How do I add accommodations for my field test students?

- There are three ways to do this:
  - Enter the accommodations in a batched file using the Pre-ID file generated through SIS. For help with this, call the SIS Help Desk at 217-558-3600.
  - Enter the accommodations in a batched file on PearsonAccess. For help with this, call the PARCC Support Center at 1-888-493-9888.
  - Enter the accommodations one student at a time on PearsonAccess. For help with this, call the PARCC Support Center at 1-888-493-9888.

PARCC Accommodations

- http://www.parcconline.org/parcc-accessibility-features-and-accommodations-manual

- http://www.isbe.state.il.us/assessment/pdfs/parcc/field-test/parcc-ft-access-accomm.pdf

Do we have to update IEPs?

- PARCC: An accommodation is an assessment practice or procedure that changes the presentation, response, setting, and/or timing and scheduling of assessments. Accommodations are intended to remove barriers that may exist due to a student's disability or level of English proficiency.

- PARCC: Yes, **accommodations** must be listed in the student's approved IEP , 504 Plan, or EL Plan.

- IL: A crosswalk from ISAT and PSAE provides the IEP Team an option that meets the requirement without any additional changes to the current IEP unless the crosswalk does not include an accommodation that may be desired/offered for the Field Test.

Additional and Extended Time

- **Additional Time** is available for all students. Students who are productively engaged with the assessment must also be provided with the additional time needed to complete the session so that they can have ample time to demonstrate their knowledge and skills. A new session cannot be started until all students in this session are finished.

- Students may be allowed **Extended Time** accommodations beyond the total administration time **only if** listed in his or her IEP or 504 Plan (or EL Plan, if required by the PARCC member state).
  - These students must be scheduled in a separate setting. No new sessions can be given until all students are finished.

- For IL information, refer to the Field Test, Test Coordinator Manual **Appendix H.** Also, refer to the Extended Time Accommodation in **Appendix E** of the *PARCC Accessibility Features and Accommodations Manual.*

Text-to-Speech

- Not all grade levels available for field test
  - Math: Grades 4, 7, Alg I
  - ELA: Grades 5, 8, 11

- A human reader can be provided for a grade level that is not available for the field test

Small Groups and Alternate Settings

- School Test Coordinators may determine that any student may require one or more of the following test administration considerations, regardless of the student's status as a student with a disability or as an English Learner:
  - **Small-group testing**
  - **Frequent breaks**
  - **Time of day**
  - **Separate or alternate location**
  - **Specified area or seating**
  - **Adaptive and specialized equipment or furniture**
- All testing must be in a school setting. No homebound/hospitalized students will be included in PARCC Field Test.

Small Groups and Alternate Settings

- Some students with disabilities will require small group or individual testing due to other accommodations they use on PARCC assessments (e.g., interpreter, human reader for the paper-based administration of the assessments, etc.).

- Students with physical disabilities may need a more accessible location, more space, specific room conditions, or special equipment. Refer to the *PARCC Accessibility Features and Accommodations Manual for additional information.*

PARCC Assessment Need

| AB | 21 | Assessment Accommodation Category | A **PRIMARY** category of accommodations needed for a given assessment.

IL – Chose only one. IEP should be chosen instead of multiple and/or specific accommodations categories in this list. In the case where an ELL student has a 504 or IEP plan, please select 504 or IEP since Column R or S will be selected for this student.

IL – PARCC Setting Accommodations are not restricted to IEP requirements (ISAT). PARCC allows any student (with/without IEP) to be administered a test in a small group or individual setting.

Setting Considerations
In accordance with principles of universal design for assessment, PARCC policy allows small group testing, specified area, and separate/alternate location. These will be considered as administrative setting considerations available to **all** students.

Important note: Some students with disabilities will require small group or individual testing due to other accommodations they use on PARCC assessments (e.g., interpreter, human reader for the paper-based administration of the assessments, etc.). Students with physical disabilities may need a more accessible location, more space, specific room conditions, or special equipment. | **EquipmentOrTechnology** = Student equipment/technology
