MIGRANT STUDENT IDENTIFICATION SURVEY

Illinois receives funding under NCLB to identify and serve migratory children. The Migrant Education Program is conducting a survey to identify districts that may have mobile children (from birth through age 21) residing in their district. In particular, we are interested in children whose parents migrate to obtain work in agricultural production, fishing or food processing industries. Please respond to the survey below if you have identified such children in your district. For more information, contact Scott Wilhelm at (312) 663-1522 Ext. 212.

District Name and Number: _____

Name of Contact Person: _____

Phone Number: _____ **E-mail:** _____

1. Please check the activities families in your area perform:

- Planting or harvesting fruits, vegetables or field crops
- Processing or packing fruits, vegetables or meat
- Nursery work: planting, tending, or harvesting plants, flowers and trees (not landscaping)
- Dairy work
- Fishing work: catching or processing fish (typically work on fish farms)

Approximate number who moved to or from your district to obtain work in agricultural production, fishing or food processing last year:

Families _____ # Children _____

2. Are you or your staff aware of any families who:

- | | YES | NO | DON'T KNOW |
|--|-------|-------|------------|
| A. Migrate to your district from other parts of the state, country, Mexico or Canada to obtain these types of employment? | _____ | _____ | _____ |
| B. Leave your attendance area to migrate for these types of employment opportunities to other parts of the state, country, Mexico or Canada? | _____ | _____ | _____ |

In which months of the year do these families leave your district? _____

In which months of the year do these families arrive in your district? _____
