### Kelsi Spain, Teacher Leader

*Roosevelt's Instructional Leadership program has prepared me to be a strong educational leader, as well as a better teacher. Through opportunities offered at Roosevelt, I was able to further my work in the space of equity and inclusion and I have stayed involved at Roosevelt even beyond graduation. The organization of the program and the level of support offered made the course load manageable and allowed me to implement many of the assignments in my classroom. I highly recommend this program to anyone who is interested in school leadership or leadership opportunities in the field of education!*

### Nino Alvarez, Assistant Principal

*Roosevelt University's Instructional Leadership program provided the education, skills and experience to become an instructional leader. Roosevelt diversified my understanding of education policy, leadership, and instruction through the lens of an instructional leader. It's program schedule allowed me to apply what I learned in real life applications while still teaching. The instructors are experienced and passionate about their work and practice everything they teach.*
