

## **Survey 1.2 Resource Library**

## **Activity Preview**

The following activity has been developed in conjunction with the learning plan called *Takin' Care of Business: Making the Most of Work-based Learning in AFNR*. This activity is supplemental to Module 1. The Work-based Learning Continuum and assesses the following learned skill: *Identify targeted resources that can assist in the development of the local WBL continuum*. In this activity, teachers will complete the provided survey to gather participant data on needed resources.

## **Directions**

- 1. Review the resource diagram in the space below.
- 2. Complete the survey linked here.
- 3. Discuss the essential questions in your small group.

## **Essential Questions**

- 1. What are resources are available to strengthen specific aspects of WBL in a local program?
- 2. Which resources align to the needs of your program? (*Hint: think about what areas you identified as weaknesses in the previous activity*)
- 3. Choose a resource and share how you will implement it at your local program. (*Hint:* explain for what purpose, what time of year, with which students, etc.)
