FREE support for increasing broadband at your district

Sept. 8, 2016

IL District Technology Leaders,

As you may have read, the Governor's office and Illinois State Board of Education launched the Illinois Classroom Connectivity Initiative in partnership with the non-profit organization [EducationSuperHighway](#) to ensure that all IL schools have access to high-speed broadband that can support digital learning in the classroom. As a part of this initiative, you have the opportunity to take advantage of network upgrade support services from EducationSuperHighway *at no cost to your district*.

In this webinar, you will find out how you can work with EducationSuperHighway to connect all your schools via scalable network infrastructure and affordably increase your bandwidth to meet growing demand.

To learn more, please register using the link below and mark your calendars for either of the following webinar dates:

Date: Tuesday, September 13

Time: 12:30pm CT

Registration Link: <https://cc.readytalk.com/r/wup8wkcl4wa&eom>

Date: Wednesday, September 14

Time: 11:30am CT

Registration Link: <https://cc.readytalk.com/r/o9cmvo7v0vwi&eom>

As a school district leader, your engagement throughout this initiative will ensure your students have the connectivity needed to take advantage of digital learning opportunities. If you have questions, please contact me or [Elle Patterson](#) from EducationSuperHighway.
