

What the Chart Tells You

*THE 10/23 STATUS is PRELIMINARY and therefore subject to change.

1. The "Title I" column indicates if the school receives Title I funds, either Targeted or Schoolwide. None of our schools are Targeted in FY23.
2. The "21st CCLC" column indicates if the school has an extended program funded through 21st CCLC. The year indicates when the current expires.
3. The "FY23 \$ ESSA Status" column is the status that the school was when the school was designated for improvement, either based on 2018 or 2019 data.
4. The "10/23 Status" column indicates the preliminary and embargoed designation based on 2022 data.
5. The "1003(a) FY23" column indicates the amount of funds a school designated for improvement will receive, without any carryover, in this fiscal year. If there are no funds indicated in the "1003(a) FY24" column, then the school was designated based on 2018 data and this is their final "Implementation Year."
6. The "1003(a) FY24" column indicates the amount of funds a school designated for improvement will receive, without any carryover, in that fiscal year. Funding in this year indicates that a school was designated based on 2019 data.
