Key Challenges Facing Educators

With increasing external pressures and declining resources available, educators find themselves facing a number of challenges in the workplace:

- **Greater diversity of student needs**
  
  “What’s broken? The idea that ‘one size fits all.’ We aren’t meeting the learning needs of each student.”

- **Lack of Time**
  
  “Just give us time to do some of the things we don’t have time to do”

- **Limited Opportunity for Collaboration**
  
  “Any time we want to collaborate it’s after school on our own time.”

- **Changing Expectations**
  
  “For new initiatives, you need to get teacher buy-in and involve them in the front line.”

- **Decreasing Resources**
  
  “$80 measly bucks for me to meet with other professionals and they won’t cover it?”

- **Increasing Data Demands**
  
  “It’s frustrating trying to figure out how to take data and do something with it to help students advance.”
ISLE Aims to Address the Challenges

ISLE drives academic achievement and career success for all lifelong learners in Illinois by enabling personalized learning through open and accessible technologies.
ISLE’s Foundation: inBloom

(Formerly the Shared Learning Collaborative)

The first wide-scale, coordinated effort to make technology the disruptive, revolutionary force in education it has been in almost all other industries.

Started by consortium of nine states, organized by CCSSO

Funded by the Gates Foundation and Carnegie Corporation

Working to make personalized learning a reality for every U.S. student by improving the usefulness, variety and affordability of education technology.
ISLE’s Foundation: inBloom

What will inBloom offer Illinois?

A set of technology services that will allow districts to safely and securely provide teachers with the instructional data and tools they need to help make personalized learning a reality for all students.

inBloom is the foundation for the Illinois Shared Learning Environment (ISLE).
Illinois Shared Learning Environment

Early Learning

K12 (Driven by SLC)
- Dashboard & Portal
- Learning Map Tools
- Standards-based content discoverability

K12 (Other)
- Illinois Custom Apps
- District-created Apps
- Apps from Vendor Marketplace

Post Secondary

Work Force

P-20 Alignment
Using Longitudinal Data
We have moved forward with input from teachers and administrators

Focus groups
• 2012

Use case & Application development
• Winter/Spring 2013

Pilot sites
• Spring/Summer 2013

RttT district and expanded rollout
• 2014 & beyond
Focus groups were inclusive

- Dozens of in-depth inBloom Focus Groups conducted across 9 states
- In Illinois, 6 regional focus groups including:
  - Adult Education
  - After School Programs
  - Community Colleges
  - Early Childhood
  - Education for Employment Regions
  - Employers
  - Local Workforce
  - Investment Areas
  - Parents
  - Race to the Top Districts
  - STEM Learning Exchanges
  - Students
  - Universities
  - Others
- Survey with over 1,500 responses
The focus groups helped define five priority uses for ISLE

### Dashboard
- Comprehensive view using data from **many different sources**
- Provide Actionable Information – **Not Data Overload**

### Learning Maps
- Create and modify learning maps to simplify **personalized learning plans** and recommend content and resources to teachers

### Tag and Search
- Simplify and automate the search for **standards-aligned content** and resources

### Intervention Tracker
- Tracking tool to view, **share and assess interventions** and accommodations

### Create and Assess
- Allow teachers to easily create, administer, and share **custom assessments** based on standards-aligned content
Long-term benefits go far beyond our top five use cases

**Application Marketplace**
- Common platform is easier for developers to reach broader audiences at lower costs
- Teachers and students can create and share own applications

**Simplified Access to Richer Content**
- Content developers can focus on going deeper around Common Core Standards
- Content can be shared across districts, states
ISLE makes this possible through the power of an open and accessible cloud environment.
Who is ISLE?

**Project Sponsors**

- Illinois State Board of Education
- Illinois Department of Commerce and Economic Opportunity

**Project Implementation Partners**

- IlliniCloud
- Interactive Illinois Report Card
- SIU Center for Workforce Development
- NCSA

**Advisory Committee**

- ISBE
- DCEO
- IlliniCloud
- IIRC
- CPS
- Bensenville SD 2
- Urbana SD 116
- Sandoval SD 501
- SIU/CWD
- UIUC/NCSA
- Community College University
- P-20 Council
- Governor’s Office
- Early Learning Council
- Workforce
Over the next 3 years, ISLE advances depth and breadth of implementation.

- **Program Development**
- **Proof of Concept**
- **Scaling**
- **Expansion**
  - IL schools and WF programs 2015

- Launch pilot Summer 2013
- RT3 & STEM Learning Exchanges 2014
ISLE Onboarding for RttT Districts

Landscape analysis and charter development activities are the first phases of adoption. From there, activities break off into three general work streams.

1. Data Integration & Technology Operations
   - Data Model Mapping
   - Implementation Planning
   - Testing
   - Support Planning
   - Go Live
   - Early 2013

2. Instruction & Applications Strategy
   - Roadmap
   - Enterprise Architecture
   - Planning
   - Development
   - Enable
   - Mid 2013

3. Communications & Adoption
   - LEA Planning
   - Professional Development
   - Outreach
   - Support
   - SY 2013-14
IL Proposed Architecture
Early Draft, February 2013

ISBE
- PSAE ACT
- ISAT
- Access
- IAA

IIRC
- DIBELS
- SRI
- Discovery
- BlueBook
- MAP

D87
- Skyward (SIS)
- KIDS (504/IEP)
- Data Admin

IlliniCloud ODS
- XML Bulk
- SIF
- XML Bulk
- LEA SIS Error notification
- Included State SIS validation

ISLE (Clean Data)
- Assmnt. & SIS Info.

inBloom
- Learning Maps
- Assessment Authoring
- RTI Tracking

Content TBD
- Initially: XML Bulk
- Eventually: API
