides some incentive for less wealthy districts to apply and makes participating in the program less beneficial for wealthier districts. Figure 2 shows that the average LCP for districts that

---

<sup>1</sup> Base funding minimum is distributed through Evidence-Based Funding and is received every year. When there is an increase in appropriations, a district's base funding minimum will continue to grow.

<sup>2</sup> 105 ILCS 5/2-3.170(l) "In the immediate 2 consecutive tax years following receipt of a Property Tax Pool Relief Grant, the aggregate extension base of any school district receiving a grant under this Section, for purposes of the Property Tax Extension Limitation Law, shall include the tax relief the school district provided in the previous taxable year under this Section."

<sup>3</sup> Data from fiscal year 2021 has been excluded in some graphs due to anomalies associated with the COVID-19 pandemic.

<sup>4</sup> Real adjusted equalized assessed valuations are the original equalized property values with adjustments made to account for general authority abatements, enterprise zone abatements, property tax appeal board decisions, and certificates of error.

<sup>5</sup> The local capacity percentage (LCP) is a ranking of a district's ability to pay for education. Districts with a low LCP have a low equalized assessed valuation (EAV) in comparison to their cost of education and when compared to other districts across the state. The average LCP is typically around or just under 0.5.

received the grant is lower than the LCP of districts that did not receive the grant. These LCPs are further broken down in Figure 3 and the corrections that were applied through Public Act 100-0582 and Public Act 101-0017 after 2019 can be seen as the grant became less beneficial to districts with a high LCP.

## Public Act 104-0435

Public Act 104-0435 adds a provision to 105 ILCS 5/18-8.15 that charges the Professional Review Panel with creating a report that assesses the impact of the PTRG.<sup>6</sup> In particular, this report should include the number of districts participating, the tier assignment of participating districts, and an analysis of operating tax rates to determine if the grant is reducing property taxes in high-tax areas of the state.

## Key Questions

### How many districts are participating in the PTRG?

PTRG has been awarded 202 times to 72 distinct districts. In total the PTRG, by tax year 2025, will have provided \$599,032,779 in tax relief. This value accounts for the single year of abatements for the grant in FY 2019 and the two years of abatements required in the following fiscal years and is displayed in Table 1. Note: Grant recipients from FY 2025 are still documenting their abatements for tax year 2025.

<sup>6</sup> [105 ILCS 5/18-8.15 \(i\)\(9\)](#) "On or before March 31, 2026, the Professional Review Panel shall make a report to the Governor and the General Assembly assessing the impact of the property tax relief pool grant program under Section 2-3.170, including the number of districts participating in the program by fiscal year since Fiscal Year 2019, the tier assignment for participating school districts, and an analysis of the operating tax rates of participating school districts to determine if the grant program is meeting the legislative intent of reducing property taxes in high-tax areas of the State."

### Which tier assignments have received the grant?

From FY 2019 through FY 2025 there are grant recipients in all four tiers: 83 districts are in Tier 1, 79 in Tier 2, 21 in Tier 3, and 19 in Tier 4. The distribution of tier assignments by fiscal year is displayed in Table 2. The majority of grant recipients are in Tiers 1 and 2. Tiers 1 and 2 represent districts that are below 90% adequacy, indicating a need for state assistance. Tiers 3 and 4 represent districts above 90% adequacy.

Tier 1	16	20	15	14	7	11	83

Table 2: PTRG Recipients by Fiscal Year and Tier Assignment

Two examples of districts in Tier 4 that received the PTRG are Ford Heights School District 169 and General George Patton School District 133. From FY 2019 to FY 2025 (excluding FY 2021), Ford Heights School District 169 had an average LCP of 12.22% and General George Patton School District 133 had an average LCP of 15.71%. This indicates that these districts have a low ability to support their students locally. Also, Tier 4 districts receive very little additional tier funding (0.1%) through Evidence-Based Funding calculations. In addition, in tax year 2022 Ford Heights School District 169 and General George

Patton School District 133 already have relatively high tax rates of 12.81% and 9.43% respectively. A full list of operating tax rates can be found in Appendix A: Operating Tax Rates Over Time.

In the last seven fiscal years, FY 2019-FY 2025 (excluding FY 2021), Ford Heights School District 169 and General George Patton School District 133 have received the majority of their new state funding through the PTRG. In Figure 4 and Figure 5 note that tier funding became a small amount of new funding in recent years as each district entered Tier 4 in fiscal years 2022 and 2023.

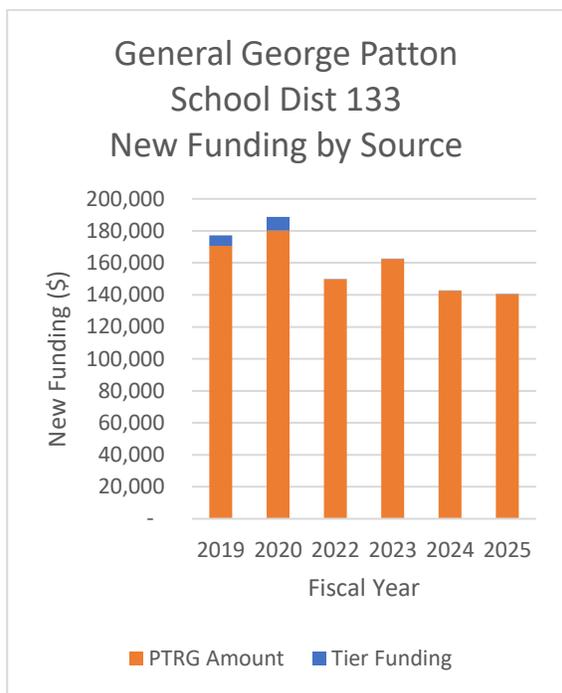

Figure 4: General George Patton School District 133 new funding by fiscal year (PTRG v new tier funding)

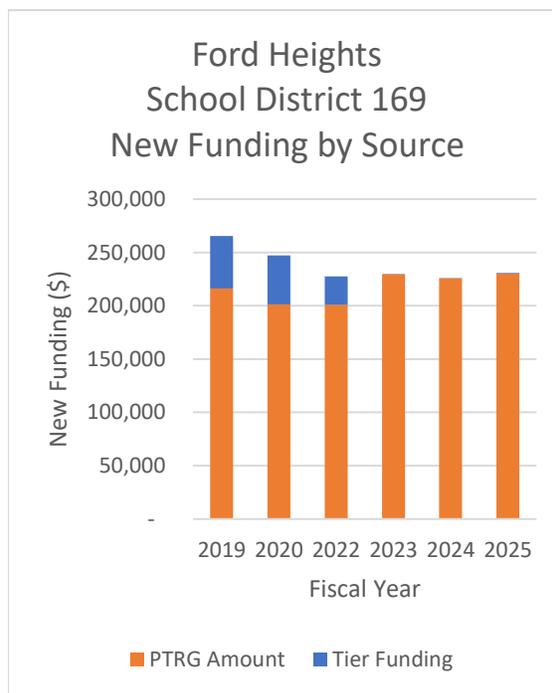

Figure 5: Ford Heights School District 169 new funding by fiscal year (PTRG v new tier funding)

From FY 2020 to FY 2025, PTRG was awarded 16 times to seven unique districts in Tier 4. Some districts received the grant in multiple years. Of those seven recipients, five had an LCP between 47% and 61.2%. Among the years and districts in this study, the average LCP is about 47%. This means that five districts received PTRG at least once despite having at least average means to pay for education. Similar to Ford Heights School District 169 and General George Patton School District 133, the majority of new funds for these districts came from PTRG when compared to EBF tier funding.

Most districts that receive PTRG are in Tiers 1 and 2. Tier 1 districts receive the most through Evidence-Based Funding calculations as they have the greatest state need; however, these districts still receive more assistance from PTRG. As displayed in Figure 6 and Table 3, the majority of new funds are from PTRG.

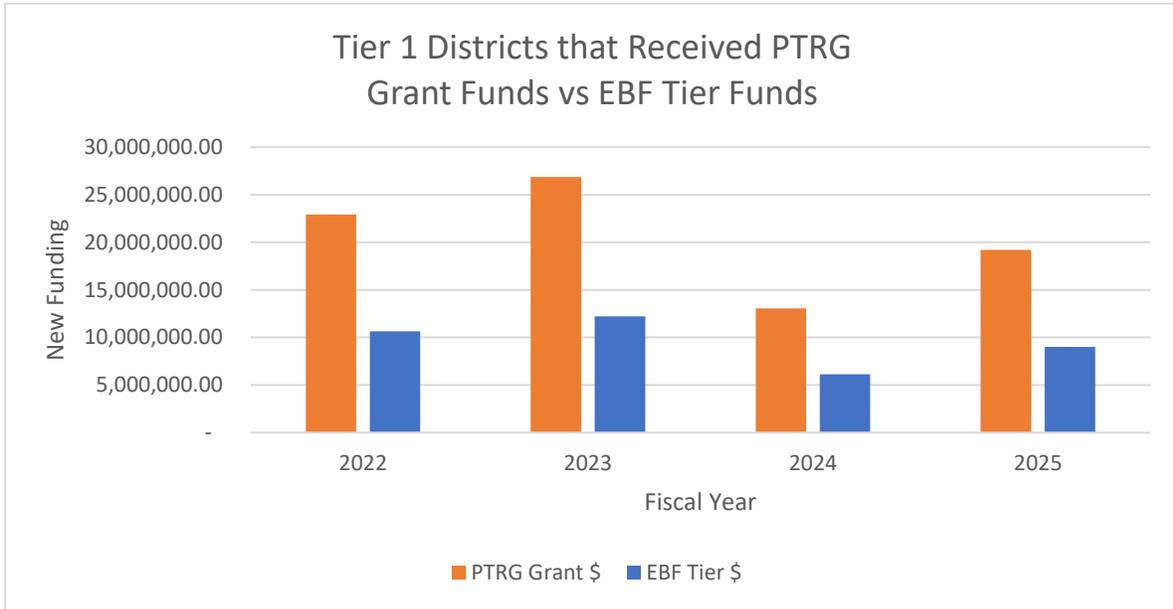

Figure 6: Districts in Tier 1 that received PTRG have funds added to their base funding minimum through EBF calculations and PTRG. The majority of new funds are directed through PTRG.

PTRG funds are added to the BFM and result in districts becoming more adequately funded. Out of all districts, PTRG accounts for at least 50% of new funding for 192 out of 202 grantees (districts may be duplicated when they receive the grant more than once), 162 of which were in Tiers 1 and 2.

## How does PTRG impact property taxes?

Between tax years 2018 and 2022, 52% of PTRG recipients had a decrease in operating tax rates while almost 48% of PTRG recipients had an increase. However, when we consider a slightly longer timeline from the tax years 2015 to 2023, 100% of the districts that participated in PTRG had a decrease in operating tax rates.<sup>7</sup> Comparatively, 79.2% of the districts that did not participate in the grant had a decrease in operating tax rates between tax years 2015 and 2023, meaning 20.8% had an increase in operating tax rates. Operating tax rates are displayed in Appendix A: Operating Tax Rates Over Time. Operating tax rates are often a function of property values. As equalized assessed values increase, tax rates can remain steady and still result in increased extended dollars for districts. Therefore, it is important to also consider changes to estimated operating tax extensions.

More than 99.5% of all districts have estimated operating tax extensions that have grown between tax year 2015 and tax year 2023.<sup>7</sup> However, districts that participated in the PTRG had a slower rate of growth on average than districts that did not participate in the grant. The average percent change for PTRG districts in this period was 23.25% and for non-PTRG districts it was 38.64%. Statistical tests determined that this difference in change was significant ( $p < 0.0001$ ). Figure 7 displays the difference in percent growth between grant recipients and non-recipients.

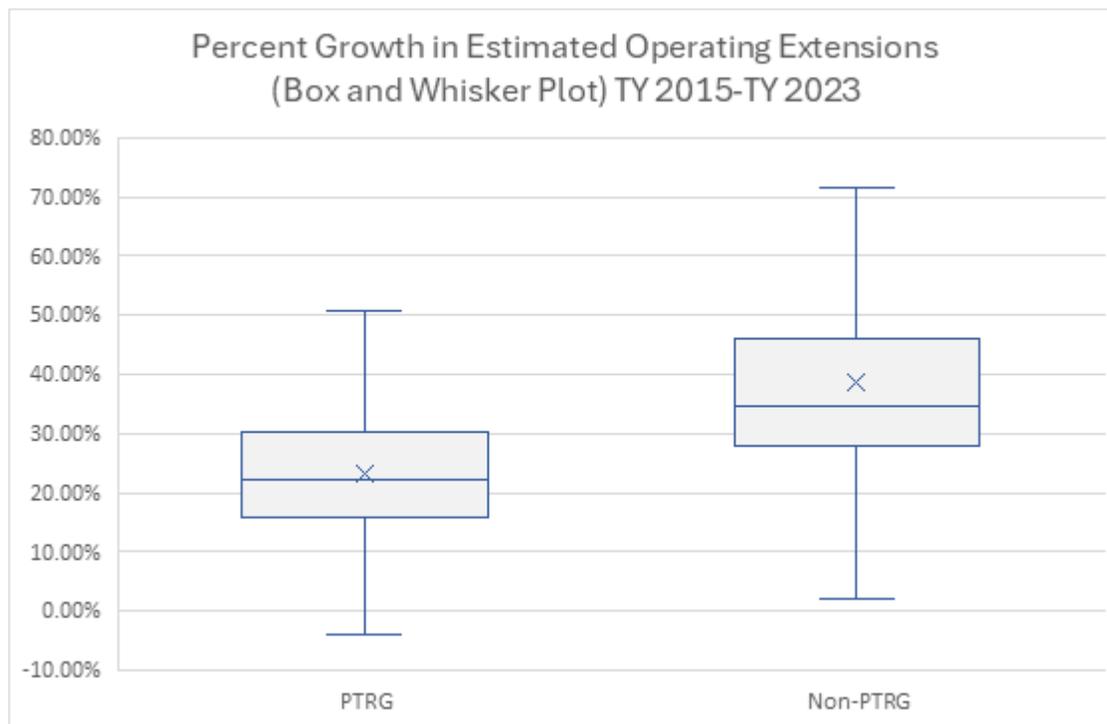

Figure 7: X - Average, Middle Bar - Median, Outliers are hidden

<sup>7</sup> Hybrid districts and districts that received the PTRG in FY 2025 are excluded. Illinois State Board of Education (ISBE) alters the tax rates and extensions of hybrid districts per EBF statute. At the time of this study, ISBE has not processed tax data for TY 2024 from the Illinois Department of Revenue, so first-time recipients do not have tax data with abatements included yet. This excludes eight districts.

For both PTRG recipients and non-PTRG recipients, the average operating tax rate decreased between tax year 2015 and 2023, and changes over time can be seen in Figure 8.

# Property Tax Relief Grant and Public Act 104-0435

# Property Tax Relief Grant and PA 104-0435

**PTRG:** The Property Tax Relief Grant program was created with the passage of Evidence-Based Funding.

The grant provides districts with high tax rates relative to other school districts with an opportunity to lower the property tax burden on local taxpayers with the state replacing a portion of forgone tax revenue with state grant funds.

**PA 104-0435:** On or before March 31, 2026, the Professional Review Panel shall make a report to the Governor and the General Assembly assessing the impact of the property tax relief pool grant.

# Agenda

- History of the property tax relief grant (PTRG)
- Overview of the mechanics behind PTRG
- Response to Public Act 104-0435
  - The number of districts participating in PTRG
  - The tier assignments of participating districts
  - An analysis of operating tax rates

# History of PTRG

The grant was first implemented in FY 2019

In FY 2020 revisions from PA 100-0582 and PA 101-0017 were applied

These revisions changed the abatement requirements from one year to two years of abatements

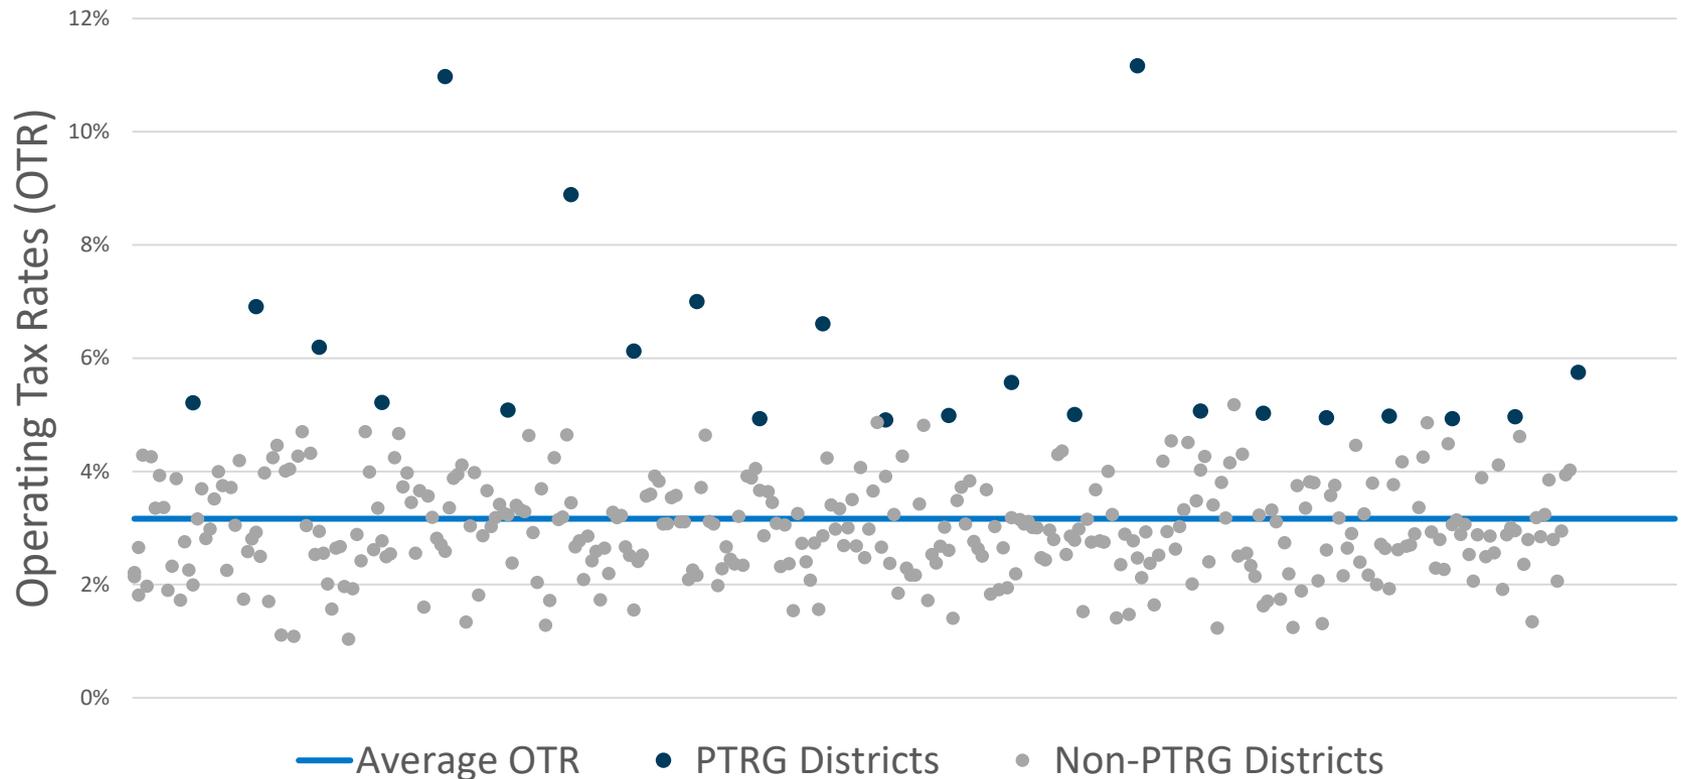

They also included an adjustment so that tax rates for elementary and high school districts were more comparable to unit district tax rates

# Property Tax Relief Grants

- Districts that apply and are awarded PTRG can provide some tax relief to taxpayers through tax abatements
- In exchange for abating taxes, a portion of the abatement is rewarded to the district as a grant
  - The grant is always less than the abatement
- Districts must abate these taxes for two years
- The grant is added to a district's base funding minimum (BFM) in year two and remains in the BFM in future years

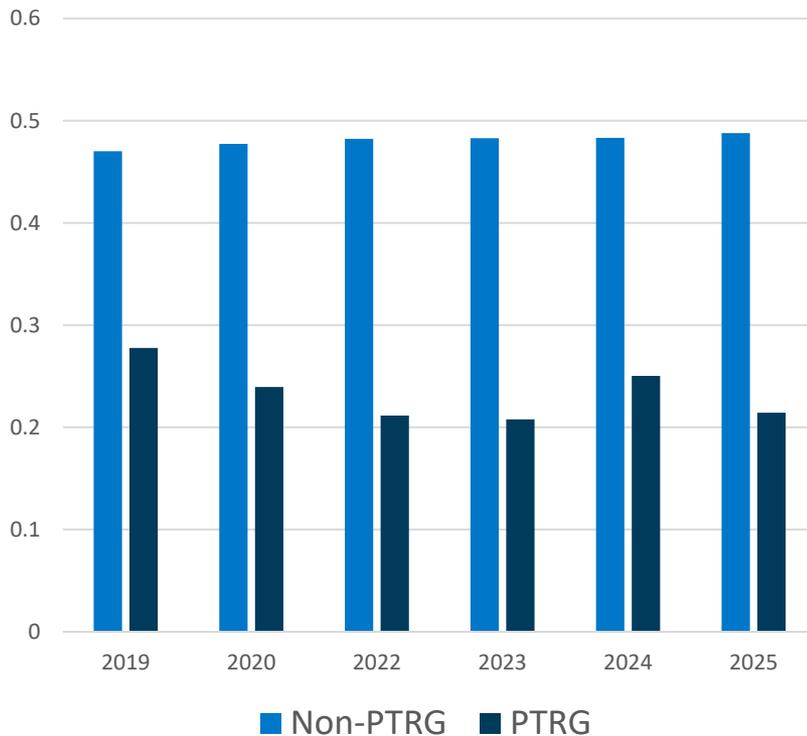

# Adjusted Operating Tax Rates for Elementary Districts in Tax Year 2021

TY2021 Elementary Adjusted Operating Tax Rates

# PTRG and Local Resources

Average Local Capacity Percentage for  
Property Tax Relief Grant Recipients  
Compared to Non-Participants

- On average, PTRG is awarded to more districts with a low Local Capacity Percentage (LCP)
  - The LCP is a measure of a district’s ability to pay for education with local resources
- Districts with a high LCP are not prevented from applying for the program but will receive a smaller grant in relation to their abatement if awarded

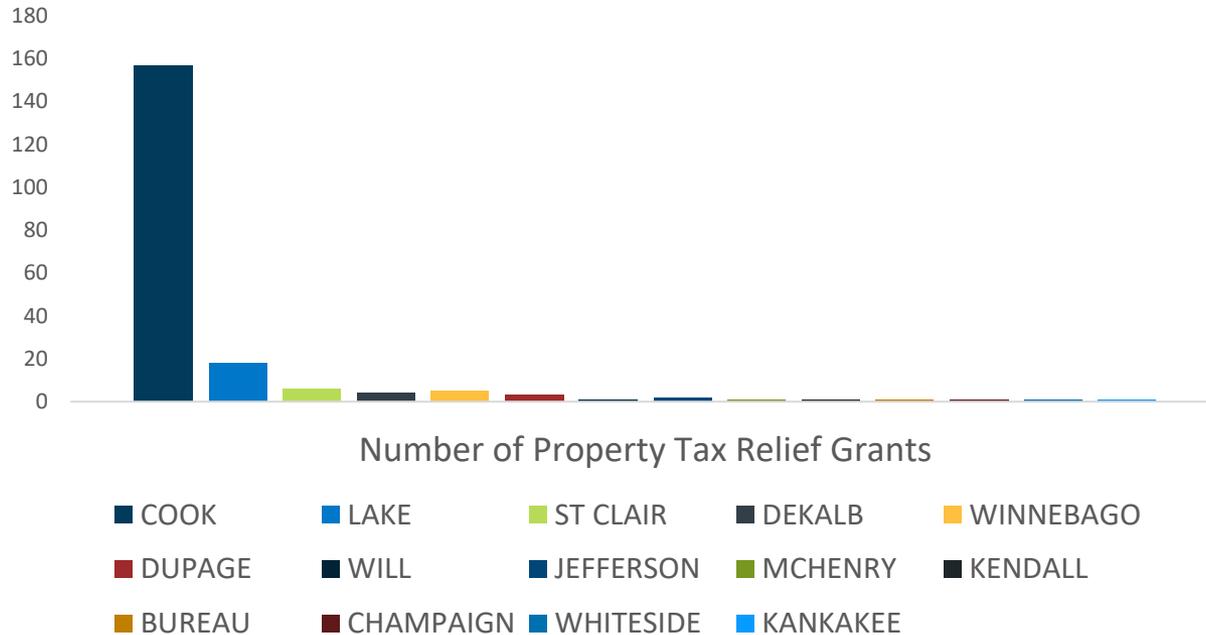

# Public Act 104-0435

On or before March 31, 2026, the Professional Review Panel shall make a report to the Governor and the General Assembly assessing the impact of the property tax relief pool grant program that includes:

- The number of districts participating in PTRG
- The tier assignment of participating districts and
- An analysis of operating tax rates

# How many districts participate in PTRG?

- PTRG has been awarded 202 times to 72 distinct districts (8.5%)
- 49 of the 72 districts are in Cook County
