

Property Tax Relief Grant Program (PTRG)

Updated Program for FY 2024

105 ILCS 5/2-3.170

What is the PTRG?

- Established by Public Act 100-0465 and revised by Public Act 100-0582 and Public Act 101 – 0017.
- Provides school districts with high tax rates relative to other school districts with an opportunity to lower the property tax burden on local taxpayers with the state replacing a portion of foregone tax revenue with state funds.
- Exempt from the Grant Accountability and Transparency Act.
- Per statute, when increased funds are in excess of \$300 million a max of \$50 million is reserved for the PTRG.

Calculation of PTRG – Gathering Data

Key data points are needed to begin the PTRG. You will need:

- The District Organization Type (i.e. Elementary, Unit, High School)
- Real Adjusted EAV as used in the EBF calculation for the applicable Fiscal Year. (e.g. FY 24 will utilize the Tax Year 2021 Real Adjusted EAV)
- Adjusted Operating Tax Rate (OTR) for the applicable Fiscal Year (e.g. FY 24 will utilize the Tax Year 2021 Adjusted OTR)
- The Average Adjusted OTR by District Organization Type (will change annually)
- The District Local Capacity Percentage (LCP) for the applicable Fiscal Year

Calculation of PTRG – Determining the Percentage of District Organization Type Average (Qualifier for Eligibility)

- The District Tax Rate as a Percentage (%) of the Average Tax Rate by District Type is utilized in PTRG as the qualifier to determine district eligibility. This is equal to:

$$\begin{array}{|c|} \hline \text{District} \\ \text{Adjusted} \\ \text{OTR} \\ \hline \end{array} \div \begin{array}{|c|} \hline \text{Average Tax} \\ \text{Rate for} \\ \text{District Type} \\ \hline \end{array} = \begin{array}{|c|} \hline \% \text{ of District} \\ \text{Org Type} \\ \text{Average} \\ \hline \end{array}$$

- This must be calculated for all districts in order to determine eligibility order.

Calculation of PTRG – Determining the Multipliers

- There are two multipliers used in the PTRG calculation. Both multipliers use the Local Capacity Percentage (LCP) from the EBF calculations and must be determined for each district in advance of completing the calculation.
- Property Tax Multiplier = $(1 - LCP^2)$
- LCP Multiplier = $(1 - LCP)$

Calculation of PTRG – Identifying the Maximum Abatement Percentage

- Applying the LCP multiplier provides greater tax relief to under resourced districts.
 - The Cap on Tax Relief by District Organization Type
 - Unit = 0.01 or 1%
 - Elementary = 0.0069 or 0.69%
 - High School = 0.0031 or 0.31%

$$\text{LCP Multiplier} = (1 - \text{LCP})$$

Calculation of PTRG – Maximum Possible Abatement (in dollars)

- Determining the Maximum Abatement amount utilizes data and multipliers defined in previous slides. You will need the Maximum Abatement % and Adjusted EAV.

$$\begin{array}{|c|} \hline \text{Maximum} \\ \text{Abatement} \\ \hline \% \\ \hline \end{array} \times \begin{array}{|c|} \hline \text{Adjusted} \\ \text{EAV} \\ \hline \end{array} = \begin{array}{|c|} \hline \text{Maximum} \\ \text{Possible} \\ \text{Abatement} \\ \text{Amount } \$ \\ \hline \end{array}$$

Remember, this is a preliminary amount. Final maximum abatement amounts are determined once the final pool of applicants is established.

Calculation of PTRG – Maximum Grant Possible

- Determining the Maximum Possible Grant Award utilizes data and multipliers defined in previous slides. You will need the Maximum Possible Abatement Amount and Property Tax Multiplier.

$$\text{Property Tax Multiplier} = (1 - \text{LCP}^2)$$

Remember, this is a preliminary grant award. Final grant awards are determined once the final pool of applicants is established.

Final PTRG Calculations

- Only once the final pool of applicants is identified can final PTRG calculations be completed.
- Applicant districts will be sorted by the % of District Org Type Average to determine eligibility.
- The appropriated grant money will be distributed to districts in the order of eligibility.
- If there are insufficient funds to pay the full amount of the grant the final qualifying district is eligible for, the maximum abatement amount will be determined by dividing the remaining available funds by the Property Tax Multiplier.

Things to Consider Before Applying for the PTRG

Things for District Administration to Discuss Prior to Applying

- Districts are required to abate taxes for 2 years.
 - *Districts should assess the impact of the two-year requirement to abate.*
- If a district does not abate the tax for a second year, the grant amount will be removed from the district's Base Funding Minimum in the fiscal year following the failure to abate.

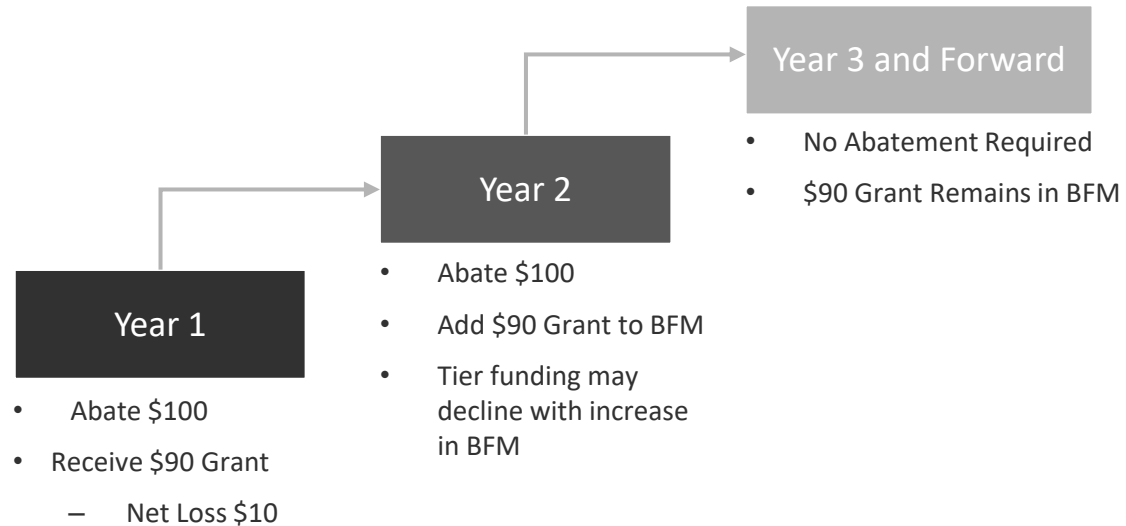

How PTRG Affects Future Year Funding

Example District

Year 1 Maximum Abatement= \$100

Year 1 Grant as a % of Abatement = 90%

Year 1 PTRG = \$90

Every district's Grant as % of Abatement will vary.

Every district's timeline of recovery due to the abatement loss will vary.

Property Tax Relief Grants Become Part of Future Base Funding Minimum Amounts

Any grants received by a school district shall be included in future calculations of that school district's Base Funding Minimum under Section 18-8.15 of the School Code. [105 ILCS 5/2-3.170(k)]

For districts subject to the Property Tax Extension Limitation Law, in the two consecutive tax years following receipt of a Property Tax Relief Grant, the aggregate extension base of any school district receiving a grant shall include the tax relief the school district provided in the previous taxable year. [105 ILCS 5/2-3.170(l)]
