Report Card information for schools and districts, including **data system openings and closings**, **deadline reminders**, and **key information** regarding changes and updates to the 2021 Report Card.

## Need to Know

### New Reporting Features

- Starting with school year 2020-21, the Illinois Report Card will include a new reporting feature that will replace both the At-a-Glance reports and the Classic PDF reports going forward. This new feature, titled "Custom Report Card Builder," will allow users to select for themselves which data points to include on the screen or print output from nearly the entire range of data available on the interactive report card site.
  - At-a-Glance reports will still be available for school year 2019-20 and prior.
  - Classic PDF reports will still be available for school year 2019-20 and prior.

### College and Career Ready Indicator

- The data collection for College and Career Ready Indicator in the Student Information System (SIS) has been extended from August 13 to September 15.
  - The updated important SIS data collection dates can be found [here](#).

## Openings and Closings

### Data Review and Verification Tool (DRVT)

- [DRVT](#) via MyIRC – **Currently Open – Closes September 30**
  - Note: The DRVT will close at 5 p.m. on September 30; however, data collection deadlines depend on the related IWAS system and may be earlier than September 30.
- Below are some key last days districts can update their data:
  - September 1
    - Entity Profile System Information
  - UPDATE: September 15
    - College and Career Ready Indicator SIS Collection

## Reminders

### Report Card Release Dates

- The 2021 Report Card will have three releases of data. Having both spring and fall testing windows for the 2021 school year means Assessments data and College and Career Ready data will be released during the second release or the third release (as applicable by district). The various release dates are listed below, as well as when you can expect to start seeing Assessments data, College and Career Ready data, and Early Learning data on the Report Card:
  - The initial release of the Report Card will take place on October 29, 2021. This release will include all metrics that do not rely on Assessments data. These data will be reported at the school, district, and state levels.
  - On December 2, 2021, the following data will be released to the Report Card for districts that completed spring assessment testing. These data will only be reported at the school and district levels. No state-level data will be released.
    - Illinois Assessment of Readiness (IAR)
    - SAT
    - College and Career Ready
    - Early Learning
  - On April 27, 2022, the following data will be released to the Report Card for those who completed spring and/or fall assessment testing. These data will be reported at the school, district, and state levels.
    - IAR
    - SAT
    - ACCESS
    - Dynamic Learning Maps Alternate Assessment
    - Illinois Science Assessment
    - College and Career Ready

### Summative Designations

- Accountability for the 2020-21 school year was waived; therefore, summative designations will **not** be calculated for 2021. Schools that have been previously identified for support will maintain that support status, but **no** 2021 annual summative designation will be reported. Instead the following message will be displayed on the Report Card:
  - Summative Designations: 2021 Not Calculated
- The requirement to issue a summative designation was [waived](#) for school year 2020-21 so that data can be used to provide information to support reengagement and restoration. Local context is critical to understanding all reported data. Use caution when interpreting.
- The updated [2021 Official Summative Designation Business Rules](#) are now available on ISBE's website.
