[Blooket](https://www.blooket.com)

PEDAGOGY RELATED

- **Bookwidgets** – Create fun and interactive exercises for Chromebooks, iPads, tablets and PC. Right inside of Google Classroom! Interactive graphs, dynamic worksheets, and completely automatically graded exercises and tests. With BookWidgets, you can make over 40 different types of exercises, right inside of the familiar Google Classroom environment. Whether it's small exercises to supplement a textbook, complete lessons or elaborate web quest, with BookWidgets you finally have the tools you need to provide a tailored learning experience. Combine sources, text, video, quizzes and interactive widgets to let students learn and practice at their own pace. Track the work and evolution of your students over time. All student work is automatically graded, but you can of course override where needed, for instance to account for dyslexic students. When you're done, you return the graded work, including your feedback with a click. The grades automatically make their way into the gradebook. BookWidgets is completely FREE for students. Only teachers that use BookWidgets need a paid license. For pricing info, please see <https://www.bookwidgets.com/pricing>.

Bookwidget also has an Apple app.

<https://www.bookwidgets.com/>

<https://flippity.net/>
PEDAGOGY RELATED

- **Floop** – Feedback is the #1 driver of student learning. Floop is a web app that saves teachers time and helps students see the value in feedback. Students get the feedback when they need it. Give feedback to your students 4x faster than traditional methods with a digital drop box and comment banks. There is a FREE trial period but after the trail ends, this is NOT a free resource.
<https://www.floopedu.com/>
PEDAGOGY RELATED

- **Flyswatter game** - The game is simple. Write a series of words that your class has been studying on different spots on your whiteboard. If you have a BenQ , Smartboard, or projector you could also project them from a computer file (such as PowerPoint or Word). Divide your class into two large teams. Have one representative from each team come to the front with a flyswatter. Provide an example, definition, or clue for one of the vocabulary words. Once students determine the word, they slap it with the flyswatter. Whoever's flyswatter lands on the word first scores a point for his or her team. The defeated player leaves, and the "winner" selects a new challenger from the opposing team. This routine goes on until all words have been discussed or until a pre-designated score has been reached.

<https://kennycmckee.com/the-vocab-games-flyswatter/>

PEDAGOGY RELATED

- **FrankSonnenbergOnline** – among the best leadership blogs related to character, personal values, and personal accountability.

CURRICULUM & PEDAGOGY RELATED
- **Star Assessments** – They have a CTE section. Career Technical Education (CTE) programs are a sequence of courses that integrates core academic knowledge with technical and occupational knowledge and skills to provide students a pathway to postsecondary education and careers. CTE teaches transferable workplace skills in applied learning contexts to provide opportunities to explore high-demand career options and gives students the technology and skills needed for success in adult life. Whether students take one CTE course or enroll in an entire CTE program, CTE is an Important part of every student’s well-rounded education. Regardless of the CTE pathway, CTE experiences build the transferable skills that lead to success in career and college. CTE classes inform students about how their skills apply to today’s occupations and provide students with a realistic picture of their future in the world of work.

CURRICULUM & PEDAGOGY RELATED

- **Trashketball** - This is my favorite "game" to use in the classroom. The concept of the game is basic- a student answers a question correctly, the student shoots a crumpled up sheet of paper (the trashketball) into the class garbage can. I made the game more organized by creating an attractive Trashketball gameboard template. (Having a gameboard also helps when writing lesson plans). Trashketball incorporates physical activity (basketball)so is great on a rainy day or when you, as the teacher, want to impress an observer with an integrated lesson plan! I love using technology to make games, but this simple, "old-fashioned" classic is fun for the kids. I use this activity about every other week or so to review my students before their weekly math test. Once this plan has been downloaded, the gameboard can be easily customized so that a teacher can use the activity to review any lesson or subject. Just change the questions in the Trashketball boxes and "voila!" you have a new review activity. This is also a great activity to leave for substitutes, and I included in the download detailed instructions for a substitute. The activity can last from 20- 40 minutes. This is a FREE resource.
