1 Introduction

Section 243(c) of Public Law 106-224, the Agricultural Risk Protection Act of 2000, amended § 17(d)(5) of the Richard B. Russell National School Lunch Act (42 U.S.C. 1766 (d)(5)(E)(i) and (ii)) by requiring the U.S. Department of Agriculture (USDA) to maintain a list of institutions, day care home providers, and individuals that have been terminated or otherwise disqualified from Program participation. The law also required USDA to make the list available to State agencies for their use in reviewing applications to participate and to sponsoring organizations to ensure that they do not employ as principals any persons who have been disqualified from the Program. This statutory mandate has been incorporated into § 226.6(c)(7) of the Program regulations.

The purpose of maintaining a National Disqualified List (NDL) and making it available to State agencies and sponsoring organizations is to provide these entities with a tool for promoting Child and Adult Care Food Program (CACFP) integrity by preventing several situations from occurring. First, it prevents institutions whose Program agreements were terminated for cause in one State from simply moving to another State and reapplying for Program participation. Second, it prevents individuals responsible for serious mismanagement from continuing to be involved in Program administration by forming a new corporate entity and entering the Program under a different organizational name. Third, it prevents individuals associated with a disqualified institution from re-entering the Program as a day care home provider, as a principal with another institution, or as a principal in a sponsored center. Finally, it prevents day care

home providers terminated for cause by one sponsoring organization from re-entering the Program under the auspices of a different sponsoring organization.

The NDL is a web-based system designed for use by various user types to add, update, search and view the data of disqualified individuals and institutions. Specifically, sponsoring organization users have the ability to access individual and institution disqualified lists and perform searches.

2 NDL System Access

The NDL system integrates with the USDA's e-Authentication system. Sponsoring organization users need e-Authentication level one clearance to access the NDL system. Users can obtain an e-Authentication credential at https://www.eauth.usda.gov/mainpages/eauthWhatIsAccount.aspx
For questions or problems with obtaining e-Authentication credentials, contact your State agency.

2.1 User Login (Figure 1)

Users must enter the following website to login the NDL system: https://snp.fns.usda.gov/ndlweb/Welcome.action. Then, users must enter their username and password to access the NDL system.
