

SAT Suite Question Bank:

Create custom, targeted question sets and improve instruction

The SAT® Suite Question Bank (SSQB) provides educators with access to over 3,500 questions from the SAT, PSAT/NMSQT®, PSAT™ 10, and PSAT™ 8/9 assessments.

The SSQB is designed to help educators:

- Become more familiar with the SAT Suite of Assessments,
- Better understand the knowledge and skills assessed to inform instruction, and
- Access sets of questions by subscores, cross-test scores, and content domains.

The SSQB is publicly available at [cb.org/ssqb](https://collegeboard.org/ssqb). Educators don't need a College Board account or access code to utilize this resource.

For each question, the following information is provided:

- Level of difficulty
- Primary, secondary, and tertiary dimensions
- Passage text complexity level for Reading and Writing and Language questions
- Calculator/no calculator for math questions
- Questions, answer choices, answer explanations

Educators can use the SSQB in many ways:

- Use the questions in the classroom and with colleagues to support curricular planning, professional development, and activities that improve instruction and learning.
- Export questions as PDF files.
- Print individual questions or sets of questions; up to 20 can be printed at one time.
- Additional information on the content domains and dimensions can be found in the *SAT Teacher Implementation Guide*, which can be found at sat.org/implementation.

Take a closer look at these ideas to help educators get started at [cb.org/aboutssqb](https://collegeboard.org/aboutssqb).
