FORWARD

The attached report is being submitted in compliance with Section 2-3.145 of the School Code [105 ILCS 5/2-3.145] as amended by PA 095-0555.

Section 2-3.145 [105 ILCS 5/2-3.145] mandates that the ISBE submit to the General Assembly and the Governor an annual report that designates school districts' special education expenditures, receipts, and net special education expenditures over receipts. The receipts are to be specified as local, state, and federal. The calculations utilize limited data the Agency receives on school district Annual Financial Reports (AFR), Pupil Transportation Claims, Fall Housing Reports/Student Information System (SIS), and the Funding and Child Tracking System (FACTS) and is not a reflection of school districts' total special education expenditures and receipts.

With implementation of this legislation in Fiscal Year 2008, there was considerable discussion of the limitations of presenting these calculations and other information.

The following limitations were applied following discussion with education stakeholders:

- The exact amount of time devoted to special education programs is not available. While the FACTS Report collects each identified special education student's enrollment in special education, the Educational Environment (EE) for each student defines a range of time the student is receiving regular services. For example, a student with an EE code of 02 is defined as "40% - 79% inside the regular classroom." Thus all students with disabilities are counted as receiving sixty percent (60%) special education services.
- Because the percent of time of ancillary services, such as social work, psychological and other such services, are not currently collected for students with disabilities, expenditures were allocated as follows:
 - Attendance and Social Work Services—90%
 - Psychological Services—90%, and
 - Other Support Services—5%
- Chicago School District 299 receives a predetermined amount of special education funding within their block grant that incorporates special education funding as well as other State funding. Each year, the block grant revenue is reviewed and the percentage dedicated to special education is determined and utilized within their calculations. It is important to note, however, that PA 97-0238 went into effect July 1, 2011, and requires that Chicago School District 299 submit data on grant and Mandated Categorical programs in the block grants in the same manner as other districts. This data has been incorporated in the calculations for Chicago School District 299. The Public Act does not change the current block percentages or the amounts that are due to Chicago School District 299.

The analysis of the Chicago School District Educational Services Block Grant reflects that the district received \$279.1 million more in the Block Grant than they would receive if they were required to file a specific claim for each type of funding in the Block Grant for School Year 2013-2014. \$268.3 million (96.1%) of this is attributed to special education services. The Special Education Expenditures and Receipts Report reflects that the Chicago School District spent \$104.8 million more in special education dollars than revenue received, or \$1,664 per student. If the district's Block Grant special education funding was decreased by the \$268.3 million denoted above,

Chicago School District's special education expenditures would be \$373.1 million in excess of the revenue they realize. This would equate to \$5,923 per special education student which is \$1,603 more than the State net expenditure per child count of \$4,320.

This is the ninth year for this report and these assumptions were followed consistently each year.

Table 1 and Table 2 below designate the districts with the highest and lowest net expenditures per student in FY14. To calculate this amount, the net expenditures for each district were divided by the special education child count in each district.

Twenty school districts, compared to 18 districts last fiscal year, realized more special education revenue than incurred expenditures. This could be due to the timing of expenditures and receipts (state reimbursements for special education are for expenditures incurred by the district in the last fiscal year), the number of students served from one year to the next, or the accounting of expenditures and receipts within the AFR.

The statewide net special education expenditure per child count is \$4,320.

Table 3 reflects the total amount calculated for the estimated, net special education expenditures after deduction of a proportionate share of local funds received and specific state and federal funds received.

TABLE 3

Because of the requirements for the Maintenance of Effort, the appropriation for State Special Education funding has remained consistent over the past years. If Maintenance of Effort is not maintained, the State would lose one dollar of federal funding for every State dollar budget reduction for special education.

As denoted in Table 4, the appropriation per student has increased each year. The difference between the State Funding in Table 3 and the State Appropriation in Table 4 is attributable to the timing of the revenue received by the districts and the results of the delayed payments.

Special Education Expenditures and Receipts Report - 2015

(Based on the FY14 Annual Financial Report Data)

DEFINITIONS & ASSUMPTIONS

DEFINITIONS

Basis of Accounting: Is either a cash basis or an accrual basis. For purposes of reporting on the AFR (ISBE Form 50-35), cash basis includes a “modified cash” basis and accrual basis includes a “modified accrual” basis.

Expenditures: Transactions involving the disbursement of cash or the establishment of an obligation without creating an asset or canceling a liability.

Net Expenditures: Expenditures minus the sum of federal, state, and local receipts (Note: negative value indicates receipts exceed expenditures).

Receipts: Transactions involving the receipt of cash (or other economic resources) without creating a liability or canceling an asset.

- **Federal Receipts:** Consisting of federal grants, aids and reimbursements (4000 Accounts)
- **State Receipts:** Consisting of state grants, aids and reimbursements (3000 Accounts)
- **Local Receipts:** Consisting of taxes, tuition, charges for services, fees, investment income, and miscellaneous proceeds (1000 Accounts)

Special Education Child Count: Are determined from the “Special Education Funding and Child Tracking System” (FACTS) or “Fall Housing Report System” for FY07/“Student Information System” or SIS for FY08 and beyond. Special education students reported must be eligible to receive services or be in a special education program receiving direct or related services, be at least age three through age 21, inclusive, and have an individualized education program (IEP) or individualized services plan (ISP) in place. Applicable categories are:

- Special Education Child Count:** Obtained from the “FACTS Report” submitted to ISBE.
- Special Education Child (Full-time Equivalent) Count:** Calculated from the “FACTS Report” utilizing each student’s beginning & end date and percent of time in special education as determined by the education environment.
- Total Child Count:** Obtained from the “Fall Housing Report” submitted to ISBE.
- Special Education Child Count divided by Total Child Count:** Calculated from information in items A & C above.
- Special Education Child Full-time Equivalent Count divided by Total Child Count:** Calculated from information in items B & C above.

ASSUMPTIONS

- Figures exclude the Municipal Retirement/Social Security Fund. This fund is created if a separate tax is levied to provide resources for the school district's share of retirement benefits for covered employees or a separate tax is levied to provide resources for the district's share of social security and medicare only payments for covered employees. If these taxes are not levied, the payments should be charged to the fund where the salary is charged.
- Figures include expenditures for Bilingual programs, but exclude expenditures from Vocational Education or Title I programs.
- "Flow-Through Receipts from One Local Education Entity to Another Local Education Agency" include only the flow-through monies from federal sources (2200 Account). Similar receipts from state or local sources are excluded (2100 & 2300). However, each school district's related receipts and expenditures will be captured in the calculation.
- The School District AFR may be filed using either the cash or the accrual basis of accounting. Adjustments have not been made for any differences in the recognition/timing of receipts and/or expenditures that result from the basis of accounting used by the school district.
- Rulemaking is required and will be considered to designate a specific accounting code for costs related to the special education director or occupational/physical therapy services.
- Chicago Educational Services Block Grant (3767 Account) is included for the City of Chicago School District 299 with the percent of special education determined annually from the district's total special education funding. This block grant is authorized by the School Code, Section 1D-1.
- The data is limited to the accuracy as reported to ISBE from the districts.
- Attendance/Social Worker and Psychological Services are assumed at 90% special education for all districts. Other Support Services – Pupil are assumed at 5% special education for all districts.
- The percentage of time assumed for special education is the highest percentage allowable for each designated educational environment. For example, if the designated educational environment reports a student is 40 to 79% in the regular classroom, it is assumed that the student is 60% special education.
- The special education pupil transportation expenditures and receipts are obtained from the unaudited Pupil Transportation Claim as submitted by the district.
