

Illinois State Board of Education's CTE & Innovation Department

State Fiscal Year (SFY) 2021 CIP Changes Crosswalk

During SFY 2020, ISBE conducted a review of all approved programs of study to ensure their continued relevance and alignment with state and local workforce needs and to approve additional programs to address any gaps in career pathways. The process of review included: consideration of alignment to the Illinois Department of Economic Security and the U.S. Bureau of Labor Statistics long-term employment projections for Illinois; program alignment to a high-skill, high-wage, or in-demand career pathway; and student enrollment and interest. The table below identifies the action for each instructional program as either maintain, new, or retired/discontinued. Instructional programs being retired have been provided with a suitable alternative instructional program whenever possible. Please note that all endorsements currently held by CTE educators in the retired CIPs will continue to be recognized for future employment. Educators with these endorsements should refer to the crosswalk below to determine which programs they are qualified to teach. Any new CTE Educator License with Stipulations (ELS) should align to the current CIP offerings.
