

High School Students Taking Community College Courses School Year 2009-2010 Report

To comply with Section 2-3.144 of the Illinois School Code, as well as Section 10-21.4 or 34-8, high school and unit district superintendents are required to complete and submit to the Illinois State Board of Education an annual survey that documents the number of high school students taking community college courses and the names of the courses taken.

For school year 2009-2010, 478 high school and unit districts completed and submitted the High School Students Taking Community College Courses survey from April through September 2010. Among these reporting districts, 79 districts reported that no students took community college courses and the remaining 399 districts reported that 31,813 students took courses offered by the community colleges. Of the 636,810 high school students included in the 2009-2010 fall enrollment counts, approximately 5 percent took courses offered by the community colleges. Appendix A provides data on the number of students, by gender and race/ethnicity, in each of the districts where students enrolled in community college courses.

High school and unit districts reported a total of 49 Illinois community colleges that offered courses to their high school students. The number of high school students who took courses from these community colleges ranges from 1 student at the Olive-Harvey City College in Chicago to 5,063 students at the Moraine Valley Community College in Palos Hills. Among the 49 community colleges, approximately 47 percent (25 colleges) offered courses to more than 500 high school students. Eight community colleges, including six of the seven Chicago city colleges, Morton College in Cicero, and Olney Central College in Olney, offered courses to fewer than 100 high school students during school year 2009-2010. Appendix B lists these community colleges, along with the number of enrolled high school students, by gender and race/ethnicity.

There were 29 community college courses taken by 31,813 high school students, with many of the students taking more than one course. Therefore, districts recorded 50,052 course enrollment counts for the 29 courses. The number of students taking each of these courses ranges from 25 students taking the military technologies course to 9,211 students taking the computer and information science course. Approximately 69 percent (20 courses) of the 29 courses served more than 500 high school students each; three courses were taken by fewer than 50 students. Appendix C lists the course names and the number of enrolled high school students, by gender and race/ethnicity.

For further information regarding high school students taking community college courses, please contact Ms. Niann Chern in the ISBE Data Analysis and Progress Reporting Division at 217/782-3950 or nchern@isbe.net.
