General Education Provisions Act *

Section 427 of GEPA (20 U.S.C. 1228a) affects all applicants submitting proposals under this program. This section requires each applicant to include in its proposal a description of the steps the applicant proposes to take to ensure equitable access to, and participate in, its federally assisted program for students, teachers, and other program beneficiaries with special needs.

This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. The applicant should determine whether these or other barriers may prevent students, teachers, etc. from such access to, or participation in, the federally funded project or activity. The description of steps to be taken to overcome these barriers need not be lengthy; the school district may provide a clear and succinct description of how it plans to address those barriers that are applicable to its circumstances. In addition, the information may be provided in a single narration, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of the civil rights statutes, but rather to ensure that, in designing their programs, applicants for federal funds address equity concerns that may affect the ability of certain beneficiaries to fully participate in the program and to achieve high standards. Consistent with requirements and its approved proposal, an applicant may use the federal funds awarded to it to eliminate barriers it identifies.

Describe the steps that will be taken to overcome barriers to equitable program participation of students, teachers, and other beneficiaries with special needs.

Background

Article 27A of the Illinois School Code, known as the Charter Schools Law, creates opportunities within the public school system of Illinois for the development of innovative and accountable teaching techniques and educational programs. The U.S. Department of Education (ED) currently makes funding available under Title V, Part B of the No Child Left Behind Act of 2001 for the Charter Schools Program. This funding provides support for the program design and initial implementation of charter schools.

The purpose of this Request for Proposal (RFP) is to:

Solicit from charter school design teams working with a school district, or from charter schools already in operation, proposals that meet the purposes of the federal public Charter Schools Program, which are listed below.

- Provide financial assistance for the program design and initial implementation of charter schools;
- Expand the number of high-quality and educationally diverse charter schools throughout the state by supporting the efforts of charter school design teams and organizers; and
- Evaluate the effects of charter schools, including their effects on students (in particular, on student academic achievement), staff, and parents.

Grant award numbers and amounts:

Funds for Program Design activities can be no more than \$150,000 for a maximum of 18 months. Funds for Implementation activities can be no more than \$400,000 per 12-month period for a maximum of 24 months. Individual grant awards to fund highly qualified programs will vary, depending on the needs addressed in the approved proposals and the total federal award for the program. No more than 50% of the total grant award will be awarded to a specific geographical area, as defined by the Regional Area Statewide Map linked on the Overview page, unless there are available funds.

The purpose of charter schools is to:

- Improve pupil learning by creating schools with high, rigorous standards for pupil performance;
- Increase learning opportunities for all pupils, with special emphasis on expanded learning experiences for at-risk pupils, consistent, however, with an equal commitment to increase learning opportunities for all other groups of pupils in a manner that does not discriminate on the basis of disability, race, creed, color, gender, national origin, religion, ancestry, marital status, or need for special education services;
- Encourage the use of teaching methods that may be different in some respects than others regularly used in the public school system;
- Allow the development of new, different, or alternative forms of measuring pupil learning and achievement;
- Create new professional opportunities for teachers, including the opportunity to be responsible for the learning program at the school site;
- Provide parents and pupils with expanded choices within the public school system;
- Encourage parental and community involvement with public schools; and
- Hold charter schools accountable for meeting rigorous school content standards and provide those schools with the opportunity to improve accountability.

Charter schools operate largely free from the requirements imposed by the School Code, ISBE's administrative rules, and local board policies. In return for this degree of flexibility, charter schools are directly accountable for their performance, both to the families who choose them and to the public in general through their charters, which specify the schools' contractual obligations. Charter schools funded with money from the federal Public Charter Schools Program are required to demonstrate over time that their students are achieving at the promised levels of performance. If a school fails to deliver on its promises, then families can decide to send their students elsewhere, thus removing financial support for the charter school. The entity issuing the charter can also elect not to renew the charter when the agreement expires.

The Charter Schools Law permits the creation of up to 120 charter schools statewide, including 70 in the City of Chicago and 45 in the remainder of the state. In addition to these charter schools, up to but no more than five charter schools devoted exclusively to re-enrolled high school dropouts may operate in the City of Chicago. Each of these "dropout charters" may operate up to 15 campuses within the city. Any of these dropout charters may have a maximum of 1,875 enrollment seats, with any single attendance center that is part of the charter having a maximum of 165 enrollment seats. Each attendance center of the dropout charter must be operated by the same legal entity as that for which the charter is approved and certified. A charter school operator that has multiple charter campuses that are merely extensions of each other (i.e., one charter school with multiple campuses) must complete the Multiple Schools Decision Worklist (form linked on Overview page) and submit it via e-mail to

charter@isbe.net

Specific ISBE objectives for the federal public Charter Schools Program are listed below:

- A. Support the development of charter schools, especially in communities outside of Chicago.
- B. Encourage the development of public charter schools designed to assist at-risk and other educationally disadvantaged students, especially these students at the secondary level, to meet the Illinois Learning Standards, and to assist these students to remain in school through graduation.
- C. Conduct broad outreach activities to make grant opportunities available to current and potential charter school operators.
In order to encourage the formation of charter schools that accomplish these objectives, ISBE will give priority consideration to those proposals designed to achieve related results (see Criteria for Review and Approval of Proposals section). For instance, a rapidly growing school district might consider a charter school as a way to address infrastructure inadequacies for its expanding student population. Likewise, a school district with a school that is failing to meet state standards could convert that school into a charter school, thus providing students and their families with a high-quality educational choice.
- D. Encourage the development and operation of high-quality charter schools as defined below.
A high-quality charter school shows evidence of strong academic results for the past three years (or over the life of the school, if the school has been open for fewer than three years), based on the following factors:
 - 1. Increased student academic achievement and attainment (including, if applicable and available, high school graduation rates and college and other postsecondary education enrollment rates) for all students, including, as applicable, educationally disadvantaged students served by the charter school;
 - 2. Either -
 - a. Demonstrated success in closing historic achievement gaps for the subgroups of students described in section 1111(b)(2)(C)(v)(II) of the ESEA (20 U.S.C. 6311(b)(2)(C)(v)(II)) at the charter school; or
 - b. No significant achievement gaps between any of the subgroups of students described in section 1111(b)(2)(C)(v)(II) of the ESEA (20 U.S.C. 6311) at the charter school and significant gains in student academic achievement for all populations of students served by the charter school;
 - 3. Results (including, if applicable and available, performance on statewide tests, annual student attendance and retention rates, high school graduation rates, college and other postsecondary education attendance rates, and college and other postsecondary education persistence rates) for low-income and other educationally disadvantaged students served by the charter school that are above the average academic achievement results for such students in the state;
 - 4. Results on a performance framework established by the state or authorized public chartering agency for the purpose of evaluating charter school quality; and
 - 5. No significant compliance issues, particularly in the areas of student safety, financial management, and equitable treatment of students.

FISCAL INFORMATION

Overview	Applicant Information	FFATA	Amendments	General Information	Program Specific	Budget Pages	Assurance Pages	Submit	Application History	Page Lock Control	Application Print
Background	Eligibility	Program Components		Fiscal Information		Review Criteria	Reporting Requirements				

Fiscal Information

The total amount of available funding in FY2017 for grant awards under this RFP is \$7,025,000. Of this amount, it is anticipated that up to 12 Program Design and 10 Implementation awards will be funded.

Eligible applicants may receive up to 36 months of funding under the federal public Charter Schools Program, contingent upon available funds. The program includes two different types of funding - Program Design and Implementation. Up to 18 months may be devoted to the Program Design activities of the charter school, and not more than 24 months to its Implementation activities (36 months maximum for both Program Design and Implementation). Grantees will receive an initial Program Design award or initial Implementation award. Funding beyond the 18-month maximum of an initial Program Design award would be considered an Implementation award. Funding for the final 12 months of any Implementation award may be made available to selected grantees via a continuation application. Continuation funding after the grant term of either type of award will be contingent upon satisfactory progress on activities funded with the preceding grant award and upon available federal funding.

Charter schools in Illinois draw their funding from the school districts in which their students reside, receiving between 75 percent and 125 percent of the respective district's average per-capita tuition for each student enrolled, plus a proportionate share of any state and federal categorical resources for which their students may be eligible. They have no taxing authority similar to that exercised by school districts, and the relatively short term of an initial charter (five to 10 years) may make obtaining financial loans difficult. The experience of charter school operators in other states has shown that the absence of a funding source for planning and initial implementation makes it very difficult to bring the development of a charter school to fruition.

The federal public Charter Schools Program has been structured to address this problem by providing a source of initial funding. Grant funds are available for Program Design and/or initial Implementation to assist with expenses that a charter school cannot meet from other state or local sources. The following conditions apply:

1. Funds may only be used for costs associated with the Program Design and initial Implementation of a charter school.
2. In general, grantees may not use grant funds for normal operating costs. Under certain circumstances, written approval from ISBE based on justification may be entertained.
3. Grant funds may not be used for the administrative fees or expenses of the school district with which the applicant is working unless the applicant voluntarily enters into a mutually agreed upon arrangement with the school district for the provision of administrative services.
4. Grant funds may not be used for ADA compliance, building construction or renovation, or for related salaries and benefits.
5. In all cases, normal operating expenses including, but not limited to, salaries, benefits, postage, ADA compliance and utilities, are not allowable grant expenditures. The Implementation grant, however, does contain a short-term provision for salaries and benefits as detailed below.
6. In the event the grantee's proposal is delayed or the charter school does not open, no additional funding will be disbursed after the official Authorizer notification to the grantee. Immediately contact Project Administrator Claudia Quezada for next steps at cquezada@isbe.net.

The New Uniform Guidance effective December 2014 replaces OMB Circulars. All grantees are required to follow the regulations and the Grant Accountability and Transparency Act (GATA).

[The Uniform Guidance is available here](#)

[The GATA legislation is available here](#)

Key Financial Management Requirements

- A. Maintain proper stewardship of taxpayer dollars
- B. Maintain effective internal controls and fund accountability procedures
- C. Expend funds only on activities consistent with the approved application and only during the approved project period
- D. Follow cost principles (see Section 200, Subpart E, Cost Principles)
- E. Follow procurement standards (see Section 200.318, General procurement standards)
- F. Costs charged to a federal grant must be:
 1. Allowable - either permitted or not specifically prohibited and necessary for project success
 2. Allocable - expended for a particular purpose or time period that benefits the grant
 3. Reasonable - costs that would be incurred by an reasonably prudent person.

Allowable Expenditures

Program Design Funds: Applicants who have an authorized charter agreement, or who have submitted a charter agreement to an authorizing entity, and have schools that are not yet ready to open for operation may use the funds for activities associated with post-grant award design of the educational program, including the following:

1. Refinement of the desired educational results and of the methods for measuring progress toward achieving those results;
2. Development and refinement of the curriculum; and
3. Professional development for teachers and other staff who will work in the charter school.

Implementation Funds: Applicants who have an authorized charter agreement and have new schools that are open for student attendance may use funds for activities and expenses during the initial start-up of a charter school. In general, the expenditures should be one-time costs that help the charter school achieve the goals outlined in its original application. Following the Uniform Guidance, these costs may include the following:

1. Informing the community about the school;
2. Acquiring necessary equipment and educational materials and supplies;
3. Acquiring or developing curriculum materials; and
4. Other initial operational costs that are necessary to meet the goals of the charter school, such as establishing a media center, computer lab, or cafeteria, and the salary and benefits of the Chief Administrator for start-up activities prior to the opening of the charter school.

6. No subcontracting is allowed under this project, except as set forth in the Grant Agreement.

If subcontracting is allowed, then all project responsibilities are to be retained by the applicant to ensure compliance with the terms and conditions of the grant. All subcontracting must be documented and must have the prior written approval of the State Superintendent of Education. Approval of subcontracts shall be subject to the same criteria as are applied to the original proposal/application. The following information is required if any subcontracting is to be utilized:

- Name(s) and address(es) of subcontractor(s);
- Need and purpose for subcontracting;
- Measurable and time-specific services to be provided;
- Association costs (i.e., amounts to be paid under subcontracts); and

FINANCIAL TERMS

7. Payment under this grant is subject to passage of a sufficient appropriation by the Illinois General Assembly or sufficient appropriation by the U.S. Congress for federal programs. Obligations of the Illinois State Board of Education will cease immediately without further obligation should the agency fail to receive sufficient state, federal, or other funds for this program.
8. An applicant must not obligate funds prior to the start date of the project set forth in the final Grant Agreement. The project's start date cannot precede the start of the fiscal year for which the funds are appropriated.
All project activities must be completed between the project beginning date and the ending date (the "Term"). Liquidation of all obligations, including the current year's audit fee, should be completed no later than ninety (90) calendar days after the project ending date.
9. The applicant understands that payment for approved services and expenses will be made on a cash needs basis, and that payment will be made in accordance with applicable statutes, regulations, and standards after an application for payment is submitted to the Illinois State Board of Education. Vouchers for payment will be submitted to the Office of the Comptroller according to the payment schedule attached to the final Grant Agreement. The payment schedule shall be based on the projected date of expenditures. Payments will be withheld from scheduled amounts if expenditure reports show excess cash on hand.

10. An approved budget may be amended by completing the Budget Summary form to show the new amounts required and attaching an explanation for the changes. An amendment to the Grant Agreement must be entered into whenever any individual cell changes by more than \$1,000 or 20 percent, whichever is larger. An amendment to the Grant Agreement must also be entered into whenever an award recipient proposes to use funds for allowable expenditures not identified in the currently approved budget, if the scope of the project is expected to change, or if the overall grant award must be increased.
11. Obligation of funds for items or services based on amendments cannot be encumbered prior to the date of receipt at the Illinois State Board of Education of a substantially approvable budget amendment provided the scope/intent of the approved project has not changed. If the scope/intent of a project changes based on an amendment, programmatic approval must be obtained prior to the obligation of funds based on the amendment. The Illinois State Board of Education shall be the final determiner of whether an amendment changes the scope/intent of a project. The begin date of the project cannot precede the beginning of the fiscal year for which the funds are appropriated. Requests for budget amendments must be received by the Illinois State Board of Education no later than thirty (30) calendar days prior to the project ending date for which the amendment is being sought.
12. Funds granted for the operation of this project must be used exclusively for the purposes stated in the approved proposal/application and must be expended in accordance with the approved budget and the award recipient's policies and procedures related to such expenditures. Funds may only be expended for activities occurring during the Term.
 - A. State funded grants: All grant funds and earned interest shall be subject to the Illinois Grant Funds Recovery Act (30 ILCS 705). Interest earned on State funded grant programs and grant funds not expended or obligated by the end of the Term, as well as interest earned after the Term has expired, must be returned to the Illinois State Board of Education within forty-five (45) calendar days following the end of the Term.
 - B. Federally funded grants: Interest earned in excess of \$500 per year must be returned to the Illinois State Board of Education, with checks payable to the Illinois State Board of Education.For-profit award recipients shall not utilize grant funds in any manner for normal operating expenses or to generate a profit. The applicant certifies that notwithstanding any other provision of the application, proposal, or Grant Agreement, grant funds shall not be used and will not be used to provide religious instruction, conduct worship services, or engage in any form of proselytization.
13. The applicant, in compliance with the provisions of 30 ILCS 105/9.07, will not expend any funds received from the Illinois General Revenue Fund for promotional items including calendars, pens, buttons, pins, magnets, and any other similar promotional items.
14. Financial and Performance Reports: Quarterly expenditure reports are required of all award recipients receiving funds, unless otherwise specified in the program-specific terms or the request for proposals. Quarterly reports must describe the progress of the project or use and the expenditure of the grant funds. The expenditure through dates to be used in reporting expenditures and obligations are from the project beginning date through September 30, December 31, March 31, and June 30 of each fiscal year and the project ending date.

Those entities with established IWAS accounts with the Illinois State Board of Education must electronically submit expenditure reports by the required due dates specified within the Grant Agreement. Those entities not enrolled in IWAS must request paper expenditure report forms not later than twenty (20) calendar days before the due dates specified within the Grant Agreement to the Illinois State Board of Education. Expenditure reports are due twenty (20) calendar days after the expenditure through date. Failure to file the required reports within the timelines will result in a breach of the Grant Agreement. Upon any such breach, the Illinois State Board of Education may, without limitation, withhold the current year's payments and payments for future years' projects under the same program until the reports are properly filed.

All grant funds must be spent or obligated, and all activities must be completed prior to the project ending date. Each award recipient must submit a completion report showing the obligations and the expenditures for the project no later than twenty (20) calendar days after the project ending date.

If a completion report was filed through the project ending date and had no outstanding obligations, the completion report will be the award recipient's final expenditure report. Failure to submit this completion/final expenditure report will result in current and subsequent years' project funding being withheld until the report is received. In cases where final expenditures are less than total disbursements, the overpayment must be returned to the Illinois State Board of Education within forty-five (45) calendar days of the project ending date for all state grants or federal grants that do not expressly allow carryover funds. Failure to return the funds will result in a breach of the Grant Agreement. Upon any such breach, the Illinois State Board of Education may, without limitation, withhold current and subsequent years' project funding until the overpayment is returned.

If a completion report was filed with outstanding obligations, then a final expenditure report showing total project expenditures (with all prior obligations paid) must be submitted no later than ninety (90) calendar days after the project ending date. Failure to submit the final expenditure report will result in current and subsequent years' project funding being withheld until the report is received. In cases where final expenditures are less than total disbursements, the overpayment must be returned to the State Board of Education within forty-five (45) calendar days of the project ending date for all state grants or federal grants that do not expressly allow carryover funds. Failure to return the funds will result in a breach of the Grant Agreement. Upon any such breach, the State Board of Education may, without limitation, withhold current and subsequent years' project funding until the overpayment is returned.
15. The award recipient will maintain records on project and fiscal activities related to each award for a period of three (3) years following the project ending date either for a state-funded or federally-funded project. Such records shall include a fiscal accounting for all monies in accordance with generally accepted governmental accounting principles. If there are outstanding audit exceptions, records will be retained on file until such exceptions are closed out to the satisfaction of the Illinois State Board of Education.
16. The Illinois State Board of Education and other governmental entities with program monitoring authority shall, during the Term and for a period of three (3) years thereafter (or until no outstanding audit exceptions remain, whichever is later), have the right at any time to conduct on-site or off-site inspections of the award recipient's records and project operations for auditing and monitoring purposes. The award recipient shall, during the Term and for a period of three (3) years thereafter (or until no outstanding audit exceptions remain, whichever is later) and upon the request of the Illinois State Board of Education, provide the Illinois State Board of Education with information and documentation (including books, records, or papers related to the project) regarding the award recipient's progress or performance with respect to the administration and operation of the project.

NO BINDING OBLIGATION

17. The applicant acknowledges and agrees that the selection of its proposal for funding, or approval to fund an application, shall not be deemed to be a binding obligation of the Illinois State Board of Education until such time as a final Grant Agreement is entered into between the applicant and the Illinois State Board of Education. Prior to the execution of a final Grant Agreement, the Illinois State Board of Education may withdraw its award of funding to the applicant at any time, for any reason.

18. All rights, including copyright to data, information and/or other materials developed pursuant to an award, are retained by the Illinois State Board of Education, unless otherwise agreed in writing by the Illinois State Board of Education. Upon default by the award recipient and written notification by the Illinois State Board of Education, the award recipient will have ten (10) calendar days in which to cure the default to the satisfaction of the Illinois State Board of Education. If the default is not cured to the satisfaction of the Illinois State Board of Education, the Illinois State Board of Education shall thereafter have full right and authority to terminate the Grant Agreement and/or seek such other remedy that may be available at law or in equity. Upon termination of the Grant Agreement, the award recipient will cease all use of grant funds, shall cancel all cancelable obligations relating to the project, and shall return all unexpended grant funds to the Illinois State Board of Education within forty-five (45) calendar days of termination.

INDEMNIFICATION

20. To the fullest extent permitted by law, the award recipient shall indemnify, defend and hold harmless the State of Illinois, the Illinois State Board of Education, and their respective members, officers, agents and employees against all claims, demands, suits, liabilities, injuries (personal or bodily), property damage, causes of action, losses, costs, expenses, damages or penalties, including, without limitation, reasonable defense costs, reasonable legal fees, and the reasonable value of time spent by the Attorney General's Office, arising or resulting from, or occasioned by or in connection with (a) any bodily injury or property damage resulting or arising from any act or omission to act (whether negligent, willful, wrongful, or otherwise) by the award recipient, its subcontractors, subgrantees, volunteers, anyone directly or indirectly employed by them, or anyone for whose acts they may be liable; (b) failure by the award recipient or its subcontractors, subgrantees, or volunteers to comply with any laws applicable to the performance of the grant; (c) any breach of the Grant Agreement, including, without limitation, any representation or warranty provided by the award recipient herein; (d) any infringement of any copyright, trademark, patent, or other intellectual property right; or (e) the alleged unconstitutionality or invalidity of the Grant Agreement.
