[A Sampling of Types of Formative Assessments](#) This chart provides a number of in-class formative assessment ideas to check student understanding in an effort to keep learning moving forward.

[Rubric for the Critical Area of Mathematics – Grades K - 2](#)

The intent of this document is to provide support as teachers transition to Common Core Standards. It draws attention to the most critical skills for their grade. If more detailed information is needed, refer to the Common Core State Standards for a deeper understanding and more information. The CCSS can be found on the [ISBE website](#) or at corestandards.org.
