Sample Task Mathematics Grade 7

• Present the primary task to the student. Say: **Laura bakes 1 pan of brownies in 18 minutes. If she continues to bake brownies at the same rate, how many pans of brownies can Laura bake in 54 minutes?** • Point to each option and say: **3, 17, 36** The student receives a score of 4 for a correct response. If the student does not respond, repeat the primary task *only once* exactly as it appears. If the student responds correctly after the second presentation of the primary task, the student receives a score of 4. If the student chooses an incorrect answer or does not respond, move to Level 3.	**4**
• Turn the page to provide the general prompt. • Re-present the primary task and answer options. The student receives a score of 3 for a correct response. If the student does not respond or responds incorrectly, move to Level 2.	**3**
• Indicate the correct answer and re-present the primary task and answer options. The student receives a score of 2 for a correct response. If the student does not respond or responds incorrectly, move to Level 1.	**2**
If the student does not respond or responds incorrectly at Level 2, the student receives a score of 1.	**1**

Correct answer: 3

1 pan of brownies in 18 minutes

☐ pans of brownies in 54 minutes

3	17	36

- Say: **Here is an example. Betty mixes 1 cup of sugar to 2 cups of flour. She mixes 4 cups of sugar to 8 cups of flour.**

- Turn back to the primary task page and re-present the primary task and answer options.

3

1 cup of sugar to 2 cups of flour

☐ cups of sugar to 8 cups of flour

4
