Rec'd 1/5/2016

Hello,

My name is Brian Kobashigawa, Director of Data Strategy at GreatSchools. I am writing to request the following data types for all public high schools in Illinois for the most recent school-year available:

- **College Enrollment:** percentage of students from all high schools who graduated and enrolled in college within sixteen months.

- **College Persistence:** percentage of students from all high schools who completed one year of college and enrolled in a second year.

- **College Remediation:** percentage of students from all high schools who took remedial college courses.

Thank you,
Brian
