November 2021

Report Card Initial Release

- The initial release of the Report Card took place on October 29, 2021. This release includes all metrics that do not rely on Assessments data. These data are being reported at the school, district, and state levels.

Early Learning Data

- Early Learning data from the Kindergarten Individual Development Survey (KIDS) will not be reported on the school year 2021 Report Card. The SY 2021 data does not reflect kindergarten readiness as it has in the past.
  - A narrative report will be made available on the KIDS website in the near future to address why the data does not reflect kindergarten readiness. In addition, we will provide information on how to interpret this data for local use.

Science Assessment Proficiency Data

- Science Assessment Proficiency data will be reported via the www.isbe.net/ISA website. It will not be reported on the SY 2021 Report Card. Additional information will be made available in the near future.

Openings and Closings

Educator Preview

- **Educator Preview via MyIRC – Currently Open**
  - Educator Preview allows districts the ability to view their finalized data prior to it being released on the Report Card.
  - Updated data being displayed at this time includes the below preliminary data for districts that completed spring assessment testing and will only be reported at the school and district levels. No state-level data for these metrics will be released during this time.
    - Illinois Assessment of Readiness (IAR)
    - SAT
    - Participation Rates (IAR, SAT, and Illinois Science Assessment [ISA])
    - College and Career Ready
  - Data being displayed at this time that does not rely on Assessments data should be considered finalized.

Reminders

Report Card Release Dates
The 2021 Report Card will have three releases of data. Having both spring and fall testing windows for the 2021 school year means Assessments data and College and Career Ready data will be released during the second release or the third release (as applicable by district). The various release dates are listed below, as well as when you can expect to start seeing Assessments data and College and Career Ready data on the Report Card:

- The initial release of the Report Card took place on October 29, 2021. This release included all metrics that do not rely on Assessments data. These data are being reported at the school, district, and state levels.
- On December 2, 2021, the following preliminary data will be released to the Report Card for districts that completed spring assessment testing. These data will only be reported on the Report Card at the school and district levels. No state-level data for these metrics will be released on the Report Card during this time.
  - IAR
  - SAT
  - Participation Rates (IAR, SAT, and Illinois Science Assessment [ISA])
  - College and Career Ready
- On April 27, 2022, the following finalized data will be released to the Report Card for those who completed spring and/or fall assessment testing. These data will be reported at the school, district, and state levels.
  - IAR
  - SAT
  - ACCESS
  - Dynamic Learning Maps Alternate Assessment (DLM-AA)
  - Participation Rates (IAR, SAT, DLM-AA, and ISA)
  - College and Career Ready

Note: The following metrics will not be reported on the SY 2021 Report Card. Additional information regarding the following metrics will be posted to ISBE’s website as it becomes available.

- Illinois Science Assessment
- IAR - Growth Percentile
- Summative Designation
- Early Learning (KIDS)

**Summative Designations**

- Accountability for the 2020-21 school year was waived; therefore, summative designations will not be calculated for 2021. Schools that have been previously identified for support will maintain that support status, but no 2021 annual summative designation will be reported. Instead the following message will be displayed on the Report Card:
  - Summative Designations: 2021 Not Calculated
- The requirement to issue a summative designation was waived for SY 2020-21 so that data can be used to provide information to support reengagement and restoration. Local context is critical to understanding all reported data. Use caution when interpreting.
- The updated 2021 Official Summative Designation Business Rules are now available on ISBE’s website.

**New Reporting Feature**

- Starting with SY 2020-21, the Illinois Report Card will include a new reporting feature that will replace both the At-a-Glance reports and the Classic PDF reports going forward. This new feature, titled “Custom Report Card Builder,” will allow users to select for themselves which data points to include on the screen or print output from nearly the entire range of data available on the interactive Report Card site.
  - At-a-Glance reports will still be available for SY 2019-20 and prior.
  - Classic PDF reports will still be available for SY 2019-20 and prior.

**College and Career Readiness Indicator Reports Available in SIS**

- Two new reports are available in the Student Information System (SIS) for the College and Career Readiness Indicator (CCRI). They can be found under Reports -> Summative Designation -> Summative Reports.
  - The first is the CCRI Student Roster Report and the second is the CCRI Student Summary Report.
These reports have been added to allow districts and schools to view the full compiled data for each student for the College and Career Readiness Indicator. The CCRI Student Roster Report will show what indicators each student has met according to the data submitted to ISBE. ISBE pulls data for this indicator from course enrollments, course grades, student attendance, graduation tables, and the College and Career Readiness collection. This report can be filtered by students who are in the annual calculation and those who are not, and sorted by student ID, last name, and grade. This will allow districts to not only verify their data but also track the progress of students as they move through their high school career. The CCRI Student Summary Report will summarize the core requirements to be either a College and Career Ready Scholar or a Distinguished Scholar by student.

**Some Important Notes:**
- College and Career Readiness will be displayed for the first time this year in the second Report Card release.
- The Report Card will only display the overall rate of College and Career Readiness. The percentage of students who met Distinguished Scholar or College and Career Ready Scholar will not be displayed.
- One reason for reporting only the overall rate is that the students who are included in this calculation (students with an exit code of graduated in 2021) did not take the state administration of SAT during their junior year of high school due to the suspension of instruction and cancellation of state assessments.
- Although there was a makeup administration offered by ISBE in fall of 2020, ISBE did not receive the data from this administration. ISBE cannot use this data to determine if students met the Distinguished Scholar score threshold.
- Districts have access to the fall 2020 data through the College Board's reporting portal and may use this data to mark a student as having met the Minimum ACT or SAT Subject Scores - English, Reading, and Writing and/or Minimum ACT or SAT Subject Scores - Math.

### Upcoming Webinars

**2021 Report Card Open Forum #4 – November 18**
Join staff for the 2021 Report Card Open Forum #4 webinar from 10-11:30 a.m. on November 18. This webinar will review previous 2021 Report Card webinar Frequently Asked Questions. It will provide another opportunity for districts to ask Report Card-related questions. The webinar will be recorded and posted for those unable to attend in person. [Register now!](#)

### In Case You Missed It
2021 Report Card Overview #2
- ISBE hosted a webinar on November 4 to review all new elements on the second release of the 2021 Report Card. Additionally, staff answered questions regarding new data available in the second release. View the recording.

2021 Report Card Overview #1
- ISBE hosted a webinar on September 30 to review all new elements on the 2021 Report Card, including data affected by the suspension of in-person instruction. View the recording.

Report Card Open Forum #2 Webinar
- ISBE hosted a webinar on July 29 to review previous 2021 Report Card webinar Frequently Asked Questions. It also provided another opportunity for districts to ask questions related to the Report Card. View the recording.

Site-Based Expenditure Reporting and the Report Card: All things SBER from Collection to Report Card Webinar
- ISBE hosted a webinar on July 22 to look at the entire process from data calculation to the presentation of Site-Based Expenditure Reporting (SBER) data on the district Report Card. View the recording.

Revisiting the Data Review and Verification Tool Webinar
- ISBE hosted a webinar on July 1 to revisit the Data Review and Verification Tool. The webinar covered the tool as well as new features. View the recording.

Report Card Kickoff Webinar
- ISBE hosted a webinar on June 17 to provide a broad overview of the Report Card data collection, review, and finalization processes. The webinar covered key dates and deadlines as well as tools provided by ISBE to help districts submit their data in a timely and accurate fashion. View the recording.

SIS End of Year Report Card Data Verification Webinar
- ISBE hosted a webinar on June 2 to review the Student Information System - End of School Year 2021 Report Card Data Verification. View the recording.

Past Rundown Issues
- October 2021
- September 2021
- August 2021
- July 2021
- June 2021
- May 2021
The Illinois State Board of Education is the State Education Agency for Illinois. Our mission is to provide each and every child with safe and healthy learning conditions, great educators, and equitable opportunities by practicing data-informed stewardship of resources and policy development, all done in partnership with educators, families, and stakeholders.
