CASS	A-C CENTRAL CUSD 262	2004	0.35	1.40	0.10	0.30	0.40	2.55	Watch	Our district has experienced a steady decline in state-to-local revenue ratios as well as continued reduction in farmland assessments. If the state intends to keep its "Second to None" pledge, then state funding must reflect a serious commitment to that end. Our district, though small and rural, has historically elected to manage a percentage of debt rather than cut programs. Our district test scores reflect a strong resolve in providing excellence in education even as we face unstable revenue. Clearly we are doing our part in spite of a lack of funding commitment from the state.

IROQUOIS	CENTRAL COMM UNIT SCHOOL DIST 4	2004	1.05	1.40	0.20	0.40	0.10	3.15	Review	We are pleased to no longer be a part of the warning and/or watch list. Part of the change is due to the State completing all financial commitments to the District. Much of it is due to severe cutting of programs and services to schools. Part of it is due to selling working cash bonds further limiting our debt ratio which is low because of recent building addition. Further cuts will need to be made to maintain the rating. Our local residents already bear a heavy burdern in the are of tax rates. There needs to be a change in the way public schools are financed.

CARROLL	CHADWICK-MILLEDGEVILLE CUSD 399	2004	0.35	1.40	0.10	0.30	0.40	2.55	Watch	We will be maximizing the full extent of our tax rates against our equalized assessed valuation, which we have not previously done, in order to maximize our revenues. We have increased our local revenues for next year by \$270,000, and this amount of increase will be maintained each year in the future. We repaid loans from the Working Cash Fund and then permanently transferred funds to the Education Fund and abolished the Working Cash Fund. These actions have eliminated our internal debt. Prior to June 30, we will be permanently transferring \$100,000 from the Transportation Fund to the Education Fund. We have approximately \$200,000 of Life Safety work that has been paid from operating funds and will be returned when we issue Life/Safety bonds in the future. We are looking at expenditure reductions across the board in the areas of personnel, supplies and equipment, eliminating block scheduling and returning to traditional scheduling, and so on. Due to declining enrollments we are looking at the internal reorganization of our district, (moving from 2 buildings to 1 building), as well as external reorganization of our district (annexation, consolidation) and academic and athletic cooperatives with neighboring districts.

DEWITT	CLINTON C U SCHOOL DIST 15	2004	1.40	0.35	0.30	0.40	0.40	2.85	Early Warning	The revenue to expenditure differential is directly related to the construction of the new Clinton Jr. High School. 7.4 million dollars of the differential is directly related to the cost of the project. The actual differential minus the construction costs is approximately 2.9 million. The board of education did have close to 9 million dollars in the building fund to pay for the Jr. High Project. The board of education will also move approximately 1.4 million dollars from the education fund to help with the cost of the new building. 2.2 million dollars in cuts are not reflected in our expenditures over the last two fiscal years.

COOK	COMM CONSOLIDATED SCH DIST 62	2004	1.40	1.05	0.30	0.40	0.40	3.55	Recognition	District 62's Fund Reserves continue to decline. The district has been forced to approach the taxpayers for an Education Tax Rate increase. The referendum in November, 2004 failed and one is currently pending for April, 2005. Expenditures continue to be on par with surrounding school districts with salaries and benefit costs being the primary 'drivers'. Revenue continues to be negatively impacted by the Cook County Tax Cap and, especially, the inappropriate manner in which property tax appeal payments are handled. Unfunded mandates also continue to have similar impacts. District 62 depends primarily on local taxpayer support and has continued to address creative ways to finance projects and pay off older non-bond debt via debt certificates issued in 2004 to take advantage of low interest rates and paying the new debt off in ten years so that costs of capital improvements are spread out over this time frame.

DUPAGE	COMMUNITY CONS SCH DIST 180	2004	1.40	1.40	0.30	0.40	0.30	3.80	Recognition	Burr Ridge CCSD 180 continues to provide exceptional educational services to its highly diverse student population in a fiscally efficient manner. Due, in part, to Tax Caps in DuPage County, our tax rate is 75% of what the average state tax rate is for elementary school districts. However, a tax rate increase referendum is not in the Board of Education's plans for the near future. We, at CCSD 180, are proud of our status at the highest level of financial strength. For more information, contact Dr. Frank Rink, Superintendent, at 630-734-6600 or at frink@ccsd180.org.

PERRY	COMMUNITY CONS SCH DIST 204	2004	1.05	0.70	0.20	0.40	0.40	2.75	Early Warning	Three factors (i.e., TIF, State Aid, and a Building Addition) have negatively impacted the financial condition of this School District. Please know that the School District does not have control over two of these factors (i.e., TIF and State Aid), however, it does have control over factor #3. Factor #1 is the Pinckneyville TIF District #1. Virtually every business within the boundaries of this School District is located in TIF #1. All TIF property values were frozen to the School District in 1992. Further, one of these businesses is the largest employer in Perry County which means the loss of its annual increased property values has a great impact on this School District. The total estimated annual loss of revenues to the School District because of the TIF is \$70,000. Contrary to what TIF advocates claim, the State has not made-up the difference in lost TIF revenues to this School District. Factor #2 is inadequate State Aid funding. Truth is, the State suffered a great financial set back due to the 9-11 attack and has not been able to adequately fund its schools since. Also, the State employs a funding mechanism that depends heavily on "local property taxes" to fund schools. Consequently, schools with high property values have more funds on a per-pupil basis and schools with low property values have less funds on a per-pupil basis. The State has grappled with various options to minimize this problem for decades without success. Factor #3 is the recent Building Addition project. This project was essential because, according to Illinois State Board of Education calculations, this School was only large enough to serve 100 students even though enrollment has been above 200 students for many years. The Building Addition provided enough classroom space for 200 students. It should be noted that this School District's Board of Education took every step possible to keep local taxpayers from paying higher taxes to fund the Building Addition. The Board took a very conservative approach to providing its portion of the Building Addition project (i.e., 25%) when it decided not to sell bonds to fund its portion of the Building Addition project. Consequently, the School District expected to experience "cash-flow" problems for several years into the future. However, this problem is a short-term problem. In conclusion, it is the combination of these three factors that serve to negatively impact the financial status of this School District.

MCHENRY	CONSOLIDATED SCHOOL DISTRICT 158	2004	0.35	0.70	0.30	0.10	0.10	1.55	Watch	Consolidated School District 158 has experienced student enrollment growth exceeding an average of 32% annually for the last four - five years. In the 2001-2002 school year, sixth day enrollment was 3,915, as compared to the current student enrollment of 6,200+, reflecting an increase of over 2,285 students, representing over 58%. This growth level is unprecedented (ranks #1 in the State) and will continue for at least the next four/five years with an estimated increase of students exceeding 4,000. General State Aid is based on the prior year best three months average daily attendance. The lag of funding does not match the expenditure support for the current student level. The assessed value has a corresponding significant increase over the same period. In 1999 the assessed value was \$285,289,940 as compared to \$876,000,000 in 2004, reflecting an increase of over \$590,000,000, representing 207% in four years. Over the last eleven years, the residential portion of the assessed value has increased from \$54,800,000+ in 1993 to \$661,000,000+ in 2004, reflecting an increase of over \$606,200,000, representing 1,106%. The residential property represented approximately 60% of the total assessed value in 1993. In 2004, the residential property represented approximately 90% of the total assessed value. Due to the student growth pattern resulting in housing (classroom) needs and the assessed value levels, the District has been at the maximum debt limit annually to provide funding for the construction projects. This area has been monitored closely and will continue to need specific planning for the long term planning (and big picture). The property tax assessment cycle is completed on an annual basis based on the prior year assessment level. Due to the significant growth, the lag of property tax receipts based on the assessed value does not match the sources of revenue with the expenditures in the current budget year. The School District is required to spend the budget money prior to the receipt due to the student enrollment levels. The State has consistently been late in disbursing funds to the District, in addition to reducing various funding levels after budget adoptions. The lag in State funding formulas creates cash flow and budget issues for the local School District. Over the last three years, the District has reduced expenditures and increased revenues by a combined total of approximately \$6,000,000. In November 2004, the District voters approved a \$.55 Education Fund tax rate that will be phased in per the property tax extension limitation law formula. The District will remain is serious financial condition, deficit management and cash flow concerns for the forthcoming years due to the unprecedented student enrollment growth and mismatch of revenues and expenditures. The District has developed deficit management plans. Outside input has been received from a number of sources. The District has also appointed a citizens advisory committee to provide comment for planning. The Fiscal Office has continually and consistently advised the Board of Education and community of these issues and the financial planning required reflecting restraint in spending patterns to achieve deficit management goals. Legislative attention will need to be emphasized in addition to the local responsibility of the Board of Education. Please visit the Consolidated School District 158 web site for additional

ST. CLAIR	DUPO COMM UNIT SCH DISTRICT 196	2004	1.05	1.40	0.20	0.40	0.10	3.15	Review	Dupo District 196 continues to work hard to maintain fiscal solvency and use tax dollars to provide the best education possible for our students. This report indicates that we have improved our fiscal position when measured against the previous years.
ST CLAIR		2003	1.05	1.05	0.20	0.40	0.10	2.80	Early Warning	
WINNEBAGO	DURAND C U SCH DIST 322	2004	1.40	1.40	0.40	0.40	0.20	3.80	Recognition	The District Financial Profile Score for Durand CUSD #322 increased from 2.20 (early warning) in 2003 to 3.80 (financial recognition) in 2004. The scores are on a scale of 1.00 to 4.00, with 4.00 being the highest score. This is misleading for various reasons that require some explanation. First, the district's annual financial report is prepared using the cash basis of accounting. As a result of this, the district's revenues, cash, and fund balances can vary greatly from year to year depending on the timing of the county's distribution of property tax bills and the amount of early property taxes subsequently collected. Early taxes is a term that refers to taxes collected in June for the upcoming fiscal year which begins on July 1. Property tax bills were mailed out extremely late in 2003 and the first installment on taxes was not due until July 21. As a result, early taxes collected in June of 2003 were significantly lower than those collected in June of 2004. This caused fiscal year 2003 revenues, cash, and fund balances to be significantly lower than the comparable numbers from fiscal year 2004 and might lead someone to conclude that the district's financial position improved dramatically during fiscal year 2004. Second, the district has oversight responsibility for the Dolan Education Center, a school operated at the Maryville Farm Campus, a residence for orphans placed there by the state. The financial activity for Dolan is included in the district's annual financial report. Annually, because of delays in state funding of the orphanage program at Dolan, the district borrows money to cover expenses of that program until state funding is received in the next fiscal year. This borrowing reduces district fund balances in the annual financial report and has a negative impact on various ratios that make up the District Financial Profile. To summarize, in order to draw meaningful conclusions from our financial profile, the impact of early taxes and Dolan must be factored out of the scoring. When this is done, the district's adjusted financial profile scores for 2003 and 2004 are 3.60 and 3.70 respectively, both of which fall into the financial recognition category, the highest category in the state's scoring system. Without adjusting for these factors, it would appear that the district's financial position changed dramatically from 2003 to 2004. Actually, we just maintained our financial position, realizing a small increase in our financial profile score.

COOK	EAST MAINE SCHOOL DIST 63	2004	1.40	1.40	0.30	0.40	0.30	3.80	Recognition	District 63 reduced the budget by \$3 million for the 2003-04 fiscal year in an attempt to reduce the budget deficit. This move should not have taken the district from the position of "Financial Warning" to "Financial Recognition" in one year. In fact, for 2003-2004, the expenditures to revenue ratio is overstated based on the District receiving a \$1.3 million school construction grant for projects completed in fiscal year 2001-2002. Excluding this reimbursement from revenues, the expenditures to revenue ratio for 2003-2004 would be 1.05, which would bring the Total Profile Score to 3.45. This moves the District from the "Financial Warning" category to the "Financial Review" category, which makes sense based on the deficit reduction steps taken by the District.

DUPAGE	ELMHURST SCHOOL DIST 205	2004	1.05	1.05	0.20	0.40	0.30	3.00	Early Warning	The District would continue to maintain the rating of "Review" had we continued to use the cash basis of accounting. The reason the rating differs is that the fund balances are lower under the modified accrual basis of accounting than under the cash basis of accounting due to the recognition of liabilities for year-end accounts payable and health care claims. In 2004, the District's revenues and expenditures increased in proportion to each other. However, its fund balances remained fairly steady. Consequently, the ratio of fund balances to revenues dropped. The amount of the drop (4%) put that score in the next category ("3"). This was enough to lower the overall score from 3.35 to 3.00, thus earning the "Warning" designation.

WILL	FAIRMONT SCHOOL DISTRICT 89	2004	0.35	1.05	0.10	0.40	0.10	2.00	Watch	Payment of 2001 Bond Proceeds: In 2001, the District sold 1.6 million in Alternate Revenue Bonds to match a 4.6 million ISBE Construction Grant. For the past three years the levy has been abated and the principal and interest on the bonds has been paid from the Educational Fund. (approx. \$141,500) Shortage of Levies: In tax levies in 1999, 2000 and 2001, a total of \$902,420 was lost income because the Educational Fund levies were not sufficient to guarantee that the levies would be at the maximum rate of 2.97%. This action was due to an unskilled business manager. Construction Costs: Approximately \$200,000 in construction costs was charged to the Operation & Maintenance Fund during 2003-2004 fiscal year. The remaining cost attributable to Site & Construction Fund cannot be used because the general contractor filed bankruptcy and funds are not available because of a court order to hold the funds. 2004-2005 Financial Improvement Plan: The Fairmont School Board approved and is monitoring the implementation of an ISBE renewal Financial Improvement Plan April 05, 2005. Referenda: The Fairmont School Board approved placing referenda on the ballot for April 05, 2005 1) 3 year, \$.35 Tax rate increase (Approx. yield 327k) 2) Non-abatement of Bond levy (Approx. yield 142k)

JEFFERSON	FIELD COMM CONS SCHOOL DIST 3	2004	1.05	1.05	0.20	0.40	0.20	2.90	Early Warning	The District has capital outlay of \$102,078 in connection with a lease/purchase agreement for 2 buses in the Transportation Fund. The capital outlay is included in the expenditure ratio, but there is no offsetting revenue for the lease/purchase financing because the other sources of revenue is not included in the calculation. Therefore, the value of 1.05 is less than it should be. If the capital outlay was excluded or the offsetting revenue included, the ratio would be 1.40, which would change the profile score to 3.25.

WOODFORD	FIELDCREST CUSD #6	2004	0.70	1.05	0.10	0.40	0.30	2.55	Watch	District 6 now has a balanced budget. However, financial problems will continue to plague the District until EAV increases. \$1.1 million has been cut from the Education Fund Budget in the last two years which translates into approximately 16% of the academic staff. Working Cash Fund bonds were issued a year ago to fulfill obligations. The District does not anticipate borrowing this year, although any end of year Education Fund balance will be small. Recent EAV losses due to Homestead and Senior exemptions have cost the District about \$200,000 in revenue for FY 2006.

OGLE	FORRESTVILLE VALLEY C U S D 221	2004	1.40	1.40	0.30	0.40	0.10	3.60	Recognition	The Forrestville Valley School District, through constant attention to having a comprehensive management plan and strong leadership, has continued its excellent tradition of remaining fiscally responsible to the students of the District. Fiscal management has been in strict accordance with the Board of Education's approved outcomes and formal budgeting processes. Stakeholder and support groups have assisted in supporting the essential programming of the District as the support from the State of Illinois continues to erode. The Superintendent has incorporated multi-year projections and attention to best practices as components of the comprehensive management plan. Components of the annual District goals from the Superintendent's Office, the Board of Education, and the teachers' union are contained in the annual strategic action plan.

FORD	GIBSON CITY-MELVIN-SIBLEY CUSD 5	2004	1.40	1.05	0.40	0.40	0.30	3.55	Recognition	Though the district is currently financially viable, continued erosion of state funding, pass through grants, federal funds and exemptions for property owners will eventually place the district in financial difficulty. A movement away from property taxes and fulfillment of the state's obligation to fund 51% of school budgets will be necessary to avoid this situation. This current viability is the result of staff reductions, elimination of programs and careful spending/budgeting.

WINNEBAGO	HARLEM UNIT DIST 122	2004	0.70	1.05	0.30	0.40	0.20	2.65	Early Warning	The Harlem Board of Education began working on a multi-year plan to reduce the Education Fund deficit in the spring of 2004. For the 2004-2005 school year, the Board made reductions of \$2.2 million in the operating funds. The Board understands the need to increase revenues and decrease expenditures in order to work towards decreasing the Education Fund deficit. The planning process for the 2005-2006 School Year will begin in Early February when the Superintendent makes recommendations to the Board of Education for changes in the District's operations for the upcoming year. The Board of Education has continued to place an Education Fund referendum question for \$0.40 on the ballot, but has been unsuccessful several times. The passage of this referendum would infuse approximately \$1 million additional tax dollars into the Education Fund during the first year of a five-year phase in, and an additional \$250,000 each of the following four years. The last referendum was in 1989. Tax Caps and also a Tax Increment Financing District also impact the District. The end of the 2003-2004 School Year was also the expiration of all collective bargaining agreements for the district. The Educational Support Staff settled a three-year contract (expiring 2006-2007 at 3% per year). The Teacher's Contract (3 year contract) was settled for the 2004-2005 after a nine-day strike. The Salary Schedule for the following two years will be decided in Binding Interest Arbitration. The District has not been required to rely on Short-Term Borrowing to meet cash flow needs, and hopes to continue this practice with prudent budget management. It should be noted that the amount listed for Long Term Debt also includes items that have been classified as "Other Long Term Debt". These items should not lower the amount of the Legal Debt Margin of the district, as they are not part of any bond indebtedness. They pertain to compensated balances, accreted interest, and a possible arbitrage rebate according to the District's audit firm, BDO Seidman. Total Bond Principal Outstanding is \$44,896,206. The removal of these items would increase the percentage remaining of the Legal Debt Margin to 57.8%. Continual changes in legislation affecting the reliance on property taxes along with unfunded mandates will continue to impact the finances of the District negatively. It is not the District's intent to borrow, short-term or long-term to eliminate the deficit. The Board of Education continues to review expenditure reductions and revenue enhancements to reach a five-year goal to eliminate the Education Fund deficit.

MCHENRY	JOHNSBURG C U SCHOOL DIST 12	2004	1.40	1.40	0.20	0.30	0.30	3.60	Recognition	Our district has been negatively impacted because of the level of state funding. Our fund balance is negligible. However, the board also recognizes the taxpayer's negativity regarding raising local property taxes and does not see this as an alternative to maintain the district's current programs. The Board has made many cuts the past three years in order to try to achieve a balanced budget. More cuts are currently being contemplated and we have had to go further into debt to augment our fund balance. Our hope is the state will hear the taxpayer's pleas and take action for adequate and equitable state funding coupled with tax relief.

BUREAU	LADD COMM CONS SCHOOL DIST 94	2004	1.40	0.70	0.30	0.40	0.10	2.90	Early Warning	During the 2003-04 school year, we completed phase 2 of our construction project. Most of the money used to pay the final bills was collected in previous fiscal years, so our expenditures for this year is much greater than our revenue. The payment of the final bills also resulted in lowering our level of cash on hand. All other areas of our financial profile remained constant. Thank you to our community for providing both our current and future students with an outstanding learning facility!

MACON	MT ZION COMM UNIT SCH DIST 3	2004	1.05	1.40	0.20	0.40	0.30	3.35	Review	Mt. Zion School District experienced a \$343,000 budget deficit in FY 03 plus made more than \$750,000 in cuts during FY 04 and FY 05 (including closing a school building) in order to achieve a financial profile score of 3.35 and move from early warning to financial review. Mt. Zion's operating expenses continue to remain well below the state average.

LAKE	MUNDELEIN CONS HIGH SCH DIST 120	2004	0.35	1.05	0.20	0.40	0.30	2.30	Watch	The District, during FY04, converted its accounting method from the cash basis to the accrual basis. This caused a decrease in our Fund Balance, thus impacting our Fund Balance to Revenue ratio. Additionally, the District removed bond proceeds that were earmarked for land acquisition and/or construction and placed them in a Site and Construction fund. This action caused a decrease in the days cash on hand calculation.

JACKSON	MURPHYSBORO C U SCH DIST 186	2004	0.70	1.05	0.10	0.40	0.30	2.55	Watch	The Murphysboro CUSD #186 Board of Education approved a three-year plan in January 2005 to reduce deficit spending. The plan will reduce budgeted expenditures by \$600,000 to \$800,000 each year over the next three years. Most recently, the Board of Education approved budget reductions in the amount of \$667,000 for the 2005-2006 school year. The Board of Education also sold Working Cash Fund Bonds in December 2004 in the amount of \$1,950,000 in order to improve the financial outlook of the district. Current funding laws under tax caps, as well as inadequate and inequitable state funding for Illinois schools, have limited the district's ability to fund mandated state and federal programs. The steady decline in student enrollment over the past few years has also contributed greatly to the financial condition of the district through decreased General State Aid and categorical grant funds.

HENRY	ORION COMM UNIT SCHOOL DIST 223	2004	1.40	1.40	0.30	0.40	0.30	3.80	Recognition	The district's Financial Profile Designations were "Review" in FY '01 and FY '02 with a 3.45 summary rating. In FY '03, the district was identified as "Early Warning" with a 3.0 financial score. This was primarily due to Working Cash Bonds being sold and moved to the Operations and Maintenance Fund in order to build an addition at Orion High. FY '04 is showing a 3.8 score or "Recognition" status but is expected to return to 3.45 or "Review" in FY '05. In FY '98, the State provided 53% of the revenue for the district (local 43%). In FY '05, this has reversed with the State providing only 41% of the revenue to operate the district with local revenue comprising 55% of the budget.

COOK	ORLAND SCHOOL DISTRICT 135	2004	1.40	1.05	0.40	0.40	0.30	3.55	Recognition	Orland School District 135 received "Recognition" Status because of the fund balance in the Working Cash Fund. In Fiscal Year 2004, \$7,000,000 in Working Cash Bond for cash flow purposes were sold. Approximately \$4,000,000 was abated to cover the Education Fund deficit. The balance of the bond sale plus additional Working Cash reserves will be abated to the Education Fund in Fiscal Year 2005 to cover the FY 2005 deficit.

LASALLE	PERU ELEM SCHOOL DISTRICT 124	2004	1.40	1.05	0.40	0.40	0.40	3.65	Recognition	The Profile Designation for the Peru Public Schools remains at Financial Recognition status, even though our Profile Score has been reduced from 4.00 to 3.65. This decrease in the Profile Score was due to larger than normal expenditures in our district Operations and Maintenance fund to allow for extensive building renovations which addressed the issues of energy savings, long-term operational costs and, in addition, provided upgraded curricular opportunities for students in the area of technology. This level of expenditures in the district Operations and Maintenance Fund will not be ongoing and, therefore, it is likely that our district Profile Score will increase for the Fiscal Year 2005.

COOK	RIVER FOREST SCHOOL DIST 90	2004	1.40	0.70	0.30	0.40	0.40	3.20	Review	The District continuously monitors its financial situation and periodically updates its financial projections in order to prepare for its financial future. The District re-established its Working Cash Fund by issuing Working Cash Fund Bonds in November as part of a long-term fiscal strategic plan.
COOK		2003	1.40	1.05	0.30	0.40	0.40	3.55	Recognition	
COOK	RIVER GROVE SCHOOL DIST 85-5	2004	1.05	1.05	0.20	0.40	0.20	2.90	Early Warning	As a result of the unsuccessful efforts to pass a referendum to increase the Education Fund Tax Rate, the District has addressed the FY 2005 Budget in the following ways: 1. The District has cut six teaching positions and one custodial position. 2. The District has cut Band, Gifted, and all extracurricular programs. 3. The District negotiated a salary freeze with the teacher's association. 4. The District reduced administrative costs by 12%. These efforts have resulted in an 11% reduction in the FY 2005 budget as compared with the FY 2004 budget. It is the hope of the Board of Education, Administration, Faculty and Staff of River Grove School District 85.5 that upon the successful local support of another referendum, the District's financial concerns will be abated, programs will return to the school, and this, coupled with conservative fiscal policies, will lead to the improvement of the financial profile score of the District in the years to come.

COOK	RIVERSIDE SCHOOL DIST 96	2004	0.70	1.05	0.10	0.40	0.40	2.65	Early Warning	District 96 residents, on March 16, 2004, approved a \$0.49 increase in the Education Fund tax rate. Revenues from this tax rate increase will begin to appear in our FY 2004-05 Education Fund budget, thereby returning the district to at least a "Financial Review" status and in the near future to a "Financial Recognition" status. It also should be noted that the correct amount of short-term debt available to the district is \$8,802,882 (but does not change our weighted score of 0.40 for this indicator).

ROCK ISLAND	ROCK ISLAND SCHOOL DISTRICT 41	2004	1.40	1.40	0.30	0.40	0.30	3.80	Recognition	The District continues to strive for financial stability during these very difficult economic times. It has used a balanced approach to contain costs while allowing for a partial use of accumulated surplus. This strategy has required reductions to operations in each of the past three years of over \$4,000,000. The continued approach of annual reductions is severely hampering the ability to offer comprehensive programming to our students. Future direction may require full use of surplus rather than cuts to allow the students in the community a quality educational experience. Please work with us in prompting the State of Illinois to improve its funding system for education.

DUPAGE	SALT CREEK SCHOOL DIST 48	2004	1.05	1.40	0.30	0.30	0.40	3.45	Review	Salt Creek School District #48 has taken significant steps to reduce its reliance on tax anticipation warrants. In the last three years, we have reduced the issuance of tax anticipation warrants from 2.5 million to 1.3 million dollars. The district has also implemented zero-based budgeting to reduce its expenditures. District #48 is now faced with 4 million dollars in life safety work which needs to be completed in five years. Unfortunately, the district has no bonding authority to complete the needed work. The public will be asked in April 2005 to increase the property tax extension limitation for the district. This will assist the district in improving its financial outlook.

COOK	SANDRIDGE SCHOOL DISTRICT 172	2004	1.40	1.40	0.40	0.40	0.10	3.70	Recognition	The Financial Profile Score of 3.70 is an inaccurate and deceptive description of the true financial condition of the District. During the 2003-2004 school year, the District embarked on a \$5,000,000 building addition. Because of this project the District received \$1,900,000 from the sale of Construction Bonds and \$1,444,000 from the Capitol Development Board. All of this revenue was taken in during the waning months of the fiscal year. The District incurred only \$788,000 expenditures for the 2003-2004 school year, as it relates to this building project. This construction revenue accounts for 51% of all revenue realized by the District. This has skewed the financial profile significantly. This revenue will significantly impact the true scores in the following areas: 1) Fund Balance to Revenue Ratio; 2) Expenditures to Revenue Ratio; and 3) Days of Cash on Hand. Additionally, this scenario will work in reverse for 2006 Financial Profile.

BUREAU	SPRING VALLEY C C SCH DIST 99	2004	1.40	1.05	0.30	0.40	0.40	3.55	Recognition	While the district maintains the status of financial recognition, it should be pointed out that the district's financial difficulties are in the Education Fund, despite recent cuts to staff and programs. Overall, the score is relatively strong due to money that is held in the Working Cash Fund, as well as the fact that the district has little long-term debt. Therefore, while this designation is welcome, it is not a reflection of the district's ongoing struggles to keep the Education Fund solvent without continued borrowing and the possibility of additional budgetary reductions.

WILL	TROY COMM CONS SCH DIST 30C	2004	1.40	1.05	0.20	0.40	0.30	3.35	Review	Troy School District 30C is considered an "exploding" growth school district. Because of this the district's "Long-Term Debt Limitation" is calculated by multiplying the district's EAV by 15% instead of 6.9%, the percent normally used for this calculation in elementary districts. The tremendous growth and the effects of PTELL (tax caps), which have pushed our tax rate lower, have combined to create a large deficit for Troy Schools. The dramatic cuts made over the past two years have eliminated a large portion of our large deficit. The large deficit has eroded the district's fund balances. Because of this the Board of Education sold Working Cash Fund Bonds, which has eliminated the need to "Short-Term Borrow" to supplement our cash-flow situation. Additionally, the district's Operating Expense Per Pupil (OEPP) has dropped by nearly \$200 due to the dramatic budget reductions that the district has made. Our low OEPP, which was already below the state average, has dropped at a time when all inflationary indicators are rising; which more than likely will increase the state average OEPP, because the cost of doing business has increased.

COOK	WILLOW SPRINGS SCHOOL DIST 108	2004	1.40	1.05	0.40	0.40	0.40	3.65	Recognition	The AFR profile scores reflect the overall sound fiscal management policies in the face of diminishing state support of schools which required the Board of Education to seek a referendum in April, 2004. Thanks to the support of the community, our school district will be able to reverse the negative trend demonstrated in this score report. Additionally, the district will be able to greatly improve the school facilities. It is our hope that the state of Illinois will meet its responsibility to students and schools by providing improved financial support of schools and education.

MCHENRY	WOODSTOCK C U SCHOOL DIST 200	2004	1.40	1.05	0.30	0.40	0.30	3.45	Review	Woodstock CUSD #200's 2005 Financial Profile has been negatively affected by McHenry County's late tax distribution. Historically, McHenry County distributes approximately 50% of annual taxes before June 30. In 2004, District 200 received only 25.83% of its levy year 2003 taxes before June 30, 2004. This change caused the district's Expenditure to Revenue Ratio score to decrease .35 in value and made the district look like it spent \$1.10 for every \$1.00 of revenue received. If taxes would have been received prior to 6/30/04, the district would have spent \$.94 for every \$1.00 of revenue received and would have realized a \$.03 improvement from last year. The Financial Profile should take into account one-time changes that are outside of the control of the district and can adversely impact a district's score.

KENDALL	YORKVILLE COMM UNIT SCH DIST 115	2004	1.05	1.40	0.20	0.40	0.20	3.25	Review	District has been in and out of the financial watch and warning list with little change in financial condition. The profile score is based on a 12 month snap-shot of revenue, expenditure, fund balance, cash on hand and debt ratio. During the 12 month period there is a large fluctuation in revenue collection and expenditure due to the frequency and amount of revenue disbursed by the State and County Treasurer and timing of bill payment.
