

# Trends in the Immunization and/or Health Examination Compliance Rate among Illinois PreK-12 Students

Percentage of Compliance =

Number of students in compliance (i.e., number of students with up-to-date immunization(s) + number of students with religious exemption + number of students with medical exemption + number of students with approved schedule for administration of immunization(s) + number of students in compliance with physical examination requirement only)

÷ all students x 100
