# Illinois Alternate Assessment

Sample Task Mathematics Grade 3

• Present the primary task to the student. Say: **Here are base ten blocks. What number is represented by these base ten blocks?** • Point to each option and say: **30, 34, 43** The student receives a score of 4 for a correct response. If the student does not respond, repeat the primary task _only once_ exactly as it appears. If the student responds correctly after the second presentation of the primary task, the student receives a score of 4. If the student chooses an incorrect answer or does not respond, move to Level 3.	**4**
• Turn the page to provide the general prompt. • Re-present the primary task and answer options. The student receives a score of 3 for a correct response. If the student does not respond or responds incorrectly, move to Level 2.	**3**
• Indicate the correct answer and re-present the primary task and answer options. The student receives a score of 2 for a correct response. If the student does not respond or responds incorrectly, move to Level 1.	**2**
If the student does not respond or responds incorrectly at Level 2, the student receives a score of 1.	**1**

Correct answer: 34

| 30 | 34 | 43 |

Illinois Alternate Assessment

- Say: **Here is an example of different base ten blocks. The number represented by these base ten blocks is 24.**

- Turn back to the primary task page and re-present the primary task and answer options.
