

Illinois Public Schools

Advanced Placement Performance by District: High School Class of 2009

Percent of graduating
class earning a 3 or
higher on at least one
AP exam during high school

Sources: 2007-2008 NCES 12th grade district enrollment, 2008-2009 College Board Advanced Placement Cohort Data and 2007-2008 School District Boundary Files (purchased from Proximity). AP Cohort data represents all public school students from a given year's public high school class who took an AP exam at any point in high school.

Notes: The most recent NCES enrollment data available at the time of map production was for the 2007-2008 school year. A degree of caution should be exercised when reviewing participation numbers as they may not reflect accurate district enrollments for the 2008-2009 school year.
