

Reach your district improvement goals with customized professional learning

The Professional Services team from AdvancED | Measured Progress works with you to inspire learning and growth. Maximize effectiveness and build local capacity through collaboration, consultative support, and research-based training.

Our Approach

Discover + Plan | Our highly experienced experts will:

- Learn from you to understand your specific challenges, needs, and objectives
- Gather and review data to inform the development of a personalized learning plan
- Propose a professional learning plan that can be further customized to address your specific needs

Deliver | Based on your timeline, the Professional Services team will:

- Help your team implement the learning plan with proven tools, content, and resources in the AdvancED | Measured Progress suite
- Facilitate and deliver meaningful, interactive training through in-person consultative sessions, PLC meetings, and online learning opportunities

Support + Sustain | To ensure the learning continues, we will:

- Gauge the impact and confirm your learning objectives were met
- Collect feedback to inform next steps and a follow-up plan
- Provide recommendations for ongoing support to ensure continued improvement

“AdvancED | Measured Progress staff spent time learning about the uniqueness of our community. Their energy and expertise guided valuable conversations to shape the future of our schools.”

—Robert Strafford, Superintendent,
Owen County Schools, KY

Professional Learning and Support Packages

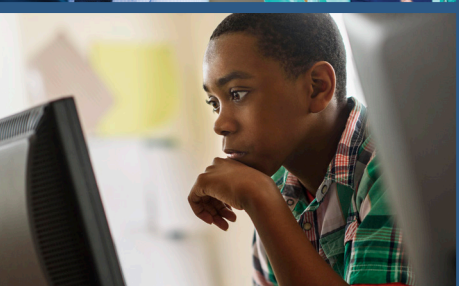

Each Professional Learning and Support package provides purposeful and engaging learning. Customized programs address your defined improvement priorities within your timeframe and budget.

Enhance Student Engagement

Increase educator understanding of effective instructional practices and classroom environments that are conducive to student learning. Choose from multiple workshop and coaching topics, including

- Effective Learning Environments
- Progress Monitoring and feedback
- Instructional Strategies
- Utilizing eleot® Sweeps and Calibration

Develop Quality Assessments

Work with our assessment experts to audit your existing assessment program. Or work with us to create affordable, customized assessments based on your objectives and curricula scope and sequence. Offerings include:

- Assessment Quality Review
- Test Construction Service

Expand STEM Teaching and Learning

Integrate the AdvancED STEM Standards and research-based best practices that are vital to create and sustain superior STEM programs. Take part in learning sessions such as:

- Meeting the Demands of the Future Through Quality STEM Education Programs
- Supporting Formative Assessment Practices with **STEM Gauge**®

Increase Strategic Thinking and Planning for School Leaders

Establish actionable strategies that cultivate a culture of continuous improvement, using the dynamic process facilitated by eProve strategies, part of the eProve suite. Learning and support include:

- Facilitation of the *inFocus* four-phase planning process
- Peer learning workshops with AdvancED | Measured Progress expert support
- Development of a strategic action plan

Optimize Comprehensive and Targeted Support

Engage your leadership team in a data-driven, intensive improvement planning process. Support includes:

- Facilitating a needs-based assessment
- Conducting on-site 3rd-party Diagnostic Review
- Personalized coaching for developing an evidence-based action plan

Every school has unique challenges. As a trusted partner and service provider to more than 36,000 institutions, AdvancED | Measured Progress provides the knowledge and expertise to help you move forward.
