

Indicator 12: Early Childhood Transition

Indicator 12 is a compliance indicator that measures the percentage of children referred by Part C prior to age 3, who are found eligible for Part B, and who have an Individualized Education Program (IEP) developed and implemented by their third birthdays.

Data Source

The ISBE data sources are the SIS Early Childhood Transition database and the ISBE Data Warehouse.

Measurement

- A** Number of children who have been served in Part C and referred to Part B for Part B eligibility determination.
- B** Number of those referred determined to be NOT eligible and whose eligibility was determined prior to their third birthdays.
- C** Number of those found eligible who have an IEP developed and implemented by their third birthdays.
- D** Number of children for whom parent refusal to provide consent caused delays in evaluation or initial services or to whom exceptions under 34 CFR §300.301(d) applied.
- E** Number of children who were referred to Part C fewer than 90 days before their third birthdays.
- F** Number of children whose parents chose to continue early intervention services beyond the child's third birthday through a state's policy under 34 CFR §303.211 or a similar state option.

Percent = [(c) divided by (a - b - d - e - f)] times 100.

Category F is to be used only by states that have an approved policy for providing parents the option of continuing early intervention services beyond the child's third birthday under 34 CFR §303.211 or a similar state option. This has been applicable in Illinois since the start of the 2021-22 school year.

Targets for Federal Fiscal Years 2020-25

- SPP 12 - FFY 2020-25 target of 100%
