

Key to Coding Illinois Public School Districts and Schools

Public school districts and schools in Illinois are identified by a unique state-assigned code. This code is a combination of 15 characters (mostly numbers, sometimes letters). The first 11 characters of the code relate to the school district, and the last four characters relate to a particular school operated by the district. Because each unique code consists of 15 characters, districts also have four characters in the school portion of their codes.

- (1) Region Code: A code consisting of two (2) numbers, from 01-57, for the Regional Offices of Education. Each region comprises one or more of the 102 Illinois counties. In addition, Region 60 is assigned to the Department of Juvenile Justice, and Region 65 is assigned to Other State-Funded Public Schools. (Region codes are listed in this document for your reference.)
- (2) County Code: A code consisting of three (3) numbers, from 001 to 102, assigned to each of the 102 Illinois counties in alphabetical order. In addition, County 000 is assigned to Regional Offices of Education, County 105 is assigned to the Department of Juvenile Justice, and County 108 is assigned to other State-Funded Public Schools. (County codes are listed in this document for your reference.)
- (3) District Code: A code consisting of four (4) numbers or three (3) numbers and one (1) letter, which includes the legal identifier which the school district uses as its district name. If the fourth number is 5, the 5 represents one-half.
- (4) Type Code: A code consisting of two (2) numbers that identifies the type of district or administrative agent.
