

## Invest in Kids Act Spring 2023 Administration: Differences Between SAT with Essay and PSAT 10 & PSAT 8/9

[Public Act 100-465](#) established the Invest in Kids Act. The Act includes a five-year tax credit scholarship program for eligible students who attend qualified nonpublic schools. A portion of the Act requires that scholarship recipients shall be annually assessed at the qualified school where the student attends school in the same manner in which students that attend public schools are annually assessed pursuant to Section 2-3.64a5 of the School Code and that such qualified schools shall pay costs associated with this requirement.

The Illinois State Board of Education (ISBE) is requiring its public schools to administer the PSAT 8/9 to students in Grade 9 and the PSAT 10 to students in Grade 10. Schools that must administer these tests to scholarship recipients should follow standard protocol for ordering these materials via College Board’s Test Ordering System (TOS).

ISBE is requiring public schools to administer the SAT with Essay to students in Grade 11. Procedures for ordering these materials **differ** from the standard protocol due to the unavailability of the essay via College Board’s TOS. Therefore, schools that must administer this test to scholarship recipients should follow procedures for ordering materials for SAT with Essay through ISBE.

The chart below describes the differences in procedures for each test. Please direct any questions to [assessment@isbe.net](mailto:assessment@isbe.net).
