Accessing Scores

Roster Report

If students encounter any issues signing in to their College Board Student Account to view their score reports, they may need to use an access code (for PSAT-related assessments) or registration number (for the SAT with Essay).

The access codes and registration numbers can be found in the school-level detailed “**Roster Report**” in the K-12 Assessment Reporting portal.

The detailed “**Roster Report**” lists students along with their scores and other information.

- Print student reports and labels, individually or in bulk.
- Retrieve access codes and registration numbers for students who have trouble signing in to their College Board Student Account.
- Find your school's AP Potential™ access code and a link to the tool.

Batch Score Reports

NEW: Educators can generate PDF score reports for all students.

- Click the “**Batch Score Report PDF**” option on the reporting dashboard and provide the test administration and grades in order to generate student PDF score reports.
- One batch PDF file that includes student score reports for the requested administration will be generated.
- The batch file will be posted in the “Reports You Scheduled” section of Downloads within 24 hours of submitting the report request.

SAT[®] Understanding Scores

The SAT with Essay

What the SAT Measures

The SAT reinforces what students are learning in their classrooms while measuring the skills and knowledge that research shows are the most important for success in college and career. It includes the following sections.

EVIDENCE-BASED READING AND WRITING

This section is made up of a Reading Test and a Writing and Language Test, each composed of multiparagraph passages and multiple-choice questions.

The Reading Test measures comprehension and reasoning skills and focuses on close reading of passages in a wide array of subject areas. The Writing and Language Test measures a range of skills, including command of evidence, expression of ideas, and the use of standard English conventions in grammar and punctuation.

MATH

This section includes multiple-choice and student-produced response questions, and it is divided into two portions: one that allows calculator use and one that does not. It assesses skills in algebra, problem solving and data analysis, manipulation of complex equations, geometry, and trigonometry.

ESSAY

The Essay asks students to read a high-quality source text and write an effective analysis of that text using evidence drawn from the source. It measures a range of skills in reading, analysis, and writing.

How the SAT Is Scored

Students receive a total score that is the sum of their scores on the two sections (Evidence-Based Reading and Writing and Math). The SAT Essay is scored separately.

To calculate section scores, we first compute the student's raw score—the number of questions correctly answered—for each section. Nothing is deducted for incorrect answers or for unanswered questions.

Next, we convert each of the raw section scores to a scaled score of 200–800. This conversion process adjusts for slight differences in difficulty among versions of the test and provides a score that is consistent across different versions. The scaled scores are the scores provided on score reports.

Cómo interpretar los resultados del SAT

El SAT con Ensayo

¿Qué mide el SAT?

El SAT refuerza lo que aprenden los estudiantes en las aulas, además de medir las habilidades y el conocimiento que, según las investigaciones, resultan más importantes para alcanzar el éxito tanto en la universidad como en la carrera.

Incluye las siguientes secciones:

LECTURA Y ESCRITURA BASADAS EN EVIDENCIAS

Esta sección consta de dos pruebas, una de Lectura y otra de Escritura y Lenguaje, cada una de ellas compuesta de fragmentos de varios párrafos y preguntas de opción múltiple.

La prueba de Lectura mide las destrezas de comprensión y razonamiento y se enfoca en la lectura atenta de fragmentos de una gran variedad de temas. La prueba de Escritura y Lenguaje mide un rango de destrezas que incluyen el dominio de evidencias, expresión de ideas y la aplicación de las normas estándar de gramática y puntuación del inglés.

MATEMÁTICAS

Esta sección incluye preguntas con respuestas generadas por el estudiante y de opción múltiple, y se divide en dos partes: una que permite el uso de la calculadora y otra que no. Evalúa las destrezas en álgebra, resolución de problemas y análisis de datos, manipulación de ecuaciones complejas, geometría y trigonometría.

ENSAYO

El Ensayo es una prueba que pide a los estudiantes que lean un texto de una fuente de alta calidad y escriban un análisis eficaz de dicho texto usando evidencia tomada de la fuente. Mide un rango de destrezas en lectura, análisis y escritura.

¿Cómo se califica el SAT?

Los estudiantes reciben un puntaje total que es la suma de sus puntajes en las dos secciones (Lectura y Escritura basadas en evidencias y Matemáticas). El Ensayo del SAT se califica por separado.

Para calcular los puntajes de cada sección, primero calculamos el puntaje directo del estudiante (la cantidad de preguntas que respondió correctamente) en cada sección. No se resta nada por las respuestas equivocadas o por las preguntas sin contestar.

Después convertimos los puntajes directos de cada sección a un puntaje estandarizado que va de los 200 a los 800 puntos. Este proceso de conversión ajusta las pequeñas diferencias que pueda haber en la dificultad entre las diferentes versiones del examen y da un puntaje que es consistente con todas las diferentes versiones. Los puntajes estandarizados son los que aparecen en el informe de resultados.

TOTAL SAT SCORE

Total SAT[®] scores range from 400 to 1600. Your total score is the sum of your section scores.

SECTION SCORES

The section scores for Evidence-Based Reading and Writing and for Math each range from 200 to 800. To arrive at each section score, we converted your raw score, which is the number of questions you answered correctly. There's no penalty for guessing.

We convert raw scores to adjust for slight differences in difficulty between versions of the test, making sure there's no advantage in taking the test on any particular day.

PERCENTILES

Percentiles give you perspective on your performance. They show the percentage of students whose scores are equal to or below your score. One kind of percentile, Nationally Representative Sample Percentile, compares your score to the scores of a representative group of 11th- and 12th-grade U.S. students. The other, SAT User Percentile, compares your score to those of typical SAT test takers.

BENCHMARKS

The benchmark icon is another way to gain perspective. A checkmark shows you scored at or above the benchmark (480 for Evidence-Based Reading and Writing and 530 for Math). This means you're on track to be ready for college when you graduate.

An exclamation point shows you scored below the benchmark. Use the feedback and tips in your online report at sat.org/scorereport to get back on track.

ESSAY SCORES

The Essay asks students to read a high-quality source text and write an effective analysis of that text using evidence drawn from the source. It measures a range of skills in reading, analysis, and writing.
