ACCESS Correction

March 11 - August 25, 2024

ACCESS Correction

ISBE will open the ACCESS Correction process on **March 11, 2024**.

- Demographic, Home School, and Grade details must reflect a student's status as of the last day of the ACCESS testing period.
- Changes made to the ACCESS correction data only affect the ACCESS Correction data; they do not update the student demographics information in SIS.
 - Updates to SIS student demographic, enrollment, and program indicator data (and enrollment exits) must also continue through the end of the school year.
 - If student demographic errors are identified in the ACCESS Correction file, revisions must be made both via the ACCESS Correction file and within SIS (via the Student Demographic/Enrollment batch file or the available online areas).
- An ACCESS Correction record can only be added if the student has an EL record in your district for the 2023-24 school year.

DLM-AA Pre-ID

Creation of DLM-AA Pre-ID for Grades 3-11*:

- Students testing DLM-AA must be IDEA Services (IEP) = Yes.
- A DLM-AA Pre-ID record will be created for all students Grades 3-11* who have DLM-AA record as their most recent assessment in SIS and are currently IDEA Services (IEP) = Yes.

**Current Grade 12 students without a valid Grade 11 or 12 score or qualifying exemption from any previous Grade 11 or 12 DLM-AA administration will be rostered to take DLM-AA in spring 2024 in ELA and Mathematics.*

- The test can be updated to DLM-AA by selecting Alternate Assessment: DLM-AA – Yes/No (Grades 3-12) on the **Program Indicators** page in SIS.
- The test can also be updated through the **Student Demographics and Enrollment file format (Batch)**, with Alternate Assessment Indicator set to 01 (Yes) or 02 (No).
- DLM-AA students in Grades 3-12 may participate in the optional, instructionally embedded assessments. SIS will load only Grades 3-11, and Grade 12 as required. Contact [Pam Hartwig](#) for assistance with Grade 12 students or with instructionally embedded assessments.

IAR Pre-ID

- IAR Pre-ID transmission to PAN allows district/school staff to send enrollment updates/changes.
- Accommodations that are listed for a student in PAN will not move with the student records.
- This tool will assist district/school staff with enrollment changes and create permanent student records in PAN at the new district/school.
- **IMPORTANT:** The "IAR Summative" button is used to send the IAR student roster to the Assessment vendor PAN. A school or a district can select the "IAR Summative" button when enrolling students for the first time or if the student changes to a new school within the same district. Districts may send the data as often as needed. Any accommodations that were loaded separately into PAN by the previous school WILL BE REMOVED. This occurs because the data transfer process completely deletes a student from PAN and re-enrolls the student into PAN.
 - Always double check accommodations in PAN for students new to your school.

Student Attendance

Deadline: July 12, 2024

Student Attendance

- Using the student enrollment Percent of Day on Enrollment (PDA), ISBE will do the calculation for final reporting purposes.
- Report student attendance for regular school year enrollments ONLY.
- Summer school and ESY attendance should not be reported.
- Attendance data *is not* accepted for an enrollment that was exited erroneously.
- Attendance data *is optional* for private school students.
- **July 12, 2024**: Attendance data is due

Student Attendance

- In Average Daily Attendance (ADA) reports, ISBE uses the PDA to determine the percent of day for each of the Attendance Types.
- Districts should report 1.000 Absence for a full day missed and 0.500 Absence for a half-day missed.
- If the student is enrolled with a PDA of 0.50 and the district reports 0.500 in the Total Days Present, ISBE will calculate that the student was present for a quarter of the day.

Use the following examples (up to 3 decimal points) to report the Attendance Day calculation for each day:

Full day = report 1.000 ; half-day = report 0.500; quarter day = report 0.250.

- Please **do not** provide Attendance Days with 0.000 unless you are deleting an existing record.

Student Attendance

To add or update attendance data, student has a valid district enrollment in SIS by following:

- Enrollment record Home RCDTS matches attendance Home RCDTS.
- Enrollment record Serving RCDTS matches attendance Serving RCDTS.
- SIS Enrollment Date matches the Enrollment Date in the Student Attendance file.
- Enrollment School Year matches the School Year in the Student Attendance file.

To add or update attendance data via batch, provided data must match to an enrollment record in SIS:

- SID
- First Name and Last Name of Student
- Birth Date of Student
- Home RCDTS and Serving RCDTS of the Student Attendance File must match a SIS Enrollment Home RCDTS, Serving RCDTS, and Service Provider RCDTS
- School Year
- Enrollment Date

Student Attendance

Month of Attendance: The month for which student attendance is being reported.

- Student must be enrolled at least one day during the month of attendance reported.

Deadline: April 15, 2024

SY24 Fall and Spring Enrollment Counts EBF Verification

Enrollment Guidelines

Submit enrollment as soon as possible.

- **Enrollment Date:** The begin date of enrollment is the first day the school expected the student to attend.
 - If the student did not attend on the expected day due to an excused absence, the student should be enrolled on the expected date and the student is marked absent. If the school has no contact with the student or family, then the first day of enrollment would be the first day the student attends. Do not submit an enrollment record until the student has attended at least one day.

Exit students as soon as they leave your district.

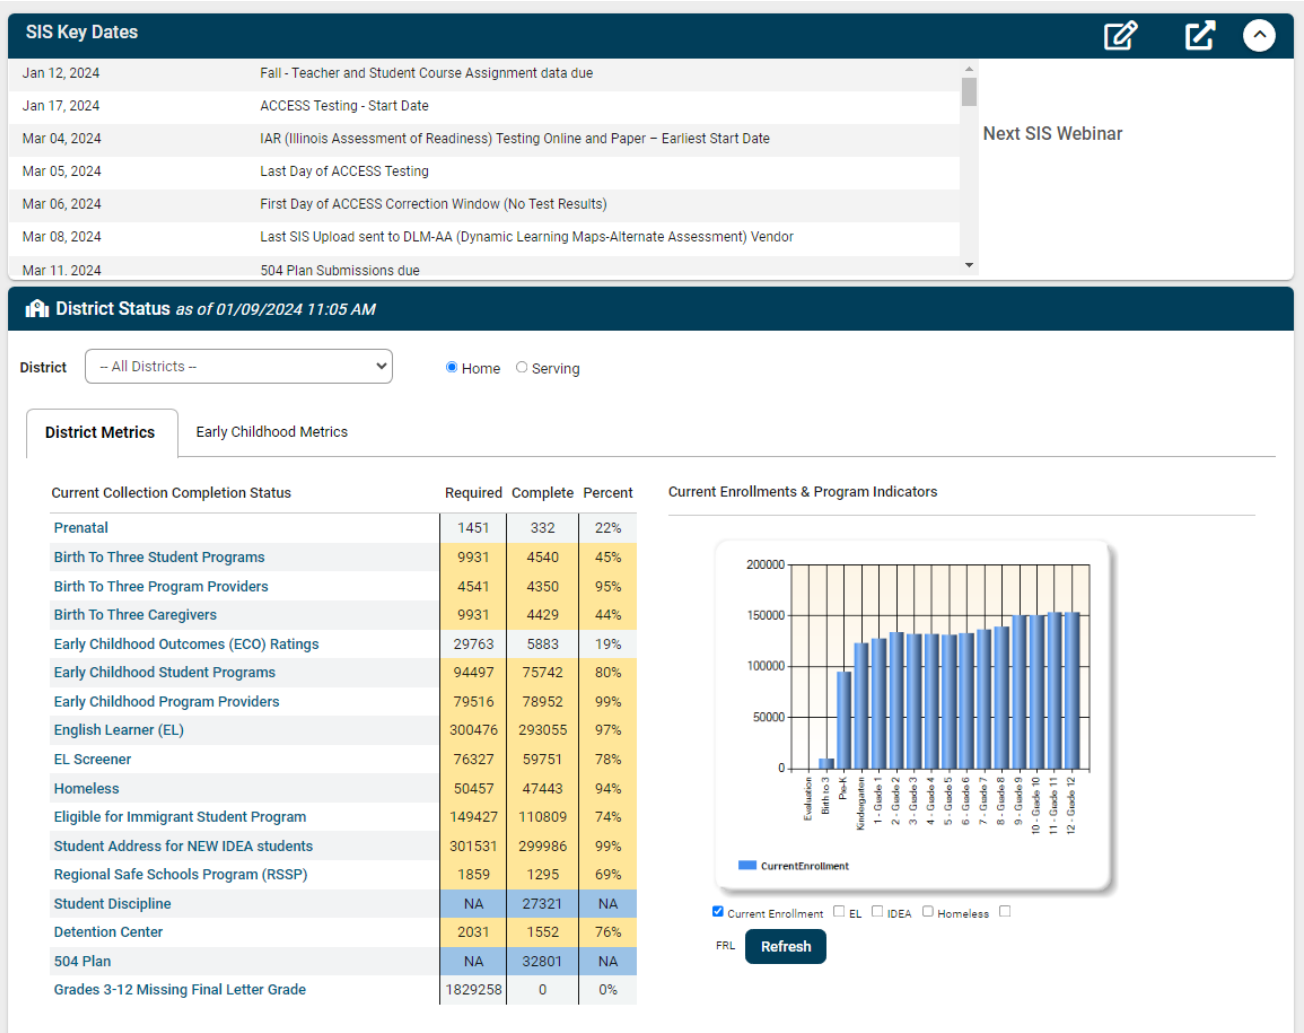

- **Exit Date:** The last day of enrollment is the last day the student attended school.
 - If the student transfers to another district and delays before enrolling, the missed school days are not recorded at either school unless the school has knowledge of the situation and knows the student is absent from their school. In any event if the student enrolls at a new school, the prior school's enrollment should be exited on the day prior to enrolling in the new school. If a student attends a portion of the day at the old school, the new school cannot begin the enrollment until the next day.

ISBE EDUCATION DATA SYSTEMS ILLINOIS STATE COURSE SYSTEM (ISCS)

The Illinois State Course System was developed to collect and store Illinois State course information. Only two types of users are able to access the system, ISBE Administrators and Employment for Education (EFE) directors. The reports contained in the Illinois State Course System can also be accessed via the Student Information System (SIS). The State Course System is divided into 23 Subject Areas.

Career and Technical Education (CTE) courses are identified by the Education for Employment (EFE) directors in the Illinois State Course System before Student Course Assignments are entered into the Student Information System (SIS). The EFE directors access the course classification System to identify which courses are awarded CTE funding for districts within their region. Once this identification has taken place for the school year, the school districts can access the courses identified by the EFE Directors using the Student Information System Reports. EFE Directors will use the resources listed in the "Course Catalogs" bar below.
