

2023 Team Nutrition School Meals Recipe Development Grant RFP

Last updated: 5/10/2022

Questions and Answers

The purpose of this document is to address questions regarding the Notice of Funding Opportunity / Request for Proposals pertaining to this grant. Questions received throughout the application period will be added to this document such that the information is made available to all eligible applicants.

- 1 For purposes of calculating travel costs in the budget, where will the ISBE Recipe Tasting Event be held and will this be an “all day” event that may require overnight stay?**

The ISBE Recipe Tasting Event will be hosted in the southwest Chicagoland area. While subject to change, the event will likely be a late morning/mid-day event that will allow for some travel time in the morning and after the event is over. Overnight costs are allowable if necessary to attend the event.

- 2 If the recipe development component is implemented through an afterschool club, can grant funds be used to compensate teachers for afterhours instruction/club leadership?**

Personnel costs that are justified by the grant project role and activities are allowable. There is nothing specifically restricting compensation for afterhours.
