Overview: The Student Information System

ISBE Data Transfer Web Service for Batch Automation

This service is suitable for both LAN and Web applications and also works for ISBE Web Application Security System (IWAS) and Non-IWAS based systems. The web service provides a method for entities outside of ISBE to programmatically automate the sending and retrieving of batch data to any system. Any modern programming language should have the ability to call a web service to automate the sending and retrieving of batch data.

Each user of the web service will need a unique Activation Key which identifies the user and the system the batch data is associated with. Generally the ISBE system you are working with will provide a method for you to create an activation key.

The web service is hosted on a secure web server so all data transfers will be secure and encrypted so there is no need for external encryption or decryption of data.

All SIS formats are supported.

300+ Districts are currently using the web service.

SIS and I-STAR Alignment Report

6/24/2019 11:40 am

Illinois State Board of Education
Student Information System
2019 SIS and I-STAR Alignment Report

This report is intended to help align data from the Student Information System (SIS) and the IEP Special Education Tracking and Reporting system (I-STAR). The fields collected in each system are displayed across the page and are aligned with the corresponding element from the other system. If the data is missing from the field, it must be entered into the corresponding system. If the data is incorrect, district personnel should determine which system has the data entered incorrectly and proceed by correcting the data in that system.

- If Home school and or Serving school is incorrect in SIS, the student's enrollment must be exited as "Erroneous" with the Exit Enrollment Date set equal to the Enrollment Start date.
- If Service Provider is incorrect in SIS, update it by searching the student and updating the Service Provider. The student must be actively enrolled to update the Service Provider.
- IEP indicator and Private School Student indicator (PSS) must match the Fund Code entered into I-STAR. The PSS indicator indicates the student has a possible Individual Service Plan (ISP) in SIS.
- Student approval start and end dates in I-STAR must coincide with the SIS Student Enrollment start and end dates. Every approval record in I-STAR requires an enrollment record in SIS to be approved. An approval record in I-STAR should not begin before the SIS enrollment start date. An I-STAR approval record must end before the student's enrollment is exited. If these dates are out of range, the data must be corrected in the corresponding system.

    - 10% of the funds will be based on the entities' student course assignments from the previous year:
      - 50% on the number of approved CTE Courses students took; and
      - 50% on the number of credits in approved CTE Courses students received
    - No entity with student course assignments in approved CTE Courses will receive less than 90% and no more than 110% of last year's allocation.

ACCESS Correction Process

- All Grade K – 12 students identified as EL will take an ACCESS test.
- All Grade K – 12 students identified as EL and enrolled on November (TBA), should receive an ACCESS label.
- If a student exits the district before the ACCESS test is given, the label should be destroyed.
- If a student enrolled after labels have been sent, please bubble the student's information on a blank testing document.

ACCESS Correction Process

- **ISBE will create the ACCESS Correction file for students enrolled as EL during the Testing Window**
  - Demographic, Home School, and Grade details must reflect a student's status as of the last day of the ACCESS testing period.
  - Changes made to the ACCESS correction data only affect data that is being submitted to DRC; it does not update the related student information in SIS.
    - Updates to SIS student demographic, enrollment, and program indicator data (and enrollment exits) must also continue through the end of the school year.
    - If student demographic errors are identified in the ACCESS Correction file, revisions must be made both via the ACCESS Correction file and within SIS (via the Student Demographic/Enrollment batch file or the available online areas).
  - An ACCESS Correction record can only be added if the student has an EL record in your district for the current school year.

ACCESS Correction Process

- Identifying ACCESS scores that are not assigned to my students
- Run an ***Unassigned Test Results*** Detail Report in the Bilingual section of Reports.
    - The test results for the students listed on this report could **not** be automatically matched to a student in the ACCESS Correction file.
    - Steps for Assigning Student Test Results:
        - **Step 1:** Add or update the unassigned student records found on this report to the ACCESS Correction data; this can be done via an online ACCESS Correction or through the corresponding batch file process ***(Student must have an EL record in SIS for the current School Year).***
        - **Step 2:** Overnight, the unassigned test results will be linked to the students' ACCESS Correction data.
        - **Step 3:** Verify the update using the ACCESS Scores Report and the Unassigned Test Results Report the next morning.

School District: 12345678910

3/28/2013 2:14 pm

Note: The Unassigned Test Results Report contains Assessment records that have not been assigned to students.

* Test names followed by an asterisk are writing assessment test.

This report contains records of Test Results that have **not** been assigned to students. Follow the directions below for a Test Results record with accurate and complete data. **If a Test Results record displays inaccurate or missing data,** the system will not be able to match and assign the results to the student's assessment record, call the ISBE Helpdesk at 217-558-3600 for technical support.

Steps for Assigning ISAT, IAA, and PSAE Test Results to an Assessment Record

1. If a student has an unassigned ISAT, IAA, and PSAE record on this report and all the data listed on the unassigned Test Results record is accurate and complete, either add or update the student's Assessment record via the *Assessment* link online or via the Assessment Correction batch process.
2. The system will process, match, and assign accurate and complete Test Results records to students' Assessment records overnight.

Steps for Assigning ACCESS Test Results to an Assessment Record

1. If a student has an unassigned ACCESS record with Error Code 1, verify the student has a current School Year Enrollment record in ISBE SIS and the student's LEP Program Indicator is set to Yes. If necessary, either add a current School Year Enrollment record, or update the LEP Program Indicator to Yes.
2. The system will process, match, and assign accurate and complete Test Results records to students' Assessment records overnight.

Steps for Verifying Assignment of Test Results

3. Once the assigning process is completed, rerun the Unassigned Test Results report to verify the Test Results records were matched and assigned successfully.
4. If the process was not successful or no error code listed, call the ISBE Helpdesk at 217-558-3600 for technical support.

IAR Correction and Scores

- Grades 3 – 8 students are required to test IAR
- 2020 IAR Test Windows are identified by school.
- Students are included in the Assessment Correction when the date of their SIS enrollment falls within the start and end dates of their Testing School's Test Window.
- When your Test Window ends, review the IAR Correction report to verify that all students who were to be tested are on the report.

IAR Correction and Scores

- The 2019-20 preliminary IAR score data are scheduled to be posted in SIS in Early June, 2020.
  - Until IAR score data arrive, ISBE will not know for sure whether a student tested, so please rely on your local records for entering a “Reason for No Valid Test Attempt” as applicable.
- Testing School and Test Code from the score file will override the correction.
- If the Test Code of the Test Taken is inconsistent with the student’s grade, error code 2 will appear on the IAR Score report.
- If RNVTA is provided for a student with valid score, it will be removed.
- For Private School students who did not test, ‘18 - PSS-SIS Use Only’ will be applied after scores arrive.
- IAR Last Day of Corrections for the Purpose of Accountability and School Report Card for SY 2020 due by Friday, August 14, 2020

IAR Correction and Scores

Unassigned Scores will fall into one of the four categories:

- **Correction Exists; Home School mismatch**
  - The Responsible School from PearsonAccessNext does not match the Home School in Correction. To correct, update the Home School on the Unassigned.
- **Enrollment Out of Test Window**
  - The Responsible School from PearsonAccessNext matches the Home School in Correction, but the enrollment is not within Testing School's Test Window. To correct, update the Enrollment dates on the Unassigned
- **Enrollment Not Found**
  - We prefer SIS Users add the missing enrollment during test window. If for some reason they cannot, then they can provide the Grade, Home RCDTS and Serving RCDTS on the Unassigned screen. Other Enrollment fields are optional. An overnight process will match the score. They can also choose "Disclaim Score" if it does not belong to their district.
- **Student Not Found**
  - User Must provide a valid SID to receive the score record. An overnight process will match the score, provided the student has a correction that matches to score record.

Early Intervention to Early Childhood Special Education Transition

RCDT: 012345678912345

Mr. Smith
100 North 1st
Springfield, IL 62701

The purpose of this data sharing process is to support school districts in their obligation to have eligibility determined and an IEP implemented, as necessary, on or before a child's third birthday as the child exits early intervention. The list below is a cumulative list of children who should soon be transitioning into your district(s), which should assist you with future planning for early childhood special education services. While this list contains the names of children transitioning who are 27 months or older, the CFCs are obligated to refer children transitioning into your district by the time the child is 30 months old. If you do not receive this referral by the time the child is 31 months old, this list will enable your district to follow up with the family informing them about your district's early childhood special education services. You may contact the CFC to verify or correct any of the family contact information on this list. You should also contact the CFC if you have received a child's information, but have determined that the child resides in a neighboring district, so that the child's information can be forwarded to the appropriate district. Due to HIPAA and FERPA regulations, these data should only be shared on an "as needed" basis to fulfill the indicated district's child find obligations.

If information on this report is in error, please maintain this documentation locally in the event of any follow-up from ISBE about the student's transition status. Any questions regarding early intervention to early childhood special education regulations and process should be directed to Kristy Doan at 217-524-4835 or to Felicia Malloy at 217-782-5589. Questions regarding the Illinois Department of Human Services student data may be directed to Ann Freiburg at Ann.Freiburg@Illinois.gov. Correspondence with student identifying information should only be provided via the DHS secure fax at 217-524-6248.

Adjusted Cohort Graduation Rate

- The 2020 adjusted cohort graduation rate will be calculated based on SIS data.
- Because the related information will be derived from student information, the accuracy of data reported to SIS becomes even more significant. The adjusted cohort graduation rate will be calculated based on student enrollments and upon proper identification of Enrollment Exit Codes.
- The **Cohort Enrollment Exit Type Code** is essential in providing an accurate measure of high school graduation data. The Cohort Enrollment Exit Type Code is initially set to the student's general Enrollment Exit Type Code, but it can be updated (as appropriate) through the related online screens.
- **Cohort Enrollment Exit Type Codes** fall into 3 categories (Graduates, Non-Graduates, and "Removed from Cohort") that are used in calculating the adjusted cohort graduation rate.

Chronic Absenteeism

- The Chronic Absentee rate is determined by dividing the number of chronically absent students per school/district/state by the average daily enrollment and multiplying the resulting quotient by 100.
- A student is “Chronically Absent” if they missed 10% or more of the school year regardless of excuse.
  - For every school/district/state every student with an associated enrollment of at least 10 days is counted. The combined total number of “Days Absent – Unexcused” and “Days Absent – Excused” per student is divided by that students length of enrollment.
  - If the sum of absences divided by the length of enrollment is greater than or equal to 0.10 then the student is considered Chronically Absent.
- Only for Students in Grades 1 – 12 included in calculation.
- Average Daily enrollment (for Chronic Absentee) is the sum of all “Days Present”, “Days Absent – Excused”, and “Days Absent – Unexcused” for all students per school/district/state divided by total school days.

- A student is “Chronically Truant” if they missed 5% or more of the previous 180 school days without an excuse.
  - For every school/district/state every student with an associated enrollment of at least **21 days** is counted. The total number of “Days Absent – Unexcused” per student is divided by that students length of enrollment.
  - If the sum of Days Absent - Unexcused divided by the length of enrollment is greater than or equal to 0.05 then the student is considered Chronically Truant.

Student Attendance

- The home, serving, and service provider RCDTS can all submit data on students enrolled with them for the school year
- Student Attendance data should be submitted for active and exited enrollments for the year
- The data will be used to populate Best 3 months ADA and 9 month ADA
- Monthly attendance data must be provided for students in grades Pre-K – 12 enrollments where your district is the Home, Serving, or Service Provider. Data may be provided at any time
- For a partial month of enrollment, total days cannot exceed days enrolled in that month
- Attendance data (batch) can include multiple past months for the student
- Attendance data is not accepted for Evaluation or Birth to 3 enrollments
- Attendance data is not accepted for an enrollment that was exited erroneously
- Attendance data is optional for Private School Students
- Attendance data cannot be provided for enrollments prior to July 1, 2018
- Attendance should NOT be submitted for Summer School or ESY enrollments

Student Attendance

- In ADA reports ISBE uses the PDA (Percent of Day on Enrollment) to determine the percent of day for each of the Attendance fields
- Districts' should report 1.000 Absence for a full day missed and 0.500 Absence for a half-day missed
- If the student is enrolled with a PDA of 0.50 and the district reports 0.500 in the Total Days Present field, ISBE will calculate that the student was present for a quarter of the day
- It's important the school districts' report it in this way otherwise the data will be off when ISBE applies the logic for ADA Best 3 Month's, and 9 Month's reports

Student Attendance

- To add or update attendance data, student has a valid district enrollment in SIS by following:
  - Enrollment record Home RCDTS matches attendance Home RCDTS
  - Enrollment record Serving RCDTS matches attendance Serving RCDTS
  - SIS Enrollment Date matches the Enrollment Date in the Student Attendance file
  - Enrollment School Year matches the School Year in the Student Attendance file

- To add or update Student Attendance data via batch, provided data must match to an enrollment record in SIS:
  - SID
  - First Name and Last Name of student
  - Birth Date of student
  - Home RCDTS and Serving RCDTS of the Student Attendance File must match a SIS Enrollment Home RCDTS, Serving RCDTS, and Service Provider RCDTS.
  - School Year
  - Enrollment Date

Student Attendance

- **Month of Attendance:** The month of student attendance reporting.
  - Student must be enrolled at least one day during the month of attendance reported. Cannot provide more days of attendance than the enrollment day
    - 01 January
    - 02 February
    - 03 March
    - 04 April
    - 05 May
    - 06 June
    - 07 July
    - 08 August
    - 09 September
    - 10 October
    - 11 November
    - 12 December

Student Attendance

- **Year of Attendance:** The calendar school year of attendance reporting.
  - Note: This is not necessarily the same as School Year.
  - Ex. Reporting attendance for October 10, 2019. Use 2019 for the calendar school year, NOT the School year it falls in of 2020.

- **Days Present:** The full day or partial days represented as a decimal that the student was present. The precision will be 3 decimal points.
  - Sum of Days Present, Days Absent – Excused, Days Absent – Unexcused, Days Medically Homebound, and Days Hospitalized must be equal to or less than the number of days in that month (includes weekends)
  - 0's are valid data within any attendance field for counting purposes.

Student Attendance

- **Days Absent – Excused:** The number of days or partial days represented as a decimal that the student was absent with cause (excused absence) by month. The precision will be 3 decimal points.
  - "Valid cause" for absence shall be illness, observance of a religious holiday, death in the immediate family, family emergency, and shall include such other situations beyond the control of the student as determined by the board of education in each district, or such other circumstances which cause reasonable concern to the parent for the mental, emotional, or physical health or safety of the student
  - Sum of Days Present, Days Absent – Excused, Days Absent – Unexcused, Days Medically Homebound, and Days Hospitalized must be equal to or less than the number of days in that month (includes weekends)
  - 0's are valid data within any attendance field for counting purposes.

- **Days Absent – Unexcused:** The number of days or partial days represented as a decimal that the student was absent without a cause by month. The precision will be 3 decimal points.
  - Sum of Days Present, Days Absent – Excused, Days Absent – Unexcused, Days Medically Homebound, and Days Hospitalized must be equal to or less than the number of days in that month (includes weekends).
  - 0's are valid data within any attendance field for counting purposes.

Student Attendance

- **Days Medically Homebound:** A student, who is receiving home/hospital instructional services, provided by the district, in accordance with 105 ILCS 5/14-13.01. These students are considered present for purposes of attendance as it pertains to funding. Please see https://www.isbe.net/Documents/Home-Hospital_QA.pdf for additional information on the provision of homebound services, and when medically homebound status can apply. The precision will be 3 decimal points.
  - A student who is homebound but NOT receiving home/hospital instructional services is considered as absent, either excused or unexcused according to district policy.
  - Medically Homebound are defined as present, but ISBE is asking districts to count those days separate from days of attendance when the student is present in any other way (in school, on a field trip, etc.)
  - Sum of Days Present, Days Absent – Excused, Days Absent – Unexcused, Days Medically Homebound, and Days Hospitalized must be equal to or less than the number of days in that month (includes weekends).
  - 0's are valid data within any attendance field for counting purposes.
  - No amount of time can be reported as both Present, and Medically Homebound. A day can be broken into portions, such as half-day Present, half-day Medically Homebound, but if the time is marked Medically Homebound, it should **NOT** be included in the Days Present, Days Absent – Excused, or Days Absent – Unexcused, Student Attendance totals.

Student Attendance

- **Days Hospitalized:** An absence where a student was hospitalized because of medical emergencies or procedures (e.g., because of a motor vehicle or other type of accident, surgery, severe illness, psychiatric emergency) or was participating in residential programs that provide psychological treatment or treatment for drug or alcohol abuse, but was not receiving home/hospital instructional services, in accordance with 105 ILCS 5/14-13.01. The precision will be 3 decimal points.
  - Hospitalized absence is defined as either excused or unexcused according to district policy. ISBE is asking districts to count absences because of hospitalization separate from absences that are Excused or Unexcused for any and all other reasons, in order to be excluded or included as appropriate for various other calculations. For example, for Chronic Truancy, ISBE might treat absences because of hospitalization as excused absences. For Chronic Absenteeism, ISBE will drop them entirely.
  - Sum of Days Present, Days Absent – Excused, Days Absent – Unexcused, Days Medically Homebound, and Days Hospitalized must be equal to or less than the number of days in that month (includes weekends).
  - 0's are valid data within any attendance field for counting purposes.
  - No amount of time can be reported as both Present, and Hospitalized. A day can be broken into portions, such as half-day Present, half-day Hospitalized, but if the time is marked Hospitalized, it should **NOT** be included in the Days Present, Days Absent – Excused, or Days Absent – Unexcused, Student Attendance totals.

Student Attendance

- **Days Medically Homebound** and **Days Hospitalized** should be used only when the student is **NOT** receiving educational services.
- If the student is receiving educational services in **ANY SETTING**, than that would count as **Days Present**.
- Only use **Days Medically Homebound** and/or **Days Hospitalized** in place of counting a student as **Days Absent - Excused or Unexcused**.
- This way ISBE can exclude those students from state reporting so the student is not dinged for an excused/unexcused absence.

Kindergarten Individual Development Survey (KIDS)

Step 1 – Enroll All Kindergarten Students

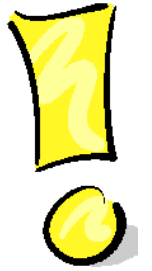
- In order to transmit data to KIDStech, all Kindergarten students must first be enrolled.

  - Create KIDStech Account
  - **Step 1 – Enroll All Kindergarten Students**
  - Step 2 – Create Teacher Course Assignments
  - Step 3 – Create Student Course Assignments
  - Step 4 – Verify Kindergarten Class Roster
  - Step 5 – Transmit Data to KIDStech

Note: When enrolling students, if Home Language is not "English" ("000" via Batch), four additional questions will ultimately be triggered within the KIDS application.

Step 2 – Create Teacher Course Assignments

- Teacher Course Assignments must be created.
  - Create KIDStech Account
  - Step 1 – Enroll All Kindergarten Students
  - **Step 2 – Create Teacher Course Assignments**
  - Step 3 – Create Student Course Assignments
  - Step 4 – Verify Kindergarten Class Roster
  - Step 5 – Transmit Data to KIDStech



Step 2 – Create Teacher Course Assignments

- In order to create the necessary links between Teacher Course Assignments and Student Course Assignments, the data areas listed below much match exactly:
  - **Student Serving RCDTS must match the Teaching Location RCDTS**
  - **School Year**
  - **State Course Code**
  - **Term**
  - **Section Number**
- The Section Number is particularly important to double-check, due to the flexibility required for this field.
- This is very important for data quality, we want to ensure that the appropriate teacher is being matched to the correct students.

Step 2 – Create Teacher Course Assignments

- KIDStech only tracks one teacher for any kindergarten student.
- If a student has more than one teacher, the KIDS teacher can be chosen based on the table below – use the highest 'priority' course the student is taking.

Priority	Course Code	State Course Title
1	51028A000	Language Arts (kindergarten)
2	51040A000	Reading (kindergarten)
3	51130A000	Writing (kindergarten)
4	52030A000	Mathematics (kindergarten)
5	53230A000	Science (kindergarten)
6	54430A000	Social Studies (kindergarten)
7	73030A000	Non-subject Specific – (kindergarten)

Step 3 – Create Student Course Assignments

- Student Course Assignments must be created and these must match corresponding Teacher Course Assignments.
  - Create KIDStech Accounts
  - Step 1 – Enroll All Kindergarten Students
  - Step 2 – Create Teacher Course Assignments
  - **Step 3 – Create Student Course Assignments**
  - Step 4 – Verify Kindergarten Class Roster

ISBE Data Transfer Web Service for Batch Automation

This service is suitable for both LAN and Web applications and also works for ISBE Web Application Security System (IWAS) and Non-IWAS based systems. The web service provides a method for entities outside of ISBE to programmatically automate the sending and retrieving of batch data to any system. Any modern programming language should have the ability to call a web service to automate the sending and retrieving of batch data.

Each user of the web service will need a unique Activation Key which identifies the user and the system the batch data is associated with. Generally the ISBE system you are working with will provide a method for you to create an activation key.

The web service is hosted on a secure web server so all data transfers will be secure and encrypted so there is no need for external encryption or decryption of data.

All SIS formats are supported.

300+ Districts are currently using the web service.
