In accordance with the requirements set forth in <u>105 ILCS 5/2-3.130</u>, each entity must create an oversight team that consists of, but is not limited to, teachers, paraprofessionals, school service personnel, and administrators to develop specific plans that include procedures to reduce and eventually eliminate the use of physical restraint, time out, and isolated time out (RTO). The progress shall be measured by the reduction of the overall number of incidents of such interventions and the total number of students subjected to them.<sup>1</sup>The plans must include specific actions as specified in legislation and shall align with the reduction goals set forth by the Illinois State Board of Education (ISBE).

An annual Progress Report is required. The Progress Report must include a report of your RTO data, improvements that have been made as a result of your RTO Reduction Plan, and any explanation as to why specific strategies did not reduce the number of RTO incidents within your facility or cooperative. The corresponding RTO Reduction Plan Template includes a Progress Report Template. The Progress Report and Reduction Plan can be submitted together whether the template is used or not.

**Goal Development:** The plan's objective shall be centered around at least three reduction goals. The two required goals for every entity are:

The plan shall include at least one goal selected by the entity from the list of optional goals based upon its data. Select at least one of the following:

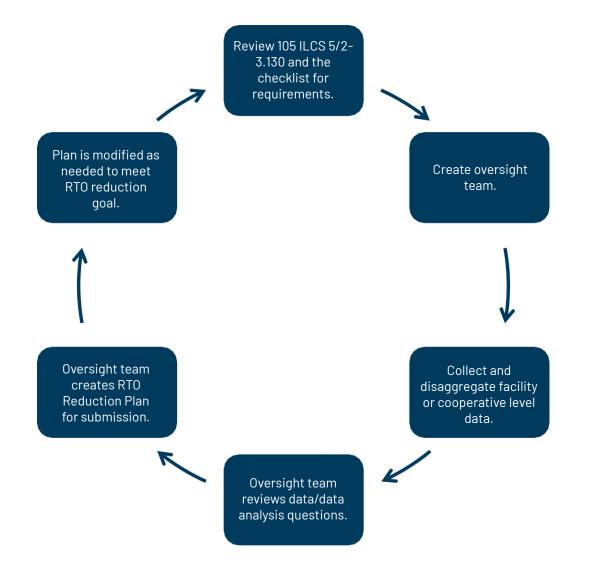

- **1.** Reduce the number of K-2 students experiencing RTO by 25% of students.
- **2.** Reduce the number of students of color experiencing RTO by 25%.
- **3.** Reduce the number of students experiencing five-plus instances of RTO in a 30-day period by 25%.
- 4. Reduce the number of male students experiencing RTO by 25%.
- **5.** Reduce the number of incidents of RTO for students with autism by 25%.
- **6.** Reduce the number of students with an emotional disability experiencing RTO by 25%.
- **7.** Reduce the number of students with Individualized Education Programs (IEPs) experiencing RTO by 25%.

The Reduction Plan and yearly Progress Reports shall be submitted to **rtoreductionplan@isbe.net** by October 15, 2024. A plan is required unless an entity can show that it has **not** used physical restraint, time out, or isolated time out within the last three years, **and** the entity has adopted a policy prohibiting these interventions **and** can demonstrate enforcement of that policy. If you meet these requirements you can apply for an exemption by August 15 and a determination will be made by August 30.

<sup>&</sup>lt;sup>1</sup>An entity may apply in writing to ISBE to submit a plan based upon an alternative goal that takes measurement of progress of individual students into account. The alternative goal and application can be found here [insert link]. Applications are due by August 15; a determination will be made by ISBE by August 30.

## RTO Reduction Plan Checklist for Special Education Cooperatives and Non-PublicSpecial Education Facilities

The requirements for an entity's RTO Reduction Plan are specified in <u>105 ILCS 5/2-3.130</u>. Entities may utilize the following checklist. **Do not submit this checklist** to the Illinois State Board of Education.

		1
1	Does the RTO Reduction Plan reflect an oversight team that consists of, but is not limited to, teachers, paraprofessionals, school service personnel, and administrators that will develop specific plans with procedures for reducing and eventually eliminating the use of physical restraint, time out, and isolated time out?	
2	Does the RTO Reduction Plan indicate how the entity will make progress toward the reduction and eventual elimination of physical restraint, time out, and isolated time out interventions? Progress shall be measured by the reduction of overall number of incidents of such interventions and the total number of students subjected to them. It is recommended that entities review their disaggregated facility-level RTO data.	
3	Does the RTO Reduction Plan include, without limitation, actions set forth in legislation and address the two default reduction goals and at least one optional goal set forth by ISBE?	
4	Does the RTO Reduction Plan identify steps to develop individualized student plans that are oriented toward the prevention of the use of physical restraint, time out, and isolated time out, with the intent of the plan to be separate from a child's IEP or 504 Plan?	
5	Does the RTO Reduction Plan describe procedures to ensure that appropriate school personnel are fully informed of the student's history, including any history of physical or sexual abuse, and other relevant medical mental health information? Such disclosures of student information must be consistent with federal and state laws and rules governing student confidentiality and privacy rights.	
6	<ul> <li>Does the RTO Reduction Plan provide necessary information to detail and support a vision for cultural change that reinforces the following?</li> <li>A.) Positive behavioral interventions and support rather than physical restraint, time out, and isolated time out;</li> <li>B.) Effective ways to deescalate situations to avoid physical restraint, time out, and isolated time out;</li> <li>C.) Crisis intervention techniques that use alternatives to physical restraint, time out, and isolated time out; and</li> <li>D.) Use of debriefing meetings to reassess what occurred and why it occurred and to think through ways to prevent use of RTO interventions the next time.</li> </ul>	
7	Does the RTO Reduction Plan define how the information will be made available to parents for review?	
8	Does the RTO Reduction Plan identify a modification process (as necessary) to satisfy aforementioned goals?
