FY18 Application Notes

This instruction booklet provides instructions for completing the grant application through the eGrant system. Most of the information contained in this booklet is also available in the eGrant application under links to help or instructions.

IDEA grants use a reimbursement model.

The Code of Federal regulations at 34 C.F.R. § 80.21 prescribes the basic standard and the methods under which Federal payments are made to subgrantees. The basic standard is that the "method and procedures for payment shall minimize the time elapsing between the transfer of funds and disbursement by the grantee or subgrantee. Reimbursement shall be the preferred method when the [advance funding] procedures are not met."

- LEAs enter cumulative (i.e. year-to-date) expenditures for reimbursement on a cash basis as Federal funds are needed. LEAs are reimbursed for actual costs as expenditures are reported for approved grants.
- LEAs are required to submit quarterly expenditure reports within 20 days following the end of each quarter (i.e. September 30, December 31, March 31 and June 30) but have flexibility to submit interim reports to request Federal funds at the LEA's discretion. LEAs must submit a completion report within 20 days after the project end date.
- LEAs are not allowed to submit outstanding obligations except on the completion report submitted at the end of the project year (e.g. June 30, August 31 etc.). The current 90 day period is still in effect to liquidate and report outstanding obligations.
- Funding and Disbursement Services staff voucher frequently (e.g. once a week), to ensure the latest submitted expenditures are paid in a timely manner. Federal funds are not delayed and are normally received by the LEA 3-5 business days from the ISBE voucher date.

All districts must verify MOE Eligibility is met before expending IDEA funds. Per the 34 CFR 300.203(b), each LEA’s eligibility to use IDEA funds is contingent upon verification that the LEA budgets local or state/local funds, for the education of children with disabilities, in the current grant period at least the same total or per capita amount as was expended in the last fiscal year for which records are available (up to 2 years prior). The IDEA Flow Through application includes a page to verify MOE Eligibility, and cannot be approved until this page is complete.

Please note that ISBE calculates MOE Compliance for each district in Illinois. This information will be sent to the state-approved directors of special education. Cooperatives should use this information to complete the MOE Composite Worksheet for Cooperatives.

- Excel worksheets for cooperatives are available on the ISBE website at https://www.isbe.net/Pages/IDEA-Part-B-Grant-Program-Information.aspx. Cooperatives should complete this form to calculate the totals that must be added to the grant application on the MOE page. The calculated MOE Composite Worksheet for Cooperatives must be submitted to ISBE and a copy retained with other Grant documentation at the local level.
- Districts that are not part of a cooperative should use the MOE information calculated by ISBE to complete the MOE page of the grant application.
- Technical assistance on items not covered by the instructions and procedures may be obtained by contacting your grant coordinator Tammy Greco at tgreco@isbe.net or Felicia Malloy at fmalloy@isbe.net. You may also contact the Special Education Services Division (N-253),
Illinois State Board of Education, 100 North First Street, Springfield, Illinois 62777-0001 or telephone at 217/782-5589, fax 217/782-0372 or (TTY 217/782-1900).

- Assistance related to the technical aspects of the eGrant process may be obtained by contacting the ISBE Helpdesk at 217-558-3600 or by email at helpdesk@isbe.net.
Section I
Introduction

These directions should be used to complete the FY18 Application for Federal Special Education Grants. The instructions and procedures cited in this document represent a condensed compilation of the major federal and state regulations.

*Note that Compliance with the Illinois State Board of Education (ISBE) instructions and procedures does not relieve the applicant from responsibility for compliance with all applicable federal and state regulations. These instructions have been completed in accordance with the reauthorization of the Individuals with Disabilities Education Act Amendments of 2004 and the 34 Code of Federal Regulations 300 and 301, issued June 21, 2005.*

IDEA grant applications are completed and reviewed online via a secure connection over the Internet. Grant applicants can use their ISBE Web Application Security (IWAS) account to access IDEA grant applications. Applicants can gain access to IWAS by going to the ISBE website at [www.isbe.net](http://www.isbe.net). An IWAS link is located at the top of the ISBE homepage where applicants can create a new IWAS account or access an existing IWAS account. In IWAS, the grant application can be accessed by selecting the system listing that corresponds to the grant application.

**IDEA Part B Grant Program Descriptions**

**IDEA Part B Flow-Through**

This program provides supplemental funds to ensure that all children with disabilities ages 3 through 21 receive a free appropriate public education in the least restrictive environment. Funds may be used to support salaries of staff who provide services for special education students. This may include teachers, aides, administrative staff and other personnel such as social workers, psychologists, and physical therapists. Funds may also be used to support training; specialized consultants; and to purchase instructional supplies, materials and equipment.

**IDEA Part B Preschool**

This program provides funds to employ staff and purchase materials/supplies to supplement a comprehensive special education program for children with disabilities ages 3 through 5.

**IDEA Part B Discretionary**

These funds are used for leadership grants for improving special education services in Illinois. The grants are awarded to school districts, joint agreements, other public institutions and private organizations involved in special education. In addition, these funds are used to pay for administrative discretionary activities. In the past, these have included costs such as Illinois’ Alternate Assessment system, the Due Process Hearing officer system, Surrogate Parent Reimbursement and funds for the Illinois Purchase Care Review Board.

**Grant Period**

The FY 2018 grant period for the IDEA grants begins July 1, 2017 or on the submission date of the original application, whichever is later. Funds may not be obligated prior to Illinois State Board of Education receipt of a substantially approvable application. Project activities must be complete and expenses must be incurred by June 30, 2018.
Section II

Background and Program Specifications

Federal and State Requirements

Responsibility for Federal Funds: The governing board of the applicant is responsible for assuring that federal grant funds are expended in compliance with federal and state rules and regulations. This requirement also applies to all entities that participate in the grant program.

Payment Procedures: Administrative agents for the grant will enter cumulative (i.e. year-to-date) expenditures for reimbursement on a cash basis as Federal funds are needed. Administrative agents will be reimbursed for actual costs as expenditures are reported for approved grants.

Joint Agreements as Pass-Through Entities: The federal IDEA funds are provided as supplemental funds to assist districts in providing a free and appropriate public education (FAPE) to students with disabilities. The IDEA funds are generated and allocated based on each district’s student population. The federal government sends the IDEA funds to the Illinois State Board of Education where the IDEA flow-through and preschool funds are then distributed either directly to the districts or through special education cooperatives. When IDEA funds are sent to a special education cooperative, the cooperative is considered a pass-through entity with the fiscal responsibilities for monitoring the use of IDEA funds in accordance with the IDEA. Those responsibilities include sub-recipient monitoring of funds expended by the member districts through IDEA subgrants and tracking IDEA expenditures/carryover retained at the cooperative to ensure that the IDEA funds are expended on the students who generated the funds.

Reimbursement: The administrative agent is responsible for establishing procedures to ensure that federal funds are received and disbursed on a reimbursement of cost basis only. Local education agencies may not commingle grant funds with other federal, state or local funds. This requirement is satisfied by the use of a separate accounting system that includes an "audit trail" of the expenditure of all funds. This separate accounting system for grant money is required for the grant applicant and the member flow through applicants. Separate bank accounts are not required; the basic requirement is to maintain the fiscal identity of all grant funds.

Policy and Procedures: Federal requirements mandate that all grant applications must have approved policies and procedures to meet general requirements under this part. Approval of the application is contingent upon verification that the submitting agency and all participating agencies benefiting under the grant have policies and procedures approved by the Illinois State Board of Education and that those policies and procedures are currently in effect pursuant to the School Code and 23 Illinois Administrative Code 226. All applications must complete the remaining federal and state requirements that apply to this application which can be found in the following compliance documents:

Federal

34 CFR Part 76, State-Administered Programs.
34 CFR Part 80, *Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments.*

34 CFR Part 85, *Government-wide Debarment and Suspension (nonprocurement) and Government-wide Requirements for Drug-Free Workplace.*

34 CFR Part 300, *Rules and Regulations for Part 300, Sec. 233 effective February 9, 2001.*

34 CFR 303, *Early Intervention Program for Infants and Toddlers with Disabilities.*

Section 504 of the Rehabilitation Act of 1973 (Public Law 93-112).

**State**

*The Illinois School Code*

23 Illinois Administrative Code 226.

*State and Federal Grant Administrative Policy and Fiscal Requirements and Procedures, Illinois State Board of Education, Updated 2017.*

*30 ILCS 708/) Grant Accountability and Transparency Act*

It is necessary that recipients of funds collect and maintain financial information required by federal regulation to demonstrate compliance. Prescribed formulas and financial records specified in these regulations must be compiled and maintained by the submitting agency and available for audit review annually. The following Financial Reporting Requirements are mandatory for all Flow-Through grants:

**Excess Cost**

A local educational agency may only use funds under Part B of the Act for the excess costs of providing special education and related services for children with disabilities.

Comment: *The excess cost requirement means that the local educational agency must maintain its local and state fiscal effort for the education of its children with disabilities before federal funds are used. This ensures that children served with federal funds have at least the same average amount spent on them from sources other than federal funds as do the children in the school district.*

The minimum amount that must be spent for the education of children with disabilities is computed under a statutory formula. If a local educational agency can show that it has (on the average) spent the minimum amount for the education of each of its children with disabilities, it has met the excess costs requirement. Part B funds can then be used to pay for these additional costs, subject to the other requirements of Part B (priorities, etc.).
The excess cost requirement prevents a local educational agency from using funds provided under federal programs to pay for all of the costs directly attributable to the education of a child with a disability.

Each local educational agency receiving IDEA funds through a flow-through grant must complete the excess cost worksheet annually demonstrating the district met excess cost in the previous fiscal year, as well as, identifying the new threshold for the current year. Any district in danger of not meeting the excess cost threshold must contact a grant consultant immediately. Failure to meet excess cost will require repayment of federal funds with local funds.

**Supplement-Not Supplant**

Each application must provide assurance satisfactory to the Illinois State Board of Education that the grant applicant uses funds provided under federal legislation to supplement and, to the extent practicable, increase the level of state and local funds expended for the education of children with disabilities and in no case to supplant those state and local funds.

To meet the requirements the total amount or average per capita amount of state and local school funds budgeted by the local educational agency for expenditures in the current fiscal year for the education of children with disabilities must be at least equal to the total amount or average per capita amount of state and local school funds actually expended for the education of children with disabilities in the most recent preceding fiscal year for which the information is available.

If the local education agency (LEA) maintains (or exceeds) its level of local, or state and local, expenditures for special education and related services from year to year, either in total or per capita, then the Part B funds are, in fact, supplementing those local, or state and local, expenditures and the LEA has met its MOE and supplement/not supplant requirements.

**Note:** Prior to 1992, the Part B regulations also included a “particular cost test” for determining whether supplanting of special education expenses occurred. This requirement meant, for example, that if an LEA spent Part B funds to pay for a teacher’s salary that was previously paid for with state or local funds, a supplanting violation would occur, even though the total amount of state and local funds spent on special education was greater than the amount spent the previous year. At that time, an LEA could maintain effort but still violate the supplement/not supplant provision. The “particular cost test” was removed from the regulations by an amendment published in the Federal Register on August 19, 1992 (37 FR 37652) and that became effective on October 3, 1992. Therefore, no requirement currently exists related to supplanting “particular costs” and if an LEA maintains local, or state and local, effort, it will not violate the supplement/not supplant requirements of the IDEA.

However, regarding the use of funds for Coordinated Early Intervening Services (CEIS), sections 300.202(a)(3) and 300.162(c)) of the IDEA Part B regulations require that LEAs not supplant other Federal funds. CEIS funds cannot be used to pay for something that has been paid for up until now with other Federal program grant funds. For example, if a district has paid for an after-school tutoring program with Title I funds, that program cannot now be paid using IDEA CEIS funds because that would be supplanting the Federal Title I funds. However, IDEA funds can be used to supplement the Federal Title I funds to expand the after-school tutoring program by hiring additional teachers to serve additional numbers of students, expanding it to other schools, providing it in the morning as well as the afternoon, etc.

**Maintenance of Effort**
Funds provided to an LEA under Part B of the Act may not be used to reduce the level of expenditures for the education of children with disabilities made by the LEA from local funds below the level of those expenditures for the preceding fiscal year. However, up to 50 percent of the amount of funds received under Part B of the Act that exceeds the amount received for the previous fiscal year may be used to reduce the level of expenditures otherwise required by §303.203. The LEA must use an amount of local or state and local funds equal to the reduction to carry out activities that could be supported with funds under the ESEA. If an SEA determines that an LEA is unable to establish and maintain programs of FAPE that meet the requirements of §613(a) the SEA must prohibit the LEA from reducing the level of expenditures under this provision. Any district that elects to use voluntary MOE Reduction must complete the ISBE form provided at https://www.isbe.net/Documents/moe-reduction-form.pdf and submit that form to ISBE by the due date. The use of IDEA MOE Reduction requires the district to expend an equal amount of local freed up funds on ESEA activities.

Permissive Use of Funds

Funds provided to an LEA under Part B of the Act may be used for the following activities:

- For the cost of special education and related services and supplementary aides and services provided in a regular class or other education-related setting to a child with a disability, even if one or more non-disabled children benefit from these services.
- To develop and implement coordinated, early intervening education services in accordance with §300.226.

In addition, an LEA may use funds received under Part B for any fiscal year to carry out a school-wide program under Section 1114 of the ESEA. This amount cannot exceed the amount so prescribed in (1)(i). The amount received by the LEA under Part B for that fiscal year is divided by (ii) the number of children with disabilities in the jurisdiction of the LEA and multiplied by (2) the number of children with disabilities participating in the school-wide program.

Funding conditions The funds described are subject to the following conditions: (1) the funds must be considered as Federal Part B funds for purposes of the calculations required by §300.202(a)(2) and (a)(1).

Meeting other Part B Requirements Except as provided in §300.202(b) all other requirements of Part B must be met by an LEA and ensure that children with disabilities in school-wide program schools: (1) receive services in accordance with a properly developed IEP, and (2) are afforded all of the rights and services guaranteed to children with disabilities under IDEA.

Allowable Expenditures

Federal and state funds made available to grant applicants may be used for such expenditures as are reasonably necessary for providing appropriate programs and meeting the requirements of the law.

Note that the applicant must set aside a minimum of 5% of the total IDEA Part B Flow-Through grant budget to support personnel development. These costs are classified in Function 2210.

Approved expenditures may relate to the following:

1. Salaries and other fixed costs for approved full and part-time certified personnel necessary for grant activities.
2. Salaries and other fixed costs for approved supportive and clerical staff necessary for the grant activities.

3. Equipment, materials, and supplies necessary for grant activities. (Note: All materials and supplies exceeding $1,000 in total and all equipment exceeding $500 per unit must be itemized on the budget detail page.)

4. Audits of the grants.

5. Custodial services and utilities directly attributable to grant functions.

6. Local/state share of the retirement contribution for personnel paid by Part B.

7. Subcontracts for services that cannot be provided by the continuing staff.

8. Out-of-state travel directly related to grant activities. Prior approval for all out-of-state travel is required. The request must be in writing at least one week prior to traveling to your grant coordinator of the Special Education Services Division of the Illinois State Board of Education and contain documentation that local administrative policy for out-of-state travel has been met. (See Appendix A for the recommended format.) Requests will only be approved for district staff. Include out-of-state travel in the budget detail of the IDEA application.

9. Consultants on a daily basis, as approved, to supplement the grant activities. Consultants must be paid a fee not to exceed the standard amount normally paid by the submitting agency. The allowable consultant daily fee is based on local standards for rates. Rates must be reasonable and applicable to the use of local funds. Documentation of consultant services and their effectiveness must be included in the grant applicant’s record.

10. Travel expenses for personnel to carry out grant functions (expenses must be paid in accordance with local policies).

11. Transportation for special education students as specified in the student’s Individualized Education Program (IEP) if the expense is not covered by other transportation programs. Note: All Special Ed transportation costs (expenses) must be listed on the State Pupil Transportation Reimbursement Claim and any federal Special Education grants or reimbursements used to pay for such costs must be listed on the claim as offsetting revenue. Likewise, any vehicles acquired or otherwise used for special education student transportation must be listed on the transportation depreciation schedule. Finally, all transportation funds received whether State or Federal must be deposited in the transportation fund and expended from there.

12. Capital expenditures for special purpose equipment are allowable as direct costs, provided that items with a unit cost of $5000 or more have the prior approval of the awarding agency.

13. Capital expenditures for improvements to land, buildings, or equipment which materially increase their value or useful life are unallowable as a direct cost except with the prior approval by ISBE.

14. Maintenance and repair of equipment purchased with grant funds.

15. Lease agreements (which do not exceed one year and do not include interest)

16. Administrative costs that are reasonable based upon the scope of the project.

17. In-service education related to the grant objectives as identified in the Comprehensive Personnel Development Plan.

18. Reimbursement of operation and maintenance costs to public agencies providing facilities.

19. Other items properly chargeable to the operation of the grant.
Limitations of Expenditures

Grant funds may not be used:

1. To supplant any state or local funds. (The total amount or average per capita amount of state and local school funds budgeted by the LEA for expenditures in a fiscal year for the education of students with disabilities must be at least equal to the total amount or average per capita amount of state or local funds actually expended for the education of students with disabilities in the preceding fiscal year.)

2. For pre-service training of personnel.

3. For the purchase of equipment that has not been previously approved by the Illinois State Board of Education. Such activities may be included only as part of the program and cannot be approved in isolation.

4. For religious workshops or instruction. Federal regulations specify that funds and property may be used to benefit children with disabilities in private schools, but only for special education and related services. The public schools may place equipment and supplies in a private school for the period of time needed for delivering special education services. The public school must control and administer the funds used to provide special education for private school students with disabilities and must hold title to and administer materials, equipment, and property purchased with IDEA Part B funds.

5. For any program or obligation not in compliance with Article 14 of the Illinois School Code.

6. To pay salaries of nonpublic school personnel unless services performed are other than those delivered in nonpublic facilities and at times other than those contracted by the nonpublic entity.

7. For matching funds required to receive assistance from other federal programs.

8. To pay salaries for personnel when costs would be above locally accepted standards.

9. For line item expenditures for which an amount was not entered on the Budget Summary and Payment Schedule.

10. For transportation costs not included in IEPs.

11. For bad debts, contributions, donations, fines, penalties, entertainment, financing, and refinancing operations.

12. For liquidation after ninety (90) days following the end of the budget period of obligations encumbered in the project year.

13. For liquidation of encumbrances incurred prior to the submit date of the grant application for a project year.

14. For expenditures that are not clearly identifiable as directly related to grant activities or functions.

15. For any expenditure that occurred in a prior grant year.

16. For chartering private aircraft or other modes of transportation when costs will be above locally accepted standards.

17. For other unallowable costs as defined by the Education Department General Administrative Regulations (EDGAR).

18. To pay attorney’s fees or costs of a party related to an action.
19. To offset the costs of private school special education placement when a school district places a student pursuant to Section 14-7.02 of the School Code.

Note: Refer to 34 CFR, Part 80, Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments for additional information.

Information regarding required accounting procedures is included in Appendix B, recommended function numbers are included in Appendix C and recommended object numbers are included in Appendix D.

Amendments

All amendments are due at the Illinois State Board of Education 30 days prior to the project ending date (usually May 31). Obligations of funds based on amendments cannot begin prior to the date of receipt at ISBE of a substantially approvable amendment request.

Amendments are required when:

✓ there is a significant change in program scope (e.g. adding a new component - summer school); or
✓ the grant recipient intends to budget for more available funds (i.e. federal carryover); or
✓ the expected expenditures exceed the ISBE expenditure variance of 10% or $1,000 per object total, whichever is greater; or
✓ the grant recipient adds a new expenditure item.

Program information about Coordinated Early Intervening Services (CEIS)

In accordance with the IDEA 2004 regulations at 34 CFR, 300.226, school districts may use up to 15 percent of IDEA Part B flow-through funds to develop and implement early intervening services for students in grades K-12 not identified as needing special education or related services but who need additional academic and behavioral support to succeed in the general education environment. Further, in accordance with the requirements at 34 CFR 300.646, those districts identified as having significant disproportionality based on race and ethnicity with respect to 1) identification of students as having disabilities, 2) placement of these students in particular education settings, and/or 3) disciplinary actions, including suspensions and expulsions, MUST use 15 percent of funds for this purpose. Expenditure reviews are conducted to verify that districts which were required to use 15% of their IDEA funds for CEIS purposes expended those funds as budgeted in the IDEA grants.

Use of Funds Parameters

When using IDEA Part B funds for CEIS, either voluntarily or because they are required to do so, districts must adhere to certain requirements set forth in the federal regulations at 34 CFR §§ 300.226 and 300.646, as well as other parameters established by ISBE (in alignment with the federal regulations), as delineated below.

1. Activities (34 CFR § 300.226(b)): The Illinois State Board of Education (ISBE) has determined that funds earmarked for CEIS can be used for the purposes delineated below.
   a. Delivery of professional development (which may be provided by entities other than the LEA) to:
i. Enable teachers and other school staff to deliver scientific, research-based academic and behavioral interventions, including scientifically-based literacy instruction, and, where appropriate, instruction on the use of adaptive and instructional software.

ii. Provide information and training for parents.

Professional development content may include, but is not limited to, the following:

- The problem-solving process and data-based decision making.
- A multi-tiered instruction and intervention model, including review and evaluation of Tier 1 (core) curricula and instruction (particularly in reading and math) and whole-group interventions and development and delivery of Tier 2 and Tier 3 interventions.
- Design and delivery of scientific, research-based interventions, including implementation integrity/fidelity.
- Student progress monitoring.
- Positive Behavior Interventions and Supports (PBIS).

b. Provision of educational and behavioral evaluations and assessments, services, and supports, including scientifically-based literacy instruction, as discussed below.

i. Evaluation and assessment of students may include the purchase of data-based progress-monitoring tools/systems, e.g., DIBELS, AIMSweb.

ii. Provision of services and supports may include the purchase of intervention resources. All services and supports, including intervention resources, should supplement and be directly linked to the core curriculum, be evidence- or scientifically, research-based and provide for frequent progress monitoring.

Funds allocated for provision of services may include salaries of staff to serve as district- and/or building-level problem solving coaches, provide interventions or complete other activities directly associated with the provision of CEIS. However, funds may not be used to supplant salaries of existing staff.

2. **Target Population:** In accordance with 34 CFR § 300.226(a), districts that are required to set aside 15 percent of IDEA Part B flow-through funds for CEIS due to significant disproportionality in special education identification, EE placements, and/or discipline must ensure that the funds are used to provide services to students in grades K-12 who are not identified as needing special education and related services, but who need additional support to succeed in the general education environment. While students with Individualized Education Programs (IEPs) can benefit from CEIS, the district must ensure that any participation of such students in IDEA Part B-funded CEIS does not have the result of increasing costs or preventing other at-risk students who do not have IEPs from receiving CEIS. The requirements discussed in this paragraph also apply to districts that voluntarily set aside up to 15 percent of IDEA Part B funds for CEIS.

   In accordance with 34 CFR § 300.646(b)(2), those districts that are required to set aside 15 percent of their IDEA Part B flow-through funds for CEIS due to significant disproportionality in special education identification, EE placements, and/or discipline must also ensure that the funds are used to serve children particularly, but not exclusively, in those racial/ethnic groups that were significantly overrepresented.

3. **Reporting Requirements:** In accordance with 34 CFR § 300.226(d), districts that are required to or that voluntarily set aside IDEA Part B flow-through funds for CEIS must annually collect and report to ISBE the following data:
a. The number of children served who received CEIS in a given year and
b. The number of children who received CEIS during the preceding two-year period and subsequently receive special education and related services in the current year.

4. **Supplement vs. Supplant**: Funds allocated for CEIS may **not** be used to supplant activities and services funded by other federal sources.

**IDEA Flow-Through Budgets**

Districts that elect or are required to use a percentage of their IDEA Part B flow-through funds to provide CEIS must clearly earmark funds for this purpose in their IDEA Part B grant applications. For assistance with incorporating CEIS and expenditures in the grant application, districts should contact their assigned IDEA Part B grant coordinator (Tammy Greco or Felicia Malloy) at 217-782-5589. *Please note*: If a district is a member of a special education joint agreement, we recommend working with the joint agreement to complete this process.

When adding CEIS activities to the district e-Grant application, the Early Intervening Services section of the application must be completed. Within that section, it is necessary to provide a detailed listing of proposed activities and estimated costs. Costs must match what is delineated in the Budget Detail page and cannot exceed 15 percent of the district’s total IDEA Part B allocation for the relevant fiscal year.

All proposed IDEA Part B grant activities and fund allocations associated with providing CEIS must meet the parameters delineated under the preceding section. ISBE approval of the proposed use of funds is required prior to implementing the associated activities, regardless of whether a district has elected or is required to use funds for this purpose.

The federal regulation (34 CFR 300.226) is specific to the LEA use of CEIS and does not address special education cooperatives. As such the IDEA flow through grants must reflect the CEIS funds, both voluntary and required, expended by each LEA. The FY18 IDEA grant application will identify for each LEA the maximum amount (15%) of their IDEA funds available for CEIS. The IDEA grant will not include a CEIS calculation for special education cooperatives. If a cooperative expends CEIS funds, the IDEA grant must reflect the amount of CEIS funds received from each member district and the amount expended on CEIS for each member district.

- **When LEAs are using funds for CEIS** the cooperative must flow the funds to the local districts.
- **When cooperatives are using funds for CEIS** the cooperative must flow the funds to the local districts, and then the LEA must flow the funds back to the cooperative (i.e. LEAs note in function code 4000 the amount of funds sent to the cooperative for CEIS).
  - When the cooperative is completing the CEIS page it must indicate the distribution of funds and services to member districts.

**Related Information for Special Education Federal Grants**

The documentation described in this section is not submitted as part of the IDEA application, but must be maintained on file with the grant recipient.

Note: *This data is not required for discretionary grants unless specifically requested in the Special Discretionary Grant Requirements.*
Notice of Public Review

The LEA must have on file with the SEA information to demonstrate to the satisfaction of the SEA that it will make available to parents of children with disabilities and to the general public all documents relating to the eligibility of the agency under Part B of the Act.

Documentation of Nonpublic School Participation

The Individuals with Disabilities Education Act requires the provision of special education and related services to parentally placed private school children with disabilities. Generally, each local educational agency (LEA) must conduct child find, determine the proportionate share of Federal Part B funds, and provide services to parentally-placed private school children with disabilities who attend private schools located within the LEA boundaries without regard to where the child/student resides. The grant recipient should refer to the ISBE November 2015, Guidance on IDEA Proportionate Share Services for Parentally Placed Nonpublic Students with Disabilities available at https://www.isbe.net/Documents/guidance-15-09-idea-pps-nonpublic.pdf.

Written Affirmation of Consultation

Local school districts must maintain documentation of timely and meaningful consultations with participating private schools signed by the representatives of such schools. If a private school does not agree to consult with the district, then the district must maintain documentation of their attempts to secure the school’s participation at the consultation.

Documentation regarding Timely and Meaningful consultation must be retained by the district and submitted to the Special Education Services Division upon request.

Use of Funds

Districts with nonpublic proportionate share calculations must budget for those expenses in the IDEA grants. While local funds can be used to supplement the IDEA nonpublic proportionate share services, the sole use of local funds for IDEA proportionate share expenses would be supplanting. In the event that a district does not have any nonpublic students who require services, the district must note such in the abstract page of the IDEA grant.

Nonpublic Proportionate Share Calculations

All districts with IDEA nonpublic proportionate share calculations must budget for those expenses in the FY18 IDEA grants. This includes districts that are members of special education cooperatives – the member districts must budget for those expenses in subgrants of the cooperative’s IDEA grant.

Estimated and Final Proportionate Share Calculations

The Funding and Disbursements Division uses the number of nonpublic students reported in the child count data to calculate the IDEA nonpublic proportionate share amount for each district.

It is imperative that districts provide accurate data, as an estimated proportionate share calculation is based on the March Child Count data. Estimated nonpublic proportionate share calculations are released in April and those calculations are used for the timely and meaningful consultations and budgeting for the initial IDEA grant applications. The final nonpublic proportionate share calculations are released in August. Districts will not need to reconvene the timely and meaningful consultations, unless a significant discrepancy exists between the estimated and final nonpublic proportionate share calculations.
The IDEA grants must reflect the funds expended by each district for nonpublic proportionate share services. Any district that is including nonpublic proportionate share expenses in the IDEA grants must budget for those services in function code 3700.

*See page 22 for additional information regarding completion of the proportionate share tab of the IDEA grants.

Verification Process

The Illinois State Board of Education is responsible for verifying that districts with nonpublic proportionate share calculations budget and expend the funds from the IDEA grants.

- Grants cannot be approved if districts with nonpublic proportionate share calculations fail to budget for those expenses.
- Expenditure report reviews are conducted to verify that districts with nonpublic proportionate share calculations expended the IDEA funds for those expenses.

Needs Assessment

An annual comprehensive needs assessment is required for the entire special education program, including the underlying participating districts. All project grant activities and expenditures must be based upon this comprehensive needs assessment. Documentation of the needs assessment process, a compilation and analysis of the results, and justification for all grant activities and expenditures must be on file and available for review by the Illinois State Board of Education.

Documentation should indicate the scope of the needs assessment, the assessment instruments used, and the groups/organizations that participated in the needs assessment process. All needs assessment data is to be maintained on file with the applicant for purposes of verification.

Personnel Development Plan

A Personnel Development Plan must be kept on file by the grant recipient and should include the following components:

1. Participation/Coordination: Describe the extent of participation of various school district personnel groups and parents in the development of this Personnel Development Plan. Include procedures for coordinating the involvement of parents, general education personnel and special education personnel with an interest in personnel development planning.

2. Needs Assessment: Describe the needs assessment process used to determine training of each personnel category. Include in this statement the results of the needs assessments by identifying: the personnel groups needing training (including parents of children with disabilities and all groups involved with inclusion activities); and the content areas in which training is needed for each group.

3. Training: Identify each personnel group to be provided in-service through the plan: special education administrative and instructional personnel, general education administrative and instructional personnel, support personnel, parents, aides and volunteers. Identify general content of training of each group. Describe how the training will be provided. Describe the incentives that will be offered to help ensure participation in program activities. Describe the plans to develop ongoing procedures to identify, review, and use (if appropriate) promising practices and materials for personnel development programs and instructional programming for students.
4. **Evaluation:** Describe the procedures for evaluating the effectiveness of the total Personnel Development Plan in meeting identified personnel development needs.

5. **Dissemination:** Describe efforts to share information about the Personnel Development Plan and/or its results within the district/joint agreement. Include efforts made to share information about local in-service training efforts outside the district/joint agreement.

**Treatment of Charter Schools and Their Students**

The LEA must have on file with the SEA information to demonstrate how it will serve children with disabilities attending those schools in the same manner as it serves children with disabilities in its other schools; and provide funds under Part B of the Act to those schools in the same manner as it provides Part B funds to its other schools.

**School-Based Improvement Plan**

In general each LEA may use funds made available under Part B of the Act to permit a public school within the jurisdiction of the LEA to design, implement, and evaluate a school-based improvement plan.

**Note:** Review this subpart thoroughly before developing a School-Based Improvement Plan.
Section III
Creating, Completing and Submitting an eGrant Application

To create an initial application – click on the “Yes” square.
This opens the next screen. The project title should reflect the type of grant for example, Preschool Grant.
Click on the “Create New Project” button
This will bring up a new application. Select each tab to complete the application.

</thead>
</table>

**APPLICANT INFORMATION Tab:**

The contact listed in this section of the application should be the person most directly responsible for completing the application. The person named here is the individual who will be contacted by grant coordinators if changes to the application are necessary.

**Navigation**

- Required fields are marked with an asterisk.
- Use the tab key rather than the enter key to navigate through fields.
- Use the mouse to check a check box.
- Dates must be entered in MM/DD/YYYY format.
- Validations have been added to the phone number, fax number, and zip code to ensure they are numeric and the appropriate number of characters. You will receive an error message if your entry is not valid.
- Be sure to save this page before proceeding to other pages or programs in the application. Failure to save each page as it is completed will result in data loss. Be sure to save before the session timeout clock (top right) reaches zero.
- Do not use the browser (Internet Explorer or Navigator) forward and back buttons to change pages. Use the page tabs to change pages.
- **Grant Period**
  - Grant Period refers only to the main grant; the member flow through application does not include this option.
  - The grant period for this IDEA grant is July 1, 2017 through June 30, 2018 or August 31, 2018. Funds may not be obligated prior to Illinois State Board of Education receipt of a substantially approvable application. Project activities must be complete and expenses must be incurred by the end date chosen.
  - Do not change the end date unless instructed to do so by your grant coordinator.
General Educations Provision Act (GEPA)

The applicant MUST describe the steps they propose to take to ensure equitable access for all stakeholders to the NCLB programs. The statement should be based on the six barriers to access.

Applicant Comments

Use this box to record any explanations, responses, or other information you want to communicate to the ISBE staff who will review this application. This text area is limited to 7,000 characters and may be used throughout the application and amendment process.

MAINTENANCE OF EFFORT (MOE) Tab

MOE Eligibility Subtab

Per the 34 CFR 300.203 (a) districts are eligible to receive IDEA funds by budgeting to maintain local (state/local) spending on students with disabilities. Assurances alone are not sufficient for verifying compliance with federal regulations for Maintenance of Effort (MOE) Eligibility. The IDEA grant includes a page to document MOE eligibility for each district. MOE eligibility is based on a comparison of current year’s budgeted expenditures to the most recent complete fiscal year (up to 2 years prior). Cooperatives must coordinate with member districts to document how each district meets MOE eligibility. All districts must maintain MOE eligibility documentation at the local level as part of the IDEA grant records.

This page lists the criteria (4 possible options, plus allowable exceptions) for meeting MOE eligibility and includes a drop down box for selecting how each district meets MOE eligibility.

MOE Compliance Subtab

Worksheets and Instructions

- ISBE will calculate MOE Compliance for each district in Illinois. MOE worksheets will be sent to the state-approved Director of Special Education for each cooperative or stand-alone district. Cooperatives should use this information to complete the MOE Composite Worksheet for Cooperatives.
- Excel worksheets for cooperatives are available on the ISBE website at https://www.isbe.net/Pages/IDEA-Part-B-Grant-Program-Information.aspx. Cooperatives should complete this form to calculate the totals that must be added to the grant application on the MOE page. The MOE Composite Worksheet for Cooperatives must be submitted to ISBE and a copy retained with other grant documentation at the local level.
- Districts that are not part of a cooperative should add the MOE information calculated by ISBE to the grant application.
Adding Maintenance of Effort Compliance Calculations to the grant application:

Enter the Administrative Agent’s Grand Total results (Expenditures Less Revenue) from the MOE worksheet in the appropriate cell. Next, enter the Administrative Agent’s Grand Total results from the MOE worksheet (Previous Year Special Education Net Expenditures). The next cell, Comparison of Current to Previous Year Special Education Net Expenditures, is a calculated field that will automatically generate a number based on the numbers entered in the previous cells.

Failure to Meet Maintenance of Effort Requirements:

If the comparison of current to previous year special education net expenditures is negative, the applicant is required to provide an explanation in the text box provided. An LEA may reduce the required level of expenditure if the reduction is attributable to the following:

- The voluntary departure, by retirement or otherwise, or departure for just cause, of special education or related services personnel, who are replaced by qualified, lower-salaried staff.
- A decrease in the enrollment of children with disabilities.
- Termination of the obligation to provide special education for a particular child with a disability that is an exceptionally costly program, because the child:
  1. has left the jurisdiction of the agency,
  2. reached the age at which the obligation to provide FAPE to the child has terminated, or
  3. no longer needs the program of special education.
- The termination of costly expenditures for long-term purchases, such as the acquisition of equipment or the construction of school facilities.

or

- Under certain circumstances, in accordance with IDEA section 613(a)(2)(C), in any fiscal year that an LEA’s allocation exceeds the amount that the LEA received in the previous fiscal year, that LEA may reduce the level of local, or state and local, expenditures otherwise required by the LEA MOE requirements by up to 50 percent of the increase in the LEA’s allocation. The LEA must spend the ‘freed-up’ local or, state and local, funds on activities that are authorized under the Elementary and Secondary Education Act (ESEA) of 1965.

**PROGRAM SPECIFIC Tab**

*Instructions for the ABSTRACT Page:*

The IDEA Grant application was designed to allow LEAs to apply for funding of continuation activities with a minimum of program narrative. Any applicant who anticipates implementing major changes from one fiscal year to the next that alter the scope of goals of the grant application should contact the appropriate ISBE grant coordinator prior to preparation and submission of the application. (Additional information related the application process is posted on the Special Education Website at [https://www.isbe.net/Pages/IDEA-Part-B-Grant-Program-Information.aspx](https://www.isbe.net/Pages/IDEA-Part-B-Grant-Program-Information.aspx).)

**Navigation**

To complete the page, tab or click into the text box to fill in the requested information. Click the Save Page button before proceeding to other pages in the application. All three sections must be completed before the page can be saved.
Provide a description of how needs assessment information was used to plan grant activities.

Note that an annual comprehensive needs assessment is required as described in the section of this handbook entitled “Related Information for Special Education Federal Grants”.

Tab to the second area and summarize the activities and programs to be supported with IDEA grant funds.

Changes: Tab to the third text area. Use this section to describe any changes in the scope or nature of services from the last fiscal year or simply note that this section is not applicable.

**EARLY INTERVENING SERVICES (CEIS) Tabs**

Districts that elect or are required to use a percentage of their IDEA Part B flow-through funds to provide early intervening services must clearly earmark funds for this purpose in their IDEA Part B grant applications. **Note:** If a district is a member of a special education joint agreement, it is important to work with the joint agreement to complete this process. **Federal requirements for tracking and reporting student progress apply to special education joint agreements and school districts that budget for CEIS activities. See page 11 for additional information about the CEIS reporting requirements.**

- **Use of IDEA Flow Through Funds for CEIS**

  When adding early intervening service activities to the district eGrant application, the CEIS section of the application must be completed. A district must indicate if the use of CEIS funds is voluntary or required. Within that section, it is also necessary to provide a brief summary of the district’s LEA plan, and a detailed listing of proposed expenditures and estimated costs. These costs must also be listed in the Budget Detail on a separate budget detail line. All expenses included on the CEIS page must be an exact match to the CEIS expenses listed in the Budget Detail page.

  Please note that the use of CEIS funds for RTI is appropriate only for nondisabled students needing extra support at Tier 2 and/or Tier 3.

- **Reporting After Using IDEA Funds for CEIS**

  The IDEA regulations at 34 CFR 300.226(d) require an LEA to report data to ISBE if the district/cooperative used up to 15% of IDEA Part B Flow-Through funds (voluntarily or required) to develop and implement coordinated early intervening services (CEIS) in the school year covered by the prior application. If a district budgeted for CEIS in the previous year it must report (or Districts that budgeted for CEIS in the previous year must report):

  1. Total number of children in the LEA who received CEIS under IDEA two years prior to the application (2014-2015 school year)
  2. Total number of children in the LEA who received CEIS under IDEA any time in the past three school years (2013-2014, 2014-2015, and 2015-2016) AND who were determined eligible and received special education and related services in the school year prior to this application (2015-2016)
**Proportionate Share Tab**

All districts with an IDEA grant or subgrant are required to complete the new proportionate share tab (see below). For any district with an estimated nonpublic proportionate share calculation, that required proportionate share amount will be prepopulated on the page. Each district must complete Section A – Timely and Meaningful Consultation and Section B – Proportionate Share Calculation.

**Timely and Meaningful Consultation** – the district must select either:

- Timely and meaning consultation occurred and the documentation is retained by the district for submission to ISBE upon request. *The documentation must contain the date(s) in which the consultation occurred*
  
  OR

- No known nonpublic schools or home-schooled students exist within the district boundaries.
Proportionate Share Calculation – the district must select one of three options:

- The district has a nonpublic proportionate share and has budgeted for those expenses in the budget detail page of the IDEA grant. *All nonpublic proportionate share expenses must be included in function code 3700.*

OR

- The district has a nonpublic proportionate share, but has not budgeted for those expenses in the IDEA grant. *The district must also include a statement explaining why the grant does not include the proportionate share expenses.*

OR

- The district does not have a nonpublic proportionate share calculation and is not required to budget for those expenses.

Any district that provides IDEA nonpublic proportionate share services must budget for those expenses in function code 3700.

Amendment

This page must be completed to submit the application. Yes must be selected if any portion of the grant or subgrants are being amended.

- If yes, complete the remainder of the page.
- If no (to be used only when completing the initial application), click the Save Page button at the bottom of the page and continue to the next page.

*Please note: If the grant application includes a required amendment. A description of the change*
is required in the comment boxes to navigate from this page. The initial application should have n/a in the comment box.

Cooperatives: Cooperatives must indicate if there has been a change to the grant by marking the yes/no box. For any changes to the main grant the cooperative must identify the changes by function/object code in the comment section. If the amendment also includes changes to subgrants the cooperative must list the districts with changes in the member district comment section of the amendment page.

Member Districts: Member Districts also have an amendment page and must identify the function and object codes in which changes have been made.

Stand-alone Districts: Districts must indicate if there has been a change to the grant by marking the yes/no box. For any changes to the grant the district must identify the changes by function/object code in the comment section.

BUDGET PAGES Tab

Allotment Page: This page provides “view only” access to project information as well as a navigational link between the Administrative Agent grant and any member flow through applications. The first section displays the Current Year Allotment and adjustments through:

- Reallotted Funds or Released Funds – not applicable to IDEA grant;
- Carryover (unbudgeted and unexpended) funds transferred into the project from the prior year;
- Prepayment (cash on hand) transferred into the project from the prior year.

Multi-District: Allotments to Member Districts

The green link next to Transfer In allows the administrative agent (AA) to make allotments to Member Districts and to navigate to member flow through applications. Clicking this link brings up the Multi-District Member List in a second browser where the AA enters allotment amounts for any member districts. This page must be saved after making allotments. Members will not be able to create member flow through applications until the administrative agent has assigned allotments. Cooperatives that do not flow money through to members should not assign allotments. This link is not activated in the member flow through applications. Note that Transfer Out is not applicable to the IDEA grant. The RCDT number for the joint agreement is displayed just to the right of Administrative Agent.

Navigation between Administrative Agent Grant and Member Flow Through Applications

Administrative agents and ISBE reviewers use the Multi-District Member List for navigating between the main grant and the member flow through applications and to view the current member flow through application status and last approved member flow through budget amount. Once a member district has created and completed a member flow through application, the RCDT code on the left becomes a green underlined link to the member flow through application. The link selected opens to the application select page of the RCDT selected and is displayed in the first browser that is already open. The Multi-District Member List will be in one browser and the currently opened application will be in the other.

Use the blue “Return to Application Select” link in the upper right of the screen to go back to the main grant Application Select page and select the desired application. If you close the browser
with the open member flow through application, you will no longer be able to navigate from the Multi-District Member List without going back to IWAS and reopening the main grant. Close the Multi-District Member List window when all member flow through operations are completed.

Navigation between an Administrative Agent grant and member flow through applications is only possible and necessary if a cooperative has members. Therefore, a single-district special education entity will see a blue link that is inactive.

**Reviewing and Accepting Member Flow Through Applications**

Once a member district has completed a member flow through application, the AA will review it and either accept it or return it for changes. The AA should go to the Administrative Agent grant Allotment page and click on the green Transfer In link to open the Multi-District Member List. Once the list opens in another browser, the AA should use the active green RCDT link to select a member flow through application with the status “Submitted to AA”. This will open that member’s Application Select page in the original browser window for the AA to select the appropriate application or amendment. After reviewing this application, the AA should go to the member flow through Submit page where the AA can *Accept or Return* the application to the member district.

A textbox is provided on the member flow through Submit page for the AA to use in explaining what needs to be corrected on a returned member flow through application. Once a member flow through application is accepted by the AA, the member district can only change it by submitting an amendment.

If a cooperative makes member flow through allotments, at least one member flow through application must be completed and accepted by the AA before the Administrative Agent grant can be submitted for ISBE review.

**Member Flow Through Amounts Entered on the Administrative Agent Grant Budget Detail Page**

When the administrative agent accepts a member flow through application, the total from that member flow through budget will be entered by the system in a separate 4000/600 row that cannot be changed by the AA. If a change is required, a member district must submit an amendment to the AA. Once the amendment is approved, the changes will be reflected on the Administrative Agent grant budget detail.

**ISBE Review of Member Flow Through Applications**

ISBE reviewers will navigate to member flow through applications by clicking on the Allotment page of the Administrative Agent grant application and selecting the green RCDT link for the member flow through application to be reviewed. Any revisions of a member flow through application required by ISBE must be made by ISBE returning the application to the AA, who in turn will require the member district to amend their member flow through application. After accepting the revised member flow through application, the AA will resubmit the grant application to ISBE.
Timing of Member Flow Through Amendments

Once a member flow through application has been accepted by the AA, it can be amended at any time. However, if the AA has submitted the Administrative Agent grant application for ISBE review, the member flow through amendment cannot be accepted until the Administrative Agent grant is either approved or returned by ISBE. The member flow through amendment may be returned for changes at any time, regardless of the status of the Administrative Agent grant.

The link to draft guidance on Transferability provided at the bottom of the screen is *not applicable to the IDEA grant.*

Budget Detail Page: At the bottom left of the screen is the Total Allotment (total amount available including carryover and prepayment) for the grant you have chosen. This amount should be referenced when completing the budget and is a read-only cell.

A hyperlink, “Description of Function Codes and Object Codes;” provides descriptions of all function and object codes recognized within the Illinois Program Accounting Manual (IPAM). Function Codes and Object Codes are the first two columns on the left. Each column contains function and object codes allowable for a specific grant. To access the available codes, click on the drop down arrow and select the appropriate code for the expenditure. (*Refer to 34 CFR, Part 80, Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments for additional information.*)

Tab or Click into the Expenditure Description and Itemization textbox. Enter the appropriate level of detailed information for each function/object code selected. Providing adequate description will facilitate the approval process. *Note that all materials and supplies exceeding $1,000 in total and all equipment exceeding $500 per unit must be itemized on the Budget Detail page.*

Tab or Click into the text field for grant funds. Enter the total amount requested for each function/object code. Expenditure amounts should be in whole dollar amounts only, no decimal points or commas.

At the end of each line is a Delete Row check box. If you have entered a line of detail and need to remove it, click on the check box in the far right column. Then click on the Save Page button.

If you need additional lines of budget detail, click on the Create Additional Entries button located at the bottom of the page. Each time you click this button it will add 5 additional rows of budget detail cells.

Once you have completed the detailed budget information, click on the Calculate Totals button at the bottom of the page. (Clicking on Calculate Totals does not save the information) Please verify that all data you have entered is correct and that you have utilized the appropriate funds for each line of expenditure.

The next section on the right of the screen is a calculation of the Maximum Indirect Cost. Indirect costs are allowed in both the flow through and preschool grants. *Note that the rate is usually not available at the time that the applications are written because the rates for the coming fiscal year have not yet been calculated. This function is accessible as soon as the rates are available.*

The last section of the screen displays allotment information: Total Allotment, Grand Total of the budget and Allotment Remaining. These are calculated fields and can only be changed when budget detail information is changed and saved.
**Budget Summary Page:** This is a “Read-Only” page that displays a summary of all the detail entered on the Budget Detail page. Two summaries will appear on this page. The top one reflects exactly what is entered on the Administrative Agent grant budget detail; any member flow through funds appear in 4000/6000. The bottom summary displays funds from both the administrative agent and member flow through applications, summed by function and object as they were entered. No member flow through funds will be displayed in 4000/600 in the bottom summary.

**ASSURANCE PAGES Tab**

The Assurances can only be completed by the district superintendent or a person with board-certified delegated authority for the superintendent. The assurances must be completed prior to submitting the application.

Six pages are included in the Assurances tab strip:

1. Program Assurances
2. Debarment
3. Lobbying
4. State Assurances
5. GEPA
6. Assurances

After you have read the assurances on the first five assurance pages, complete the last tab, “Assurances” by clicking on the check box for each assurance. At the bottom of the Assurances page, if you are the district superintendent, “click” on the first button to automatically insert your name for agreement. If you have board-certified delegated authority for the superintendent, “click” on the second button and type your name in the “text box” next to the second button to agree to all assurances. Click on the “save page” button.

**SUBMIT Tab:**

**Consistency Check Button**

Once you have completed your entire application you must run a “Consistency Check”. *Caution: This check may take a few minutes to run.* Your application can not be submitted until this has been successfully run. You must click on the Consistency Check button to start the process. Once the check has been completed, a message will be displayed indicating that it completed successfully (no errors were found) or providing a list of errors encountered. After you have corrected any errors, you must run the check again until no errors are detected. If no errors are found, the appropriate button will be displayed so that you can submit the application to the next level. You may need to scroll down the page to see the button(s).

**Consulting Button/Close Consulting Button**

The Consulting button should only be used when you encounter questions or problems that may require consultation with ISBE staff. By clicking on the Consulting button, you allow ISBE staff to view what you are viewing simultaneously. Once you have completed the consultation with ISBE staff click on the Close Consulting button.

**Lock Application Button/Unlock Application Button**
Anyone with data entry authority within the district has the ability to freeze the entire application so that no more changes can be made to it prior to submitting or amending an application. In order to lock the application, click on the Lock Application button. This might be appropriate if, for example, there had been some concern about multiple people updating an application when in fact this is undesired at the district level. Therefore, by locking the application no one can make changes to it. Only the person who locked the application or a person with district administrative access (e.g. district superintendent) can unlock it by clicking the Unlock Application button.

Approval Groups

The following list of approval groups appears at the bottom of the Administrative Agent’s submit page as appropriate.

- **Assurances were agreed to on (mm/dd/yyyy)** will be displayed after the District Superintendent/Cooperative Director or Board Authorized Representative has agreed to all assurances and saved them.

- **Consistency Check was run on (mm/dd/yyyy)** will be displayed after the “Consistency Check” has been run successfully. If the “Consistency Check” encounters errors, the error message will note what must be corrected. After you have corrected the errors, run the check again until no errors are detected. If the “Consistency Check” does not encounter any errors, the application will lock until the District Entry person submits it to the Business Manager or District Superintendent/Cooperative Director (refer to Lock Application/Unlock Application buttons).

- **District Data Entry submitted the application on (mm/dd/yyyy).** After the “Consistency Check” has been run successfully, the Data Entry person should forward the application to the Business Manager or the District Superintendent/Cooperative Director who will click the Submit for Review button. The application will then be forwarded to the next appropriate level of approval and the date that it is submitted will then appear.

- **Business Manager approved the application on (mm/dd/yyyy).** This approval level is only valid if the District Superintendent has established the level in the IWAS system for approval. Once the Data Entry person has submitted the application for review, it will be forwarded to the Business Manager to approve or disapprove. If the application has been “Approved” it will then be forwarded to the District Superintendent/Cooperative Director. If the application is “Disapproved”, it will be returned to the Data Entry person for changes and resubmitted after changes have been completed.

- **District Administrator submitted the application on (mm/dd/yyyy).** The District Superintendent/Cooperative Director or Board Authorized personnel are the only people who can submit the application to ISBE. Click on either the Submit to ISBE or the Disapprove button. Once the application has been submitted to ISBE, the application will be locked and no changes can be made. If the application is “Disapproved”, it will be returned to the Data Entry person for changes to resubmit after changes have been completed.

- **ISBE Program Administrator approved the application on (mm/dd/yyyy).** After the application has been submitted, the ISBE Program Administrator will “Approve” or “Disapprove”. If the application has been “Approved” it will then be forwarded to the ISBE Fiscal Administrator. If the application is “Disapproved”, it will be returned to the Data Entry person for changes to resubmit after changes have been completed. This is considered the 1st Program Review, even if the grant is goes back and forth between the district and the grant coordinator multiple times.
- ISBE Fiscal Administrator approved the application on (mm/dd/yyyy). After the application has been “Approved” by the ISBE Program Administrator, the ISBE Fiscal Administrator will “Approve” or “Disapprove”. When the application has been approved by all appropriate ISBE staff, IWAS will generate an email informing the District Superintendent/Cooperative Director that the application was approved and the date of approval. If the application is “Disapproved”, it will be returned to the Data Entry person for changes and they will then have to resubmit after changes have been completed. This is considered the 2nd Program Review and the system will identify the ISBE grant coordinator with the number 2 for the 2nd Review process as shown in this sample.

### APPLICATION HISTORY Tab

The Application History page is a read only page that lists all of the steps that occur in the submission and approval of an application or amendment. In the initial stage of entering the application information, this page will display a statement that the application has not been submitted.

The Status Change column lists the status of the application from most recent to oldest. Some typical status entries are:

- Submitted to ISBE
- Returned for Changes
- 1st Program Review Complete
- Final Approval

The UserId column displays the ID of the person who was responsible for the change in status, e.g., the ISBE reviewer who approved the application.

The Action Date column displays the date of the change in status. This page is useful in tracking the application throughout the submission and approval process. Districts may use this page at any point in time to determine the approval status of their application.

### PAGE LOCK CONTROL Tab

The goal of the page locking process is to expedite the review of applications and amendments by identifying which pages have been changed by a grant applicant. Reviewers will only need to review those pages that have been unlocked since the previous review.

**What Happens When a Page Is Locked?**

When a page is locked during the application review process, the save button is no longer available to the applicant, and a message indicates the page has been locked by the agency review. The applicant must go to the Page Lock Control tab, unlock any pages needing revision, and then save
the Page Lock Control page. This will cause save buttons to appear on all of the pages the applicant has unlocked.

*When Will Applicants Need to Unlock Pages?*

When an applicant creates a *new application* for the next fiscal year, all pages will be unlocked because all of the pages must be completed. If the initial application is *returned for changes* by an ISBE reviewer, some or all of the pages may be locked. The applicant should read the comments on the review checklist and unlock only those pages that must be changed.

When an *amendment* is created, all pages will be locked. The applicant should use the Page Lock Control tab to unlock only those pages that must be revised.

Because pages will be locked on all amendments as well as original applications that have been returned for changes, applicants should make it a habit to make sure a save button is available before completing or revising a page. Unlocking pages that will not be modified circumvents the purpose of page locking and slows the review process.

*Expand All and List of Application Pages*

Click the Expand-All checkbox to see the list of application pages that are locked or unlocked. Any application page with data that users enter or revise will appear in the list. Some application pages will not appear on the list. The overview page and the budget summary page are read-only pages and will not appear on the list. Other pages, such as the Submit page and the Page Lock Control page, will never be locked because users need access to functions on these pages throughout the application process. These pages will not appear in the list.

The list of application pages will have two or more indented levels. The first item on the list is the name of the grant program. The first indent under the grant program is the list of pages that appear on the main tab strip. The second indent contains pages that appear in a sub tab strip. For example, “Assurance Pages” is on the main tab strip and is in the group indented at the first level. The various assurance pages (Program Assurances, State Assurances, etc.) are indented under Assurance Pages.

*Page Status Column*

For *applicants*, this column displays the current status of the various pages in the application/amendment. For *ISBE reviewers*, this column reflects the status of the page when the applicant submitted it.

Terms included in this column are:

- **Open**: Page is unlocked and can be modified and saved by the applicant.
- **Locked**: The page is locked and cannot be modified by the applicant until it is unlocked. There will not be a save button on the page, and a message will appear indicating the page has been locked by the agency review.
- **Final**: The page has been locked and should not be unlocked by the applicant. Only ISBE staff can unlock a page designated “final.”

*Unlock Section* Opens a section for modification. A section can be an entire program or all of the sub tabs under a main tab. Unlocking pages that will not be changed circumvents the purpose of page locking and slows the review process.

*Open Page for Editing Column (Applicant column only)*
The applicant should check the appropriate box in this column to unlock a page that requires modification. The Page Lock Control page must be saved after check boxes have been selected.

**Review Status of Page Columns (ISBE columns only)**

ISBE reviewers will use these columns to unlock pages that require modification or to mark pages final locked. After selecting the appropriate radio buttons, the reviewer must save the page.

**Unlocking a Page Marked Final**

When an applicant determines that a page marked Final must be modified, the applicant must contact ISBE helpdesk and explain why the page requires modification. Only ISBE staff can unlock a final locked page. The applicant then places the application in “consulting” status using the appropriate button on the Submit page. ISBE staff unlocks the page by checking the “Open Page for editing” checkbox on the Page Lock Control page and saves the Page Lock Control page.

**Review Checklist**

The review checklist is used by the ISBE Principal Consultant to communicate changes needed in the grant submission. When an application is returned for changes the grantee should review the checklist thoroughly and contact the consultant if questions arise. To view the information in the comment boxes the grantee must either scroll through the comments in the box or select the “printer friendly” hyperlink to fully open all of the comment boxes for viewing or printing. When an application has subgrants the comments in the review checklist that pertain to those subgrants should be communicated to the person in the districts that can make those changes. Currently, the application does not contain a method for ISBE to relay the needed changes directly to the subgrantees.
Appendix A

Please complete this form when using IDEA funds to pay for IDEA-focused professional development activities occurring at least 50 miles outside of the Illinois borders.

Instructions:
1. Print this form on cooperative or district letterhead. Attach detail information per conference/program announcement, registration form, and/or brochure.
2. Fax the completed form along with information that identifies the conference and verifies the purpose of attendance to your ISBE grant coordinator, Tammy Greco or Felicia Malloy at 217/782-0372.
3. Please know out of state travel will only be approved for district/cooperative employees submitted one week prior to the first date of travel.

ACCOUNTING PROCEDURES

Accounting Records

If some activities of a federal project are funded in part or whole by other sources, an accounting system should be developed indicating the origin and use of all funds. Each federal fund account must maintain its identity in all transactions to avoid commingling of funds. The grant application and the claim for reimbursement serve as the two basic documents showing the financial relationship between the Illinois State Board of Education and the grant applicant. The accounting records are the basic records which reflect the decisions made on the expenditures of grant funds. These records also demonstrate the relationship of the grant application to the claim for personnel reimbursement.

Under the accounting system prescribed by the Illinois State Board of Education and approved by the United States Department of Education, all purchase orders, time sheets, and other instruments to substantiate a claim will be retained at the local level. This documentation must be available for review or audit any time within three (3) years of the due date of filing the last report on each project, unless an open audit exception exists or any litigation is either pending or anticipated, until the local authority is notified in writing by the Illinois State Board of Education that the records are no longer needed for review and audit. If this is the case, the records must be maintained until final determination is made on the exception.

An acceptable accounting system should include:

1. A check register showing amounts of each check and budget classification of the expenditure.
2. Journal entries to show check numbers, amounts, and budget classification.
3. Breakdowns of budget line items showing check amounts as posted.
5. State and Federal Grant Administrative Policy and Fiscal Requirements and Procedures, Illinois State Board of Education.

Required Local Records

Records to be maintained at the local level and available for audit shall include:

1. Numbered purchase orders, which shall be the basis for recording the encumbrances, showing sites for delivery.
2. Receiving reports for all merchandise or purchase orders indicating the dates of receipts of the merchandise and the signature of the person receiving the merchandise verifying that the quantities are correct and that the merchandise was received in good condition.
3. Original invoices showing the terms of purchase and discounts allowed, if any.
5. Requisitions for qualified attendance centers - the central area to issue the material.
6. An inventory register showing inventory number, description of equipment, cost of equipment, location, and funding source.
7. Inventory transfer slip, duly authorized and signed by the transfer and/or transferee. (The transfer slip shall be the basis for posting the transfer to the inventory register.)
8. Time sheets for all personnel rendering services under the federal grant signed by the employee and approved by the local project director for part-time employees. ( Appropriately documented
payroll records will suffice for full-time employees.)

9. Travel vouchers signed by the person incurring the travel, setting forth the reason for the travel. These travel vouchers shall be approved by the local project director. Receipts for lodging, registration, etc., shall also be kept on file for reimbursement documentation.

10. An appropriate cost allocation plan for any joint costs related to the grant program.

**Record Maintenance and Disposal**

- Paid bills and correspondence pertaining to grant expenditures must be retained for three (3) years or until the grant or member flow through applicants are notified of the completion of a federal fiscal audit, whichever is later.
- Staff contracts and other legal obligations must be retained three (3) years.
- Paid orders or checks must be retained three (3) years.
- Account books must be retained three (3) years.
- Minutes of all regular and special boards of directors' meetings pertaining to federal grant funds must be retained indefinitely.

**Purchase Order**

All requisitions and purchase orders should be approved through the procedures established by the governing board of the grant applicant. If such procedures have not been established in the agency, an approved method should be adopted for the administration of federal funds.

**Reports, Financial**

The grant applicant shall submit such reports as may be required by the Illinois State Board of Education and United States Department of Education.

**Funds, Public Control**

Each applicant must satisfactorily assure the Illinois State Board of Education that control of federal funds and title to property acquired with those funds is a public agency for the uses and purposes under this part, and that a public agency administers such funds and property.

**Reimbursement through Function #4000 (Payment to Other Districts and Governmental Units) and 3000 (Community Services) Accounts**

To assure proper accounting of 4000 and 3000 funds, the following reimbursement requirements apply to recipients of 4000 and 3000 account funds:

1. All items submitted for reimbursement must be specifically approved in the budget of the grant document as specified in the grant application instructions. List all items submitted for reimbursement in summary form (an invoice from the LEA); show total requested for reimbursement.
2. Copies of documentation required for salaries (all project personnel must be listed by name in the personnel record):
   a. On a monthly basis, submit copies of the individual payroll records of disbursements for all full-time professional staff, copies of the individual payroll records of disbursements plus copies of time sheets for all part-time staff and all non-certified staff.
   b. Maintain a copy of the official school calendar.
3. Documentation for employee benefits/employment costs:
   a. Copies of all employer's contribution rate sheets received from regulatory agencies (Examples: IMRF, insurance, U.C., W.C., etc.)
4. Documentation for contractual personnel services:
   a. A copy of the contract between persons and agencies performing the services to be reimbursed.
   b. A copy of the bill or invoice for services performed with the check number and date paid.
5. Documentation for materials, supplies, and equipment:
   a. A copy of the bill or invoice (not a statement) with the check number and date paid.
6. Documentation for travel:
   a. Copies of travel vouchers that have been signed by the individual doing the travel and co-signed by supervisor. Copies of all receipts must be attached.
   b. Check number and date paid must be included. Charge card receipts alone are not sufficient.

Audit Requirements

Federal regulations 2 CFR Part 200.500, set forth audit requirements for recipients of Part B funds. Rather than conducting audits on a grant-by-grant basis, these regulations require that audit coverage of federal grant programs be conducted on an organization-wide basis.

Each school district, joint agreement, or regional program that receives Part B funds, whether directly or as a sub-recipient, must provide for audit coverage for these funds through their school district or joint agreement and report this on the ISBE Annual Financial Report, (ISBE Form 50-35). In addition, 2 CFR Part 200 – Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards requires entities that expend $750,000 or more a year in Federal awards to have a single or program-specific audit conducted.

Information on the single audit can also be obtained from the Illinois State Board of Education internet website, https://www.isbe.net/Pages/Single-Audit.aspx. Each grant is subject to monitoring by the Illinois State Board of Education staff and federal auditors at any time during the grant year.

Audit costs are considered an eligible expenditure.

Carryover Funds

Any Part B Flow-Through funds that are not obligated by grant recipients before the end of the first fiscal year remain available for obligation for one additional year. IDEA carryover funds remain attached to the districts/students that generated those funds. Carryover funds are subject to current statutes, regulations, and applications.

Consultants

The use of consultants is permitted, but they must be paid a fee equal to or less than the standard amount normally paid by the submitting agency. The rates must be reasonable and applicable to the LEAs use of local funds. Time and effort reports must be maintained for each consultant employed. Documentation of consultant services and their effectiveness must be included in the grant applicant’s records. It is recognized that the selection of consultants by grant applicants may vary by purpose as well as by the length of time a consultant is hired, and that these matters have a bearing on the extent to which the consultation can be documented. For example: one consultant may be hired for the evaluation of a Flow-Through grant and receive fees for several day's work, whereas, another consultant may visit an applicant for one day only to discuss strategy and problems with staff members. In the first example, the grant records must include a formal written evaluation report from the consultant. In the second example, the grant applicant must prepare a
memorandum concerning matters discussed with the consultant and must file the memorandum for the record.

**Encumbrances and Actual Expenditures**

A cumulative record must be maintained indicating encumbrances and actual expenditures to date by each function and object or expenditure as outlined in the approved Detailed Budget Breakdown and the Budget Summary. Encumbrances made during the project period, including personal services performed during the project period, must be liquidated within 90 days of the last day of the project period.

**Equipment, Acquisition, Bidding, and Title to Property**

Part B funds may be used to purchase items of equipment necessary to facilitate the proposed grant activities. Local bidding practices in accordance with the School Code must be followed when purchasing approved equipment. (Only those items in the approved budget may be purchased with federal funds.)

To permit maximum use, equipment and materials should be ordered promptly after the grant is awarded. Special procedures shall be developed by the grant applicant to establish an equipment inventory process. This process shall specify and provide appropriate documentation on how and where equipment is monitored and located. The Illinois State Board of Education, as the granting agency, shall have the right to require transfer of the equipment to the Illinois State Board of Education or an eligible party named by the granting agency.

Title is retained by the purchasing local or regional educational agency. An inventory indicating date of purchase, location, funding source, unit cost, and property control numbers of all items costing $500 or more per unit shall be maintained by the grant applicant. All items of equipment placed in a private facility must be inventoried regardless of cost, with title and control of all items maintained by the grant applicant.

*Equipment Use*. All equipment must be under the administrative control of a local or regional public school agency. Equipment acquired through an approved federal grant must be used for the purposes specified in the approved grant. Equipment must be clearly marked with a property control number showing the source of funds from which it was purchased.

*In accordance with interpretation by the United States Department of Education, Office of Special Education, each grant applicant is responsible for ensuring that technological hardware such as computers is used primarily to assist in the provision of education for the disabled in a manner consistent with the agency's use of local funds to provide similar technology for programs for the non-disabled.

Additionally, such expenditures must be reasonable and necessary for the proper administration of and/or the enhancement of the special education program. Such expenditures must be justified through prioritized needs assessment documentation.

In keeping with the intent of federal law, the following guidelines pertaining to equipment acquisition, inventory, management, administrative control, and disposal are recommended.

1. **Equipment Acquisition**. The acquisition of equipment must be demonstrated as being essential to the success of a program or project implemented with federal funds. Each application for grants shall fully describe the need for such equipment and how all such equipment will be used. This means the grant applicant must demonstrate that (1) equipment has been selected
for specific purposes relative to proposed grant activities and to student needs; (2) the proposed equipment is essential to effective program implementation and how it will be used in meeting the grant activities; (3) such equipment is not available in the grant applicant's regular or special education or federal project inventories for use in the project; and (4) the grant applicant has the trained staff to utilize the proposed new equipment effectively or that arrangements will be made to prepare staff for such.

2. **Equipment Inventories.** The federal and/or state regulations require that the title to property acquired with federal funds shall be held by the public agency responsible for administering such property. Inventories of equipment purchased by state and local agencies should be maintained on all items costing $500 or more per unit for the useful life of the equipment. Where supplies and materials are loaned to other than a public school, all books, supplies, and materials, regardless of cost, should be entered into the inventory. The loaned supplies or materials are to be used solely for the purposes of the grant.

3. **Equipment Management.** There are six important standards for the management of non-expendable equipment or property.

   (a) Records shall be maintained accurately and provide for (1) a description of the property; (2) the manufacturer's serial number or other identification number; (3) the acquisition date and cost; (4) the source of the property; (5) the percentage of federal funds used in the purchase of the property; (6) the location, use and condition of the property; and (7) the ultimate disposition date including the sale price or the method used to determine the current fair market value.

   (b) A physical inventory of property shall be taken and the results reconciled with the property records at least once every two years to verify the existence, current utilization, and continued need for the property.

   (c) A control system shall be in effect to ensure adequate safeguards to prevent loss, damage, or theft of the property. Any loss, damage, or theft of non-expendable property shall be investigated and fully documented. The recipient shall be responsible for replacing or repairing (with funds of such recipient) property that is lost, damaged, or destroyed due to the negligence of the recipient.

   (d) Adequate maintenance procedures shall be implemented to keep the property in good condition.

   (e) Proper sales procedures shall be established for unneeded property that provides for competition to the extent practicable and results in the highest possible return.

   (f) All equipment or property purchased with federal funds shall be identified and marked accordingly.

4. **Equipment - Administrative Control.** Equipment acquired with federal funds, may, in certain cases, be placed on private school premises for a limited period of time, but the title to and administrative control over such equipment must be retained and exercised by a public agency. In exercising that administrative control, the public agency shall not only keep records of and account for the equipment, but shall make assurances that the equipment is being used solely for the purposes of the grant.

5. **Equipment Disposal.** Please review the *State and Federal Grant Administrative Policy and*
Facility Acquisition and Construction

The grant recipient must consult with the Special Education Services Division prior to submitting any expenditure for this purpose. These expenditures will not be approved without prior consultation with your Grant Coordinator.

All requests to use funds for Facility Acquisition and Construction will be reviewed by using the following criteria:

1. Funds are used only to pay the excess costs of providing special education and related services to children with disabilities.
2. Funds are used to supplement State, local, and other Federal funds and not to supplant such funds.
3. Funds are not used to reduce the level of expenditures for the education of children with disabilities made by the local educational agency from local funds below the level of those expenditures for the preceding fiscal year.
4. Funds are used to coordinate this ACT with other local, educational service agency, State, and Federal school improvement efforts in order to ensure that such children benefit from such efforts and that special education can become a service for such children rather than a place where they are sent.
5. Funds are used to provide appropriate special education and related services and aids and supports in the regular classroom to such children whenever appropriate.

Property

Following are definitions regarding the utilization and disposition of property furnished by the federal government or acquired in whole or in part with federal and/or state funds or whose cost was charged to a grant supported by a federal and/or state grant.

Definitions

Non-expendable personal property means tangible property, including equipment, having a useful life of more than one year and an acquisition cost of $500 or more per unit.

Acquisition cost of an item of purchased non-expendable personal property means the net invoice unit price of the property including the cost of modifications, attachments, accessories, or auxiliary apparatus necessary to make the property usable for the purpose for which it was acquired. Other charges such as the cost of installation, transportation, taxes, duty, or protective in-transit insurance, shall be included or excluded from the unit acquisition cost in accordance with the grant applicant’s regular accounting practices. Acquisition costs for software include those development costs capitalized in accordance with GAAP. Ancillary charges, such as taxes, duty, protective in transit insurance, freight, and installation, may be included in or excluded from the acquisition cost in accordance with the non-federal entity’s regular accounting practices.
**Memberships**

The cost of membership in professional organizations is allowable provided: (1) the benefit from the membership is related to the grant program; (2) the expenditure is for agency membership; (3) the cost of the membership is reasonably related to the value of the services or benefits received; and (4) the expenditure is not for membership in an organization that devotes a substantial part of its activities to influencing legislation.

**Obligations and Expenditures**

An obligation is made when a purchase order—not a purchase requisition—is issued or a contract is signed, except in the case of personal services, travel, public utility service, and rental of facilities. These exceptions are considered obligated at the time the services are rendered, facilities are used, or travel performed. Such obligations must meet the following limitations:

- They are an integral part of the approved grant application.
- They are obligated within the grant period.
- They are liquidated no later than ninety (90) days after grant ending date.

An expenditure is the liquidation of an obligation by payment of the obligation. This expenditure must occur no later than ninety (90) days after the end of the project period. (Exception: Audit Fees). The state must give authorization to a grant applicant before a member flow through applicant may begin to obligate funds.

**Private School Tuition**

When a school district places a student pursuant to Section 14-7.02 of the School Code, IDEA funds are not to be used to offset the costs of such a private school special education placement. The School Code requires that a district pay two times the district per capita tuition charge and then the state pay the amount in excess of that. The district’s share cannot be offset with federal funds.

**Renovations**

Renovations to classrooms and buildings are eligible to be paid with Part B funds provided the renovations are necessary to provide an appropriate educational environment for students with disabilities. For example, the purchase of carpet and acoustical tile would be an approvable expenditure in order to create a more favorable classroom environment for the hearing impaired. Another example is the construction or modification of toilet facilities for the orthopedically disabled. These expenditures must be approved in the grant application prior to initiation of the renovation activities.

**Rental of Facilities**

Rent is generally considered to be an indirect cost. In unique circumstances, such as a district/cooperative exceeding the indirect cost threshold, rent can be billed as a direct cost when it is required to provide special education services. In such situations, the grantee is advised to contact their ISBE grant coordinator prior to submitting the budgeted expenditure. Rental agreements cannot exceed the duration of the application or more than a one-year obligation period, whichever is less. Any expenditure that includes rent must state the name of the district/entity from which the space is rented.
Districts/cooperatives are cautioned that:
- it would not be appropriate to charge rent for out-of-district programs in which member districts also pay tuition for their students' participation in the specific program; and
- it would not be appropriate for a cooperative to pay rent to a member district when all of the participating students are receiving services in their home district.

**Salaries**

Under ordinary circumstances, salaries for federally funded staff shall be calculated in accordance with current local salary schedules and must not exceed the amount listed in the Detailed Budget Breakdown. Any exceptions should be justified in the grant application.

**Subcontracting**

A grant applicant must enter into a cooperative agreement or contract to provide services under a grant if the services, as well as the cooperating institution, organization, or agency, are approved by the Illinois State Board of Education. Such a cooperative agreement or contract will be approved only if the Illinois State Board of Education is assured that the grant applicant will retain the responsibility for supervision of the grant services. The proposed terms of the agreement may be submitted in the initial grant application or as a grant amendment. Services that may be subcontracted are those deemed appropriate as a continuing staff function. **Under no circumstances may the entire project be subcontracted.** A contract between the grant applicant and another organization to perform a portion of the grant or to share in its operation generally will require:

- Maintenance of separate accounts and records.
- Submission of expenditure reports to the administrative agency.
- Availability of records to representatives of the Illinois State Board of Education.

If the subcontract applicant is a local school district, joint agreement, or regional program, the contract must be in the form of a flow through grant to a member district and be reported under Function Code 4000, "Payments to Other Districts and Governmental Units." Funds must be allotted and a separate grant application must be generated for each member district.

**Teachers’ Retirement – Employer’s Contribution**

It is the responsibility of the grantee to ensure the employer’s share of teachers’ retirement for personnel employed with grant funds is being paid from either local funds or grant funds. Local educational agencies employing teaching personnel eligible for participation in the Illinois Teachers’ Retirement System who are funded from federal funds must contribute the State of Illinois share to that system.

**Flowing federal funds through a local school district does not exempt a special education district/cooperative’s obligation to pay employer contributions on federal-funded salaries. Please ensure that employer contributions are paid on all creditable earnings that originate from federal funds.**

Any questions regarding teacher retirement contributions should be directed to the Teachers' Retirement System at 217/753-0311.
**Unemployment Insurance**

All agencies that employ project personnel are required to purchase unemployment claim risk insurance or maintain local escrow accounts of sufficient size to protect against this foreseeable risk. Rates may vary due to claim experiences and/or legislation. U.S. Department of Labor Statements to Employing LEAs will govern Premiums Required for Claim Risk Insurance.

The U.S. Office of Education has issued opinions that unemployment compensation claims by former employees of local educational agencies are foreseeable risks, which they should compensate for on an accrued rather than a current cost basis. Therefore, the essential purpose of any grant is not to be jeopardized or burdened with the actual cost of unemployment claims.

Local educational agencies may provide for any foreseeable risk of unemployment claims by providing for payment of claims in advance and at the time when the risk has matured. This may be accomplished in one or two coverages:

1. Each local educational agency has the right to elect to be a self-insurer by agreeing, in lieu of paying contributions to the State, to reimburse for any benefits paid by the State the actual amount of regular and/or extended benefits. Federally funded projects may be approved to disburse reasonable risk premiums for local escrow accounts established to provide risk coverage.
2. Each local educational agency may elect to purchase insured coverage against unemployment claims from the Illinois Department of Employment Security, Illinois Department of Labor.

The Illinois Department of Employment Security will supply information and assistance in securing the coverage of their program. Coverage for both full- and part-time employees is available. As in any insurance program, premium rates are affected by the experiences of claims. Base rates for full-time employees are subject to change. Additional information is available at [http://www.ides.state.il.us/](http://www.ides.state.il.us/).

All federal and state grant proposals are required to have adequate funds disbursed within them for unemployment risk insurance. This requirement may be met also by the inclusion of statements that local agencies will provide their own claim insurance programs.
Appendix C

Detailed Function Descriptors and Sub-Categories

Function: The action or purpose for which a person or thing is used or exists. This includes activities or actions which are performed to accomplish the objectives of the project. Examples specific to IDEA grants have been added to several of the function code descriptors. This list of examples is not exhaustive.

- Service Area Direction.* |
| IDEA examples: | items described above (must have an approved construction application from ISBE) |
| 2540 | Operation and Maintenance of Plant Services | Activities concerned with keeping the physical plant (i.e., grounds, buildings and equipment) in an effective and safe working condition. This includes activities of maintaining safety in buildings, on the grounds and in the vicinity of the schools.  
- Vehicle Servicing and Maintenance  
- Care and Upkeep of Buildings Services.  
- Care and Upkeep of Grounds Services.  
- Care and Upkeep of Equipment Services.  
- Other Operation and Maintenance of Plant Services.  
- Security Services.* |

*Service Area Direction.*
Transportation: Transportation for special education students as specified in the student’s Individualized Education Plan (IEP) if the expense is not covered by other transportation programs. NOTE: All special Education transportation costs (expenses) must be listed on the State Pupil Transportation Reimbursement Claim and any federal Special Education grants or reimbursements used to pay for such costs must be listed on the claim as offsetting revenue. Likewise, any vehicles acquired or otherwise used for special education student transportation must be listed on the transportation depreciation schedule. Finally, all transportation funds received whether State or Federal must be deposited in the transportation fund and expended from there.

Food Services: Those activities concerned with providing food to pupils and staff in a school or LEA. This service area includes the preparation and serving of regular and incidental meals, lunches or snacks in connection with school activities and the delivery of food.

- Service Area Direction.*
- Food Delivery Services.
- Food Preparation and Dispensing Services.
- Other Food Services.

IDEA examples: food service worker salaries/benefits, food/catering for students, snacks and food incentives for students

Internal Services: Those activities concerned with buying, storing and distributing supplies, furniture and equipment; those activities concerned with internal duplicating and printing for the school system and the pickup and transporting of cash from school facilities to the central administrative office or bank for control and/or deposit.

- Service Area Direction.*
- Warehousing and Distributing Services.
- Printing, Publishing and Duplicating Services.
- Purchasing Services.

IDEA examples: Printing and duplicating services for administrative services such as child find notices (not to include services for instruction, professional development or community services)

Direction of Central Support Services: Activities concerned with directing and managing the central support services as a group.

Planning, Research, Development & Evaluation Services: Activities associated with conducting and managing programs of planning, research, development and evaluation for a school system or a system-wide basis.

Information Services: Those activities concerned with writing, editing and other preparation necessary to disseminate educational and administrative information to pupils, staff, managers or the general public through direct mailing, the various news media or personal contact.

- Service Area Direction.*
- Internal Information Services.
- Management Information Services.

IDEA examples: Public Information Services

Staff Services: Activities generally performed by the LEA personnel office, such as recruiting and placement, staff transfers, in-service training, health services and staff accounting.

- Service Area Direction.*
- Inservice Training Services.
- Recruitment and Placement Services.
- Health Services.
- Staff Accounting Services.
### Data Processing Services
Activities concerned with preparing data for storage, sorting data and retrieving them for reproduction as information for management and reporting.
- Service Area Direction*
- Systems Analysis Services.
- Programming Services.
- Other Data Processing Services.

**IDEA examples:** IEP system purchase and setup

### Other Support Services
Activities of any support service or classification of services, general in nature that cannot be classified elsewhere in the 2000 series of accounts. (Describe and itemize)

### Community Services
Services provided by the LEA for the community as a whole or some segment of the community, such as community recreation programs, civic organization activities, public libraries, programs of custody and child care, welfare services, nonpublic school pupil services and home/school services.
- Direction of Community Services.
- Community Recreation Services.
- Nonpublic School Pupils' Services.
- Civic Services.
- Custody and Child Care Services.

**IDEA examples:** expenses for parent trainings (printing, snacks, speaker fees, supplies/materials), proportionate share salaries/benefits and supplies/materials/equipment to provide services to students with disabilities in nonpublic settings

### Required Proportionate Share Expenditures

### Payments to Other Districts and Governmental Units
Payments to other public LEAs. In-state and out-of-state public entities. (examples: payments to public university/college, payments to public community colleges, payments to Regional Offices of Education/Intermediate Service Centers, payments to Special Education Cooperatives/Education for Employment Centers)
Generally for tuition, transportation and all other services rendered to pupils residing in the paying LEA. Where a nonoperating district pays an operating district for the education of pupils, the nonoperating district records such payments here. Flow-through funds - where payment is received by an LEA and a portion is transferred to one or more other LEAs - use object 600. (Expenditures in this function are not counted in state expenditure totals.)
- Payments for Regular Programs.
- Payments for Special Education Programs.
- Payments for Career & Technical Ed Programs
- Payments for University/College Programs.
- Other Payments to In-State Governmental Units.

**IDEA examples:** tuition to other LEAs or Special Education Cooperatives, fees to other governmental agencies for specific services such as security, and low incidence services. Identify the payees in the descriptions. This does not include payments to private special education facilities.

* Service Area Direction - activities associated with directing and managing a specified service area.
**Appendix D**

**Detailed Object Descriptors and Sub-Categories**

*From the Illinois Program Accounting Manual*

Object: Service or commodity obtained as a result of a specific purpose.

<thead>
<tr>
<th>OBJECT</th>
<th>DESCRIPTIONS &amp; SUB-CATEGORIES</th>
</tr>
</thead>
</table>
| 100    | Salaries: Amounts paid to permanent, temporary or substitute employees on the payroll of the local education agency (LEA). This includes gross salary for personal services rendered while on the payroll of the LEA.  
- Regular Salaries.  
- Temporary Salaries.  
- Overtime Salaries. |
| 200    | Employee Benefits: Amounts paid by the LEA on behalf of employees; these amounts are not included in the gross salary, but are over and above it. Payments such as fringe benefits, while not paid directly to the employees, nevertheless are a part of the cost (to the applicable functional areas). These types of costs are not considered a cost to the board of education function and should not all be charged to one area. These costs apply to the same function number as the cost of the applicable salary.  
- Tuition Reimbursement. |
| 300    | Purchased Services: Amounts paid for personal services rendered by personnel who are not on the payroll of the LEA and other services which the LEA may purchase. While a product may or may not result from the transaction, the primary reason for the purchase is the service provided in order to obtain the desired results.  
- Professional & Technical Services (Professional Services-Administrative, Professional Services- Instructional, Data Processing/Statistical Services, Audit/Financial Services, Legal Services, Other Professional & Technical Services).  
- Property Services (Sanitation Services, Cleaning Services, Repairs & Maintenance Services, Rentals, Other Property Services).  
- Transportation Services (Pupil Transportation, Travel, Other Transportation Services).  
- Communication.  
- Advertising.  
- Printing and Binding.  
- Insurance (other than employee benefits).  
- Water/Sewer Service.  
- Software License fee  
- On-Line Service fee  
- Other Supplies and Materials. |
| 400    | Supplies & Materials: Amounts paid for material items of an expendable nature that are consumed, worn out, or deteriorated in use or items that lose their identity through fabrication or incorporation into different or more complex units or substances.  
- General Supplies.  
- Library Books.  
- Warehouse Inventory Adjustment.  
- Energy (Bottled Gas, Oil, Coal, Gasoline, Natural Gas, Electricity, Other Energy Costs).  
- Textbooks.  
- Periodicals (paper and electronic).  
- Software Package.  
- Other Supplies and Materials. |
| 500 | Capital Outlay: Expenditures for the acquisition of fixed assets or additions to fixed assets. These are expenditures for land or existing buildings, improvements of grounds, construction of buildings, additions to buildings, remodeling of buildings, initial equipment, additional equipment and replacement of equipment. (example: any instrument, machine, apparatus, or set of articles that equals or exceeds the LEA’s capitalization threshold).
- Land.
- Buildings (Construction, Remodeling or Additions).
- Improvements Other Than Buildings.
- Equipment (Initial Purchase, Replacement or Additional). Other than Transportation.
- Transportation Equipment.
- Construction in Progress.
- Other Capital Outlay. |
| 600 | Other Objects: Amounts paid for goods and services not otherwise classified in the 300, 400, or 500 series of accounts. Describe and itemize.
- Redemption of Principal
- Housing Authority
- Judgments
Miscellaneous Objects. |
| 700 | Non-Capitalized Equipment: Items that would be classified as capital assets except that they cost less than the capitalization threshold **adopted by the school board** but more than the $500 minimum value established for purposes of calculating per capita costs pursuant to Section 18-3 of the School Code [105 ILCS 5/18-3]. |
